

WEST VIRGINIA CODE: §29-22B-904

§29-22B-904. Security; access to the interior of video lottery terminals.

- (a) Access to the interior of video lottery terminals shall be controlled through a series of locks and seals.
- (b) The main logic boards and all erasable programmable read-only memory chips (EPROMS) are considered to be owned by the Lottery Commission and shall be located in a separate locked and sealed area within the video lottery terminal.
- (c) The cash compartment shall be located in a separate locked area within or attached to the video lottery terminal.
- (d) No hardware switches, jumpers, wire posts or any other means of manipulation may be installed which alter the pay tables or payout percentages in the operation of a game. Hardware switches on a video lottery terminal intended to control the terminal's graphic routines, speed of play, sound and other purely cosmetic features may not be used without the written approval of the commission.
- (e) All video lottery terminals shall have a security system which will temporarily disable the gaming function of the terminal while opened.
