WV Legislature

§19-1B-2. Legislative findings, intent and purpose of article.

The Legislature hereby finds that some activities associated with the commercial harvesting of timber results in the exposure of soil and that, if uncontrolled, such exposed soil can erode resulting in gullying, soil slippages and sediment deposition in streams.

It is the policy of this state to strengthen and extend the present sediment control activities of this state by implementing operator licensing, logger certification and logging operations notification programs through the Division of Forestry.

(b) "Chief" means the Director of the Division of Water and Waste Management of the Department of Environmental Protection, or his or her designee.

(c) "Director" means the Director of the Division of Forestry of the Department of Commerce or his or her designee.

(d) "Operator" means any person who conducts timbering operations.

(e) "Timbering operation," or the plural, means activities directly related to the severing or removal of standing trees from the forest as a raw material for commercial processes or purposes. (f) "Sediment" means solid particulate matter, usually soil or minute rock fragments, moved by wind, rainfall or snowmelt into the streams of the state.
