§22-33-1. Short title.

This article shall be known and cited as the Geothermal Resources Act.

WV Legislature

§22-33-2. Legislative findings; declaration of policy.

(a) The Legislature finds that:

(1) A geothermal resource is a reservoir inside the Earth from which heat can be extracted economically compared to other conventional sources of energy and used for generating electric power or any other suitable industrial, commercial, agricultural, residential, or domestic application in the future;

(2) Geothermal resources vary widely from one location to another depending on the temperature and depth of the resource; and

(3) The secretary should have broad authority to develop a regulatory program for geothermal resources to meet the economic needs of the state and to protect the public interest.

(b) The Legislature declares that the establishment of a new regulatory program to address the exploration, development, and production of geothermal resources in this state is in the public interest and should be done in a manner that protects the environment and our economy for current and future generations.

§22-33-3. Applicability; exceptions.

The provisions of this article shall apply to geothermal resources at temperatures and volumetric flow rates established by the secretary by legislative rule: *Provided*, That this article shall not apply to geothermal heating and cooling heat pump systems for private residential dwellings and farm buildings and any geothermal system regulated pursuant to section 10 of the Bureau of Public Health legislative rule for Water Well Design Standards, 64 CSR 46 or any horizontal system with a depth of less than 30 feet.

§22-33-4. Ownership of geothermal resources.

- (a) Ownership of any geothermal resource is vested in the owner of the surface property overlying the geothermal resource unless severance of the geothermal resource is clear and unambiguous in an instrument conveying or reserving ownership of the geothermal resource.
- (b) No mineral or water estate shall be construed to include any geothermal resource unless clearly and unambiguously included in an instrument reserving or conveying the geothermal resource.
- (c) Nothing in this article shall divest any person or the state of any right, title, or interest they might have in any geothermal resource.
- (d) Nothing in this article may be construed as vesting in the secretary the jurisdiction to adjudicate property rights disputes.
