

# WEST VIRGINIA CODE: §22-18-3

## §22-18-3. Definitions.

Unless the context in which used clearly requires a different meaning, as used in this article:

- (1) "Director" means the director of the Division of Environmental Protection or such other person to whom the director has delegated authority or duties pursuant to sections six or eight, article one of this chapter;
- (2) "Disposal" means the discharge, deposit, injection, dumping, spilling, leaking or placing of any hazardous waste into or on any land or water so that such hazardous waste or any constituent thereof may enter the environment or be emitted into the air, or discharged into any waters, including groundwaters;
- (3) "Division" means the Division of Environmental Protection;
- (4) "Generation" means the act or process of producing hazardous waste materials;
- (5) "Hazardous and Solid Waste Amendments of 1984" means the federal Hazardous and Solid Waste Amendments of 1984 (P.L. 98-616) amending the Resource Conservation and Recovery Act;
- (6) "Hazardous waste" means a waste or combination of wastes, which because of its quantity, concentration or physical, chemical or infectious characteristics, may: (A) Cause, or significantly contribute to, an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness; or (B) pose a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported, disposed of or otherwise managed;
- (7) "Hazardous waste fuel" means fuel produced from any hazardous waste identified or listed pursuant to subdivision (2), subsection (a), section six of this article, or produced from any hazardous waste identified or listed pursuant to section six;
- (8) "Hazardous waste management" means the systematic control of the collection, source separation, storage, transportation, processing, treatment, recovery and disposal of hazardous wastes;
- (9) "Land disposal" means any placement of hazardous waste in a landfill, surface impoundment, waste pile, injection well, land treatment facility, salt dome formation, salt bed formation, or underground mine or cave;
- (10) "Manifest" means the form used for identifying the quantity, composition and the origin, routing and destination of hazardous waste during its transportation from the point of generation to the point of disposal, treatment or storage;

(11) "Person" means any individual, trust, firm, joint stock company, public, private or government corporation, partnership, association, state or federal agency, the United States government, this state or any other state, municipality, county commission or any other political subdivision of a state or any interstate body;

(12) "Resource Conservation and Recovery Act" means the federal Resource Conservation and Recovery Act of 1976, 90 Stat. 2806, as amended;

(13) "Storage" means the containment of hazardous waste, either on a temporary basis or for a period of years, in such a manner as not to constitute disposal of such hazardous waste;

(14) "Subtitle C" means Subtitle C of the Resource Conservation and Recovery Act;

(15) "Treatment" means any method, technique or process, including neutralization, designed to change the physical, chemical or biological character or composition of any hazardous waste so as to neutralize such waste or so as to render such waste nonhazardous, safer for transport, amenable to recovery, amenable to storage or reduced in volume. Such term includes any activity or processing designed to change the physical form or chemical composition of hazardous waste so as to render it nonhazardous;

(16) "Waste" means any garbage, refuse, sludge from a waste treatment plant, water supply treatment plant or air pollution control facility and other discarded material including solid, liquid, semisolid or contained gaseous material resulting from industrial, commercial, mining and agricultural operations and from community activities, but does not include solid or dissolved material in domestic sewage, or solid or dissolved materials in irrigation return flows or industrial discharges which are point sources subject to permits under Section 402 of the federal Water Pollution Control Act, as amended, or source, special nuclear or by-product material as defined by the federal Atomic Energy Act of 1954, as amended.
