

WEST VIRGINIA CODE: §21-3C-6

§21-3C-6. Report of inspection; hearing on construction plans and specifications; findings and orders of division.

(a) The division shall propose rules for legislative approval in accordance with article three, chapter twenty-nine-a of this code, prescribing inspection procedures and reporting requirements.

(b) Each inspector shall submit a complete report of each inspection made of an elevator to the division and to the county or municipality in which the elevator is located.

(c)(1) The inspection report shall list all changes or repairs required to be made for the safe operation of the elevator. A copy of the report as approved by the division shall be submitted to the owner or operator of the elevator. Unless the findings in the report are appealed, the owner or operator of the elevator shall make the required changes or repairs before a certificate of operation is issued.

(2) The owner or operator, within twenty days from receipt of the copy of an inspection report, may make written application to the division, upon forms to be furnished by the division, for a hearing on the inspection report including the issue of whether the elevator in question is reasonably safe. The division shall promptly consider the submitted application.

(3) If it appears from the evidence that the elevator will be reasonably safe to operate without the recommended changes or repairs set forth in the report or by making only a part of the recommended changes or repairs, the division shall make its finding and order accordingly. If the finding and order require changes or repairs to be made to the elevator, the division may not issue a certificate of operation until the elevator owner has complied with the order or the division issues its approval of the change or repair plans or specifications. If the finding and order of the division has been affirmed or modified by appeal, on the grounds of reasonable safety considered by the division, the division shall, upon the owner or operator's compliance with the order, issue the certificate of operation, but if the finding and order of the division has been vacated, the certificate of operation shall be issued immediately.

(4) An elevator owner adversely affected by a finding and order of the division, is entitled to judicial review of the finding and order in accordance with the provisions of section four, article five, chapter twenty-nine-a of this code.

(d) No elevator may be operated after being inspected without having the certificate of operation conspicuously posted except during the period a hearing on the issuance of the certificate of operation is pending.
