

WEST VIRGINIA CODE: §20-3A-5

§20-3A-5. Duties of skiers.

(a) It is recognized that skiing as a recreational sport is hazardous to skiers, regardless of all feasible safety measures which can be taken. Each skier expressly assumes the risk of and legal responsibility for any injury, loss or damage to person or property which results from participation in the sport of skiing including, but not limited to, any injury, loss or damage caused by the following: Variations in terrain including freestyle terrain; surface or subsurface snow or ice conditions; bare spots, rocks, trees, other forms of forest growth or debris; collisions with pole lines, lift towers or any component thereof; or, collisions with snowmaking equipment which is marked by a visible sign or other warning implement in compliance with section three of this article. Each skier shall have the sole individual responsibility for knowing the range of his or her own ability to negotiate any ski slope or trail, and it shall be the duty of each skier to ski within the limits of the skier's own ability, to maintain reasonable control of speed and course at all times while skiing, to heed all posted warnings, to ski only on a skiing area designated by the ski area operator and to refrain from acting in a manner which may cause or contribute to the injury of anyone. If while actually skiing, any skier collides with any object or person, except an obviously intoxicated person of whom the ski area operator is aware, the responsibility for such collision shall be solely that of the skier or skiers involved and not that of the ski area operator.

(b) No person shall place any object in the skiing area or on the uphill track or any aerial passenger tramway which may cause a passenger or skier to fall.

(c) No skier shall cross the track of any T-bar lift, J-bar lift, platter lift, conveyor lift or similar device, or a fiber rope tow except at a designated location, nor shall any skier place any object in such an uphill track.

(d) No person involved in a skiing accident shall depart the ski area without leaving personal identification, including name and address, with an employee of the ski area operator or without notifying the proper authorities or without obtaining assistance when that person knows or reasonably should know that any other person involved in the accident is in need of medical or other assistance.

(e) A ski or snowboard used by a skier while skiing or snowboarding shall be equipped with a strap or other device capable of stopping the ski or snowboard should the ski or snowboard detach from the skier. No skier shall fail to wear retention straps or other devices to help prevent runaway skis or snowboards. This requirement shall not apply to cross country skis.

(f) Each skier has the duty to maintain control of his or her speed and course at all times when skiing and to maintain a proper lookout so as to be able to avoid other skiers and objects. However, the primary duty shall be on the person skiing downhill to avoid collision with any person or objects below him or her.

- (g) No skier shall ski on a ski slope or trail that has been posted as "Closed."
- (h) No skier shall use any ski slope while such person's ability to do so is impaired by the consumption of alcohol or by the use of any controlled substance or other drug or while such person is under the influence of alcohol or any controlled substance or other drug.
- (i) Each skier has the duty to heed all posted information and other warnings.
- (j) Before beginning to ski from a stationary position or before entering a ski slope or trail from the side, the skier shall have the duty to avoid moving skiers already on the ski slope or trail.
