
WEST VIRGINIA CODE CHAPTER 31
ARTICLE 15

WV Legislature

§31-15-1. Short title.

This article shall be known and may be cited as "The West Virginia Economic Development Authority Act."

WV Legislature

§31-15-2. Legislative findings.

It is hereby determined and declared as a matter of legislative finding: (a) That unemployment exists in many areas of the state and may well come about, from time to time, in other areas of the state; (b) that in some areas of the state, unemployment is a serious problem and has been for so long a period of time that, without remedial measures, it may become so in other areas of the state; (c) that economic insecurity due to unemployment is a serious menace to the health, safety, morals and general welfare of the people of the entire state; (d) that widespread industry unemployment produces indigency which falls with crushing force upon all unemployed workers and ultimately upon the state in the form of welfare and unemployment compensation; (e) that the absence of employment and business opportunities for youth is a serious threat to the strength and permanence of their faith in our American political and economic institutions and the philosophy of freedom on which those institutions are based; (f) that lack of employment and business opportunities has resulted in thousands of workers and their families leaving the state to find such opportunities elsewhere and that this exodus has adversely affected the tax base of counties and municipalities resulting in an impairment of their financial ability to support education and other local government services; (g) that security against unemployment and the spread of indigency and economic stagnation can best be provided by the promotion, attraction, stimulation, rehabilitation and revitalization of commerce, tourism, industry and manufacturing; (h) that the present and future health, safety, morals, right to gainful employment and general welfare of the people of the state require as a public purpose the promotion and development of new and expanded coal and other energy production, industrial, commercial, tourist and manufacturing enterprises within this state; (i) that the means and measures being authorized for the financing of projects, including the insuring of loans or other debt issued for working capital or the refinancing of existing debt of an enterprise, are, as a matter of public policy, for the public purposes of the several counties, municipalities and the state; (j) that the device under which private community industrial development organizations in the state acquire or build industrial buildings or sites and equip the same with funds raised through popular subscription, loans or otherwise for lease and sale to new or expanding industries has proven effective in creating new employment and business opportunities locally, is in accord with the American tradition of community initiative and enterprise and requires and deserves encouragement and support from the state as a means toward alleviation of unemployment and economic distress; (k) that community industrial development corporations in the state have invested substantial funds in successful coal production, industrial projects and are experiencing difficulty in undertaking additional projects by reason of the partial inadequacy of their own funds potentially available from local subscription sources and by reason of limitations of local financial institutions in providing additional and sufficiently sizable first deed of trust or mortgage loans or letters of credit and other forms of credit enhancement; (l) that minority business ownership, especially among African-Americans in the area of Charleston, West Virginia, is proportionately less than minority business ownership nationwide and statewide, the unemployment rate for African-Americans recently has been about twice the unemployment rate for caucasians and significantly higher in some counties with a greater

concentration of African-Americans and an urgent need exists to encourage African-Americans and minority business ownership and higher employment; (m) that an urgent need exists to stimulate a larger flow of private investment funds from banks, investment houses, insurance companies and other financial institutions into projects; (n) that by increasing the number of projects presenting attractive opportunities for private investment, a larger portion of the private capital available in this state for investment can be put to use for the general economic development of the state; (o) that the availability of financial assistance through the creation of an insurance fund will promote the economic development of the state; and that it is in the public interest, in order to address the needs aforesaid, that a state instrumentality be created as a public body corporate with full powers to accept grants, gifts and appropriations, to generate revenues, to borrow money and issue its bonds, notes, commercial paper, other debt instruments and security interests to the end that funds obtained thereby may be used to furnish money and credit to approved industrial development agencies or enterprises or to promote the establishment of new projects or to retain existing projects.

§31-15-3. Purposes of article.

The purposes of this article shall be to provide for the formation of a public economic development authority to promote, assist, encourage and, in conjunction with such banking corporations or institutions, trust companies, savings banks, building and loan associations, insurance companies or related corporations, partnerships, foundations, nonprofit organizations or other institutions, to develop and advance the business prosperity and economic welfare of the State of West Virginia; to encourage and assist in the location of new business and industry; to stimulate and assist in the expansion of all kinds of business activity which will tend to promote the business development and maintain the economic stability of this state, provide maximum opportunities for employment, encourage thrift and improve the standard of living of the citizens of this state; to cooperate and act in conjunction with other organizations, public or private, the objects of which are the promotion and advancement of industrial, commercial, tourist or manufacturing developments in this state; to borrow moneys and to issue its bonds, notes, commercial paper, other debt instruments and security interests as well as creating an insurance fund for credit enhancement purposes; to furnish money and credit or credit enhancement to approved industrial development agencies or enterprises in this state or for the promotion of new projects or to retain existing projects or to financially assist projects by insuring bonds, notes, loans and other instruments, including, but not limited to, the insuring of financing of working capital or the refinancing of existing debt of an enterprise, thereby establishing a source of credit and credit enhancement not otherwise available; to review state procurement policies and practices to assure that they meet federal and state requirements and that they effectively encourage meaningful participation of African-Americans and other minority persons in the process of competing for and awarding of state contracts for goods and services; to encourage the state to continue to support and expand small business incubator programs, including the program at institutions of higher education in the state; to encourage new and minority small business development; to undertake initiatives to encourage minority business ownership similar to those efforts used to encourage greater rates of business ownership among women; to assist community and economic development corporations to provide effective technical and business advisory services to minority-owned and -operated enterprises; to encourage industry, banks and other private businesses to hire African-Americans and other minority persons; to encourage governmental agencies and bodies and businesses to be more aggressive in establishing diversity-conscious practices as employers and for their operations; to enlist traditional and nontraditional lending institutions to be more creative and favorable to lending in minority communities and to minority persons, especially for business enterprises; to encourage small business start-up and expansion and provide funding to assist minority vendors to meet bid bonding requirements; and to encourage workforce investment boards to be accountable for educating poor and minority persons for jobs better than low-paying service jobs. These purposes are hereby declared to be public purposes for which public money may be spent and are purposes which will promote the health, safety, morals, right to gainful employment, business opportunities and general welfare of the inhabitants of the state.

WV Legislature

§31-15-6c. Neighborhood Housing and Economic Development Stabilization Program; authority to contract with Housing Development Fund; funding.

(a) It is hereby determined and declared, as a matter of legislative finding:

(1) Local housing initiatives offer a unique opportunity to revitalize and stimulate economic development in low income neighborhoods with high minority populations, which typically have high levels of unemployment and include a large number of distressed properties.

(2) Local housing initiatives may include, but are not limited to, demolition, rehabilitation, new construction, land purchases for development, affordable mortgage initiatives and related job training and community service activities.

(3) In order to promote a positive long-term economic impact on the community, an effective local housing initiative should include a job training component that is designed to provide additional educational and vocational job opportunities and foster the development of marketable skills among the people living within the targeted neighborhoods served by the program.

(4) If done as a part of a focused and coordinated effort, the rehabilitation or replacement of deteriorating residential properties or structures would enhance the value of other properties in the community and improve the overall quality of their neighborhood.

(5) A successful neighborhood revitalization and recovery program can attract new businesses and spur additional investment in the community.

(6) Using locally based or community based not-for-profit entities to spearhead local housing initiatives encourages the development of additional resources, leadership and administrative skills at a local level which, once in place, would continue to focus on the needs and revitalization of the targeted community, after the initial project is complete.

(7) It is reasonable and appropriate to establish a funding mechanism for selected qualifying entities to implement projects that are designed to revitalize and stimulate economic development in low income neighborhoods with relatively high minority populations.

(8) The effectiveness of the initial programs can best be assessed if significant funding is awarded to a limited number of qualifying programs serving targeted communities.

(9) The state would benefit from the development of a working model for stimulating economic development and neighborhood revitalization through local housing initiatives, so that it may be replicated in other parts of the state which have similar demographic and economic conditions.

(10) Substantial federal funds have been earmarked for housing stabilization and stimulating economic recovery, including but not limited to, housing rehabilitation, construction, upgrades and weatherization programs.

(b) There is hereby established within the Economic Development Authority the Neighborhood Housing and Economic Development Stabilization Program. The purpose of the program is to provide loans, grants and forgivable loans to support and carry out local economic development initiatives and locally designed housing initiatives in minority neighborhoods with low-income demographics in this state. Housing initiatives funded by this program may include, but are not limited to, demolition, rehabilitation, new construction, land purchases for development, affordable mortgage initiatives and related job training and community service activities.

(c) To accomplish these objectives and to administer and distribute the funds provided by the Legislature for this purpose, the Economic Development Authority is authorized to contract with the Housing Development Fund to administer the Neighborhood Housing and Economic Stabilization Program.

(d) Upon the effective date of this section, the Economic Development Authority shall, upon appropriation by the Legislature, transfer \$2.4 million from the Economic Development Project Bridge Loan Fund established in section eighteen-a, article twenty-two, chapter twenty-nine of this code to the Housing Development Fund. The fund will administer the program and distribute the funds to locally based West Virginia not-for-profit entities to operate local economic development initiatives and locally designed housing initiatives as described in this section. The project's funds shall be awarded through a statewide request for proposal solicitation issued by the Housing Development Fund, after requests for proposals have been reviewed and accepted by the authority.

(e) In awarding the funds, the Housing Development Fund shall give priority to proposals received from local not-for-profit organizations for low-income housing initiatives which include a job training component and promote the employment or utilization of people and businesses who reside within the targeted neighborhoods. A recipient organization must have written established guidelines to promote investment from within and outside the community where the neighborhood is located.

§31-15-7. Loans to industrial development agencies or enterprises for projects.

(a) When it has determined upon application of an industrial development agency or an enterprise that the establishment or acquisition of a particular project has accomplished or will accomplish the public purposes of this article, the authority may contract to loan such agency or enterprise up to one hundred percent of the estimated cost of such project from any or all of the following sources:

- (1) The proceeds of bonds or notes issued by the authority pursuant to this article;
- (2) Moneys in the fund available to make loans; or
- (3) The investment in such loans by the Board of Investments through the consolidated fund of the state as provided in this article.

(b) Loans made under subsection (a) of this section shall be subject to the following conditions:

- (1) If the authority is providing less than one hundred percent financing for the project, the authority shall determine that other sources of funds will be available to complete the project;
- (2) The loan shall contain such terms and conditions as the authority deems appropriate, which terms and conditions shall be set forth in a resolution adopted by the board in accordance with the provisions of section ten of this article;
- (3) The authority may, in its discretion, include within the terms of a loan minimum project operating periods, liquidated damage provisions for cessation of operations prior to the end of the loan period, loan acceleration provisions, project equipment purchase options in the event of early closure and other provisions to protect the jobs intended to be created by the project;
- (4) The industrial development agency or enterprise shall pay such loan fees as may be prescribed by the authority from time to time pursuant to the provisions of this article.

Money loaned by the authority to an industrial development agency or enterprise pursuant to subdivisions (2) and (3), subsection (a) of this section seven shall be withdrawn from the fund and paid over to the agency or enterprise in such manner as shall be determined by the authority, and the authority shall deposit all payments of interest on such loans and the principal thereof in the fund.

§31-15-8. Insurance fund.

(a) There is hereby created an insurance fund which shall be a continuing, nonlapsing, revolving fund that consists of:

- (1) Moneys appropriated by the state to the insurance fund;
- (2) Premiums, fees, and any other amounts received by the authority with respect to financial assistance provided by the authority from the insurance fund;
- (3) Upon the satisfaction of any indebtedness or other obligation owed on any property held or acquired by the authority, such proceeds as designated by the authority from the sale, lease, or other disposition of such property;
- (4) Income from investments made from moneys in the insurance fund; and
- (5) Any other moneys transferred to the insurance fund or made available to it for the purposes described under this section, under this article, or pursuant to any other provisions of this code.

(b) Subject to the provisions of any outstanding insurance agreements entered into by the authority under this section, the authority may enter into covenants or agreements with respect to the insurance fund and establish accounts within the insurance fund which may be used to implement the purposes of this article. If the authority elects to establish separate accounts within the insurance fund, the authority may allocate its revenues and receipts among the respective accounts in any manner the authority considers appropriate.

(c) If the authority at any time finds that more money is needed to keep the reserves of the insurance fund at an adequate level, the authority, with the consent of the chair, shall send a written request to the Legislature for additional funds.

(d) The insurance fund shall be used for the following purposes by the authority to financially assist projects so long as such financial assistance will, as determined by the authority, fulfill the public purposes of this article:

- (1) To insure the payment or repayment of all or any part of the principal of, redemption or prepayment premiums or penalties on, and interest on bonds or notes whether issued under this article or under the Industrial Development and Commercial Development Bond Act, the West Virginia Hospital Finance Authority Act or, with respect to health care facilities only, §8-33-1 *et seq.* of this code;
- (2) To insure the payment or repayment of all or any part of the principal of, redemption or prepayment premiums or penalties on, and interest on any instrument executed, obtained, or delivered in connection with the issuance and sale of bonds or notes whether under this article or under the Industrial Development and Commercial Development Bond Act, the West Virginia Hospital Finance Authority Act or, with respect to health care facilities only,

§8-33-1 *et seq.* of this code;

(3) To insure the payment or repayment of all or any part of the principal of, prepayment premiums or penalties on, and interest on any form of debt instrument entered into by an enterprise, public body, or authority of the state with a financial institution, including, but not limited to, banks, insurance companies and other institutions in the business of lending money, which debt instruments shall include, but not be limited to, instruments relating to loans for working capital and to the refinancing of existing debt: *Provided*, That nothing contained in this subsection or any other provision of this article shall be construed as permitting the authority to insure the refinancing of existing debt except when such insurance will result in the expansion of the enterprise whose debt is to be refinanced or in the creation of new jobs;

(4) To pay or insure the payment of any fees or premiums necessary to obtain insurance, guarantees, letters of credit, or other credit support from any person or financial institution in connection with financial assistance provided by the authority under this section;

(5) To pay any and all expenses of the authority, including, but not limited to:

(A) Any and all expenses for administrative, legal, actuarial, and other services related to the operation of the insurance fund; and

(B) All costs, charges, fees, and expenses of the authority related to the authorizing, preparing, printing, selling, issuing, and insuring of bonds or notes (including, by way of example, bonds or notes, the proceeds of which are used to refund outstanding bonds or notes) and the funding of reserves; and

(6) To insure, for up to 20 years, the payment or repayment of all or any part of the principal of and interest on any form of debt instrument entered into by an eligible broadband provider with a financial institution, including, but not limited to, banks, insurance companies, and other institutions in the business of lending money, which debt instruments are to be solely for capital costs relating to the purposes authorized in §31-15-8a of this code: *Provided*, That loan moneys shall not be transferred to the fund except as authorized by §12-6C-11a or §31-15-23a of this code. All moneys transferred to the fund for the purpose of issuing broadband loan insurance shall be held in accounts that are separate and segregated from other moneys in the fund. Moneys transferred to the fund pursuant to §31-15-23a of this code which are no longer required for outstanding loan insurance obligations may be returned to the Economic Development Project Fund, along with any interest or earnings accruing to the account in which said moneys are held.

(e) Except as relating to insured portions of debt instruments under subdivision (6), subsection (d) of this section the total aggregate amount of insurance from the insurance fund with respect to the insured portions of principal of bonds or notes or other instruments may not exceed at any time an amount equal to five times the balance in the insurance fund.

(f) The authority may, in its sole and absolute discretion, set the premiums and fees to be paid to it for providing financial assistance under this section. The premiums and fees set by the authority shall be payable in the amounts, at the time, and in the manner that the authority, in its sole and absolute discretion, requires. The premiums and fees need not be uniform among transactions and may vary in amount: (1) Among transactions; and (2) at different stages during the terms of transactions.

(g) The authority may, in its sole and absolute discretion, require the security it believes sufficient in connection with its insuring of the payment or repayment of any bonds, notes, debt, or other instruments described in subdivisions (1) through (4), subsection (d) of this section.

(h) The authority may itself approve the form of any insurance agreement entered into under this section or may authorize the chair or his or her designee to approve the form of any such agreement. Any payment by the authority under an agreement entered into by the authority under this section shall be made at the time and in the manner that the authority, in its sole and absolute discretion, determines.

(i) The obligations of the authority under any insurance agreement entered into pursuant to this article shall not constitute a debt or a pledge of the faith and credit or taxing powers of this state or of any county, municipality, or any political subdivision of this state for the payment of any amount due thereunder or pursuant thereto, but the obligations evidenced by such insurance agreement shall be payable solely from the funds pledged for their payment.

(j) On or before the 30th day of January, April, July, and October of each year, the authority shall prepare and submit to the Joint Committee on Government and Finance and the Governor a quarterly report which shall include, at a minimum:

(3) specify the maximum principal amount of any bonds or notes to be issued by the authority, the maximum principal amount of the loan, and the amount of insurance, if any, to be provided by the authority; and

(4) impose any terms or conditions on the issuance of notes or bonds, the making of a loan or the provision of insurance that the authority deems appropriate.

(b) The board of the authority may, by resolution, or may delegate to the chairman or other designee the authority to, specify, prescribe, determine, provide for and approve such matters, details, forms, documents or procedures as the authority deems appropriate to the making of a loan, the authorization, sale, issuance, security, delivery, or payment of or for bonds or notes, or the authority's insurance of bonds, notes, loans or other instruments, including, without limitation, the rate or rates of interest and any security for the loan or insurance.

(c) The resolution adopted pursuant to this section is administrative in nature, is not subject to procedures required for legislative acts, and is not subject to referendum.

(d) In any suit, action, or proceeding involving the validity or enforceability of any bonds or notes issued, loan made, or insurance extended by the authority under this article or any security therefor, any finding by the authority as to the public purpose of any actions taken under this article and the appropriateness of those actions to serve the public purpose shall be conclusive.

(e) Any resolution authorizing the issuance of bonds or notes shall provide that such bonds or notes shall contain a recital that they are issued pursuant to this article, which recital shall be conclusive evidence of their validity and of the regularity of their issuance.

§31-15-11. Trustee for bondholders; contents of trust agreement; pledge or assignment of revenues.

For bonds or notes issued pursuant to the provisions of this article, in the discretion of the authority, any bonds or notes, including refunding bonds or notes issued by the authority, may be secured by a trust agreement between the authority and a corporate trustee, which trustee may be any bank or trust company within or without the state. Any such trust agreement may contain such binding covenants with the holders of such bonds or notes as to any matter or provisions as are deemed necessary or advisable to the authority to enhance the marketability and security of such bonds or notes and may also contain such other provisions with respect thereto as the authority may authorize and approve. Any resolution adopted by the authority or any trust agreement may contain a pledge or assignment of revenues to be received in connection with the financing.

§31-15-12. Use of funds by authority; restrictions thereon relating to projects.

Such moneys shall at no time be commingled with other public funds. Such moneys, except as otherwise provided in any resolution authorizing the issuance of bonds or notes or in any trust agreement securing the same, or except when invested pursuant to this article, shall be kept in appropriate depositories and secured as provided and required by law. The resolution authorizing the issuance of such bonds or notes of any issue or the trust agreement securing such bonds or notes shall provide that any officer to whom, or any banking institution or trust company to which, such moneys are paid, shall act as trustee of such moneys and hold and apply them for the purposes hereof, subject to the conditions this article and such resolution or trust agreement provide.
