WEST VIRGINIA CODE: §18-2K-3

§18-2K-3. Establishment and implementation of diabetes care plans by county boards to support and assist students with diabetes.

Each county board of education shall establish and adopt a diabetes care plan which shall be implemented in schools in which students diagnosed with diabetes are enrolled. The plan shall be adopted not later than six months after the state Board of Education adopts guidelines for the plans pursuant to section two of this article. The plan shall meet all of the guidelines for diabetes care plans adopted by the state Board of Education pursuant to section two of this article. In particular, the boards shall require the implementation of the procedures set forth in those guidelines for the development and implementation of individual diabetes care plans. County boards also shall make available necessary information and staff development to teachers and school personnel in order to appropriately support and assist students with diabetes in accordance with their individual diabetes care plans.
