

WEST VIRGINIA CODE: §16-27B-1

§16-27B-1. Declaration of policy.

It is the policy of the state in furtherance of its responsibility to protect the occupational and public health and safety and the environment:

- (1) To institute and maintain a regulatory program for sources of ionizing radiation so as to provide for compatibility and equivalency with the standards and regulatory programs of the federal government, a single effective system of regulation within the state, and a system consonant insofar as possible with those of other states.
- (2) To institute and maintain a program to permit development and use of sources of radiation for peaceful purposes consistent with the health and safety of the public.
- (3) To provide for the availability of capacity outside the state for the disposal of low-level radioactive waste generated within the state except for waste generated as a result of defense or federal research and development activities and to recognize that such radioactive waste can be most safely and efficiently managed on a regional basis.
