WEST VIRGINIA CODE: §15-5-21

§15-5-21. Communications.

The Office of Emergency Services shall ascertain what means exist for rapid and efficient communication in times of disaster. The office shall consider the desirability of supplementing such communication resources or of integrating them into a comprehensive state or federal-state telecommunications or other communications system or network. In studying the character and feasibility of any system or its several parts, the office shall evaluate the possibility of multipurpose use thereof for various state, regional and local governmental purposes. The office shall make recommendations to the Governor as appropriate.
