- (5) "Extraction of ores or minerals from the ground" includes extraction by mine owners or operators of ores or minerals from the waste or residue of prior mining only when such extraction is sold.
- (6) "Gross value" in the case of natural resources means the market value of the natural resource product, in the immediate vicinity where severed, determined after application of post production processing generally applied by the industry to obtain commercially marketable or usable natural resource products. For all natural resources, "gross value" is to be reported as follows:
- (A) For natural resources severed or processed (or both severed and processed) and sold during a reporting period, gross value is the gross proceeds received or receivable by the taxpayer.
- (B) In a transaction involving related parties, gross value shall not be less than the fair market value for natural resources of similar grade and quality.
- (C) In the absence of a sale, gross value shall be the fair market value for natural resources of similar grade and quality.
- (D) If severed natural resources are purchased for the purpose of processing and resale, the gross value is the amount received or receivable during the reporting period reduced by the amount paid or payable to the taxpayer actually severing the natural resource. If natural resources are severed outside the State of West Virginia and brought into the State of West Virginia by the taxpayer for the purpose of processing and sale, the gross value is the amount received or receivable during the reporting period reduced by the fair market value of natural resources of similar grade and quality and in the same condition immediately preceding the processing of the natural resources in this state.
- (E) If severed natural resources are purchased for the purpose of processing and

consumption, the gross value is the fair market value of processed natural resources of similar grade and quality reduced by the amount paid or payable to the taxpayer actually severing the natural resource. If severed natural resources are severed outside the State of West Virginia and brought into the State of West Virginia by the taxpayer for the purpose of processing and consumption, the gross value is the fair market value of processed natural resources of similar grade and quality reduced by the fair market value of natural resources of similar grade and quality and in the same condition immediately preceding the processing of the natural resources.

(F) In all instances, the gross value shall be reduced by the amount of any federal energy tax imposed upon the taxpayer after June 1, 1993, but shall not be reduced by any state or federal taxes, royalties, sales commissions or any other expense.
