(c) From and after the effective date of this section, a warrant or indictment which charges or alleges an offense, prohibited by §17C-5-2 of this code, and which warrant or indictment uses any of the terms or phrases set forth in subsection (b) of this section, shall not thereby be fatally defective if such warrant or indictment otherwise informs the person so accused of the charges against said person.

§17C-5-2b. Deferral of further proceedings for certain first offenses upon condition of participation in Motor Vehicle Alcohol Test and Lock Program; procedure on charge of violation of conditions.

(a) (1) Except as provided in subsection (f) of this section, the court, without entering a judgment of guilt and with the consent of the accused, shall defer further proceedings and impose probation, when:

(B) The person has not previously been convicted of any offense under this article or under any statute of the United States or of any state relating to driving under the influence of alcohol, any controlled substance, or any other drug; and

(C) The person notifies the court within 30 days of his or her arrest of his or her intention to participate in a deferral pursuant to this section.

(2) If all the requirements in subdivision (1) of this subsection are met, the court, without entering a judgment of guilt, shall defer further proceedings and place the person on probation, the conditions of which shall include that he or she successfully completes the Motor Vehicle Alcohol Test and Lock Program as provided in §17C-5A-3a of this code. (4) Should the defendant fail to complete or be removed from the Motor Vehicle Alcohol Test and Lock Program, the defendant waives the appropriate statute of limitations and the defendant's right to a speedy trial under any applicable federal or state constitutional provisions, statutes, or rules of court during the period of enrollment in the program.

(3) If the objections are filed, the court shall hold a hearing on the objections, affording all parties an opportunity to be heard. If the court determines after a hearing that the person during the period of his or her probation and during the period of time prior to his or her application to the court under this subsection has not been guilty of any serious or repeated violation of the conditions of his or her probation, it shall order the expungement.

(a) Any person who drives a motor vehicle in this state is considered to have given his or her consent by the operation of the motor vehicle to a preliminary breath analysis and a secondary chemical test of either his or her blood or breath to determine the alcohol concentration in his or her blood, or the concentration in the person’s body of a controlled substance, drug, or any combination thereof.

(b) A preliminary breath analysis may be administered in accordance with the provisions of §17C-5-5 of this code whenever a law-enforcement officer has reasonable cause to believe a person has committed an offense prohibited by §17C-5-2 of this code or by an ordinance of a municipality of this state which has the same elements as an offense described in §17C-5-2 of this code.

(c) A secondary test of blood or breath is incidental to a lawful arrest and is to be administered at the direction of the arresting law-enforcement officer having probable cause to believe the person has committed an offense prohibited by §17C-5-2 of this code or by an ordinance of a municipality of this state which has the same elements as an offense described in said section: *Provided*, That absent written consent of the person, a secondary test of blood may not be performed without issuance of a warrant signed by a magistrate or a circuit judge.

(d) The law-enforcement agency that employs the arresting law-enforcement officer shall designate the secondary tests to be administered. Notwithstanding §17C-5-7a of this code, the refusal to submit to a blood test only may not result in the revocation of the arrested person’s license to operate a motor vehicle in this state.

(e) Any person to whom a preliminary breath test is administered who is arrested shall be advised verbally and given a written statement advising him or her of the following:

(1) That the person’s refusal to submit to the secondary chemical test, designated pursuant to subsection (d) of this section, will result in the revocation of his or her license to operate a motor vehicle for a period of at least 45 days and up to life;

(2) That, if a designated secondary chemical test is taken, the results of the test may be used against him or her in court as evidence of violating §17C-5-2 of this code or an ordinance of a municipality of this state which has the same elements as an offense described in said section; and

(3) That, if the person first submits to the requested secondary chemical test, the person has the right to have a test or tests of his or her blood performed as provided in §17C-5-9 of this code.

(f) Any law-enforcement officer who has been properly trained in the administration of any

secondary chemical test authorized by this article, including, but not limited to, certification by the Bureau for Public Health in the operation of any equipment required for the collection and analysis of a breath sample, may conduct the test at any location in the county wherein the arrest is made: *Provided*, That the law-enforcement officer may conduct the test at the nearest available properly functioning secondary chemical testing device located outside the county in which the arrest was made, if: (1) There is no properly functioning secondary chemical testing device located within the county the arrest was made; or (2) there is no magistrate available within the county the arrest was made for the arraignment of the person arrested. A law-enforcement officer who is directing that a secondary chemical test be conducted has the authority to transport the person arrested to where the secondary chemical testing device is located.

(g) If the arresting officer lacks proper training in the administration of a secondary chemical test, then any other law-enforcement officer who has received training in the administration of the secondary chemical test to be administered may, upon the request of the arresting law-enforcement officer and in his or her presence, conduct the secondary test. The results of a test conducted pursuant to this subsection may be used in evidence to the same extent and in the same manner as if the test had been conducted by the arresting law-enforcement officer.

(h) Only the person actually administering or conducting a test conducted pursuant to this article is competent to testify as to the results and the veracity of the test.

(i) (1) For the purpose of this article, the term “law-enforcement officer” or “police officer” means: (A) Any member of the West Virginia State Police; (B) any sheriff and any deputy sheriff of any county; (C) any member of a police department in any municipality as defined in §8-1-2 of this code; (D) any Natural Resources police officer of the Division of Natural Resources; and (E) any special police officer appointed by the Governor pursuant to the provisions of §61-3-41 of this code who has completed the course of instruction at a law-enforcement training academy as provided for under the provisions of §30-29-9 of this code.

(2) In addition to standards promulgated by the Governor’s Committee on Crime, Delinquency, and Correction, pursuant to §30-29-3 of this code, governing the qualification of law-enforcement officers and the entry-level law-enforcement training curricula, the Governor’s Committee on Crime, Delinquency, and Correction shall require the satisfactory completion of a minimum of not less than six hours of training in the recognition of impairment in drivers who are under the influence of controlled substances or drugs other than alcohol.

(3) In addition to standards promulgated by the Governor’s Committee on Crime, Delinquency, and Correction, pursuant to §30-29-3 of this code, establishing standards governing in-service law-enforcement officer training curricula and in-service supervisory level training curricula, the Governor’s Committee on Crime, Delinquency, and Correction shall require the satisfactory completion of a minimum of not less than six hours of training in the recognition of impairment in drivers who are under the influence of controlled

substances or drugs other than alcohol.

(4) A law-enforcement officer who has not satisfactorily completed the minimum number of hours of training in the recognition of impairment in drivers who are under the influence of controlled substances or drugs other than alcohol, required by subdivisions (2) and (3) of this subsection, may not require any person to submit to secondary chemical test of his or her blood for the purposes of determining the concentration in the person's body of a controlled substance, drug, or any combination thereof.

(j) A law-enforcement officer who has reasonable cause to believe that a person has committed an offense prohibited by §20-7-18 of this code, relating to the operation of a motorboat, jet ski, or other motorized vessel, shall follow the provisions of this section when administering, or causing to be administered, a preliminary breath analysis and, incidental to a lawful arrest, a secondary chemical test of the accused person's blood or breath to determine the alcohol concentration in his or her blood, or the concentration in the person's body of a controlled substance, drug, or any combination thereof.

§17C-5-5. Preliminary analysis of breath to determine alcoholic content of blood.

When a law-enforcement officer has reason to believe a person has committed an offense prohibited by section two of this article or by an ordinance of a municipality of this state which has the same elements as an offense described in said section two of this article, the law-enforcement officer may require such person to submit to a preliminary breath analysis for the purpose of determining such person's blood alcohol content. Such breath analysis must be administered as soon as possible after the law-enforcement officer has a reasonable belief that the person has been driving while under the influence of alcohol, controlled substances or drugs. Any preliminary breath analysis required under this section must be administered with a device and in a manner approved by the department of health for that purpose. The results of a preliminary breath analysis shall be used solely for the purpose of guiding the officer in deciding whether an arrest should be made. When a driver is arrested following a preliminary breath analysis, the tests as hereinafter provided in this article shall be administered in accordance with the provisions thereof.

§17C-5-6. How blood test administered; additional test at option of person tested; use of test results; certain immunity from liability incident to administering test.

Only a doctor of medicine or osteopathy, or registered nurse, or trained medical technician at the place of his or her employment, acting at the request and direction of the law-enforcement officer, may withdraw blood to determine the alcohol concentration in the blood, or the concentration in the blood of a controlled substance, drug, or any combination thereof. These limitations shall not apply to the taking of a breath test. In withdrawing blood to determine the alcohol concentration in the blood, or the presence in the blood of a controlled substance, drug, or any combination thereof, only a previously unused and sterile needle and sterile vessel may be utilized and the withdrawal shall otherwise be in strict accord with accepted medical practices. A nonalcoholic antiseptic shall be used for cleansing the skin prior to venapuncture. The person tested may, at his or her own expense, have a doctor of medicine or osteopathy, or registered nurse, or trained medical technician at the place of his or her employment, of his or her own choosing, administer a chemical test in addition to the test administered at the direction of the law-enforcement officer. Upon the request of the person who is tested, full information concerning the test taken at the direction of the law-enforcement officer shall be made available to him or her. No person who administers any such test upon the request of a law-enforcement officer as herein defined, no hospital in or with which such person is employed or is otherwise associated or in which such test is administered, and no other person, firm or corporation by whom or with which such person is employed or is in any way associated, shall be in any way criminally liable for the administration of such test, or civilly liable in damages to the person tested unless for gross negligence or willful or wanton injury.

§17C-5-6a. Taking a child into custody; driving a motor vehicle with any amount of blood alcohol.

(a) A preliminary breath analysis may be administered to a child whenever a law-enforcement official has reasonable cause to believe the child to have been driving a motor vehicle with any amount of alcohol in his or her blood for the purpose of determining the child's blood alcohol content. The breath analysis must be administered as soon as possible after the law-enforcement officer arrives at a reasonable belief that the child has been driving a motor vehicle with any amount of alcohol in his or her blood. Any preliminary breath analysis administered pursuant to this subsection must be administered with a device and in a manner approved by the division of health for that purpose. If a preliminary breath analysis is administered, the results shall be used solely for the purpose of guiding the officer in deciding whether the child, at the time of driving the motor vehicle, had an alcohol concentration in his or her blood of .0002 of one percent or more, by weight, and should, therefore, be taken into custody to administer a secondary test in accordance with the provisions of this section.

(b) A child may be taken into custody by a law-enforcement official without a warrant or court order if the official has reasonable grounds to believe the child to have been driving a motor vehicle with any amount of alcohol in his or her blood. If a preliminary breath analysis is administered and the results of the analysis indicate that the child has an alcohol concentration in his or her blood of less than .0002 of one percent, by weight, the child may not be taken into custody unless other grounds exist under §49-4-705(b) of this code. Upon taking a child into custody pursuant to the provisions of this section, the official shall take all reasonable steps to cause notification to be made to the child's parent or custodian or, if the parent or custodian cannot be located, to a close relative.

(c) Upon taking a child into custody pursuant to this section, the official shall take the child to a facility where a secondary test of the child's blood or urine may be administered at the direction of the official or a test of the child's breath may be administered by the official. The law-enforcement agency by which such law-enforcement official is employed shall designate whether the secondary test is a test of either blood, breath, or urine: Provided, That if the test is a blood test and the child refuses to submit to the blood test, then the law-enforcement official taking the child into custody shall designate in lieu thereof a breath test to be administered. Notwithstanding the provisions of §17C-5-7 of this code, a refusal to submit to a blood test only shall not result in the revocation of the child's license to operate a motor vehicle in this state. Any child taken into custody pursuant to this section shall be given a written statement advising him or her that a refusal to submit to a secondary test of either blood, breath, or urine, as finally designated by the law-enforcement agency or official in accordance with this subsection, will result in the suspension of his or her license to operate a motor vehicle in this state for a period of at least 30 days or a revocation of the license for a period up to life.

(d) If the law-enforcement official taking the child into custody is employed by a law-

enforcement agency which does not have available the testing equipment or facilities necessary to conduct any secondary breath test which may be administered pursuant to the provisions of this section, then the official who took the child into custody may request another qualified person to administer a secondary breath test: Provided, That the breath test shall be administered in the presence of the official who took the child into custody. The results of the breath test may be used in evidence to the same extent and in the same manner as if the test had been conducted by the law-enforcement official who took the child into custody. The qualified person administering the breath test must be a member of the West Virginia state police, the sheriff of the county where the child was taken into custody, or any deputy of the sheriff or a law-enforcement official of another municipality within the county wherein the child was taken into custody. Only the person actually administering the secondary breath test is competent to testify as to the results and the veracity of the test. If the secondary test is a blood test, the test shall be conducted in accordance with the provisions of §17C-5-6 of this code.

(e) After taking the child into custody, if the law-enforcement official has reasonable cause to believe that the act of the child in driving the motor vehicle is such that it would provide grounds for arrest for an offense defined under the provisions of §17C-5-2 of this code if the child were an adult, then the official shall proceed to treat the child in the same manner as any other child taken into custody without a warrant or court order, in accordance with the provisions of §17C-5-8 of this code.

(f) If the results of any secondary test administered pursuant to this section indicate that the child, at the time of driving the motor vehicle, had an alcohol concentration in his or her blood of .0008 of one percent or less, by weight, and if the law-enforcement official does not have reasonable cause to believe that the act of the child in driving the motor vehicle is such that it would provide grounds for arrest for an offense defined under the provisions of §17C-5-2 of this code if the child were an adult, then the official shall release the child: Provided, That if the results of any secondary test administered pursuant to this section indicate that the child, at the time of driving the motor vehicle, had an alcohol concentration in his or her blood of .0002 of one percent or more, by weight, the child shall only be released to a parent or custodian, or to some other responsible adult.

§17C-5-7. Refusal to submit to tests; revocation of license or privilege; consent not withdrawn if person arrested is incapable of refusal; hearing.

(a) If any person under arrest, as specified in §17C-5-4 of this code, refuses to submit to a secondary chemical test, the test shall not be given.

(b) Upon requesting that a person submit to the secondary test, designated pursuant to §17C-5-4 of this code, the person shall be given the written and verbal warnings set forth in §17C-5-4(e) of this code. After the person under arrest is given the required written and verbal warnings, the person shall have the opportunity to submit to, or refuse to submit to, the secondary test. A refusal to submit to the secondary test is considered final after 15 minutes have passed since the refusal: *Provided*, That during the 15 minutes following the refusal, the arresting officers shall permit the person under arrest to revoke his or her refusal and shall provide the person with the opportunity to submit to the test upon request. After the 15 minutes have passed following a refusal to submit to the secondary test, the arresting officer has no further duty to provide the person with an opportunity to take the secondary test.

(c) The officer shall, within 48 hours of the refusal, sign and submit to the Commissioner of the Division of Motor Vehicles and the court having jurisdiction over the charge filed against the person pursuant to §17C-5-2 of this code, a written statement that: (1) He or she had probable cause to believe the person had been driving a motor vehicle in this state while under the influence of alcohol, controlled substances, or drugs; (2) the person was lawfully placed under arrest for an offense relating to driving a motor vehicle in this state while under the influence of alcohol, controlled substances, or drugs; (3) the person refused to submit to the secondary chemical test designated in the manner provided in §17C-5-4 of this code; and (4) the person was given the verbal warnings and the written statement required by subsection (b) of this section and §17C-5-4 of this code. An officer, by signing the statement required by this subsection, makes an oath or affirmation that the information contained in the statement is true and that any copy of the statement that he or she files is a true copy. The form for the written statement required by this section shall contain, upon its face, a warning to the officer signing that to willfully sign a statement containing false information is false swearing and is a misdemeanor.

(d) Any person who is unconscious or who is otherwise in a condition rendering him or her incapable of refusal shall be considered not to have withdrawn his or her consent for a test of his or her blood or breath as provided in §17C-5-4 of this code and the test may be administered although the person is not informed that his or her failure to submit to the test will result in the revocation of his or her license to operate a motor vehicle in this state for the period provided for in this section.

(e) The amendments made to this section during the 2020 regular session of the Legislature shall become effective on July 1, 2020.

§17C-5-7a. Suspension of license to operate a motor vehicle for refusal of secondary test; refusal review hearing.

(a) For the purposes of this section, the term “refusal review hearing” refers to a hearing to review a person’s alleged refusal to submit to a secondary chemical test, as documented in a statement submitted to the court by a law-enforcement officer pursuant to §17C-5-7 of this code.

(b) Effective July 1, 2020, the court shall enter an order finding that a person charged with a violation of §17C-5-2 of this code did refuse to submit to a secondary chemical test, as required by §17C-5-4 of this code, subject to the following:

(1) At the person’s first appearance before the court, the court shall advise the person that his or her license to operate a motor vehicle shall be revoked for the applicable period provided in subsection (e) of this section, unless the person requests a refusal review hearing within the 30 days following the first appearance;

(2) If the person does not request a refusal review hearing within 30 days following the first appearance, the court shall enter an order finding that a person charged with a violation of §17C-5-2 of this code did refuse to submit to a secondary chemical test; and

(3) If the person requests a refusal review hearing within 30 days following the first appearance, the court shall conduct the review and enter the appropriate order, as provided in subsection (c) of this section.

(c) *Refusal review hearing.* —

(1) The court shall schedule and conduct a refusal review hearing if the person, named in a statement submitted to the court by a law-enforcement officer pursuant to §17C-5-7, requests the hearing within 30 days following his or her first appearance before the court. During the refusal review hearing, the court shall review the statement documenting the person’s refusal to submit to the secondary chemical test, along with any testimony or evidence presented by the person or law-enforcement officer during the hearing.

(2) Based on the hearing, the court shall enter an order finding that the person did refuse to submit to a secondary chemical test, if the court determines, by a preponderance of the evidence, that:

(A) The arresting law-enforcement officer had reasonable grounds to believe the arrested person had committed a violation of §17C-5-2 of this code;

(B) The law-enforcement officer requested the arrested person to submit to the chemical test or tests designated pursuant to §17C-5-4 of this code;

(C) At the time the test was requested, the law-enforcement officer administered the required written and verbal warnings required by §17C-5-4 and §17C-5-7 of this code; and

(D) The arrested person refused to submit to the chemical test or tests requested by the law-enforcement officer.

(3) If the court determines, by a preponderance of the evidence, that one or more of the required conditions listed in subdivision (2) of this subsection did not occur, the court shall enter an order finding that the person did not refuse to submit to the secondary chemical test. If the court enters such an order, the Commissioner of the Division of Motor Vehicles may not revoke the person's license to operate a motor vehicle based on the alleged refusal to submit to a secondary chemical test.

(d) The clerk of the court in which the charges are pending shall immediately transmit any order entered pursuant to this section to the Commissioner of the Division of Motor Vehicles.

(e) Upon receipt of an order provided pursuant to this section finding that a person did refuse to submit to a secondary chemical test, the Commissioner of the Division of Motor Vehicles shall revoke the person's license to operate a motor vehicle as follows:

(1) For the first refusal to submit to the designated secondary chemical test, the commissioner shall enter an order revoking the person's license to operate a motor vehicle in this state for a period of one year or for a period of 45 days, with an additional one year of participation in the Motor Vehicle Alcohol Test and Lock Program in accordance with the provisions of §17C-5A-3a of this code.

(2) If the person's license to operate a motor vehicle has previously been revoked under the provisions of this section, the commissioner shall, for the refusal to submit to the designated secondary chemical test, enter an order revoking the person's license to operate a motor vehicle in this state for a period of 10 years: *Provided*, That the license may be reissued in five years in accordance with the provisions of §17C-5A-3 of this code.

(3) If the person's license to operate a motor vehicle has previously been revoked more than once under the provisions of this section, the commissioner shall, for the refusal to submit to the designated secondary chemical test, enter an order revoking the person's license to operate a motor vehicle in this state for a period of life.

(f) A copy of each order entered pursuant to this section shall be forwarded to the person by registered or certified mail, return receipt requested, and shall contain the reasons for any revocation and shall specify the revocation period imposed pursuant to this section.

(g) A revocation ordered pursuant to this section shall run concurrently with the period of any suspension or revocation imposed in accordance with §17C-5A-2 of this code.

§17C-5-8. Interpretation and use of chemical test.

(a) Upon trial for the offense of driving a motor vehicle in this state while under the influence of alcohol, controlled substances or drugs, or upon the trial of any civil or criminal action arising out of acts alleged to have been committed by any person driving a motor vehicle while under the influence of alcohol, controlled substances or drugs, evidence of the amount of alcohol in the person's blood at the time of the arrest or of the acts alleged, as shown by a chemical analysis of his or her blood or breath, is admissible, if the sample or specimen was taken within the time period provided in subsection (g).

(b) The evidence of the concentration of alcohol in the person's blood at the time of the arrest or the acts alleged gives rise to the following presumptions or has the following effect:

(1) Evidence that there was, at that time, five hundredths of one percent or less, by weight, of alcohol in his or her blood, is prima facie evidence that the person was not under the influence of alcohol;

(2) Evidence that there was, at that time, more than five hundredths of one percent and less than eight hundredths of one percent, by weight, of alcohol in the person's blood is relevant evidence, but it is not to be given prima facie effect in indicating whether the person was under the influence of alcohol;

(3) Evidence that there was, at that time, eight hundredths of one percent or more, by weight, of alcohol in his or her blood, shall be admitted as prima facie evidence that the person was under the influence of alcohol.

(c) A determination of the percent, by weight, of alcohol in the blood shall be based upon a formula of:

(1) The number of grams of alcohol per one hundred cubic centimeters of blood;

(2) The number of grams of alcohol per two hundred ten liters of breath; or

(3) The number of grams of alcohol per eighty-six milliliters of serum.

(d) A chemical analysis of blood for the purpose of determining the controlled substance or drug concentration of a person's blood, must include, but is not limited to, the following drugs or classes of drugs:

(1) Marijuana metabolites;

(2) Cocaine metabolites;

(3) Amphetamines;

(4) Opiate metabolites;

- (5) Phencyclidine (PCP);
- (6) Benzodiazepines;
- (7) Propoxyphene;
- (8) Methadone;
- (9) Barbiturates; and
- (10) Synthetic narcotics.

(e) (1) A chemical analysis of a person's blood or breath, in order to give rise to the presumptions or to have the effect provided for in this section, must be performed in accordance with methods and standards approved by the state Bureau for Public Health.

(A) The Bureau for Public Health shall prescribe, by legislative rules promulgated pursuant to article three, chapter twenty-nine-a of this code, methods and standards for the chemical analysis of a person's blood or breath.

(B) Legislative rules proposed by the Bureau for Public Health must specify the test or tests that are approved for reliability of result and ease of administration using scientific methods and instrumentation generally accepted in the forensic community, and must provide an approved method of administration which must be followed in all such tests given under this section.

(C) The bureau shall review prescribed standards and methods at least every two years to ensure that the methods and standards are approved for reliability of result and ease of administration using scientific methods and instrumentation generally accepted in the forensic community.

(2) A chemical analysis of blood to determine the alcohol content or the controlled substance or drug content of blood shall be conducted by a qualified laboratory or by the State Police scientific laboratory of the West Virginia State Police Forensic Laboratory.

(f) The provisions of this article do not limit the introduction in any administrative or judicial proceeding of any other competent evidence bearing on the question of whether the person was under the influence of alcohol, controlled substances or drugs.

(g) For the purposes of the admissibility of a chemical test under subsection (a):

(1) A sample or specimen taken to determine the alcohol concentration of a person's blood, must be taken within two hours from the time of the person's arrest; or

(2) For a sample or specimen to determine the controlled substance or drug content of a person's blood, must be taken within four hours of the person's arrest.

(h) The results of any test administered pursuant to this section for the purpose of detecting the concentration of any controlled substance shall not be admissible as evidence in a criminal prosecution for the possession of a controlled substance.

WV Legislature

§17C-5-9. Right to demand test.

Any person lawfully arrested for driving a motor vehicle in this state while under the influence of alcohol, controlled substances or drugs shall have the right to demand that a sample or specimen of his or her blood or breath to determine the alcohol concentration of his or her blood be taken within two hours from and after the time of arrest and a sample or specimen of his or her blood or breath to determine the controlled substance or drug content of his or her blood, be taken within four hours from and after the time of arrest, and that a chemical test thereof be made. The analysis disclosed by such chemical test shall be made available to such arrested person forthwith upon demand.

§17C-5-10. Fee for withdrawing blood sample and making urine test; payment of fees.

A reasonable fee shall be allowed to the person withdrawing a blood sample or administering a urine test at the request and direction of a law-enforcement officer in accordance with the provisions of this article. If the person whose blood sample was withdrawn or whose urine was tested was arrested and charged with a violation of section two of this article, the county having venue of such charge shall pay said fee, and if said person is subsequently convicted of such charge, such fee shall be taxed as a part of the costs of the criminal proceeding and shall be paid, notwithstanding any other provision of this code to the contrary, into the General Fund of said county. If the person whose blood sample was withdrawn or whose urine was tested was arrested and charged with a violation of a similar ordinance of any municipality, said municipality shall pay said fee, and if said person is subsequently convicted of such charge, such fee shall be taxed as a part of the costs of the criminal proceeding and shall be paid, notwithstanding any other provision of this code to the contrary, into the General Fund of said municipality.

(a) Notwithstanding the provisions of section five, article twelve, chapter eight of this code, on and after September 1, 1983, each and every municipal ordinance defining a misdemeanor offense of or relating to driving under the influence of alcohol or driving under the influence of intoxicating liquor or otherwise prohibiting conduct made unlawful by this article shall be null and void and of no effect unless such ordinance defines such an offense in substantially similar terms as an offense defined under the provisions of this article and such offense contains the same elements as an offense defined herein.

(b) Notwithstanding the provisions of section one, article eleven, chapter eight of this code, on and after August 1, 1983, each and every municipal ordinance defining a misdemeanor offense of or relating to driving under the influence of alcohol or driving under the influence of intoxicating liquor or otherwise prohibiting conduct made unlawful by this article shall prescribe the same penalty for such offense as is prescribed for an offense under this article containing the same elements.

§17C-5-12. Report to the Legislature.

On or before December 31, 2020, the Bureau for Public Health shall submit to the Joint Committee on Government and Finance a report that includes the following:

(1) Recommendations for the minimum levels of those drugs or controlled substances contained in §17C-5-8(d) of this code, that must be present in a person's blood in order for the test to be admitted as prima facie evidence that the person was under the influence of a controlled substance or drug in a prosecution for the offense of driving a motor vehicle in this state; and

(2) Recommendations for the minimum levels of those drugs or controlled substances contained in §17C-5-8(d) of this code, that laboratories approved to test blood for drug or controlled substance content can reliably identify and measure for the concentrations of drugs, controlled substances and their metabolites, in blood.
