# **WEST VIRGINIA CODE CHAPTER 18c**

*WV Legislature*

**§18C-1-1. Legislative findings; purpose; administration generally; reporting.**

(a) The Legislature makes the following findings:

(1) Although enrollments in institutions of higher education in this state and throughout the nation continue to increase at a rapid pace, West Virginia has not developed sufficiently the state's human talent and resources because many able, but needy, students are not able to finance a higher education program;

(2) The state can achieve its full economic and social potential only when the following elements are in place:

(A) Every individual has the opportunity to contribute to the full extent of his or her capability; and

(B) The state assists in removing financial barriers to the individual's education goals that remain after he or she has used all resources and work opportunities available;

(b) The ultimate state goal in providing student financial aid is to create a culture that values education, to improve the quality of the workforce, and to enhance the quality of life for the citizens of West Virginia.

(c) The vice chancellor for administration has a ministerial duty to administer, oversee, and monitor all state and federal student financial aid programs administered at the state level in accordance with established rules under the direction of the commission and council and in consultation with the Higher Education Student Financial Aid Advisory Board.

(d) These programs include, but are not limited to, the following programs:

(1) The Guaranteed Student Loan Program, which may be administered by a private nonprofit agency;

(2) The Medical Student Loan Program;

(3) The Underwood-Smith Teacher Scholarship Program;

(4) The Engineering, Science and Technology Scholarship Program;

(5) The West Virginia Higher Education Grant Program;

(6) The Higher Education Adult Part-Time Student Grant Program;

(7) The West Virginia Providing Real Opportunities for Maximizing In-State Student Excellence (PROMISE) Scholarship Program;

(8) The Higher Education Student Assistance Loan Program established pursuant to §18-22D-1 *et seq.* of this code;

(9) The West Virginia College Prepaid Tuition and Savings Program established pursuant to §18-30-1 *et seq.* of this code, which is administered by the State Treasurer;

(10) The state aid programs for students of optometry, pursuant to §18C-3-1 *et seq.* of this code;

(11) The state aid programs for students of veterinary medicine pursuant to §18-11-6a of this code;

(12) Any reciprocal program and contract program for student aid established pursuant to §18B-4-3 and §18B-4-4 of this code;

(13) Any other state-level student aid programs in this code; and

(14) Any federal grant or contract student assistance or support programs administered at the state level.

(e) Notwithstanding any provision of this code to the contrary, the qualifications for state financial aid are separate and apart from the requirements for federal financial aid, and the inability of a student to complete the Free Application for Federal Student Aid (FAFSA) because of extenuating family circumstances, as determined by the vice chancellor for administration in consultation with the student's high school, shall not affect the student's eligibility for state financial aid. This provision in no way determines the student's compliance with federal rules or eligibility relating to federal student financial aid programs.

(f) The vice chancellor for administration shall publish comprehensive data to the official websites of the commission and council regarding the implementation of the financial aid programs identified in subsection (d) of this section which are administered under his or her supervision, including data regarding how many students had to avail themselves of the provisions of subsection (e) above. A concise summary report shall be provided to the commission and the council and shall be presented to the Legislative Oversight Commission on Education Accountability no later than January 1 annually. The report shall address all financial aid issues for which reports are required in this code, as well as any findings and recommendations.

**§18C-1-2. Definitions.**

Definitions for terms used in this chapter have the meanings ascribed to them in section two, article one, chapter eighteen-b of this code unless the context clearly indicates a different meaning:

(a) "Board" or "governing board" in the singular or plural means the vice chancellor for administration employed pursuant to section two, article four, chapter eighteen-b of this code when a power or duty assigned to a governing board is delegated by it to the senior administrator. In other instances as used in this chapter, "board" or "governing board" in the singular or plural means the Higher Education Policy Commission or the Council for Community and Technical College Education, as appropriate.

(b) "Senior administrator" means the vice chancellor for administration employed pursuant to section two, article four, chapter eighteen-b of this code.

**§18C-1-3. Additional legislative findings; purpose of financial aid programs.**

(a) Legislative findings:

- (1) Education attainment is inextricably linked to economic development, and, in the current global economy, the state is competing not only with other states, but also with other countries;
- (2) The federal government no longer funds student financial aid as generously as it has in the past. Therefore, the state must commit to increase both access and affordability to higher education opportunities for its citizens;
- (3) In recent years the state has substantially increased appropriations to both merit-based and need-based student financial aid programs;
- (4) The ultimate state goal in providing student financial aid is to create a culture that values education and improves the quality of the state's workforce, thereby enhancing the quality of life for its citizens;
- (5) The state can provide a successful system of student financial aid only by balancing the needs of students from all levels of financial need and academic ability;
- (6) A comprehensive system of student financial aid will yield the maximum return on the state's investment by increasing the skills, qualifications and education achievement of citizens from all backgrounds; and
- (7) Sources of student financial aid can be distinguished as providing either access or affordability to higher education opportunities;
- (8) Access refers to a student's financial ability to pursue post-secondary education. Affordability refers a student's freedom to choose where to attend college based on available resources;
- (9) West Virginia is committed to making post-secondary education both accessible and affordable for its citizens. To this end, it is essential that the state provide multiple financial aid programs which accomplish different goals;

(b) Purposes of financial aid programs:

- (1) The West Virginia Higher Education Grant Program is a need-based program that provides funding primarily to traditional college-age students who do not have sufficient financial resources to attempt post-secondary education. This grant program is a vitally important source of financial assistance for needy residents of the state and should continue to receive strong financial support.
- (2) The HEAPS Grant Program is a need-based program that provides funding primarily to

nontraditional college students, including:

(A) Adult students who desire to pursue post-secondary education on a part-time basis and who do not qualify for other forms of financial assistance;

(B) Place-bound students, often parents employed full-time, who require evening and weekend access to college courses; and

(C) Individuals pursuing workforce training or skill development training necessary to enter the job market quickly.

(3) The Underwood-Smith Teacher Scholarship Program is a merit-based program that encourages students who have demonstrated outstanding academic abilities to pursue teaching careers. This program serves to meet West Virginia's statewide, geographic and discipline-specific needs for highly qualified teachers.

(4) The West Virginia Engineering, Science and Technology Scholarship Program is a merit-based program that encourages talented students to pursue baccalaureate degrees in engineering, science and technology-related disciplines. This program serves to increase the size and quality of the pool of individuals pursuing careers in engineering, science and technology-related fields.

(5) The PROMISE Scholarship Program is a merit-based program that enhances student achievement by encouraging high school students to work harder to attain the necessary grades and test scores to qualify for a PROMISE scholarship and provides an incentive for the most capable students to attend college in the state. PROMISE provides affordability to traditional college-age students.

(c) An appropriate blend of student financial aid programs provides the state with the necessary tools to educate its citizenry for a broad range of economic opportunities:

(1) Without proper funding for need-based programs, lower income students may not be able to realize their full potential; (2) Adults may not obtain the training they need to compete in the current and future job market;

(3) High-achieving students may not pursue rigorous courses in high school or attend college in West Virginia, all of which contribute to devaluing post-secondary education and perpetuating the culture of educational underachievement; and

(4) The state must continue to strive to support equally the need-based and merit-based student financial aid programs.

**§18C-1-4. Eligibility of commuting students and children of military personnel for state funded student financial aid, grants and scholarships.**

(a) Notwithstanding any other provision of this code or rule to the contrary, a student who attended a public or private high school outside the state is eligible for state funded student financial aid, grants and scholarships if:

(1) The student meets all other eligibility requirements for the aid, grant or scholarship; and

(2) The student resided in West Virginia while attending high school in another state, and:

(A) The student resided with his or her parent or legal guardian who:

(i) Was a resident of this state; and

(ii) Had been a resident of this state for at least two years immediately preceding the student's attendance at the school;

(B) The student commuted during the school term on a daily basis from this state to the school;

(C) The student is a dependent of the parent or legal guardian upon which eligibility is based;

(D) The student has not established domicile outside the state; and

(E) At the discretion of the state Superintendent of Schools, as defined in section one, article one, chapter eighteen of this code:

(i) The school is fully accredited in that state to the degree acceptable to the state Superintendent of Schools; and

(ii) The school's curriculum requirements for graduation are equivalent to the curriculum requirements for graduation in this state, or sufficiently similar to those requirements, as determined by the state Superintendent of Schools; or

(3) The student resided and attended high school in another state or a United States territory, United States possession or foreign country and:

(A) The student resided with his or her parent or legal guardian; and

(B) The student's parent or legal guardian:

(i) Served in the United States Armed Forces while the student attended high school in such state, territory, possession or country;

(ii) Was stationed for military purposes in such state, territory, possession or country; and

(iii) Maintained legal residence in West Virginia while stationed in such state, territory, possession or country.

(b) This section does not alter, amend or extend any application deadlines or other requirements established by law or policy.

When a governing board acquires any such contingent interest, it may require the payment to it of a portion of the interest payable upon any such obligation. In each such acquisition, the governing board shall provide that at such time as the obligation becomes delinquent, the bank or other lending institution shall notify the governing board forthwith and shall transfer forthwith to the governing board, by assignment or otherwise, an interest in such obligation equal to the contingent interest of the governing board therein. (c) Program awards shall be in an amount set by the Higher Education Policy Commission of at least \$20,000 for medical and dental students and at least \$10,000 for all others and may be awarded by the Vice Chancellor for Health Sciences, with the advice of an advisory panel, from the pool of all applicants with a commitment to practice in an underserved area of West Virginia. This section does not grant or guarantee any applicant any right to a program award.

(d) A program award recipient who fails to practice in an underserved area of West Virginia within six months of the completion of his or her training, or who fails to complete his or her training or required teaching, is in breach of contract and is liable for repayment of the program award and any accrued interest. (C) A participant must direct each award received toward the repayment of his or her educational loans.

(2) There is created a special revenue fund account under the Higher Education Policy Commission in the State Treasury known as the Mental Health Provider Student Loan Repayment Fund. (c) The commission shall administer a scholarship, designated the Nursing Scholarship Program, designed to benefit nurses who practice in hospitals and other health care institutions in West Virginia or teach in state nursing programs.

(B) An award of up to \$3,000 is available for a student in a licensed practical nurse education program. A recipient is required to practice nursing in West Virginia for one year following program completion.

**§18C-3-5. Nonresident Medical Student Tuition Regularization Program.**

(a) The Legislature finds as follows:

- (1) There is a critical need for additional primary care physicians practicing in West Virginia;
- (2) West Virginia has an aging population and an increasing need for recruiting primary care physicians, and placing primary care physicians in rural areas of the state;
- (3) West Virginia has a historically low retention rate of state resident medical students following graduation;
- (4) Efforts by the medical schools in West Virginia to increase class sizes as a means of increasing the number of physicians practicing in the state have been largely ineffective;
- (5) The primary care field of practice yields a lower wage than other medical specialties and maintains an extreme shortage of practicing physicians, particularly in rural areas of the state;
- (6) The high cost of nonresident medical education tuition, and resulting high level of debt incurred by students, often prohibit nonresident graduates who remain in the state from entering a primary care practice;
- (7) Many nonresident medical students in West Virginia have indicated that they would be willing to remain in the state as a practicing physician if it was affordable;
- (8) A waiver of the state resident to nonresident tuition rate differential would offset the significant student debt load incurred by nonresident medical school graduates;
- (9) Beginning a medical practice with up to four years committed to practicing medicine in a specific area has a strong likelihood of influencing a nonresident medical school graduate to remain in that area following the service commitment;
- (10) Investing resources, developing professional networks, and creating community ties all serve to create permanent connections to an area for an individual who is not originally from that area; and
- (11) Attracting practicing physicians to rural and medically underserved areas of the state will further attract related health care professionals that support a medical practice or facility and will expand the economic and job-growth potential of such areas.

(b) It is the purpose of this section to offer nonresident medical students a partial tuition waiver as a means of recruiting practicing physicians to underserved areas, and to primary care and practitioner shortage fields in West Virginia.

(c) There is created the Nonresident Medical Student Tuition Regularization Program to be

administered by the Vice Chancellor for Health Sciences in cooperation with the deans of the three medical schools in the state.

(1) Four nonresident medical students from each medical school in the state are selected annually to participate in the program subject to the exception provided in subsection (f) of this section.

(2) Each student selected is charged the state resident tuition rate for each academic year he or she is enrolled in the program and has the cost differential between the resident and nonresident rates waived by the institution at which he or she is enrolled.

(3) For each academic year that a medical student participates in the program, he or she shall commit to render services for one calendar year as a medical doctor or a doctor of osteopathy in this state in a medically underserved area and in a primary care or specialty practice or field in which there is a shortage of physicians, as determined by the Division of Health at the time the application for the program is submitted. The service commitment begins within six months after graduation from an accredited residency program.

(4) Once selected to participate in the program, a student may continue in the program for as long as he or she continues to meet the eligibility criteria in subsection (d) of this section, for a maximum of four academic years.

(d) An individual is eligible for enrollment or continuation in the program if he or she meets the following criteria:

(1) Is enrolled or accepted for enrollment at the West Virginia University School of Medicine, the Marshall University School of Medicine, or the West Virginia School of Osteopathic Medicine in a program leading to the degree of Medical Doctor (M.D.) or Doctor of Osteopathy (D.O.);

(2) Has not yet received one of the degrees provided in subdivision (1) of this subsection;

(3) Satisfies the academic standards established by the program rule;

(4) Is not in default of any previous student loan;

(5) Is a nonresident student who is charged nonresident tuition rates;

(6) Commits to render services for one calendar year as a Medical Doctor or a Doctor of Osteopathy in this state in a medically underserved area and in a primary care or specialty practice or field in which there is a shortage of physicians for each academic year for which he or she participates in the program;

(7) Submits to the commission:

(A) An application for enrollment in the program as provided by the commission; and

(B) A sworn statement of commitment to service on a form provided by the commission for that purpose; and

(8) Other criteria as established by the program rule.

(e) (1) A program participant violates the service commitment if he or she:

(A) Fails to render services as a Medical Doctor or Doctor of Osteopathy in accordance with the sworn statement he or she submitted to the commission. This includes failure to begin serving within six months of completing an accredited residency program, or failure to complete each one-year term to which he or she committed to serve; or

(B) Fails to complete or remain enrolled in the medical education program for which he or she obtained the tuition waiver.

(2) A program participant who violates the service commitment is subject to the following:

(A) He or she shall repay the amount of nonresident tuition charges waived plus interest at a rate of five percent per annum;

(B) The granting or renewal of a license to practice medicine in West Virginia or to reciprocal licensure in another state based upon licensure in West Virginia is contingent upon commencing payment and continuing payment until full repayment of the obligation if the recipient fails to complete the required practice commitment. A license, renewal, or reciprocity may not be granted to an individual whose repayments are in arrears. The West Virginia Board of Medicine shall inform all other states where a recipient has reciprocated based upon West Virginia licensure of any refusal to renew licensure in West Virginia as a result of failure to repay the tuition amount.

(f) The commission shall develop policy to provide for:

(1) A method for selecting annually the 12 new students to be enrolled in the program, with priority consideration to applicants in the earliest academic years of the medical education program;

(2) A method for selecting greater or fewer than four participants from a single medical school in any year where four suitable applicants are not available at each school;

(3) A method for the applicant to select the service area and specialty to which he or she commits to practice medicine;

(4) A method for developing a mutually agreeable modification to the terms of a participant's service commitment regarding the medically underserved area and primary care or specialty practice or field in which he or she committed to serve under circumstances where the Division of Health determines at the time the participant's service commitment is scheduled to commence that the area is no longer medically underserved or that primary care or

service specialty is no longer experiencing a physician shortage;

(5) Provisions for enforcing sanctions against a participant who fails to satisfy the service commitment; and

(6) Such other provisions as the commission considers necessary to administer the program.

(g) There is continued in the State Treasury a special revenue account to be designated the Nonresident Medical Student Tuition Regularization Fund which is an interest-bearing account that may be invested and retain all earnings. Expenditures from the fund shall be for the purposes set forth in this section and are to be made only in accordance with appropriation by the Legislature and in accordance with §11B-2-1 *et seq.* of this code.

**§18C-4-1. Underwood-Smith Teaching Scholars Program Fund created; purposes; funding; effective date.**

The fund shall be administered by the Vice Chancellor for Administration solely for granting scholarships and loan repayment assistance to teachers and prospective teachers in accordance with this article and §18C-4A-1 et seq. of this code. Any moneys which may be appropriated by the Legislature, or received by the Vice Chancellor for Administration from other sources, for the purposes of this article and §18C-4A-1 et seq. of this code shall be deposited in the fund. (f) For the purpose of encouraging support for the scholarship and loan repayment assistance programs from private sources, the Vice Chancellor for Administration may set aside no more than half of the funds appropriated by the Legislature for Underwood-Smith Teaching Scholars Program and loan repayment assistance awards to be used to match two state dollars to each private dollar from a nonstate source contributed on behalf of a specific institution of higher education in this state.

(g) In recognition of the high academic achievement necessary to receive an award under this article, each recipient shall be distinguished as an "Underwood-Smith Teaching Scholar" in a manner befitting the distinction as determined by the commission.

(h) Notwithstanding the provisions of subsection (d) of this section, and §18C-4A-3 of this code:

(1) Moneys in the Underwood-Smith Teaching Scholars Program Fund may be used to satisfy loan repayment assistance agreements pursuant to §18C-4A-1 et seq. of this code and any renewals for which a recipient would be eligible pursuant to the prior enactment of §18C-4A-1 et seq. of this code for any student who is receiving such loan repayment assistance or fulfilling the requirements of an agreement on the effective date of this section;

(2) Moneys in the Underwood-Smith Teaching Scholars Program Fund may be used to fund Underwood-Smith teacher scholarships, and any renewals for which a recipient would be

**§18C-7-1. Title.**

This article shall be known and may be cited as the "West Virginia providing real opportunities for maximizing in-state student excellence (PROMISE) scholarship program".

WV Legislature

**§18C-7-2. Legislative findings and purpose.**

(a) The Legislature finds and declares that:

(1) West Virginia must have an educated work force in order to attract and retain the high wage, high skill jobs of the twenty-first century;

(2) A large percentage of West Virginia residents who graduate from the state's colleges and universities do not work in the state following graduation;

(3) The percentage of West Virginia's adult population over the age of twenty-five with at least a baccalaureate degree is less than fifteen percent and does not compare favorably with the member states of the Southern Regional Education Board average nor with the national average of twenty-five percent;

(4) Higher levels of education attainment result in higher levels of personal income over a lifetime;

(5) Students who acquire a baccalaureate degree will earn an estimated \$1 million more over their lifetimes than those who attain only a high school diploma. This translates into an increased tax base and economic development for West Virginia and more discretionary income for its citizens;

(6) Students at all education levels should have an incentive to perform at a high academic level;

(7) There is a need to provide parents with all tools possible to aid them in helping their children understand the importance of high academic achievement in high school and college;

(8) The PROMISE Scholarship Program is highly successful and should be maintained with merit as its strongest component. The merit component:

(A) Provides an incentive for students to set high academic standards in high school;

(B) Encourages students to increase their high school achievement levels;

(C) Encourages students to enroll in more rigorous courses;

(D) Effects a culture change in West Virginia towards increased education attainment;

(E) Results in improved ACT scores in the state since the inception of the program; and

(F) Influences increased numbers of students, including those students who are the highest academic achievers, to remain in West Virginia to attend college.

(b) It is the purpose of this article to continue the West Virginia PROMISE Scholarship

Program to deal effectively with the findings set forth in this section.

(c) Nothing in this article guarantees:

(1) A PROMISE scholarship award or any specific amount of a PROMISE scholarship award to any student; or

(2) That the requirements necessary for a student to qualify for a PROMISE scholarship will not be changed by legislation or rule before the student is eligible to receive an award.

**§18C-9-1. Short title.**

This article shall be known and may be cited as the WV Invests Grant Program.

WV Legislature

**§18C-9-2. Legislative findings and purpose.**

(a) The Legislature hereby finds and declares that:

(1) Every West Virginian should have access to education and training that will lead directly to quality employment opportunities within the state. In order for West Virginia to retain and attract business and industry, it must ensure that its workforce has such education and training;

(2) West Virginia currently faces a human capital crisis, as the state regularly ranks amongst the lowest states in the nation in workforce participation rates. Improving the state's workforce participation rates and the level of the workforce's career education is critical to economic development and making West Virginia a more prosperous state;

(3) The 2017 West Virginia Forward Report, a strategy for economic development and job growth, found that "investments in improving human capital are considered the most significant opportunity for improvement in West Virginia, especially because access to a specialized workforce is a significant factor for investment attraction...";

(4) According to the United States Department of Labor's Bureau of Labor Statistics, the median yearly earnings of an individual with an associate's degree is approximately \$6,604 more than an individual with only a high school diploma. Therefore, any investment by the state into a citizen obtaining such a degree would be repaid multiple times over through the citizen's increased contributions to the economy and tax base;

(5) West Virginia is currently facing a devastating drug epidemic, and the hope that comes with increased access to career education and higher quality employment opportunities is an indispensable tool against the spread of drug addiction; and

(6) An investment by the state into increasing access to post-secondary career education will provide its citizens the hope and opportunity for better career opportunities, and provide the state with the trained workforce needed to attract significant economic development.

(b) The purpose of this article is to provide West Virginians with hope and economic prosperity by increasing access to a higher level of career education that is needed to fulfill the needs of today's workforce and provide for further economic development.
