**WEST VIRGINIA CODE CHAPTER 16**  
**ARTICLE 29E**

WV Legislature

**§16-29E-1. Findings and purpose.**

The Legislature hereby finds and declares that:

- (1) A crisis exists in the funding of health and social programs of this state;
- (2) These programs exist to provide federal and state supported services to citizens in need;
- (3) The health and well-being of these citizens is jeopardized when uncontrolled growth in various programs uses a disproportionate share of the available funding;
- (4) State programs are often developed and implemented with limited private or federal grant moneys, which require future funding from the limited state resources; and
- (5) The problem is exacerbated when various state agencies make competing or conflicting policy decisions.

**§16-29E-2. Legislative intent.**

It is the intent of the Legislature that all actions taken pursuant to the provisions of this article by the Legislature and the various agencies within the Department of Health and Human Resources serve the following core set of principles:

- (1) That all health and social programs offered under state authority be coordinated to maximize efficiencies and minimize competition within the various agencies thereby addressing the needs of the citizens more effectively;
- (2) That communication be facilitated among the various agencies within the Department of Health and Human Resources and between the department and the Legislature;
- (3) That policy changes, not made by legislative rule, be discussed with the commission for purposes of coordinating those policies with existing programs and stated goals;
- (4) That programs or policies implemented in accordance with federal mandates be communicated to the commission;
- (5) That in developing and implementing programs with private or federal grant moneys, the various agencies communicate their efforts to the commission to ensure and facilitate future state funding; and
- (6) That agencies previously exempted from rule-making review by federal or state statutes advise the commission of program changes which may affect the health and well-being of the citizens of West Virginia.
