§18B-14-3. College credit authorized for learning English as second language.

State Institutions of higher education are authorized to offer college credit hours for English learned as a second language and may accept English learned as a second language to satisfy an institution's foreign language requirement. To obtain college credit the student must be enrolled in the institution granting credit and be certified as having reached a satisfactory score on the test of English as a foreign language.

The Higher Education Policy Commission and the Council for Community and Technical College Education shall jointly propose rules to set and identify scores required on the test of English as a foreign language for course credit being offered.

§18B-14-4. Dual enrollment pilot program established; definitions; funding; annual reporting.

(a) Definitions. – As used in this section, unless used in a context that clearly requires a different meaning, the term:

"Dual enrollment" means the registration of an eligible secondary student in a post-secondary course creditable toward high school completion and a career technical certificate, associate degree, or baccalaureate degree. A student who is enrolled in post-secondary instruction that is not creditable toward a high school diploma may not be classified as a dual enrollment student.

"Eligible course" means any class or program of instruction offered at an eligible institution for which the student receives credit toward both high school completion and a post-secondary certificate or degree. Applied academics for adult education instruction, developmental education, physical education courses, and recreation and leisure studies courses are not eligible courses for dual enrollment purposes.

"Eligible institution" means a state institution of higher education as that term is defined in §18B-1-2 of this code.

"Eligible student" means any secondary school student, including a homeschool, charter school, microschool, learning pod, or private school student, who meets minimum criteria established by the state school board and the commission or the council, as appropriate, for the purpose of enrolling in a dual credit course.

(b) Dual enrollment pilot program established. – In conjunction with the state board and under the supervision of the commission and the council, the chancellor and the state superintendent shall establish a four-year pilot program whereby eligible institutions shall offer dual enrollment courses that will comprise individualized pathways for career and post-secondary educational opportunities for the state's secondary school students. These students shall be enrolled in eligible courses leading to careers in certain designated career pathways, namely direct care health professions; information technology; science, technology, engineering, and math (STEM) fields; education; advanced manufacturing; welding and fabrication; construction; agriculture; and any other program that meets a workforce need in the state as determined by the Department of Commerce.

(c) Funding. – From appropriations to the commission and the council for the purposes of implementing and administering the dual enrollment pilot program established in this section, the commission or the council, as appropriate, shall pay directly to the eligible institutions from such appropriations the cost of the tuition and academic fees incurred by

eligible students taking dual credit courses in accordance with the dual enrollment pilot program established in this section.

(d) Rulemaking. - In consultation with the state board, the commission and council may propose legislative and emergency rules pursuant to §29A-3A-1 et seq. of this code to implement the provisions of this section.

(e) Annual reports. - By December 1, 2024, and annually thereafter for the duration of the pilot program, the chancellor shall report to the Legislative Oversight Commission on Education Accountability on:

not for the university as an institution, to make those judgements for themselves.

(d) Except as provided in subsection (e) of this section, a state institution of higher education or any employee of a state institution of higher education may not require a student or employee to take instruction in, or include in the curriculum of any required course, or require a statement or affirmation by any student or employee that the following concepts are factual and accurate or must be held as a belief of the student or employee:

- (7) Academic achievement, meritocracy, or traits such as a hard work ethic are racist or sexist or were created by members of a particular race, ethnic group, or sex to oppress members of another race, ethnic group, or sex.

(e) Nothing in subsection (d) of this section prohibits:

- (1) The discussion of those concepts in theory as part of an academic course if discussion of alternative theories is also included in the course;
- (2) The discussion, examination, and debate that race, ethnicity, or sex has impacted historical or current events, including the causes of those current or historical events; and
- (3) The right to freedom of speech protected by the First Amendment of the United States Constitution and the West Virginia Constitution.

(f) Each campus shall report to the Higher Education Policy Commission or the Council for Community and Technical College Education, as applicable, a description of any violations of this section. The description shall include the nature of each incident, as well as what disciplinary action, if any, was taken against members of the campus community determined to be responsible for those specific incidents of violation and shall be reported without
