(b) The commissioner is authorized to conduct apiary education in a manner which advances and promotes bee culture in West Virginia.

(c) The commissioner is authorized to cooperate with the federal government and its agencies, departments and instrumentalities; other West Virginia agencies, departments, divisions, or political subdivisions; and any other state or commonwealth and its agencies, departments or political subdivisions, in order to carry out the effective administration of this article.

(d) The commissioner is authorized to stop the delivery of, to seize, to destroy, to treat or to order returned to point of origin, at the owner's expense, all appliances, bees, bee equipment, bee products or hives transported into or within this state, found to be infected with honey bee pests regardless of whether a valid certificate of inspection is attached.

§19-13-4. Registration of bees; identification of apiaries; limitation on liability.

(a) All persons keeping bees in this state shall apply for a certificate of registration for beekeeping from the commissioner, within ten days of the date that bees are acquired, by notifying the commissioner, in writing, of the number and location of colonies they own or rent, or which they keep for someone else, whether the bees are located on their own property or someone else's property. All apiary certificates of registration expire on June 30 of each year and must be renewed annually. Apiary certificates of registration issued in 2017 will be valid through June 30, 2018.

(b) All persons owning or operating an apiary which is not located on their own property must post the name and address of the owner or operator in a conspicuous place in the apiary.

(c) A person who:

(1) Owns and operates an apiary;

(2) Is registered with the commissioner; and

(3) Operates the apiary in a reasonable manner and in conformance with the West Virginia Department of Agriculture's written best management practices provided by rule, is not liable for any personal injury or property damage that occurs in connection with the keeping and maintaining of bees, bee equipment, queen breeding equipment, apiaries and appliances. The limitation of liability established by this section does not apply to intentional tortious conduct or acts or omissions constituting gross negligence.

(d) The commissioner shall promulgate legislative rules in accordance with article three, chapter twenty-nine-a of this code regarding the best management standards for the operation of apiaries. The limitation on liability contained in subsection (c) shall not take effect until legislative rules are promulgated in accordance with article three, chapter twenty-nine-a of this code.

§19-13-5. Right of entry; apiary inspections; quarantines.

(a) During reasonable working hours, the commissioner may enter upon any premises to access any apiary for the purpose of inspecting or sampling. No person shall obstruct or hinder the commissioner in the discharge of his or her duties.

(b) The commissioner shall inspect, as practicable, all colonies of honey bees domiciled within the State of West Virginia. If any honey bee pest is found in the apiary, the commissioner shall immediately notify, in writing, the owner or operator stating the type of honey bee pest and whether it may be successfully treated or not.

In cases where the honey bee pest is subject to treatment, the commissioner shall specify and direct the necessary treatment, which will be administered by the owner or operator, within fourteen days of the date of notice. If not treated, the colonies contained in the apiary in which the honey bee pests are found shall be depopulated without remuneration to the owner. All bee hives and related bee equipment found in any diseased apiary shall be destroyed, sterilized or treated in a manner approved by and under the direction of the commissioner.

(c) All apiaries producing queens, packaged bees or nuclei colonies for distribution shall be inspected each year. If honey bee pests are found in the apiary, the commissioner shall immediately notify, in writing, the owner or operator, and thereafter it shall be unlawful for the owner or operator to ship, sell or give away any queen bees, appliances, packaged bees, full colonies or nuclei colonies from the apiary until the honey bee pests have been controlled to the satisfaction of the commissioner.

(d) The commissioner shall quarantine all apiaries, bees, bee equipment, bee products, appliances and premises infected by honey bee pests. The notice of quarantine shall specify the name of the honey bee pest, the premises or apiary quarantined, bee equipment, bee products and appliances regulated and all conditions governing movement. The commissioner may adopt other orders to prevent the introduction of or to contain the spread of honey bee pests that are capable of being transported by bees, appliances or bee equipment. The order shall set forth the conditions governing the movement of the regulated items.

The commissioner shall rescind, in writing, quarantines and other orders when he or she determines the need no longer exists.

§19-13-6. Abandoned apiaries and equipment; notice.

It shall be unlawful for a person to knowingly maintain an abandoned apiary or bee equipment. When the commissioner determines that an apiary or bee equipment has been abandoned, he or she shall notify, in writing, the owner or operator that the apiary or bee equipment has been declared abandoned. The owner or operator has thirty days from the date of notice to enclose, dispose of or destroy the abandoned apiary or bee equipment in a manner approved by the commissioner. If the owner or operator of the abandoned apiary or bee equipment cannot be located after reasonable inquiry, notice shall be provided to the owner of the real property on which the apiary or bee equipment is located. If the apiary or bee equipment continues to be abandoned for a period of thirty days thereafter, the commissioner may seize the apiary or bee equipment and take such action as is necessary to dispose of or to destroy the apiary or bee equipment as conditions warrant.

§19-13-7. Bees brought into state to carry inspection certificate; commissioner to be notified; interstate movement of bees.

(a) It shall be unlawful for any person to transport bees, used bee equipment or used appliances into West Virginia, unless accompanied by a certificate of inspection signed by an authorized state or federal inspection official verifying the actual inspection of the bees, used bee equipment or used appliances within thirty days preceding the date of shipment and certifying the absence of honey bee pests.

(b) Prior to the movement of any bees, used bee equipment or used appliances into West Virginia, and as a prerequisite to the issuance of a permit of entry, the commissioner shall be furnished by the owner, transporter, or operator the following:

- (1) The exact location or destination of the bees, used bee equipment or used appliances.
- (2) Name and address of the owner of the property where the bees, used bee equipment or used appliances will be located.
- (3) The exact number of colonies or amount of used bee equipment or used appliances in the shipment.
- (4) A copy of the inspection certificate issued by the state or federal inspector.

The commissioner shall issue a temporary or permanent permit of entry. A temporary permit may not exceed sixty days.

If the commissioner denies the request for an entry permit, he or she shall notify the owner, operator or transporter of the denial and the reasons therefor.
