
WEST VIRGINIA CODE CHAPTER 11
ARTICLE 23

WV Legislature

§11-23-1. Legislative finding.

This business franchise tax on corporations and partnerships is enacted pursuant to the provision of article X, section one of the Constitution of this state, granting to the Legislature the authority to tax privileges, franchises and incomes of persons and corporations. The Legislature finds and declares that this franchise tax is imposed on the privilege of doing business in this state, and that this tax is not an ad valorem property tax imposed on the property of corporations and partnerships doing business in this state.

§11-23-2. Short title; arrangement of sections or portions thereof.

This article shall be known and may be cited as the "Business Franchise Tax Act." No inference, implication or presumption of legislative construction or intent shall be drawn or made by reason of the location or grouping of any particular section, provision or portion of this article; and no legal effect shall be given to any descriptive matter or heading relating to any part, section, subsection or paragraph of this article.

§11-23-3. Meaning of terms; specific terms defined.

(a) General. -- When used in this article, or in the administration of this article, terms defined in this section shall have the meanings ascribed to them herein unless a different meaning is clearly required by either the context in which the term is used, or by specific definition in this article.

(E) Allowance for certain government obligations and obligations secured by residential property. -- As to both corporations and partnerships, capital shall be multiplied by a fraction equal to one minus a fraction:

(i) The numerator of which is the average of the monthly beginning and ending account balances during the taxable year (account balances to be determined at cost in the same manner that such obligations, investments and loans are reported on Schedule L of the Federal Form 1120 or Federal Form 1065) of the following:

(I) Obligations and securities of the United States, or of any agency, authority, commission or instrumentality of the United States and any other corporation or entity created under the authority of the United States Congress for the purpose of implementing or furthering an objective of national policy;

(a) Any term used in this article shall have the same meaning as when used in a comparable context in the laws of the United States relating to federal income taxes, unless a different meaning is clearly required by the context or by definition of this article. Any reference in this article to the laws of the United States, or to the Internal Revenue Code, or to the federal income tax law shall mean the provisions of the laws of the United States as related to the determination of income for federal income tax purposes. All amendments made to the laws of the United States prior to January 1, 1993, shall be given effect in determining the taxes imposed by this article for the tax period beginning January 1, 1992, and thereafter, but no amendment to laws of the United States made on or after January 1, 1993, shall be given effect.

(b) Effective date. -- The amendments to this section reenacted in the year 1993 shall be retroactive and shall apply to taxable years beginning on or after January 1, 1992, to the extent allowable under federal income tax law. With respect to taxable years that began prior to January 1, 1992, the law in effect for each of those years shall be fully preserved as to each such year.

§11-23-4. Tax base determined.

The tax base of a taxpayer, for purposes of this article, shall be its capital, as defined and adjusted in section three of this article. If the taxpayer is also taxable in another state, then the tax base of the taxpayer shall be its capital, as defined in section three of this article, multiplied by its apportionment factor determined under section five of this article.

WV Legislature

§11-23-5. Apportionment of tax base.

(a) A taxpayer subject to the tax imposed by this article and also taxable in another state shall, for the purposes of this tax, apportion its tax base to this state by multiplying its tax base by a fraction, the numerator of which is the sum of the property factor, plus the payroll factor, plus two times the sales factor, all of which shall be determined as hereinafter provided in this section, and the denominator of which is four, reduced by the number of factors, if any, having no denominator, with the sales factor counting as two factors.

(b) Property factor. -- The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used by it in this state during the taxable year, and the denominator of which is the average value of all real and tangible personal property owned or rented by the taxpayer and used by it during the taxable year, which is reported on Schedule L of Federal Form 1120 (or 1065 for partnerships), plus the average value of all real and tangible personal property leased and used by the taxpayer during the taxable year.

(c) Value of property. -- Property owned by the taxpayer shall be valued at its original cost, adjusted by subsequent capital additions or improvements thereto and partial disposition thereof, by reason of sale, exchange, abandonment, etc.: Provided, That where records of original cost are unavailable or cannot be obtained without unreasonable expense, property shall be valued at original cost as determined under regulations of the Tax Commissioner. Property rented by the taxpayer from others shall be valued at eight times the net annual rental rate. Net annual rental rate is the annual rental paid, directly or indirectly, by the taxpayer, or for its benefit, in money or other consideration for the use of the property and includes:

(1) Any amount payable for the use of real or tangible personal property, or any part thereof, whether designated as a fixed sum of money or as a percentage of sales, profits or otherwise.

(2) Any amount payable as additional rent or in lieu of rents, such as interest, taxes, insurance, repairs or any other items which are required to be paid by the terms of the lease or other arrangement, not including amounts paid as service charges, such as utilities, janitor services, etc. If a payment includes rent and other charges unsegregated, the amount of rent shall be determined by consideration of the relative values of the rent and the other items.

(d) Movable property. -- The value of movable tangible personal property used both within and without this state shall be included in the numerator to the extent of its utilization in this state. The extent of such utilization shall be determined by multiplying the original cost of such property by a fraction, the numerator of which is the number of days of physical location of the property in this state during the taxable period, and the denominator of which is the number of days of physical location of the property everywhere during the taxable year. The number of days of physical location of the property may be determined on a

statistical basis or by such other reasonable method acceptable to the Tax Commissioner.

(e) Leasehold improvements. -- Leasehold improvements shall, for the purposes of the property factor, be treated as property owned by the lessee regardless of whether the lessee is entitled to remove the improvements or the improvements revert to the lessor upon expiration of the lease. Leasehold improvements shall be included in the property factor at their original cost.

(f) Average value of property. -- The average value of property shall be determined by averaging the values at the beginning and ending of the taxable year: Provided, That the Tax Commissioner may require the averaging of monthly values during the taxable year if substantial fluctuations in the values of the property exist during the taxable year, or where property is acquired after the beginning of the taxable year, or is disposed of, or whose rental contract ceases, before the end of the taxable year.

(g) Payroll factor. -- The payroll factor is a fraction, the numerator of which is the total compensation paid in this state during the taxable year by the taxpayer, and the denominator of which is the total compensation paid by the taxpayer during the taxable year as shown on the taxpayer's federal income tax return as filed with the Internal Revenue Service, as reflected in the schedule of wages and salaries and that portion of cost of goods sold which reflects compensation, or as shown on a pro forma return.

(h) Compensation. -- The term "compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services. Payments made to an independent contractor or to any other person not properly classifiable as an employee shall be excluded. Only the amounts paid directly to employees shall be included in the payroll factor. Amounts considered paid directly to employees include the value of board, rent, housing, lodging and other benefits or services furnished to employees by the taxpayer in return for personal services, provided such amounts constitute income to the recipient for federal income tax purposes.

(i) Employee. -- The term "employee" means:

(1) Any officer of a corporation; or

(2) Any individual who, under the usual common-law rules applicable in determining the employer-employee relationship, has the status of an employee.

(j) Compensation paid in this state. -- Compensation is paid in this state if:

(1) The employee's service is performed entirely within the state;

(2) The employee's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state. The word "incidental" means any service which is temporary or transitory in nature, or which is rendered in connection with an isolated transaction; or

(3) Some of the service is performed in the state and:

(A) The employee's base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state; or

(B) The base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the employee's residence is in this state.

The term "base of operations" is the place of more or less permanent nature from which the employee starts his work and to which he customarily returns in order to receive instructions from the taxpayer or communications from his customers or other persons or to replenish stock or other materials, repair equipment, or perform any other functions necessary to the exercise of his trade or profession at some other point or points. The term "place from which the service is directed or controlled" refers to the place from which the power to direct or control is exercised by the taxpayer.

(k) Sales factor. -- The sales factor is a fraction, the numerator of which is the gross receipts of the taxpayer derived from transactions and activity in the regular course of its trade or business in this state during the taxable year (business income), less returns and allowances. The denominator of the fraction shall be the total gross receipts derived by the taxpayer from transactions and activity in the regular course of its trade or business during the taxable year (business income), and reflected in its gross income reported and as appearing on the taxpayer's Federal Form 1120 or 1065, and consisting of those certain pertinent portions of the (gross income) elements set forth: Provided, That if either the numerator or the denominator includes interest or dividends from obligations of the United States government which are exempt from taxation by this state, the amount of such interest and dividends, if any, shall be subtracted from the numerator or denominator in which it is included.

(l) Allocation of sales of tangible personal property. --

(1) Sales of tangible personal property are in this state if:

(i) The property is received in this state by the purchaser, other than the United States government, regardless of the f.o.b. point or other conditions of the sale. In the case of delivery by common carrier or other means of transportation, the place at which such property is ultimately received after all transportation has been completed shall be considered as the place at which such property is received by the purchaser. Direct delivery in this state, other than for purposes of transportation, to a person or firm designated by the purchaser, constitutes delivery to the purchaser in this state, and direct delivery outside this state to a person or firm designated by the purchaser does not constitute delivery to the purchaser in this state, regardless of where title passes or other conditions of sale; or

(ii) The property is shipped from an office, store, warehouse, factory or other place of

storage in this state and the purchaser is the United States government.

(2) All other sales of tangible personal property delivered or shipped to a purchaser within a state in which the taxpayer is not taxed as defined in subsection (b), section seven, article twenty-four of this chapter shall be excluded from the denominator of the sales factor.

(m) Allocation of other sales. -- Sales, other than sales of tangible personal property, are in this state if:

(1) The income-producing activity is performed in this state;

(2) The income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance; or

(3) The sale constitutes business income to the taxpayer, or the taxpayer is a financial organization not having its commercial domicile in this state, and in either case the sale is a receipt described as attributable to this state in section five-a of this article.

(n) Income-producing activity. -- The term "income-producing activity" applies to each separate item of income and means the transactions and activity directly engaged in by the taxpayer in the regular course of its trade or business for the ultimate purpose of obtaining gain or profit. Such activity does not include transactions and activities performed on behalf of the taxpayer, such as those conducted on its behalf by an independent contractor. "Income-producing activity" includes, but is not limited to, the following:

(1) The rendering of personal services by employees with utilization of tangible and intangible property by the taxpayer in performing a service;

(2) The sale, rental, leasing, licensing or other use of real property;

(3) The sale, rental, leasing, licensing or other use of tangible personal property; or

(4) The sale, licensing or other use of intangible personal property. The mere holding of intangible personal property is not, in itself, an income-producing activity: Provided, That the conduct of the business of a financial organization shall constitute an income-producing activity.

(o) Cost of performance. -- The term "cost of performance" means direct costs determined in a manner consistent with generally accepted accounting principles and in accordance with accepted conditions or practices in the trade or business of the taxpayer.

(p) Other methods of allocation. --

(1) General. -- If the allocation and apportionment provisions of subsection (a) do not fairly represent the extent of the taxpayer's business activities in this state, the taxpayer may

petition for, or the Tax Commissioner may require, in respect to all or any part of the taxpayer's business activities, if reasonable:

(A) Separate accounting;

(B) The exclusion of one of the factors;

(C) The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or

(D) The employment of any other method to effectuate an equitable allocation or apportionment of the taxpayer's tax base. Such petition shall be filed no later than the due date of the annual return for the taxable year for which the alternative method is requested, determined without regard to any extension of time for filing such return, and the petition shall include a statement of the petitioner's objections and of such alternative method of allocation or apportionment as it believes to be proper under the circumstances with such detail and proof as the Tax Commissioner may require.

(2) Burden of proof. -- In any proceeding before the Tax Commissioner or in any court in which employment of one of the methods of allocation or apportionment provided for in subdivision (1) of this subsection is sought, on the ground that the allocation and apportionment provisions of subsection (a) do not fairly represent the extent of the taxpayer's business activities in this state, the burden of proof shall:

(A) If the Tax Commissioner seeks employment of one of such methods, be on the Tax Commissioner; or

(B) If the taxpayer seeks employment of one of such other methods, be on the taxpayer.

(3) Notwithstanding any other provisions of this section, financial organizations shall use only the special apportionment rules set forth in section five-a of this article.

(g) Effective date. -- The amendments to this section made by this article shall apply to all taxable years ending after the effective date of this article. The provisions of paragraph (3), subsection (p) of this section shall apply to all taxable years beginning on or after January 1, 1991.

§11-23-5a. Special apportionment rules - financial organizations.

(a) General. -- The Legislature hereby finds that the general formula set forth in section five of this article for apportioning the tax base of corporations and partnerships taxable in this state as well as in another state is inappropriate for use by financial organizations due to the particular characteristics of those organizations and the manner in which their business is conducted. Accordingly, the general formula set forth in section five of this article may not be used to apportion the tax base of financial organizations which shall use only the apportionment formula and methods set forth in this section.

(b) West Virginia financial organizations taxable in another state. -- A financial organization that has its commercial domicile in this state and which is taxable in another state may not apportion its tax base as provided in section five of this article, but shall apportion its tax base to this state by multiplying it by the special gross receipts factor calculated as provided in subsection (f) of this section. The product of this multiplication is the portion of its tax base that is attributable to business activity in this state.

(c) Out-of-state financial organizations with business activities in this state. -- A financial organization that does not have its commercial domicile in this state and which regularly engages in business in this state shall apportion its tax base to this state by multiplying it by the special gross receipts factor calculated as provided in subsection (f) of this section. The product of this multiplication is the portion of its tax base that is attributable to business activity in this state.

(d) Engaging in business -- nexus presumptions and exclusions. -- A financial organization that has its commercial domicile in another state is presumed to be regularly engaging in business in this state if during any year it obtains or solicits business with twenty or more persons within this state, or if the sum of the value of its gross receipts attributable to sources in this state equals or exceeds \$100,000. However, gross receipts from the following types of property, as well as those contacts with this state reasonably and exclusively required to evaluate and complete the acquisition or disposition of the property, the servicing of the property or the income from it, the collection of income from the property or the acquisition or liquidation of collateral relating to the property shall not be a factor in determining whether the owner is engaging in business in this state:

- (1) An interest in a real estate mortgage investment conduit, a real estate investment trust or a regulated investment company;
- (2) An interest in a loan backed security representing ownership or participation in a pool of promissory notes or certificates of interest that provide for payments in relation to payments or reasonable projections of payments on the notes or certificates;
- (3) An interest in a loan or other asset from which the interest is attributed to a consumer loan, a commercial loan or a secured commercial loan and in which the payment obligations were solicited and entered into by a person that is independent, and not acting on behalf, of

the owner;

(4) An interest in the right to service or collect income from a loan or other asset from which interest on the loan is attributed as a loan described in the previous paragraph and in which the payment obligations were solicited and entered into by a person that is independent, and not acting on behalf, of the owner; or

(5) Any amounts held in an escrow or trust account with respect to property described above.

(e) Definitions. -- For purposes of this section:

(1) "Commercial domicile" means the same as that term is defined in section three of this article.

(2) "Deposit" means: (A) The unpaid balance of money or its equivalent received or held by a financial organization in the usual course of business and for which it has given or it is obligated to give credit, either conditionally or unconditionally, to a commercial, checking, savings, time or thrift account whether or not advance notice is required to withdraw the credit funds, or which is evidenced by a certificate of deposit, thrift certificate, investment certificate or certificate of indebtedness, or other similar name, or a check or draft drawn against a deposit account and certified by the financial organization, or a letter of credit or a traveler's check on which the financial organization is primarily liable: Provided, That without limiting the generality of the term "money or its equivalent", any account or instrument must be regarded as evidencing the receipt of the equivalent of money when credited or issued in exchange for checks or drafts or for a promissory note upon which the person obtaining any credit or instrument is primarily or secondarily liable or for a charge against a deposit account or in settlement of checks, drafts or other instruments forwarded to the bank for collection;

(B) Trust funds received or held by a financial organization, whether held in the trust department or held or deposited in any other department of the financial organization;

(C) Money received or held by a financial organization or the credit given for money or its equivalent received or held by a financial organization in the usual course of business for a special or specific purpose, regardless of the legal relationship thereby established, including, without being limited to, escrow funds, funds held as security for an obligation due the financial organization or other, including funds held as dealers' reserves, or for securities loaned by the financial organization, funds deposited by a debtor to meet maturing obligations, funds deposited as advance payment on subscriptions to United States government securities, funds held for distribution or purchase of securities, funds held to meet its acceptances or letters of credit and withheld taxes: Provided, That there shall not be included funds which are received by the financial organization for immediate application to the reduction of an indebtedness to the receiving financial organization or under condition that the receipt thereof immediately reduces or extinguishes an indebtedness;

(D) Outstanding drafts, including advice or authorization to charge a financial organization's balance in another organization, cashier's checks, money orders or other officer's checks issued in the usual course of business for any purpose, but not including those issued in payment for services, dividends or purchases or other costs or expenses of the financial organization itself; and

(E) Money or its equivalent held as a credit balance by a financial organization on behalf of its customer if the entity is engaged in soliciting and holding balances in the regular course of its business.

(3) "Financial organization" means a financial organization as defined in subdivision (13), subsection (b), section three of this article, as well as a partnership which derives more than fifty percent of its gross business income from one or more of the activities enumerated in subparagraphs (1) through (6), inclusive, paragraph (C) of said subdivision.

(4) "Sales" means: For purposes of apportionment under this section, the gross receipts of a financial organization included in the gross receipts factor described in subsection (f) of this section, regardless of their source.

(f) Special gross receipts factor. -- The gross receipts factor is a fraction, the numerator of which is the total gross receipts of the taxpayer from sources within this state during the taxable year and the denominator of which is the total gross receipts of the taxpayer wherever earned during the taxable year: Provided, That neither the numerator nor the denominator of the gross receipts factor shall include receipts from obligations described in paragraphs (A), (B), (C) and (D), subdivision (1), subsection (f), section six, article twenty-four of this chapter. (B) Interest income and other receipts from assets in the nature of loans which are secured primarily by real estate or tangible personal property if the security property is located in the state. In the event that the security property is also located in one or more other states, receipts shall be presumed to be from sources within this state, subject to rebuttal based upon factors described in rules to be promulgated by the Tax Commissioner, including the factor that the proceeds of any loans were applied and used by the borrower entirely outside of this state;

(G) Merchant discount income derived from financial institution credit card holder transactions with a merchant located in this state. In the case of merchants located within and without this state, only receipts from merchant discounts attributable to sales made from locations within this state shall be attributed to this state. It shall be presumed, subject to rebuttal, that the location of a merchant is the address shown on the invoice submitted by the merchant to the taxpayer;

(H) Gross receipts from the performance of services are attributed to this state if:

(i) The service receipts are loan-related fees, including loan servicing fees, and the borrower resides in this state, except that, at the taxpayer's election, receipts from loan-related fees which are either: (I) "Pooled" or aggregated for collective financial accounting treatment; or (II) manually written as nonrecurring extraordinary charges to be processed directly to the general ledger may either be attributed to a state based upon the borrowers' residences or upon the ratio that total interest sourced to that state bears to total interest from all sources;

(ii) The service receipts are deposit-related fees and the depositor resides in this state, except that, at the taxpayer's election, receipts from deposit-related fees which are either: (I) "Pooled" or aggregated for collective financial accounting treatment; or (II) manually written as nonrecurring extraordinary charges to be processed directly to the general ledger may either be attributed to a state based upon the depositors' residences or upon the ratio that total deposits sourced to that state bears to total deposits from all sources;

(iii) The service receipt is a brokerage fee and the account holder is a resident of this state;

(iv) The service receipts are fees related to estate or trust services and the estate's decedent was a resident of this state immediately before death or the grantor who either funded or established the trust is a resident of this state; or

(v) The service receipt is associated with the performance of any other service not identified above and the service is performed for an individual resident of, or for a corporation or other business domiciled in, this state and the economic benefit of service is received in this state;

(g) Limited tax credit for certain financial organizations for certain periods. -- A credit shall be allowed against the tax imposed by this article on a financial organization with its commercial domicile in this state that acquires a financial organization that does not have its commercial domicile in this state: Provided, That the goodwill associated with the acquisition is first added to the net equity of the financial organization with its commercial domicile in this state on or after January 1, 2008: Provided, however, That the prior recordation of the goodwill associated with the acquisition on the balance sheet of a financial organization that does not have its commercial domicile in this state shall not affect, limit or reduce the availability of the credit authorized by this subsection. The credit shall equal fifty percent of the goodwill associated with the acquisition in the amount first recorded on the balance sheet of the financial organization with its commercial domicile in this state, multiplied by the tax rate applicable to the financial organization under this article for the taxable year. For purposes of this subsection, the term "goodwill" shall have the meaning set forth in the capital adequacy guidelines for bank holding companies established by the Federal Reserve Board in 12 C.F.R. 225, Appendix A, as the same may be revised from time to time.

§11-23-8. Accounting periods and methods of accounting.

(a) General rule. -- For purposes of the tax imposed by this article, a taxpayer's taxable year shall be the same as the taxpayer's taxable year for federal income tax purposes.

(b) Change of taxable year. -- If a taxpayer's taxable year is changed for federal income tax purposes, the taxpayer's taxable year for purposes of this article shall be similarly changed. The taxpayer shall provide a copy of the authorization for such change from the Internal Revenue Service, with its return for the taxable year filed under this article.

(c) Methods of accounting.

(1) Same as federal. -- A taxpayer's method of accounting under this article shall be the same as the taxpayer's method of accounting for federal income tax purposes. In the absence of any method of accounting for federal income tax purposes, the accrual method of accounting shall be used unless the Tax Commissioner, in writing, consents to use of another method.

(2) Change of accounting methods. -- If a taxpayer's method of accounting is changed for federal income tax purposes, his method of accounting for purposes of this article shall similarly be changed. The taxpayer shall provide a copy of the authorization for such change from the Internal Revenue Service, with its return for the taxable year filed under this article.

§11-23-9. Annual returns.

(a) In general. -- Every person subject to the tax imposed by this article shall make and file an annual return for its taxable year with the Tax Commissioner on or before:

(1) The fifteenth day of the third month of the next succeeding taxable year if the person is a corporation; or

(2) The fifteenth day of the fourth month of the next succeeding taxable year if the corporation is a partnership.

The annual return shall include such information as the Tax Commissioner may require for determining the amount of taxes due under this article for the taxable year.

(b) Special rule for tax exempt organizations with unrelated business taxable income. -- Notwithstanding the provisions of subsection (a) of this section, when a business franchise tax return is required from an organization generally exempt from tax under subsection (b), section seven of this article, which has unrelated business taxable income, the annual return shall be filed on or before the fifteenth day of the fifth month following the close of the taxable year.

(c) Effective date. -- The amendments to this section, made in the year one thousand nine hundred ninety-six, shall apply to tax returns that become due for taxable years beginning on or after the first day of that year.

§11-23-9a. Method of filing for business taxes.

(a) Privilege to file consolidated return. -- An affiliated group of corporations (as defined for purposes of filing a consolidated federal income tax return) shall, subject to the provisions of this section and in accordance with any regulations prescribed by the Tax Commissioner, have the privilege of filing a consolidated return with respect to the tax imposed by this article for the taxable year in lieu of filing separate returns. The making of a consolidated return shall be upon the condition that all corporations which at any time during the taxable year have been members of the affiliated group are included in such return and consent to the filing of such return. The filing of a consolidated return shall be considered as such consent. When a corporation is a member of an affiliated group for a fractional part of the year, the consolidated return shall include the tax base of such corporation for that part of the year during which it is a member of the affiliated group.

(b) Election binding. -- If an affiliated group of corporations elects to file a consolidated return under this article, such election once made shall not be revoked for any subsequent taxable year without the written approval of the Tax Commissioner consenting to the revocation.

(c) Consolidated return -- financial organizations. -- An affiliated group that includes one or more financial organizations may elect under this section to file a consolidated return when that affiliated group complies with all of the following rules:

(1) The affiliated group of which the financial organization is a member must file a federal consolidated income tax return for the taxable year;

(2) All members of the affiliated group included in the federal consolidated return must consent to being included in the consolidated return filed under this article. The filing of a consolidated return under this article is conclusive proof of such consent;

(3) The taxable capital of the affiliated group shall be the sum of:

(A) The pro forma West Virginia taxable capital of all financial organizations having their commercial domicile in this state that are included in the federal consolidated return, as shown on a combined pro forma West Virginia return prepared for such financial organizations; plus

(B) The pro forma West Virginia taxable capital of all financial organizations not having their commercial domicile in this state that are included in the federal consolidated return, as shown on a combined pro forma West Virginia return prepared for such financial organizations; plus

(C) The pro forma West Virginia taxable capital of all other members included in the federal consolidated income tax return, as shown on a combined pro forma West Virginia return prepared for all such nonfinancial organization members, except that the capital,

apportionments factors and other items considered when determining tax liability shall not be included in the pro forma return prepared under this paragraph for a member that is totally exempt from tax under section seven of this article, or for a member that is subject to a different special industry apportionment rule provided for in this article. When a different special industry apportionment rule applies, the taxable capital of a member(s) subject to that special industry apportionment rule shall be determined on a separate pro forma West Virginia return for the member(s) subject to that special industry rule and the taxable capital so determined shall be included in the consolidated return;

(4) The West Virginia consolidated return is prepared in accordance with regulations of the Tax Commissioner promulgated as provided in article three, chapter twenty-nine-a of this code; and

(5) The filing of a consolidated return does not distort the taxable capital of the affiliated group. In any proceeding, the burden of proof that the taxpayer's method of filing does not distort taxable capital under this article shall be upon the taxpayer.

(d) Combined return. -- A combined return may be filed under this article by a unitary group, including a unitary group that includes one or more financial organizations, only pursuant to the prior written approval of the Tax Commissioner. A request for permission to file a combined return must be filed on or before the statutory due date of the return, determined without inclusion of any extension of time to file the return. Permission to file a combined return may be granted by the Tax Commissioner only when taxpayer submits evidence that conclusively establishes that failure to allow the filing of a combined return will result in an unconstitutional distortion of the measure of tax under this article. When permission to file a combined return is granted, combined filing will be allowed for the year(s) stated in the Tax Commissioner's letter. The combined return must be filed in accordance with regulations of the Tax Commissioner promulgated in accordance with article three, chapter twenty-nine-a of this code.

(e) Method of filing under this article deemed controlling for purposes of other business taxes articles. -- The taxpayer shall file on the same basis under article twenty-four of this chapter as such taxpayer files under this article for the taxable year.

(f) Regulations. -- The Tax Commissioner shall prescribe such regulations as he may deem necessary in order that the tax liability of any affiliated group of corporations filing a consolidated return, or of any unitary group of corporations filing a combined return, and of each corporation in an affiliated or unitary group, both during and after the period of affiliation, may be returned, determined, computed, assessed, collected and adjusted, in such manner as the Tax Commissioner deems necessary to clearly reflect tax liability under this article and the factors necessary for the determination of such liability, and in order to prevent avoidance of such tax liability.

(g) Computation and payment of tax. -- In any case in which a consolidated or combined return is filed, or required to be filed, the tax due under this article from the affiliated or

unitary group shall be determined, computed, assessed, collected and adjusted in accordance with regulations prescribed by the Tax Commissioner, in effect on the last day prescribed by section nine of this article for the filing of such return, and such affiliated or unitary group, as the case may be, shall be treated as the taxpayer. However, when any member of an affiliated or unitary group that files a consolidated or combined return under this article is allowed to claim credit against its tax liability under this article for payment of any other tax, the amount of credit allowed may not exceed that member's proportionate share of the affiliated or unitary group's precredit tax liability under this article, as shown on its pro forma return.

(h) Consolidated or combined return may be required. -- If any affiliated group of corporations has not elected to file a consolidated return, or if any unitary group of corporations has not applied for permission to file a combined return, the Tax Commissioner may require such corporations to make a consolidated or combined return, as the case may be, in order to clearly reflect taxable capital of such corporations.

(i) Effective date. -- This section shall apply to taxable years beginning on or after January 1, 1996, except that financial organizations that are part of an affiliated group may elect, after the effective date of this act, to file a consolidated return prepared in accordance with the provisions of this section and subject to applicable statutes of limitation, for taxable years beginning on or after January 1, 1991, but before January 1, 1996, notwithstanding provisions then in effect prohibiting out-of-state financial organizations from filing consolidated returns for those years: Provided, That when the statute of limitations on filing an amended return for any of those years expires before July 1, 1996, the consolidated return for such year, if filed, must be filed by said July 1.

§11-23-10. Extension of time for filing returns.

The Tax Commissioner may grant a reasonable extension of time for filing any returns or other document required by this article upon such terms as he may by regulations prescribe. An extension of time for filing Federal Form 1120, Federal Form 990T or Federal Form 1065 shall automatically extend the time for filing any return or other document required by this article for the same period as the extension for filing such federal form. An extension of time for filing a return shall not extend the time for payment of the tax.

§11-23-11. Time and place for paying tax shown on returns.

(a) In general. -- The person required to make the annual return required by this article shall, without assessment or notice and demand from the Tax Commissioner, pay such tax at the time and place fixed for filing the return (determined without regard to any extension of time for filing the return).

(b) Date fixed for payment of tax. -- The date fixed for payment of the taxes imposed by this article shall be deemed to be a reference to the last day fixed for such payment (determined without regard to any extension of time for paying the tax).

§11-23-12. Extensions of time for paying tax.

(a) Amount determined on return. -- The Tax Commissioner may extend the time for payment of the amount of the tax shown, or required to be shown, on any return required by this article (or any periodic installment payments), for a reasonable period not to exceed six months from the date fixed for payment thereof.

(b) Amount determined as deficiency. -- Under regulations prescribed by the Tax Commissioner, he may extend the time for the payment of the amount determined as a deficiency of the taxes imposed by this article for a period not to exceed eighteen months from the date fixed for payment of the deficiency. In exceptional cases, a further period of time not to exceed twelve months may be granted. An extension under this subsection (b) may be granted only where it is shown to the satisfaction of the Tax Commissioner that payment of a deficiency upon the date fixed for the payment thereof will result in undue hardship to the taxpayer.

(c) No extension for certain deficiencies. -- No extension shall be granted under this section for any deficiency if the deficiency is due to negligence, to intentional disregard of rules and regulations, or to fraud with intent to evade tax.

§11-23-13. Declaration and payment of estimated tax.

(a) Requirement of declaration. -- Every taxpayer subject to tax under this article shall file a declaration of estimated tax for the taxable year if the taxpayer's liability for tax under this article can reasonably be expected to exceed \$12,000 for the taxable year. A taxpayer not required by this section to file a declaration and pay estimated tax may elect to so file and pay.

(b) Definition of estimated tax. -- The term "estimated tax" means the amount which a taxpayer estimates to be his liability under this article for the taxable year.

(c) Contents of declaration. -- The declaration shall contain such information as the Tax Commissioner may, by rules or regulations, require, including, but not limited to, such detailed information as may be necessary to estimate the taxpayer's liability under section six of this article.

(d) Time for filing declaration. -- A declaration of estimated tax shall be filed on or before the fifteenth day of the fourth month of the taxable year, for any taxable year beginning after June 30, 1987.

(e) Amendment of declaration. -- A taxpayer may amend his declaration at any time during the taxable year in accordance with regulations prescribed by the Tax Commissioner. If any amendment of a declaration is filed by a taxpayer, the remaining installments, if any, shall be rateably increased or decreased (as the case may be) to reflect any increase or decrease in the estimated tax by reason of such amendment. If any amendment is made after the fifteenth day of the ninth month of the taxable year, any increase in the estimated tax by reason thereof shall be paid at the time of making such amendment.

(f) Payment of estimated tax. -- The estimated tax shall be paid in four equal installments. At the time the declaration of estimated payment is filed, the taxpayer shall pay one fourth of the estimated tax liability for the taxable year. The second, third and fourth installments shall be paid on the following fifteenth day of the sixth, ninth and twelfth months of the taxable year, respectively.

(g) Application to short taxable year. -- This section shall apply to a taxable year of less than twelve months in accordance with regulations of the Tax Commissioner.

(h) Installment paid in advance. -- Any taxpayer may elect to pay any installment of its estimated tax prior to the date prescribed for its payment.

§11-23-14. Requirements concerning returns, notices, records and statements.

(a) General. -- The Tax Commissioner may prescribe regulations as to the keeping of records, the content and form of returns and statements, and the filing of copies of federal income tax returns and determinations. The Tax Commissioner may require any person, by regulation or notice served upon such person, to make such returns, render such statements, or keep such records, as the Tax Commissioner may deem sufficient to show whether or not such person is liable for tax under this article.

(b) As a part of a full and complete tax return, the taxpayer shall provide:

(1) A copy of pages one through four of its signed, federal corporation income tax return or its signed federal partnership income tax return, as filed with the Internal Revenue Service for the taxable year; and

(2) If a consolidated federal income tax return was filed for the taxable year:

(B) A copy of Federal Form 851 as filed with the Internal Revenue Service and supporting schedules displaying any subsidiary corporations in which the taxpayer has stock ownership; and

(C) A signed statement explaining the relationship and differences, if any, between the income statement and the balance sheet reported for federal consolidated filing purposes and the income statement and the balance sheet reported to this state under the tax imposed by this article.

(c) Notice of qualifications as receiver, etc.

Every receiver, trustee in bankruptcy, assignee for benefit of creditors, or other like fiduciary shall give notice of his qualification as such to the Tax Commissioner, as may be required by regulation.

In the case of a return made for a corporation by a fiduciary, such fiduciary shall sign the return. The fact that an individual's name is signed on the return shall be prima facie evidence that such individual is authorized to sign the return on behalf of the corporation.

(c) Signature presumed authentic. -- The fact that an individual's name is signed to a return, statement or other document shall be prima facie evidence for all purposes that the return, statement or other document was actually signed by him

§11-23-17. Credits against tax; expiration of credits.

(a) A credit shall be allowed against the tax imposed by this article equal to the amount of franchise tax liability due under this article, for the taxable year (determined before application of other allowable credits) multiplied by a fraction, the numerator of which is the gross income of the business subject to tax under article thirteen-a of this chapter and the denominator of which is the total amount of gross receipts derived from or attributable to all of taxpayer's activity in West Virginia.

(b) For taxable years ending after June 30, 1998, a credit shall be allowed against the tax imposed by this article equal to the amount of franchise tax liability due under this article, for the taxable year (determined before application of other allowable credits) multiplied by a fraction, the numerator of which is the gross income of the business subject to tax under article thirteen of this chapter and the denominator of which is the total amount of gross receipts derived from or attributable to all of taxpayer's activity in West Virginia: Provided, That such credit shall be prorated and only that amount attributable to months of the taxable year beginning after June 30, 1988, shall be allowed as a credit.
