

WEST VIRGINIA CODE: §17-4-31

§17-4-31. Same -- Rules and regulations of commissioner to govern streets taken as connecting parts of state road system.

The state road commissioner may, by reasonable rules and regulations, govern the widths and grades of streets designated as connecting parts of the state road system. He may regulate the opening of pavement for the construction or repair of service lines or substructures, and may require adequate bond to secure the proper replacement of the pavement. He may also make other reasonable regulations concerning the construction and maintenance of the streets.

In the absence of regulations by the commissioner, the municipal authorities may continue to exercise the same authority that they have over other streets within their jurisdiction.
