§15-5-22. Emergency Management Assistance Compact.

The "Emergency Management Assistance Compact" is hereby approved, ratified, adopted, enacted into law and entered into by the State of West Virginia with all other jurisdictions legally joining therein in accordance with its terms, in a form substantially as follows:

EMERGENCY MANAGEMENT ASSISTANCE COMPACT

ARTICLE I - PURPOSE AND AUTHORITIES

This compact is made and entered into by and between the participating member states which enact this compact, hereinafter called party states. For the purposes of this agreement, the term "states" is taken to mean the several states, the Commonwealth of Puerto Rico, the District of Columbia, and all United States territorial possessions.

The purpose of this compact is to provide for mutual assistance between the states entering into this compact in managing any emergency or disaster that is duly declared by the Governor of the affected state(s), whether arising from natural disaster, technological hazard, man-made disaster, civil emergency aspects of resources shortages, community disorders, insurgency or enemy attack.

This compact shall also provide for mutual cooperation in emergency-related exercises, testing or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party states or subdivisions of party states during emergencies, such actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of the states' National Guard forces, either in accordance with the National Guard Mutual Assistance Compact or by mutual agreement between states.

ARTICLE II - GENERAL IMPLEMENTATION

Each party state entering into this compact recognizes many emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential in managing these and other emergencies under this compact. Each state further recognizes that there will be emergencies which require immediate access and present procedures to apply outside resources to make a prompt and effective response to such an emergency. This is because few, if any, individual states have all the resources they may need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

The prompt, full, and effective utilization of resources of the participating states, including any resources on hand or available from the federal government or any other source, that are essential to the safety, care and welfare of the people in the event of any emergency or disaster declared by a party state, shall be the underlying principle on which all articles of this compact shall be understood.

On behalf of the Governor of each state participating in the compact, the legally designated
May 5, 2026 *Page 42 of 58* *§15-5*

state official who is assigned responsibility for emergency management will be responsible for formulation of the appropriate interstate mutual aid plans and procedures necessary to implement this compact.

ARTICLE III - PARTY STATE RESPONSIBILITIES

(a) It shall be the responsibility of each party state to formulate procedural plans and programs for interstate cooperation in the performance of the responsibilities listed in this article. In formulating such plans, and in carrying them out, the party states, insofar as practical, shall:

(1) Review individual state hazards analyses and, to the extent reasonably possible, determine all those potential emergencies the party states might jointly suffer, whether due to natural disaster, technological hazard, man-made disaster, emergency aspects of resource shortages, civil disorders, insurgency or enemy attack.

(2) Review party states' individual emergency plans and develop a plan which will determine the mechanism for the interstate management and provision of assistance concerning any potential emergency.

(3) Develop interstate procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans.

(4) Assist in warning communities adjacent to or crossing the state boundaries.

(5) Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services and resources, both human and material.

(6) Inventory and set procedures for the interstate loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness.

(7) Provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances that restrict the implementation of the above responsibilities.

(b) The authorized representative of a party state may request assistance of another party state by contacting the authorized representative of that state. The provisions of this agreement shall only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request shall be confirmed in writing within thirty days of the verbal request. Requests shall provide the following information:

(1) A description of the emergency service function for which assistance is needed, such as but not limited to fire services, law enforcement, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, and

search and rescue.

(2) The amount and type of personnel, equipment, materials and supplies needed, and a reasonable estimate of the length of time they will be needed.

(3) The specific place and time for staging of the assisting party's response and a point of contact at that location.

(c) There shall be frequent consultation between state officials who have assigned emergency management responsibilities and other appropriate representatives of the party states with affected jurisdictions and the United States government, with free exchange of information, plans and resource records relating to emergency capabilities.

ARTICLE IV - LIMITATIONS

Any party state requested to render mutual aid or conduct exercises and training for mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof: Provided, That it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for such state.

Each party state shall afford to the emergency forces of any party state, while operating within its state limits under the terms and conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving state), duties, rights, and privileges as are afforded forces of the state in which they are performing emergency services. Emergency forces will continue under the command and control of their regular leaders, but the organizational units will come under the operational control of the emergency services authorities of the state receiving assistance. These conditions may be activated, as needed, only subsequent to a declaration of a state of emergency or disaster by the Governor of the party state that is to receive assistance or commencement of exercises or training for mutual aid and shall continue so long as the exercises or training for mutual aid are in progress, the state of emergency or disaster remains in effect or loaned resources remain in the receiving state(s), whichever is longer.

ARTICLE V - LICENSES AND PERMITS

Whenever any person holds a license, certificate or other permit issued by any state party to the compact evidencing the meeting of qualifications for professional, mechanical or other skills, and when such assistance is requested by the receiving party state, such person shall be deemed licensed, certified, or permitted by the state requesting assistance to render aid involving such skill to meet a declared emergency or disaster, subject to such limitations and conditions as the Governor of the requesting state may prescribe by executive order or otherwise.

ARTICLE VI - LIABILITY

Officers or employees of a party state rendering aid in another state pursuant to this compact shall be considered agents of the requesting state for tort liability and immunity purposes; and no party state or its officers or employees rendering aid in another state pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith in this article shall not include willful misconduct, gross negligence or recklessness.

ARTICLE VII - SUPPLEMENTARY AGREEMENTS

Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that among the states that are party hereto, this instrument contains elements of a broad base common to all states, and nothing herein contained shall preclude any state from entering into supplementary agreements with another state or affect any other agreements already in force between states. Supplementary agreements may comprehend, but shall not be limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, and equipment and supplies.

ARTICLE VIII - COMPENSATION

Each party state shall provide for the payment of compensation and death benefits to injured members of the emergency forces of that state and representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own state.

ARTICLE IX - REIMBURSEMENT

Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to or expense incurred in the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with such requests: Provided, That any aiding party state may assume, in whole or in part, such loss, damage, expense or other cost, or may loan such equipment or donate such services to the receiving party state without charge or cost: Provided, however, That any two or more party states may enter into supplementary agreements establishing a different allocation of costs among those states. Article VIII expenses shall not be reimbursable under this provision.

ARTICLE X - EVACUATION

Plans for the orderly evacuation and interstate reception of portions of the civilian population as the result of any emergency or disaster of sufficient proportions to so warrant, shall be worked out and maintained between the party states and the emergency

management/services directors of the various jurisdictions where any type of incident requiring evacuations might occur. Such plans shall be put into effect by request of the state from which evacuees come and shall include the manner of transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends, and the forwarding of such evacuees to other areas or the bringing in of additional materials, supplies and all other relevant factors. Such plans shall provide that the party state receiving evacuees and the party state from which the evacuees come shall mutually agree as to reimbursement of out-of-pocket expenses incurred in receiving and caring for such evacuees, for expenditures for transportation, food, clothing, medicines and medical care, and like items. Such expenditures shall be reimbursed as agreed by the party state from which the evacuees come. After the termination of the emergency or disaster, the party state from which the evacuees come shall assume the responsibility for the ultimate support of repatriation of such evacuees.

ARTICLE XI - IMPLEMENTATION

(a) This compact shall become operative immediately upon its enactment into law by any two states; thereafter, this compact shall become effective as to any other state upon its enactment by such state.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until thirty days after the Governor of the withdrawing state has given notice in writing of such withdrawal to the Governors of all other party states. Such action shall not relieve the withdrawing state from obligations assumed hereunder prior to the effective date of withdrawal.

(c) Duly authenticated copies of this compact and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party states and with the federal emergency management agency and other appropriate agencies of the United States government.

ARTICLE XII - VALIDITY

This compact shall be construed to effectuate the purposes stated in Article I hereof. If any provision of this compact is declared unconstitutional, or the applicability thereof to any person or circumstances is held invalid, the Constitutionality of the remainder of this compact and the applicability thereof to other persons and circumstances shall not be affected thereby.

ARTICLE XIII - ADDITIONAL PROVISIONS

Nothing in this compact shall authorize or permit the use of military force by the National Guard of a state at any place outside that state in any emergency for which the President is

authorized by law to call into federal service the militia, or for any purpose for which the use of the Army or the Air Force would in the absence of express statutory authorization be prohibited under Section 1385 of Title 18, United States Code.

ARTICLE XIV - REPORTING TO LEGISLATURE

The director of the Office of Emergency Services shall, on or before January 1, 1997, provide to the Joint Committee on Government and Finance copies of all mutual aid plans and procedures promulgated, developed or entered into after the effective date of this section. The director shall annually thereafter provide the Joint Committee on Government and Finance with copies of all new or amended mutual aid plans and procedures on or before January 1, of each year.

§15-5-23. Severability; conflicts.

(a) If any section, subsection, subdivision, provision, clause or phrase of this article or the application thereof to any person or circumstance is held unconstitutional or invalid, such unconstitutionality or invalidity shall not affect other sections, subsections, subdivisions, provisions, clauses or phrases or applications of the article, and to this end each and every section, subsection, subdivision, provision, clause and phrase of this article is declared to be severable. The Legislature hereby declares that it would have enacted the remaining sections, subsections, provisions, clauses and phrases of this article even if it had known that any section, subsection, subdivision, provision, clause and phrase thereof would be declared to be unconstitutional or invalid, and that it would have enacted this article even if it had known that the application thereof to any person or circumstance would be held to be unconstitutional or invalid.

(b) The provisions of subsection (a) of this section shall be fully applicable to all future amendments or additions to this article, with like effect as if the provisions of said subsection (a) were set forth in extenso in every such amendment or addition and were reenacted as a part thereof.

§15-5-24. Disaster Recovery Trust Fund; disbursement of funds.

§15-5-28. Statewide mutual aid system.

(a) The Legislature hereby finds that emergencies transcend political jurisdictional boundaries and that intergovernmental coordination is essential for the protection of lives and property and for the best use of available assets, both public and private. The purpose of this section is to create a system of intrastate mutual aid between participating political subdivisions in the state. The system shall provide for mutual assistance among the participating political subdivisions in the prevention of, response to and recovery from any disaster that results in a formal state of emergency or state of preparedness in a participating political subdivision, subject to that participating political subdivision's criteria for declaration. The system shall provide for mutual cooperation among the participating subdivisions in conducting disaster-related exercises, testing or other training activities outside actual declared emergency periods. This section provides no immunity, rights or privileges for any individual responding to a state of emergency or state of preparedness that is not requested or authorized to respond by a participating political subdivision. Participating political subdivisions will be ensured, to the fullest extent possible, eligibility for state and federal disaster funding.

(b) Upon the enactment of this legislation, all political subdivisions within the state are members of the statewide mutual aid system: Provided, That a political subdivision within the state may elect not to participate or to withdraw from the system upon the enactment of an appropriate resolution by its governing body declaring that it elects not to participate in the statewide mutual aid system. A copy of any such resolution shall be provided to the Division of Homeland Security and Emergency Management.

(c) This section does not preclude participating political subdivisions from entering into supplementary agreements with another political subdivision and does not affect any other agreement to which a political subdivision may currently be a party to, or decide to be a party to.

(d) "Emergency responder", as used in this article, shall mean anyone with special skills, qualifications, training, knowledge and experience in the public or private sectors that would be beneficial to a participating political subdivision in response to a locally declared emergency as defined in any applicable law or ordinance or authorized drill or exercises; and who is requested and authorized to respond. Under this definition, an emergency responder may be required to possess a license, certificate, permit or other official recognition for his or her expertise in a particular field or area of knowledge. An emergency responder could include, but is in no way limited to, the following: Law-enforcement officers, firefighters, emergency medical services personnel, physicians, nurses, other public health personnel, emergency management personnel, public works personnel, local emergency debris removal teams, those persons with specialized equipment operations skills or training or any other skills needed to provide aid in a declared emergency.

(e) It shall be the responsibility of each participating political subdivision with jurisdiction over and responsibility for emergency management within that certain subdivision to do all

of the following:

- (1) Identify potential hazards that could affect the participant using an identification system common to all participating jurisdictions.
 - (2) Conduct joint planning, intelligence sharing and threat assessment development with contiguous participating political subdivisions and conduct joint training at least biennially.
 - (3) Identify and inventory the current services, equipment, supplies, personnel and other resources related to planning, prevention, mitigation, response and recovery activities of the participating political subdivision.
 - (4) Adopt and implement the National Incident Management System approved by the State of West Virginia.
- (f) A participating political subdivision may request assistance of other participating political subdivisions in preventing, mitigating, responding to and recovering from disasters that result in locally declared emergencies or in concert with authorized drills or exercises as allowed under this section. Requests for assistance shall be made to the Division of Homeland Security and Emergency Management through the designated county emergency management director by the chief executive officer of a participating political subdivision, or his or her designee, for response. Requests may be verbal or in writing. Verbal requests will be followed up with a written request as soon as is practical or such number of days as the state, in its discretion, may dictate.
- (g) The obligation of a participating political subdivision to provide assistance in the prevention of, response to and recovery from a locally declared emergency or in authorized drills or exercises is subject to the following conditions:
- (1) A participating political subdivision requesting assistance must have either declared a state of emergency in the manner outlined in this section or authorized drills and exercises;
 - (2) A responding participating political subdivision may withhold resources to the extent necessary to provide reasonable protection and services for its own jurisdiction;
 - (3) Emergency response personnel of a responding participating political subdivision shall continue under the command and control of their responding jurisdiction to include medical protocols, standard operating procedures and other protocols, but shall be under the operational control of the appropriate officials within the National Incident Management System of the participating political subdivision receiving the assistance; and
 - (4) Assets and equipment of a responding participating political subdivision shall continue under the control of the responding jurisdiction, but shall be under the operational control of the appropriate officials within the National Incident Management System of the participating political subdivision receiving the assistance.

(h) If a person or entity holds a license, certificate or other permit issued by a participating political subdivision or the state evidencing qualification in a professional, mechanical or other skill and the assistance of that person or entity is requested by a participating political subdivision, the person or entity shall be deemed to be licensed, certified or permitted in the political subdivision requesting assistance for the duration of the declared emergency or authorized drills or exercises and subject to any limitations and conditions the chief executive of the participating political subdivision receiving the assistance may prescribe by executive order or otherwise.

(i) (1) Any requesting political subdivision shall reimburse the participating political subdivision rendering aid under this system provided the request for aid is authorized by the Division of Homeland Security and Emergency Management. A participating political subdivision providing assistance may determine to donate assets of any kind to a receiving participating political subdivision.

(2) Should a dispute arise between parties to the system regarding reimbursement, involved parties will make every effort to resolve the dispute within thirty days of written notice of the dispute by the party asserting noncompliance. In the event that the dispute is not resolved within ninety days of the notice of the claim, either party may request the dispute be solved through arbitration. Any arbitration under this provision shall be conducted under the commercial arbitration rules of the American Arbitration Association.

(j) Personnel of a participating political subdivision responding to or rendering assistance for a request who sustain injury or death in the course of, and arising out of, their employment are entitled to all applicable benefits normally available to personnel while performing their duties for their employer. Responders shall receive any additional state and federal benefits that may be available to them for line-of-duty deaths.

(k) All activities performed under this section are deemed hereby to be governmental functions. For the purposes of liability, all persons responding under the operational control of the requesting political subdivision are deemed to be employees of the requesting participating political subdivision.

(l) Whenever the law-enforcement officials of any political subdivision are rendering outside aid pursuant their lawful authority, and with the approval of the Director of the West Virginia Division of Homeland Security and Emergency Management, and under the authority of a state of emergency or state of preparedness as officially proclaimed by the Governor, such law-enforcement officials shall have the same authority, powers, duties, rights, privileges and immunities as if they were performing their law-enforcement duties in the political subdivisions in which they are normally employed. The authority vested in the law-enforcement official, in accordance with this section, shall vest upon reporting in person to the Emergency Management Agency official in charge and on duty at the county or city of destination assignment. The law-enforcement official shall act under the authority, supervision and control of the highest ranking law-enforcement official within the assigned outside jurisdiction. Law enforcement and powers of arrest authority will not attach to the

law-enforcement official while in transit from his or her jurisdiction of origin en route to his or her assigned jurisdiction under intrastate mutual aid assistance.
