

## WEST VIRGINIA CODE: §12-6-9E

### **§12-6-9e. Legislative findings; loans for industrial development; availability of funds and interest rates.**

(a) The Legislature hereby finds and declares that the citizens of the state benefit from the creation of jobs and businesses within the state; that a business and industrial development loan program provides for economic growth and stimulation within the state; that loans from pools established in the consolidated fund will assist in providing the needed capital to assist business and industrial development; and that time constraints relating to business and industrial development projects prohibit duplicative review by both the board and the West Virginia economic development authority board. The Legislature further finds and declares that an investment in the West Virginia enterprise capital fund, LLC, of moneys in the consolidated fund as hereinafter provided will assist in creating jobs and businesses within the state and providing the needed risk capital to assist business and industrial development. This section is enacted in view of these findings.

(b) The board shall make available, subject to cash availability, in the form of a revolving loan, up to \$175,000,000 from the consolidated fund to loan the West Virginia economic development authority for business or industrial development projects authorized by section seven, article fifteen, chapter thirty-one of this code and to consolidate existing loans authorized to be made to the West Virginia economic development authority pursuant to this section and pursuant to section twenty, article fifteen, chapter thirty-one of this code which authorizes a \$150,000,000 revolving loan, and article eighteen-b, chapter thirty-one of this code which authorizes a \$50,000,000 investment pool: Provided, That the West Virginia economic development authority may not loan more than \$15,000,000 for any one business or industrial development project. Monthly payments made by the West Virginia economic development authority to the board must be calculated on a one hundred twenty-month amortization. The West Virginia economic development authority may also pledge as collateral certain revenue streams from other revolving loan pools which source of funds does not originate from federal sources or from the board.

The outstanding principal balance of the revolving loan from the board to the West Virginia economic development authority may at no time exceed one hundred three percent of the aggregate outstanding principal balance of the business and industrial loans from the West Virginia economic development authority to economic development projects funded from this revolving loan pool. This provision must be certified annually by an independent audit of the

West Virginia economic development authority financial records.

(c) The interest rates and maturity dates on the loans made by the West Virginia economic development authority for business and industrial development projects authorized by section seven, article fifteen, chapter thirty-one of this code must be at competitive rates and maturities as determined by the West Virginia economic development authority board.

(d) Any and all outstanding loans made by the board, or any predecessor entity, to the West Virginia economic development authority must be refunded by proceeds of the revolving loan contained in this section and no loans may be made hereafter by the board to the West Virginia economic development authority pursuant to section twenty, article fifteen, chapter thirty-one of this code or article eighteen-b of said chapter.
