WEST VIRGINIA CODE: §16-4C-22

§16-4C-22. Transportation of unconscious or otherwise uncommunicative patients.

- (a) Emergency medical service personnel shall transport critically ill or injured, unconscious or otherwise uncommunicative patients to the medical facility designated by the medical command physician.
- (b) No person may have the right to direct emergency medical service personnel to transport a patient to a specific medical facility unless the person is the legal guardian, parent of a minor or has power of attorney for the critically injured or ill patient.
