WEST VIRGINIA CODE: §11-13-3G

§11-13-3g. Tax credit for increased generation of electricity from coal.

- (a) There shall be allowed as a credit against the tax imposed by section two of this article, on the privilege taxable under section two-m of this article, the amount determined under article thirteen-h of this chapter, providing a credit for increased generation of electricity at electric power plants in this state which burn coal produced by miners who are residents of this state.
- (b) The Tax Commissioner may prescribe such regulations as he deems necessary to carry out the purposes of this section and article thirteen-g of this chapter.
