
WEST VIRGINIA CODE CHAPTER 29
ARTICLE 22A

WV Legislature

§29-22A-1. Short title.

This article shall be known and may be cited as the "Racetrack Video Lottery Act."

WV Legislature

§29-22A-2. Legislative findings and declarations.

(a) The Legislature finds and declares that the limited video lottery games authorized by this article are "lotteries" as that term is commonly understood and as that term is used in West Virginia Constitution, article VI, section thirty-six, the video lottery games authorized by this article being lottery games which utilize advanced computer technology; and that the Constitution grants to the Legislature the authority to establish, by general law, the manner of regulation, control, ownership and operation of lottery games in the State of West Virginia.

(b) The Legislature further finds and declares that the state can control, own and operate a video lottery by possessing a proprietary interest in the main logic boards, all erasable, programmable read-only memory chips used in any video lottery equipment or games, and software consisting of computer programs, documentation and other related materials necessary for the video lottery system to be operated. The state may acquire a proprietary interest in video lottery game software, for purposes of this article, through outright ownership or through an exclusive product license agreement with a manufacturer whereby the manufacturer retains copyrighted ownership of the software but the license granted to the state is nontransferable and authorizes the state to run the software program, solely for its own use, on the state's central equipment unit and electronic video terminals networked to the central equipment unit.

(c) The Legislature further finds and declares that the state can control and regulate a video lottery if the state limits licensure to a limited number of video lottery facilities located at qualified horse or dog racetracks, extends strict and exclusive state regulation to all persons, locations, practices and associations related to the operation of licensed video lottery facilities, and provides comprehensive law enforcement supervision of video lottery activities.

(d) The Legislature further finds and declares that since the public has an interest in video lottery operations and since lottery operations conducted pursuant to West Virginia Constitution, article VI, section thirty-six, and under this article represent an exception to the general statutory policy of the state concerning wagering for private gain, participation in a video lottery by a licensee or permittee under this article shall be deemed a privilege conditioned upon the proper and continued qualification of the licensee or permittee and upon the discharge of the affirmative responsibility of each licensee to provide to the regulatory and investigatory authorities established by this article any assistance and information necessary to assure that the policies declared by this article are achieved. Consistent with this policy, it is the intent of this article to preclude the creation of any property right in any license or permit issued by the state under this article, the accrual of any value to the privilege of participation in any video lottery operation, or the transfer of any license or permit, and to require that participation in video lottery operations be solely conditioned upon the individual qualifications of persons seeking such privilege.

(e) The purpose of this article is to define and provide specific standards for the operation of

video lottery games at pari-mutuel racing facilities licensed by the state Racing Commission pursuant to article twenty-three, chapter nineteen of this code. The Legislature finds and declares that the existing pari-mutuel racing facilities in West Virginia provide a valuable tourism resource for this state and provide significant economic benefits to the citizens of this state through the provision of jobs and the generation of state revenues; that this valuable tourism resource is threatened because of a general decline in the racing industry and because of increasing competition from racing facilities and lottery products offered by neighboring states; and that the survival of West Virginia's pari-mutuel racing industry is in jeopardy unless modern lottery games are authorized at the racetracks.

§29-22A-4. Video lottery games authorized.

The state Lottery Commission is authorized to implement and operate video lottery games at pari-mutuel racing facilities in this state in accordance with the provisions of this article and the applicable provisions of article twenty-two of this chapter. The provisions of article twenty-two of this chapter apply to this article, except in the event of conflict or inconsistency between any of the provisions of this article and the provisions of article twenty-two of this chapter. In that event, the provisions of this article shall supersede any conflicting or inconsistent provisions contained in article twenty-two of this chapter.

§29-22A-5. Video lottery terminal requirements; application for approval of a video lottery terminal; testing of video lottery terminals; report of test results; modifications to previously approved models; conformity to prototype; seizure and destruction of terminals.

(a) Video lottery terminals registered with and approved by the commission for use at licensed racetracks may offer video lottery games regulated, controlled, and owned and operated by the commission in accordance with the provisions of this section: Provided, That the Secretary of State shall post on the secretary's website that the rules for video lottery games that have been approved by the commission are available for review at the office of the commission and provide relevant contact information.

(b) A manufacturer may not sell or lease a video lottery terminal for placement at a licensed racetrack in this state unless the terminal has been approved by the commission. Only manufacturers with permits may apply for approval of a video lottery terminal or associated equipment. The manufacturer shall submit two copies of terminal illustrations, schematics, block diagrams, circuit analysis, technical and operation manuals, and any other information requested by the commission for the purpose of analyzing and testing the video lottery terminal or associated equipment.

(c) The commission may require that two working models of a video lottery terminal be transported to the location designated by the commission for testing, examination, and analysis.

(1) The manufacturer shall pay all costs of testing, examination, analysis, and transportation of such video lottery terminal models. The testing, examination, and analysis of any video lottery terminal model may require dismantling of the terminal and some tests may result in damage or destruction to one or more electronic components of such terminal model. The commission may require that the manufacturer provide specialized equipment or pay for the services of an independent technical expert to test the terminal.

(2) The manufacturer shall pay the cost of transportation of two video lottery terminals to lottery headquarters. The commission shall conduct an acceptance test to determine terminal functions and central system compatibility. If the video lottery terminal fails the acceptance test conducted by the commission, the manufacturer shall make all modifications required by the commission.

(d) After each test has been completed, the commission shall provide the terminal manufacturer with a report containing findings, conclusions, and pass/fail results. The report may contain recommendations for video lottery terminal modification to bring the terminal into compliance with the provisions of this article. Prior to approving a particular terminal model, the commission may require a trial period not in excess of 60 days for a licensed racetrack to test the terminal. During the trial period, the manufacturer may not make any modifications to the terminal model unless such modifications are approved by the

commission.

(e) The video lottery terminal manufacturer and licensed racetrack are jointly responsible for the assembly and installation of all video lottery terminals and associated equipment. The manufacturer and licensed racetrack shall not change the assembly or operational functions of a terminal licensed for placement in West Virginia unless a request for modification of an existing video terminal prototype is approved by the commission. The request must contain a detailed description of the type of change, the reasons for the change, and technical documentation of the change.

(f) Each video lottery terminal approved for placement at a licensed racetrack must conform to the exact specifications of the video lottery terminal prototype tested and approved by the commission. If any video lottery terminal or any video lottery terminal modification, which has not been approved by the commission, is supplied by a manufacturer and operated by a licensed racetrack, the commission shall seize and destroy all of that licensed racetrack's and manufacturer's noncomplying video lottery terminals and shall suspend the license and permit of the licensed racetrack and manufacturer.

§29-22A-6. Video lottery terminal hardware and software requirements; hardware specifications; software requirements for randomness testing; software requirements for percentage payout; software requirements for continuation of video lottery game after malfunction; software requirements for play transaction records.

(a) The commission may approve video lottery terminals and in doing so shall take into account advancements in computer technology, competition from nearby states and the preservation of jobs in the West Virginia pari-mutuel racing industry. In approving video lottery terminals licensed for placement in this state, the commission shall ensure that the terminals meet the following hardware specifications:

- (1) Electrical and mechanical parts and design principles may not subject a player to physical hazards or injury.
- (2) A surge protector shall be installed on the electrical power supply line to each video lottery terminal. A battery or equivalent power back-up for the electronic meters shall be capable of maintaining accuracy of all accounting records and terminal status reports for a period of one hundred eighty days after power is disconnected from the terminal. The power back-up device shall be located within the locked logic board compartment of the video lottery terminal.
- (3) An on/off switch which controls the electrical current used in the operation of the terminal shall be located in an accessible place within the interior of the video lottery terminal.
- (4) The operation of each video lottery terminal may not be adversely affected by any static discharge or other electromagnetic interference.
- (5) A minimum of one electronic or mechanical coin acceptor or other means accurately and efficiently to establish credits shall be installed on each video lottery terminal. Each video lottery terminal may also contain bill acceptors for any legal United States currency. All coin and bill acceptors shall be approved by the commission prior to use on any video lottery terminal in this state.
- (6) Access to the interior of a video lottery terminal shall be controlled through a series of locks and seals.
- (7) The main logic boards and all erasable programmable read-only memory chips (EPROMS) are considered to be owned by the commission and shall be located in a separate locked and sealed area within the video lottery terminal.
- (8) The cash compartment shall be located in a separate locked area within or attached to the video lottery terminal.
- (9) No hardware switches, jumpers, wire posts or any other means of manipulation may be

installed which alter the pay tables or payout percentages in the operation of a game. Hardware switches on a video lottery terminal to control the terminal's graphic routines, speed of play, sound and other purely cosmetic features may be approved by the commission.

(10) Each video lottery terminal shall contain a single printing mechanism capable of printing an original ticket and retaining an exact legible copy within the video lottery terminal or other means of capturing and retaining an electronic copy of the ticket data as approved by the commission: Provided, That such printing mechanism is optional on any video lottery terminal which is designed and equipped exclusively for coin or token payouts. The following information shall be recorded on the ticket when credits accrued on a video lottery terminal are redeemed for cash:

- (i) The number of credits accrued;
- (ii) Value of the credits in dollars and cents displayed in both numeric and written form;
- (iii) Time of day and date;
- (iv) Validation number; and
- (v) Any other information required by the commission.

(11) A permanently installed and affixed identification plate shall appear on the exterior of each video lottery terminal and the following information shall be on the plate:

- (i) Manufacturer of the video lottery terminal;
- (ii) Serial number of the terminal; and
- (iii) Model number of the terminal.

(12) The rules of play for each game shall be displayed on the video lottery terminal face or screen. The commission may reject any rules of play which are incomplete, confusing, misleading or inconsistent with game rules approved by the commission. For each video lottery game there shall be a display detailing the credits awarded for the occurrence of each possible winning combination of numbers or symbols. A video lottery terminal may allow the amounts of minimum and maximum wagers on a single game to be determined by licensee or permit holder in the exercise of its business judgment subject to the approval of the commission. All information required by this subdivision shall be displayed under glass or another transparent substance. No stickers or other removable devices shall be placed on the video lottery terminal screen or face without the prior approval of the commission.

(13) Communication equipment and devices shall be installed to enable each video lottery terminal to communicate with the commission's central computer system by use of a communications protocol provided by the commission to each permitted manufacturer,

which protocol shall include information retrieval and terminal activation and disable programs, and the commission may require each licensed racetrack to pay the cost of a central site computer as a part of the licensing requirement.

(14) All video lottery terminals shall have a security system which temporarily disables the gaming function of the terminal while opened.

(b) Each video lottery terminal shall have a random number generator to determine randomly the occurrence of each specific symbol or number used in video lottery games. A selection process is random if it meets the following statistical criteria:

(1) Chi-square test. -- Each symbol or number shall satisfy the ninety-nine percent confidence level using the standard chi-square statistical analysis of the difference between the expected result and the observed result.

(2) Runs test. -- Each symbol or number may not produce a significant statistic with regard to producing patterns of occurrences. Each symbol or number is random if it meets the ninety-nine percent confidence level with regard to the runs test for the existence of recurring patterns within a set of data.

(3) Correlation test. -- Each pair of symbols or numbers is random if it meets the ninety-nine percent confidence level using standard correlation analysis to determine whether each symbol or number is independently chosen without regard to another symbol or number within a single game play.

(4) Serial correlation test. -- Each symbol or number is random if it meets the ninety-nine percent confidence level using standard serial correlation analysis to determine whether each symbol or number is independently chosen without reference to the same symbol or number in a previous game.

(c) Each video lottery terminal shall meet the following maximum and minimum theoretical percentage payout during the expected lifetime of the terminal:

(1) Video lottery games shall pay out no less than eighty percent and no more than ninety-five percent of the amount wagered. The theoretical payout percentage will be determined using standard methods of probability theory.

(2) Manufacturers must file a request and receive approval from the commission prior to manufacturing for placement in this state video lottery terminals programmed for a payout greater than ninety-two percent of the amount wagered. Commission approval shall be obtained prior to applying for testing of the high payout terminals.

(3) Each terminal shall have a probability greater than one in seventeen million of obtaining the maximum payout for each play.

(d) Each video lottery terminal shall be capable of continuing the current game with all

current game features after a video lottery terminal malfunction is cleared. If a video lottery terminal is rendered totally inoperable during game play, the current wager and all credits appearing on the video lottery terminal screen prior to the malfunction shall be returned to the player.

(e) Each video lottery terminal shall at all times maintain electronic accounting regardless of whether the terminal is being supplied with electrical power. Each meter shall be capable of maintaining a total of no less than eight digits in length for each type of data required. The electronic meters shall record the following information:

- (1) Number of coins inserted by players or the coin equivalent if a bill acceptor is being used or tokens or vouchers are used;
- (2) Number of credits wagered;
- (3) Number of total credits, coins and tokens won;
- (4) Number of credits paid out by a printed ticket;
- (5) Number of coins or tokens won, if applicable;
- (6) Number of times the logic area was accessed;
- (7) Number of times the cash door was accessed;
- (8) Number of credits wagered in the current game;
- (9) Number of credits won in the last complete video lottery game; and
- (10) Number of cumulative credits representing money inserted by a player and credits for video lottery games won but not collected.

(f) No video lottery terminal may have any mechanism which allows the electronic accounting meters to clear automatically. Electronic accounting meters may not be cleared without the prior approval of the commission. Both before and after any electronic accounting meter is cleared, all meter readings shall be recorded in the presence of a commission employee.

(g) The primary responsibility for the control and regulation of any video lottery games and video lottery terminals operated pursuant to this article rests with the commission.

(h) The commission shall, directly or through a contract with a third-party vendor other than the video lottery licensee, maintain a central site system of monitoring the lottery terminals utilizing an on-line or dial-up inquiry. The central site system shall be capable of monitoring the operation of each video lottery game or video lottery terminal operating pursuant to this article and, at the direction of the director, immediately disable and cause not to operate any

video lottery game and video lottery terminal. As provided in this section, the commission may require the licensed racetrack to pay the cost of a central site computer as part of the licensing requirement.

§29-22A-7. License and permit qualifications; individual qualifications; applicant required to furnish information; waiver of liability; oath or affirmation; duty to provide accurate and material information.

(a) No video lottery license or permit may be granted unless the commission has determined that the applicant satisfies all of the following qualifications:

(1) An applicant for a video lottery license must hold a valid racing license granted by the West Virginia Racing Commission under provisions of §19-23-1 *et seq.* of this code.

(2) An applicant must be a person of good character and integrity.

(3) An applicant must be a person whose background, including criminal record, reputation, and associations, does not pose a threat to the security and integrity of the lottery or to the public interest of the state. All new applicants for licenses and permits issued by the commission shall furnish fingerprints for a national criminal records check by the Criminal Identification Bureau of the West Virginia State Police and the Federal Bureau of Investigation. The fingerprints shall be furnished by all persons required to be named in the application and shall be accompanied by a signed authorization for the release of information by the Criminal Investigation Bureau and the Federal Bureau of Investigation. The commission may require any applicant seeking the renewal of a license or permit to furnish fingerprints for a national criminal records check by the Criminal Identification Bureau of the West Virginia State Police and the Federal Bureau of Investigation: *Provided*, That the Lottery Commission shall apply §29-22A-7(g) and §29-22A-7(h) of this code in determining whether an applicant's prior criminal convictions bear a rational nexus to the license or permit being sought.

(4) An applicant must be a person who demonstrates the business ability and experience necessary to establish, operate, and maintain the business for which a video lottery license or permit application is made.

(5) An applicant must be a person who has secured adequate financing for the business for which a video lottery license or permit application is made. The commission shall determine whether financing is from a source which meets the qualifications of this section and is adequate to support the successful performance of the duties and responsibilities of the licensed racetrack or permit holder. An applicant for a video lottery license shall disclose all financing or refinancing arrangements for the purchase, lease, or other acquisition of video lottery terminals and associated equipment in the degree of detail requested by the commission. A licensed racetrack shall request commission approval of any change in financing or lease arrangements at least 30 days before the effective date of the change.

(6) A racetrack applying for a video lottery license or a license renewal must present to the commission evidence of the existence of an agreement, regarding the proceeds from video lottery terminals, between the applicant and the representative of a majority of the horse owners and trainers, the representative of a majority of the pari-mutuel clerks and the

representative of a majority of the breeders or the representative of a majority of the kennel owners for the applicable racetrack who hold permits required by §19-23-2 of this code.

(7) A racetrack applying for a video lottery license or a license renewal must file with the commission a copy of any current or proposed agreement between the applicant and any manufacturer for the sale, lease, or other assignment to the racetrack of video lottery terminals, the electronic computer components of the terminals, the random number generator of the terminals, or the cabinet in which it is housed. Once filed with the commission, the agreement is a public document subject to the provisions of §29B-1-1 *et seq.* of this code.

(b) No video lottery license or permit may be granted to an applicant until the commission determines that each person who has control of the applicant meets all applicable qualifications of subsection (a) of this section. The following persons are considered to have control of an applicant:

(1) Each person associated with a corporate applicant, including any corporate holding company, parent company, or subsidiary company of the applicant, but not including a bank or other licensed lending institution which holds a mortgage or other lien acquired in the ordinary course of business, who has the ability to control the activities of the corporate applicant or elect a majority of the board of directors of that corporation.

(2) Each person associated with a noncorporate applicant who directly or indirectly holds any beneficial or proprietary interest in the applicant or whom the commission determines to have the ability to control the applicant.

(3) Key personnel of an applicant, including any executive, employee or agent, having the power to exercise significant influence over decisions concerning any part of the applicant's business operation.

(c) Applicants must furnish all information, including financial data and documents, certifications, consents, waivers, individual history forms, and other materials requested by the commission for purposes of determining qualifications for a license or permit. No video lottery license or permit may be granted to an applicant who fails to provide information and documentation requested by the commission. The burden of proving qualification for any video lottery license or permit is on the applicant.

(d) Each applicant bears all risks of adverse public notice, embarrassment, criticism, damages, or financial loss which may result from any disclosure or publication of any material or information obtained by the commission pursuant to action on an application. The applicant shall, as a part of its application, expressly waive any and all claims against the commission, the State of West Virginia and the employees of either for damages as a result of any background investigation, disclosure, or publication relating to an application for a video lottery license or permit.

(e) All application, registration, and disclosure forms and other documents submitted to the commission by or on behalf of the applicant for purposes of determining qualification for a video lottery license or permit shall be sworn to or affirmed before an officer qualified to administer oaths.

(f) An applicant who knowingly fails to reveal any fact material to qualification or who knowingly submits false or misleading material information is ineligible for a video lottery license or permit.

(g) The Lottery Commission may not disqualify an applicant from an initial license or permit because of a prior criminal conviction that remains unreversed unless that conviction is for a crime that bears a rational nexus to the activity requiring a license or permit. In determining whether a criminal conviction bears a rational nexus to a profession or occupation, the Lottery Commission shall consider at a minimum:

- (1) The nature and seriousness of the crime for which the individual was convicted;
- (2) The passage of time since the commission of the crime;
- (3) The relationship of the crime to the ability, capacity, and fitness required to perform the duties and discharge the responsibilities of the profession or occupation; and
- (4) Any evidence of rehabilitation or treatment undertaken by the individual.

(h) Notwithstanding any other provision of this code to the contrary, if an applicant is disqualified from a license or permit because of a prior criminal conviction, the Lottery Commission shall permit the applicant to apply for an initial license or permit if:

- (1) A period of five years has elapsed from the date of conviction or the date of release from incarceration, whichever is later;
- (2) The individual has not been convicted of any other crime during the period of time following the disqualifying offense; and
- (3) The conviction was not for an offense of a violent or sexual nature: *Provided*, That a conviction for an offense of a violent or sexual nature may subject an individual to a longer period of disqualification from a license or permit, to be determined by the Lottery Commission.

(i) An individual with a criminal record who has not previously applied for a license or permit may petition the Lottery Commission at any time for a determination of whether the individual's criminal record will disqualify the individual from obtaining a license or permit. This petition shall include sufficient details about the individual's criminal record to enable the Lottery Commission to identify the jurisdiction where the conviction occurred, the date of the conviction, and the specific nature of the conviction. The Lottery Commission shall provide the determination within 60 days of receiving the petition from the applicant. The

Lottery Commission may charge a fee to recoup its costs for each petition.

WV Legislature

§29-22A-8. Form of application; local option elections; issuance of license; notice of incomplete application; notice of license or permit denial, suspension or revocation; procedure for review of license or permit denial, suspension or revocation; fees, renewal fees and renewal dates; bonding; renewal of licenses and permits; notice of change affecting license or permit; license or permit not transferrable or assignable.

(a) The commission shall determine the form of applications to be used and shall not consider incomplete applications. The commission may consider an application when the applicant has completed and executed all forms and documents required by the commission and all application fees and costs have been paid.

(b) The question of whether video lottery games shall be permitted at pari-mutuel racetracks shall be determined by local option election in each county in which a pari-mutuel racetrack is located. The local option election on this question may be placed on the ballot in each county at any general election. The county commission of the county in which the racetrack is located shall give notice to the public of the election by publication of the notice as a Class II-0 legal advertisement in compliance with the provisions of article three, chapter fifty-nine of this code, and the publication area for the publication shall be the county in which the election is to be held. The date of the last publication of the notice shall fall on a date within the period of the fourteen consecutive days next preceding the election.

On the local option election ballot shall be printed the following:

Shall West Virginia Lottery Commission video lottery games be permitted within an area at the [name of racetrack] in which pari-mutuel betting is authorized by law?

[] Yes [] No

(Place a cross mark in the square opposite your choice.)

The ballots shall be counted, returns made and canvassed as in general elections, and the results certified by the commissioners of election to the county commission. The county commission shall, without delay, certify the result of the election to the commission.

(c) Upon receipt of the results of the election from the county commission, and if a majority has voted "yes", the commission shall issue the requested license if the applicant is otherwise qualified for the license. If a majority has voted "no", the commission shall notify the applicant of the results, the application shall be denied, and another election on the issue shall not be held for a period of two years: Provided, That for purposes of this section, the term "two years" means the interval between a general election and the next general election, and in no event shall it mean or encompass a period of time in excess of one hundred four weeks. If a majority has voted "yes", another local option election on the issue shall not be held for a period of five years. A local option election may thereafter be held if a written petition of qualified voters residing within the county equal to at least five percent of

the number of persons who were registered to vote in the next preceding general election is received by the county commission of the county in which the horse or dog racetrack is located. The petition may be in any number of counterparts.

The petition shall be in the following form:

Petition For Local Option Election

(e) The commission shall notify the applicant if an application is incomplete and the notification shall state the deficiencies in the application.

(f) The commission shall notify applicants in writing of the denial, suspension or revocation of a permit or license and the reasons for the denial, suspension or revocation in accordance with the provisions of section fifteen of this article.

(g) An applicant may request a hearing to review a license or permit denial, suspension or revocation in accordance with section fifteen of this article.

(h) The following license or permit fees shall be paid annually by each licensed racetrack, or permitted manufacturer, service technician, floor attendant or validation manager:

WV Legislature

§29-22A-10. Accounting and reporting; commission to provide communications protocol data; distribution of net terminal income; remittance through electronic transfer of funds; establishment of accounts and nonpayment penalties; commission control of accounting for net terminal income; settlement of accounts; manual reporting and payment may be required; request for reports; examination of accounts and records.

(a) The commission shall provide to manufacturers, or applicants applying for a manufacturer's permit, the protocol documentation data necessary to enable the respective manufacturer's video lottery terminals to communicate with the commission's central computer for transmitting auditing program information and for activation and disabling of video lottery terminals.

(b) The gross terminal income of a licensed racetrack shall be remitted to the commission through the electronic transfer of funds. Licensed racetracks shall furnish to the commission all information and bank authorizations required to facilitate the timely transfer of moneys to the commission. Licensed racetracks must provide the commission 30 days' advance notice of any proposed account changes in order to assure the uninterrupted electronic transfer of funds. From the gross terminal income remitted by the licensee to the commission:

(1) The commission shall deduct an amount sufficient to reimburse the commission for its actual costs and expenses incurred in administering racetrack video lottery at the licensed racetrack and the resulting amount after the deduction is the net terminal income. The amount deducted for administrative costs and expenses of the commission may not exceed four percent of gross terminal income: *Provided*, That any amounts deducted by the commission for its actual costs and expenses that exceeds its actual costs and expenses shall be deposited into the State Lottery Fund. For the fiscal years ending June 30, 2011 through June 30, 2030, the term "actual costs and expenses" may include transfers of up to \$9 million in surplus allocations for each fiscal year, as calculated by the commission when it has closed its books for the fiscal year, to the Licensed Racetrack Modernization Fund created by subdivision (2), of this subsection. For all fiscal years beginning on or after July 1, 2001, the commission shall not receive an amount of gross terminal income in excess of the amount of gross terminal income received during the fiscal year ending on June 30, 2001, but four percent of any amount of gross terminal income received in excess of the amount of gross terminal income received during the fiscal year ending on June 30, 2001, shall be deposited into the fund established in §29-22-18a of this code; and

(2) A Licensed Racetrack Modernization Fund is created within the lottery fund. For all fiscal years beginning on or after July 1, 2011, and ending with the fiscal year beginning July 1, 2030, the commission shall deposit such amounts as are available according to subdivision (1) of this subsection into a separate facility modernization account maintained within the Licensed Racetrack Modernization Fund for each racetrack. Each racetrack's share of each year's deposit shall be calculated in the same ratio as each racetrack's apportioned contribution to the four percent administrative costs and expenses allowance provided for in subdivision (1) of this subsection for that year. For each \$2 expended by a licensed racetrack

for facility modernization improvements or capital improvements at facilities located in this state that are on or contiguous to the premises of the licensed racetrack, having a useful life of three or more years and placed in service after July 1, 2011, the licensed racetrack shall receive \$1 in recoupment from its facility modernization account. If the licensed racetrack's facility modernization account contains a balance in any fiscal year, the unexpended balance from that fiscal year will be available for matching for one additional fiscal year, after which time, the remaining unused balance carried forward shall revert to the lottery fund. For purposes of this section, the term "facility modernization improvements" includes acquisitions of new and unused video lottery terminals and related equipment, and the term "capital improvements" means real property that is expected to replace or modernize buildings, equipment, machinery and other tangible property used in connection with the operation of the gaming, hospitality, or entertainment at the facility. Video lottery terminals financed through the recoupment provided in this subdivision must be retained by the licensee in its West Virginia licensed location for a period of not less than five years from the date of initial installation.

(c) The amount resulting after the deductions required by subsection (b) of this section constitutes net terminal income that shall be divided as set out in this subsection. For all fiscal years beginning on or after July 1, 2001, any amount of net terminal income received in excess of the amount of net terminal income received during the fiscal year ending on June 30, 2001, shall be divided as set out in §29-22A-10b of this code. The licensed racetrack's share is in lieu of all lottery agent commissions and is considered to cover all costs and expenses required to be expended by the licensed racetrack in connection with video lottery operations. The division shall be made as follows:

(1) The commission shall receive 30 percent of net terminal income, which shall be paid into the State Lottery Fund as provided in §29-22A-10a of this code;

(2) Until July 1, 2005, 14 percent of net terminal income at a licensed racetrack shall be deposited in the special fund established by the licensee, and used for payment of regular purses in addition to other amounts provided for in §19-23-1 *et seq.* of this code, on and after July 1, 2005, the rate shall be seven percent of net terminal income;

(3) The county where the video lottery terminals are located shall receive two percent of the net terminal income: *Provided, That:*

(A) Beginning July 1, 1999, and thereafter, any amount in excess of the two percent received during the fiscal year 1999 by a county in which a racetrack is located that has participated in the West Virginia Thoroughbred Development Fund since on or before January 1, 1999, shall be divided as follows:

(i) The county shall receive 50 percent of the excess amount; and

(ii) The municipality shall receive 50 percent of the excess amount; and

(C) In a county in which a racetrack other than a racetrack described in paragraphs (A) or (B) of this subdivision is located and where the racetrack has been located within that county since on or before January 1, 1999, and where the racetrack is not located in a municipality, the two percent of net terminal income shall be divided, if applicable, as follows:

(i) The county shall receive one percent; and

(ii) The remaining one percent shall be distributed in equal shares to all municipalities within the county. Per capita population has no effect on distributions under this paragraph;

(4) One percent of net terminal income shall be paid for and on behalf of all employees of the licensed racing association by making a deposit into a special fund to be established by the Racing Commission to be used for payment into the pension plan for all employees of the licensed racing association;

(6) The West Virginia Racing Commission shall receive one percent of the net terminal income which shall be deposited and used as provided in §19-23-13c of this code;

(7) A licensee shall receive 46 and one-half percent of net terminal income;

(8)(A) The Tourism Promotion Fund established in §5B-2-12 of this code shall receive three percent of the net terminal income: *Provided*, That for the fiscal year beginning July 1, 2003, the tourism commission shall transfer from the Tourism Promotion Fund \$5 million of the three percent of the net terminal income described in this section and §29-22A-10b of this code into the fund administered by the West Virginia Economic Development Authority pursuant to §31-15-7 of this code, \$5 million into the Capitol Renovation and Improvement Fund administered by the Department of Administration pursuant to §5A-4-6 of this code, and \$5 million into the Tax Reduction and Federal Funding Increased Compliance Fund; and

(B) Notwithstanding any provision of paragraph (A) of this subdivision to the contrary, for each fiscal year beginning after June 30, 2004, this three percent of net terminal income and the three percent of net terminal income described in §29-22a-10b(a)(8)(B) of this code shall be distributed as provided in this paragraph as follows:

(B) The deposit of the seven percent of net terminal income into the Workers' Compensation Debt Reduction Fund pursuant to this subdivision shall expire and not be imposed with respect to these funds and shall be deposited in the special fund established by the licensee and used for payment of regular purses in addition to the other amounts provided in §19-23-1 *et seq.* of this code on and after the first day of the month following the month in which the Governor certifies to the Legislature that: (i) The revenue bonds issued pursuant to §23-2D-1 *et seq.* of this code have been retired or payment of the debt service provided for; and (ii) that an independent certified actuary has determined that the unfunded liability of the old fund, as defined in chapter 23 of this code, has been paid or provided for in its entirety; and

(10) The remaining one percent of net terminal income shall be deposited as follows:

(A) For the fiscal year beginning July 1, 2003, the Veterans Memorial Program shall receive one percent of the net terminal income until sufficient moneys have been received to complete the veterans memorial on the grounds of the State Capitol Complex in Charleston, West Virginia. The moneys shall be deposited in the State Treasury in the Division of Culture and History special fund created pursuant to §29-11-3 of this code: *Provided*, That only after sufficient moneys have been deposited in the fund to complete the veterans memorial and to pay in full the annual bonded indebtedness on the veterans memorial, not more than \$20,000 of the one percent of net terminal income provided in this subdivision shall be deposited into a special revenue fund in the State Treasury, to be known as the John F. 'Jack' Bennett Fund. The moneys in this fund shall be expended by the Division of Veterans Affairs to provide for the placement of markers for the graves of veterans in perpetual cemeteries in this state. The Division of Veterans Affairs shall promulgate legislative rules pursuant to the provisions of §29-3-1 *et seq.* of this code specifying the manner in which the funds are spent, determine the ability of the surviving spouse to pay for the placement of the marker and setting forth the standards to be used to determine the priority in which the veterans' grave markers will be placed in the event that there are not sufficient funds to complete the placement of veterans' grave markers in any one year, or at all. Upon payment in full of the bonded indebtedness on the veterans memorial, \$100,000 of the one percent of net terminal income provided in this subdivision shall be deposited in the special fund in the Division of Culture and History created pursuant to §29-11-3 of this code and be expended by the Division of Culture and History to establish a West Virginia veterans memorial archives within the Cultural Center to serve as a repository for the documents and records pertaining to the veterans memorial, to restore and maintain the monuments and memorial on the capitol grounds: *Provided, however*, That \$500,000 of the one percent of net terminal income shall be deposited in the State Treasury in a special fund of the Department of Administration, created pursuant to §5A-4-5 of this code, to be used for construction and maintenance of a parking garage on the State Capitol Complex; and the remainder of the one percent of net terminal income shall be deposited in equal amounts in the Capitol Dome and Improvements Fund created pursuant to §5A-4-2 of this code and Cultural Facilities and Capitol Resources Matching Grant Program Fund created pursuant to §29-1-3 of this code.

the Capitol Dome and Capitol Improvements Fund.

(d) Each licensed racetrack shall maintain in its account an amount equal to or greater than the gross terminal income from its operation of video lottery machines, to be electronically transferred by the commission on dates established by the commission. Upon a licensed racetrack's failure to maintain this balance, the commission may disable all of a licensed racetrack's video lottery terminals until full payment of all amounts due is made. Interest shall accrue on any unpaid balance at a rate consistent with the amount charged for state income tax delinquency pursuant to chapter 11 of this code. The interest shall begin to accrue on the date payment is due to the commission.

The commission shall prepare and mail to the licensed racetrack a statement reflecting the gross terminal income generated by the licensee's video lottery terminals. Each licensed racetrack shall report to the commission any discrepancies between the commission's statement and each terminal's mechanical and electronic meter readings. The licensed racetrack is solely responsible for resolving income discrepancies between actual money collected and the amount shown on the accounting meters or on the commission's billing statement.

(f) Until an accounting discrepancy is resolved in favor of the licensed racetrack, the commission may make no credit adjustments. For any video lottery terminal reflecting a discrepancy, the licensed racetrack shall submit to the commission the maintenance log which includes current mechanical meter readings and the audit ticket which contains electronic meter readings generated by the terminal's software. If the meter readings and the commission's records cannot be reconciled, final disposition of the matter shall be determined by the commission. Any accounting discrepancies which cannot be otherwise resolved shall be resolved in favor of the commission.

(g) Licensed racetracks shall remit payment by mail if the electronic transfer of funds is not operational or the commission notifies licensed racetracks that remittance by this method is required. The licensed racetracks shall report an amount equal to the total amount of cash inserted into each video lottery terminal operated by a licensee, minus the total value of game credits which are cleared from the video lottery terminal in exchange for winning redemption tickets, and remit the amount as generated from its terminals during the reporting period. The remittance shall be sealed in a properly addressed and stamped envelope and deposited in the United States mail no later than noon on the day when the payment would otherwise be completed through electronic funds transfer.

(h) Licensed racetracks may, upon request, receive additional reports of play transactions for their respective video lottery terminals and other marketing information not considered confidential by the commission. The commission may charge a reasonable fee for the cost of producing and mailing any report other than the billing statements.

(i) The commission has the right to examine all accounts, bank accounts, financial

statements, and records in a licensed racetrack's possession, under its control or in which it has an interest and the licensed racetrack shall authorize all third parties in possession or in control of the accounts or records to allow examination of any of those accounts or records by the commission.

(j) If a court of competent jurisdiction finds that the provisions of this section as amended and reenacted in 2021 and the provisions of §29-22A-10d of this code conflict and cannot be harmonized, the provisions of §29-22A-10d of this code shall control.
