WEST VIRGINIA CODE: §22-11-9

§22-11-9. Form of application for permit; information required.

The chief shall prescribe a form of application for all permits for any activity specified in section eight of this article and, notwithstanding any other provision of law to the contrary, no other discharge permit or discharge authorization from any other state department, agency, commission, board or officer is required for such activity except that which is required from the office of miners' health, safety and training pursuant to section seventy-six, article two, chapter twenty-two-a of this code. All applications must be submitted on a form as prescribed above. An applicant shall furnish all information reasonably required by any such form, including without limiting the generality of the foregoing, a plan of maintenance and proposed method of operation of the activity or activities. Until all such required information is furnished, an application is not a complete application. The division shall protect any information (other than effluent data) contained in such permit application form, or other records, reports or plans as confidential upon a showing by any person that such information, if made public, would divulge methods or processes entitled to protection as trade secrets of such person. If, however, the information being considered for confidential treatment is contained in a national pollutant discharge elimination form, the chief or board shall forward such information to the regional administrator of the United States environmental protection agency for concurrence in any determination of confidentiality.
