"Sex" means the state of being either male or female as observed or clinically verified at birth. There are only two sexes, and every individual is either male or female: *Provided*, That individuals with congenital and medically verifiable "DSD conditions" (sometimes referred to as "differences in sex development", "disorders in sex development", or "intersex conditions") are not members of a third sex and must be accommodated consistent with state and federal law.

(b) An advanced practice registered nurse may not assist in providing gender reassignment surgery or provide gender altering medication to a person who is under 18 years of age.

 - (4) Any procedure undertaken because the individual suffers from a physical disorder, physical injury, or physical illness that would, as certified by a physician, place the person in imminent danger of death, or impairment of a major bodily function unless surgery is performed.
- (d) The provisions of this section are effective on August 1, 2025.
