(2) The “average wholesale price” means the single, statewide average per gallon wholesale price, rounded to the third decimal (thousandth of a cent), exclusive of state and federal excise taxes on each gallon of motor fuel or on each gallon equivalent of alternative fuel as determined by the Tax Commissioner from information furnished by suppliers, importers and distributors of motor fuel and alternative-fuel providers, alternative-fuel bulk end users and retailers of alternative fuel in this state, or other information regarding wholesale selling prices as the Tax Commissioner may gather or a combination of information. On and after January 1, 2010, in no event shall the average wholesale price be determined to be less than \$2.34 per gallon of motor fuel: Provided, That on and after July 1, 2017, the average wholesale price may not be determined to be less than \$3.04 per gallon of motor fuel. On and after January 1, 2011, the average wholesale price shall not vary by more than ten percent from the average wholesale price of motor fuel as determined by the Tax

Commissioner for the previous calendar year: Provided, however, That in no case shall the average wholesale price of motor fuel be determined to be less than \$3.04 per invoiced gallon. Any limitation on the average wholesale price of motor fuel contained in this subsection shall not be applicable to alternative fuel.

(3) All actions of the Tax Commissioner in acquiring data necessary to establish and determine the average wholesale price of motor fuel, in providing notification of his or her determination prior to the effective date of a change in rate, and in establishing and determining the average wholesale price of motor fuel may be made by the Tax Commissioner without compliance with the provisions of article three, chapter twenty-nine-a of this code.

(4) In an administrative or court proceeding brought to challenge the average wholesale price of motor fuel as determined by the Tax Commissioner, his or her determination is presumed to be correct and shall not be set aside unless it is clearly erroneous.

(c) Every licensee who, on the effective date of any rate change, has in inventory any motor fuel upon which the tax or any portion thereof has been previously paid shall take a physical inventory and file a report thereof with the commissioner, in the format as required by the commissioner, within thirty days after the effective date of the rate change, and shall pay to the commissioner at the time of filing the report any additional tax due under the increased rate.

(d) The Tax Commissioner shall determine by January 1, 2014, the gasoline gallon equivalent for each alternative fuel by filing a notice of the gasoline gallon equivalent in the State Register and by other means that the Tax Commissioner considers reasonable. The Tax Commissioner may redetermine the gasoline gallon equivalent for each alternative fuel by filing a notice of the gasoline gallon equivalent in the State Register at least thirty days in advance of January 1 for the next succeeding tax year. For purposes of this notice, the Tax Commissioner may adopt or incorporate by reference provisions of the National Institute of Standards and Technology, United States Department of Commerce, the Internal Revenue Code, United States Treasury Regulations, the Internal Revenue Service publications or guidelines or other publications or guidelines which may be useful in determining, setting or describing the gasoline gallon equivalent for each alternative fuel used as motor fuel.

**§11-14C-6. Point of imposition of motor fuels tax.**

(a) The tax levied pursuant to section five of this article is imposed at the time motor fuel is imported into this state, other than by a bulk transfer, is measured by invoiced gallons received outside this state at a refinery, terminal or bulk plant for delivery to a destination in this state and is payable by the person importing the motor fuel unless otherwise specified in this section.

(b) Except as provided in subsection (a) of this section, the tax levied pursuant to section five of this article is measured by invoiced gallons of motor fuel removed, other than by a bulk transfer:

(1) From the bulk transfer/terminal system within this state;

(2) From the bulk transfer/terminal system outside this state for delivery to a location in this state as represented on the shipping papers: Provided, That the supplier imports the motor fuel for the account of the supplier; and

(d) The tax levied pursuant to section five of this article shall not apply to motor fuel imported into this state in the motor fuel supply tank or tanks of a motor vehicle: Provided, That the person owning or operating as a motor carrier is not relieved of any taxes imposed by article fourteen-a of this chapter.

(e) The tax imposed pursuant to section five of this article at the point that blended motor fuel is made in West Virginia outside the bulk transfer/terminal system is payable by the blender. The number of gallons of blended motor fuel on which the tax is payable is the difference, if any, between the number of invoiced gallons of blended motor fuel made and the number of invoiced gallons of previously taxed motor fuel used to make the blended motor fuel.

(f) The terminal operator of a terminal in this state is jointly and severally liable with the supplier for the tax levied pursuant to section five of this article and shall remit payment to this state at the same time and on the same basis as a supplier under section twenty-two of this article upon:

(1) The removal of motor fuel from the terminal on account of any supplier who is not licensed in this state: Provided, That the terminal operator is relieved of liability if the terminal operator establishes all of the following:

(A) The terminal operator has a valid terminal operator's license issued for the facility from which the motor fuel is withdrawn;

(B) The terminal operator has a copy of a valid license from the supplier as required by the commissioner; and

(C) The terminal operator has no reason to believe that any information is false; or

(2) The removal of motor fuel that is not dyed and marked in accordance with internal revenue service requirements, if the terminal operator provides any person with any bill of lading, shipping paper or similar document indicating that the motor fuel is dyed and marked in accordance with the internal revenue service requirements.

(a) The tax levied pursuant to section five of this article is imposed on alternative fuel without regard to whether it is sold, transported or distributed within the bulk transfer/terminal system or outside of the bulk transfer/terminal system.

(b) The tax levied pursuant to section five of this article is imposed on alternative fuel that is not otherwise taxed at the point of imposition prescribed under section six of this article at the following points of imposition in the following order:

(1) At the time alternative fuel is withdrawn from the storage facility including alternative-fuel home refueling infrastructures and alternative-fuel commercial refueling infrastructures;

(2) If not taxed at the point of imposition described in subdivision (1) of this subsection, then at the time alternative fuel is sold for use in a highway vehicle;

(3) If not taxed at the point of imposition described in subdivision (1) or at the point of imposition described in subdivision (2) of this subsection, then at the time alternative fuel is used in a highway vehicle.

**§11-14C-7. Tax on unaccounted-for motor fuel losses; liability.**

(a) There is hereby annually levied a tax at the rate specified by section five of this article on taxable unaccounted-for motor fuel losses at a terminal in this state. "Taxable unaccounted-for motor fuel losses" means the number of gallons of unaccounted-for motor fuel losses that exceed one half of one percent of the number of invoiced gallons removed from the terminal during the year by a bulk transfer or at the terminal rack. "Unaccounted-for motor fuel losses" means the difference between: (1) The amount of motor fuel in inventory at the terminal at the beginning of the year plus the amount of motor fuel received by the terminal during the year; and (2) the amount of motor fuel in inventory at the terminal at the end of the year plus the amount of motor fuel removed from the terminal during the year. Accounted-for motor fuel losses which have been approved by the commissioner or motor fuel losses constituting part of a transmix shall not constitute unaccounted-for motor fuel losses.

(b) The terminal operator whose motor fuel is unaccounted for is liable for the tax levied by this section. Motor fuel received by a terminal operator and not shown on an informational return filed by the terminal operator with the commissioner as having been removed from the terminal is presumed to be unaccounted-for motor fuel losses. A terminal operator may rebut this presumption by establishing that motor fuel received at a terminal, but not shown on an informational return as having been removed from the terminal, was an accounted-for loss or constitutes part of a transmix.

**§11-14C-8. Backup tax; liability.**

(a) The tax levied pursuant to section five of this article is levied on the following:

(1) Dyed diesel fuel that is used to operate a highway vehicle for a taxable use other than a use exempt under 26 U.S.C. §4082;

(2) Motor fuel that was allowed an exemption from the motor fuel tax and was then used or consumed on a highway; and

(3) Motor fuel that is used to operate a highway vehicle after an application for a refund of tax paid on the motor fuel is made or allowed on the basis that the motor fuel was used for an off-highway purpose.

(b) The operator of a highway vehicle that uses untaxed or refunded motor fuel that is taxable under this section is liable for the tax. If the highway vehicle that uses the motor fuel is owned by or leased to a motor carrier, the operator of the highway vehicle and the motor carrier are jointly and severally liable for the tax. If the end seller of motor fuel taxable under this section knew or had reason to know that the motor fuel would be used for a purpose that is taxable under this section, the operator of the highway vehicle and the end seller are jointly and severally liable for the tax.

(c) The tax liability levied by this section is in addition to any other penalty imposed pursuant to this article.

This exemption does not apply to motor fuel which is transported and delivered outside this state in the motor fuel supply tank of a highway vehicle;

(a) Along with an application for a license required by section eleven of this article, either a cash bond or a continuous surety bond in the amount or amounts specified in this section shall be filed. If a person has filed applications for licenses for more than one activity, the commissioner may combine the amount of the cash bond or continuous surety bond required for each licensed activity into one amount that shall be no less than the largest amount required for any of those activities for which the license applications are filed. If a continuous surety bond is filed, an annual notice of renewal shall be filed thereafter. If the continuous surety bond includes the requirements that the commissioner is to be notified of cancellation at least sixty days prior to the continuous surety bond being canceled, an annual notice of renewal is not required. (8) For an exporter license, the amount shall be a minimum of \$2,000 or an amount equal to three months' tax liability, whichever is greater, but shall not exceed \$300,000. When required by the commissioner to file a cash bond or a continuous surety bond in an additional amount, the licensee shall comply with the commissioner's notification within thirty days after receiving that notification;

(9) For a blender license, the amount shall be a minimum of \$2,000 or an amount equal to three months' tax liability, whichever is greater, but shall not exceed \$300,000. (11) For a motor fuel transporter license, there is no bond;

(12) For a producer/manufacturer license, there is no bond. If the taxpayer fails to file a

When required by the commissioner to file a cash bond or a continuous surety bond, the licensee shall comply with the commissioner's notification within thirty days after receiving that notification;

(13) For an alternative-fuel bulk end user, a provider of alternative fuel and a retailer of alternative fuel, there is no bond. When required by the commissioner to file a cash bond or a continuous surety bond, the licensee shall comply with the commissioner's notification within thirty days after receiving that notification; and

(14) An applicant for a licensed activity listed under subdivisions (1) through (10), inclusive, of this subsection may, in lieu of posting either the cash bond or continuous surety bond required by this subsection, provide proof of financial responsibility acceptable to the commissioner. The proof of financial responsibility must demonstrate the absence of circumstances indicating risk with the collection of taxes from the applicant. The following constitutes proof of financial responsibility:

(A) Proof of \$5 million net worth constitutes evidence of financial responsibility in lieu of posting the required bond;

The hearing shall be provided within thirty days after receipt by the Office of Tax Appeals of the petition.

(b) The surety must be authorized under article nineteen, chapter thirty-three of this code to engage in business of transacting surety insurance within this state. The cash bond and the

continuous surety bond are conditioned upon faithful compliance with the provisions of this article, including the filing of the returns and payment of all tax prescribed by this article. The cash bond and the continuous surety bond shall be approved by the commissioner as to sufficiency and form and shall indemnify the state against loss arising from the failure of the taxpayer to pay, for any cause whatever, the motor fuel excise tax levied by this article.

(c) Surety on a continuous surety bond furnished hereunder is relieved, released and discharged from all liability accruing on the bond after the expiration of sixty days from the date the surety shall have lodged, by certified mail, with the commissioner, a written request to be discharged. Discharge from the continuous surety bond does not relieve, release or discharge the surety from liability already accrued or which will accrue before the expiration of the sixty-day period. Whenever a surety seeks discharge as herein provided, it is the duty of the principal of the bond to supply the commissioner with another continuous surety bond or a cash bond prior to the expiration of the original bond. Failure to provide a new continuous surety bond or a cash bond shall result in the commissioner canceling each license and registration previously issued to the person.

(d) A taxpayer that has furnished a cash bond hereunder is relieved, released and discharged from all liability accruing on the cash bond after the expiration of sixty days from the date the taxpayer shall have lodged, by certified mail, with the commissioner, a written request to be discharged and the amount of the cash bond refunded. The commissioner may retain all or part of the cash bond until the commissioner performs an audit of the taxpayer's business or three years, whichever first occurs. Discharge from the cash bond shall not relieve, release or discharge the taxpayer from liability already accrued or which will accrue before the expiration of the sixty-day period. Whenever a taxpayer seeks discharge as herein provided, it is the duty of the taxpayer to provide the commissioner with another cash bond or a continuous surety bond prior to the expiration of the original cash bond. Failure to provide either a new cash bond or a continuous surety bond shall result in the commissioner canceling each license and registration previously issued to the taxpayer.

Each licensee shall display the license issued under this article in a conspicuous place at each of the licensee's places of business. A license is not transferable and remains in effect until surrendered or canceled.

The liability of the person to whom the business was transferred shall not exceed the value of the property acquired from the licensee.
