WEST VIRGINIA CODE: §17C-11A-2

§17C-11A-2. Legislative findings and purpose.

- (a) The Legislature hereby finds and declares that:
- (1) Disability and death of children resulting from injuries sustained in bicycling accidents are a serious threat to the public health, welfare and safety of the people of this state, and the prevention of such disability and death is a goal of such people;
- (2) Head injuries are the leading cause of disability and death from bicycling accidents; and
- (3) The risk of head injury from bicycling accidents is significantly reduced for bicyclists who wear proper protective bicycle helmets; yet helmets are worn by fewer than five percent of child bicyclists nationwide.
- (b) The purpose of this article is to reduce the incidence of disability and death resulting from injuries incurred in bicycling accidents by requiring that while riding on a bicycle on public roads, public bicycle paths and other public rights-of-way of this state, all bicycle operators and passengers under fifteen years of age wear approved protective bicycle helmets.
