

WEST VIRGINIA CODE: §24-3-1

§24-3-1. Adequate facilities; safety appliances; reasonable rates; railroad switch connections; discontinuing service.

Every public utility subject to this chapter shall establish and maintain adequate and suitable facilities, safety appliances or other suitable devices, and shall perform such service in respect thereto as shall be reasonable, safe and sufficient for the security and convenience of the public, and the safety and comfort of its employees, and in all respects just and fair, and without any unjust discrimination or preference. All charges, tolls and rates shall be just and reasonable, and no change shall be made in any tariffs, rates, joint rates, tolls, schedules or classifications except as herein provided. Every railroad shall permit switch connections for intrastate business to be made with its tracks at suitable and safe points by other carriers or shippers, upon such terms and conditions as the commission may prescribe, whenever, in the judgment of the commission, the business to be offered by the connecting company of shipper justifies it. Every railroad and other transportation company may be required by the commission to establish and maintain such suitable public service facilities and conveniences as may be reasonable and just, to make reasonable connections with trains on branch lines of such railroads and with all connecting railroad lines; to require any passenger trains to stop at junctions or intersections with other railroads; and may prescribe the number of men required to constitute safe crews for the handling of trains on any railroad in this state or any division of any such railroad. No railroad or other public utility shall discontinue any regular passenger train, or other public service facility, or change any regular passenger train schedule or timetable, without first obtaining authority from the commission so to do, unless the same be done under uniform rules and regulations filed by such railroad or public utility with the Public Service Commission and approved by said commission.
