
WEST VIRGINIA CODE CHAPTER 31

ARTICLE 19

WV Legislature

§31-19-1. Short title.

This article shall be known as the "West Virginia Community Infrastructure Authority Act."

WV Legislature

§31-19-2. Legislative findings and purposes.

(a) The Legislature hereby finds and declares that increasing requirements for essential public improvements and escalating costs of providing such improvements have created inordinate demands upon the financial resources of counties and municipalities necessitating legislation to enable counties and municipalities to attain a more competitive position in capital markets.

(b) The Legislature hereby finds and declares further that it is in the public interest and is the responsibility of the State of West Virginia to foster and promote by all lawful means the provision of adequate capital markets and facilities for borrowing money by counties and municipalities for the financing of public improvements and the fulfillment of public purposes, and to make it possible for counties and municipalities to obtain new or additional sources of capital funds at acceptable interest costs, including activities to encourage investor interest in the purchase of bonds or notes of counties or municipalities as sound and preferred securities for investments.

(c) The Legislature hereby finds and declares further that it is in the public interest and is the responsibility of the State of West Virginia to encourage counties and municipalities to continue their independent undertakings of public improvements and fulfillment of public purposes and the financing thereof and to improve or enhance the possibilities of counties and municipalities obtaining funds, to the extent possible, at reduced interest costs, for orderly financing of public improvements and fulfillment of public purposes, particularly those counties or municipalities not otherwise able to borrow for such purposes during periods of need.

(d) The Legislature hereby finds and declares further that it is in the public interest, in order to implement and aid in the discharge of the responsibilities of the aforesaid, that a state instrumentality be created as a public body corporate with full powers to borrow money and issue its bonds and notes to the end that funds obtained thereby may be used for the purchase by such state instrumentality of the bonds or notes of counties and municipalities or for the purposes of making loans to the counties or municipalities for community infrastructure projects, and that such state instrumentality be granted all powers necessary or appropriate to accomplish and to carry out the aforesaid public purposes and responsibilities of the State of West Virginia in a manner to make it possible for counties or municipalities to sell their bonds and borrow funds at as low an interest rate as said instrumentality finds and determines to be feasible.

(e) The Legislature further finds and declares that in accomplishing these purposes, the West Virginia community infrastructure authority, created and established by this article, will be acting in all respects for the benefit of the people of the State of West Virginia to serve the public purposes of improving and otherwise promoting their health, education, welfare, safety and prosperity, and that the West Virginia community infrastructure authority, so created and established, is hereby empowered to act on behalf of the State of West Virginia and its people in serving the aforesaid public purposes for the benefit of the

general public of said state.

§31-19-4. West Virginia Community Infrastructure Authority created; West Virginia Community Infrastructure Board created; organization of Authority and Board; appointment of board members; their term of office, compensation and expenses; duties and responsibilities of director and staff of authority.

(a) There is hereby created the West Virginia Community Infrastructure Authority. The authority is a governmental instrumentality of the state and a body corporate. The exercise by the authority of the powers conferred by this article and the carrying out of its purposes and duties are essential governmental functions and for a public purpose.

The authority shall be controlled, managed and operated by the five-member board known as the West Virginia Community Infrastructure Board, which is hereby created. The Director of the West Virginia Development Office, or her or his designee, the Director of the Division of Environmental Protection, or her or his designee, and the Commissioner of the Division of Highways, or her or his designee, are members ex officio of the board. The Executive Director of the West Virginia Development Office, or her or his designee, is the ex officio chair. Two members of the board shall be representative of the general public, one of which shall have had experience or a demonstrated interest in local government. The two members who are not ex officio members of the board shall be appointed by the Governor, by and with the advice and consent of the Senate, for initial terms of three and six years, respectively. The successor of each such appointed member shall be appointed for a term of six years in the same manner as the original appointments were made, except that any person appointed to fill a vacancy occurring prior to the expiration of the term for which her or his predecessor was appointed shall be appointed only for the remainder of such term. Each board member shall serve until the appointment and qualification of her or his successor. The two appointed board members shall not at any one time belong to the same political party. Appointed board members may be reappointed to serve additional terms, not to exceed two consecutive full terms. All members of the board shall be citizens of the state. Each appointed member of the board, before entering upon her or his duties, shall comply with the requirements of article one, chapter six of this code and give bond in the sum of \$20,000 in the manner provided in article two, chapter six of this code. The Governor may remove any board member for cause as provided in article six, chapter six of this code.

Annually the board shall elect one of its appointed members as chair, and shall appoint a secretary-treasurer, who need not be a member of the board. Three members of the board is a quorum and the affirmative vote of three members is necessary for any action taken by vote of the board. No vacancy in the membership of the board impairs the rights of a quorum by such vote to exercise all the rights and perform all the duties of the board and the authority. The person appointed as secretary-treasurer, including a board member if she or he is so appointed, shall give bond in the sum of \$50,000 in the manner provided in article two, chapter six of this code.

The Executive Director of the West Virginia Development Office or her or his designee, the Director of the Division of Environmental Protection or her or his designee, and the Commissioner of the Division of Highways or her or his designee, shall not receive any

compensation for serving as board members. Each of the two appointed board members of the board shall receive an annual salary of \$5,000, payable at least twice per month. Each of the five board members shall be reimbursed for all reasonable and necessary expenses actually incurred in the performance of her or his duties as a member of such board. All such expenses incurred by the board are payable solely from funds of the authority or from funds appropriated for such purpose by the Legislature and no liability or obligation shall be incurred by the authority beyond the extent for which moneys are available from funds of the authority or from such appropriations.

(b) There shall be a director of the authority appointed by the board who shall supervise and manage the Community Infrastructure Authority, and the West Virginia Development Office shall serve as the staff for the authority. Except as otherwise provided in this section, the duties and responsibilities of the director and of the staff shall be established by the authority. At the board's discretion, it may provide for the position of general counsel, who shall be an employee of the authority, or for the appointment of special counsel. As the board deems necessary and desirable, it may at any time elect to change its decision on the employment or appointment of a counsel.

(c) The director, or her or his designee, may employ or appoint any staff members in addition to those provided by the West Virginia Development Office, including general or special counsel if the position is established by the board. The number of employees needed, the positions to be filled and their salaries or wages shall be determined by the director with the approval of the board, unless the board elects to not require its approval. At any time the board may elect to change its decision concerning approval of additional staff hiring and salaries.

(d) The board shall meet at least quarterly, and more often as it deems necessary. The director and any other staff member or members as the director deems expedient shall attend board meetings.

§31-19-5. Authority may finance community infrastructure projects; loans to or bond purchases from counties and municipalities shall be subject to terms of loan or bond purchase agreements.

To accomplish the public policies and purposes and to meet the responsibility of the state as set forth in this article, the West Virginia community infrastructure authority may make loans to counties and municipalities for the acquisition, renovation, repair or construction of community infrastructure projects by such counties and municipalities, and may issue community infrastructure revenue bonds of this state, payable solely from revenues, to pay the cost of, or finance, in whole or in part, by loans to counties and municipalities, such projects. A community infrastructure project shall not be undertaken unless it has been determined by the authority based upon information provided to it by the county or municipality or other agency charged by law with the responsibility of reporting to be consistent with any applicable requirements of law. Any resolution of the authority providing for making a loan or bond purchase pursuant to this article shall include a finding by the authority that such determinations have been made. A loan or bond purchase agreement shall be entered into between the authority and each county or municipality to which a loan is made or from which bonds are purchased for the acquisition, renovation, repair or construction of a community infrastructure project, which loan or bond purchase agreement shall include without limitation the following provisions:

- (1) The cost of such project, the amount of the loan or bond purchase, the terms of repayment of such loan or bond purchase and the security therefor;
- (2) The specific purposes for which the proceeds of the loan or bond purchase shall be expended, the procedures as to the disbursements of loan or bond purchase proceeds and the duties and obligations imposed upon the county or municipality in regard to the construction, renovation, repair or acquisition of the project;
- (3) The agreement of the county or municipality to raise the funds for repayment, through levy, pursuant to an election pursuant to article one, chapter thirteen of this code; and
- (4) The agreement of the county or the municipality to comply with all applicable laws, rules and regulations issued by the authority or other state, federal or local bodies in regard to the construction, repair, renovation or acquisition of the project.

- (17) Do all acts necessary and proper to carry out the powers expressly granted to the authority in this article.

§31-19-7. Authority empowered to issue community infrastructure revenue bonds, renewal notes and refunding bonds; requirements and manner of such issuance.

The authority is hereby empowered to issue from time to time community infrastructure revenue bonds and notes of the state in such principal amounts as the authority deems necessary to make loans to or bond purchases from counties and municipalities for one or more community infrastructure projects.

The authority may, from time to time, issue renewal notes, issue bonds to pay such notes and whenever it deems refunding expedient, refund any bonds by the issuance of community infrastructure revenue refunding bonds by the state pursuant to the provisions of section sixteen of this article. Except as may otherwise be expressly provided in this article or by the authority, every issue of its bond or notes shall be obligations of the authority payable out of the revenues and reserves created for such purposes by the authority which are expressly pledged for such payment, without preference or priority of the first bonds issued, subject only to any agreements with the holders of particular bonds or notes pledging any particular revenues. Such pledge shall be valid and binding from the time the pledge is made and the revenues so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof.

All such bonds and notes shall have and are hereby declared to have all the qualities of negotiable instruments.

The bonds and notes shall be authorized by resolution of the authority, shall bear such date and shall mature at such time, in case of any such note or any renewal thereof not exceeding five years from the date of issue of such original note, and in the case of any such bond not exceeding fifty years from the date of issue, as such resolution may provide. The bonds and notes shall bear interest at such rate or rates, including variable rates, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be payable in such medium of payment, in such place and be subject to such terms of redemption as the authority may authorize. The bonds and notes of the authority may be sold by the authority at public or private sale, at or not less than the price the authority determines. The bonds and notes shall be executed by the chairman of the authority who may use a facsimile signature. The official seal of the authority or a facsimile shall be affixed thereto or printed thereon and attested, manually or by facsimile signature by the secretary-treasurer of the authority, and any coupons attached thereto shall bear the signature or facsimile signature of the chairman of the authority. In case any officer whose signature, or a facsimile of whose signature appears on any bonds, notes or coupons ceases to be such officer before delivery of such bonds or notes, such signature or facsimile is nevertheless sufficient for all purposes the same as if he had remained in office until such delivery and in case the seal of the authority have been changed after a facsimile has been imprinted on such bonds or notes, such facsimile will continue to be sufficient for all

purposes.

Any resolution authorizing any bonds or notes or any issue thereof may contain provisions (subject to such agreements with bondholders or noteholders as may then exist, which provisions shall be a part of the contract with the holders thereof) as to pledging all or any part of the revenues of the authority to secure the payment of the bonds or notes or of any issue thereof; the use and disposition of revenues of the authority; the setting aside of reserve funds, sinking funds or replacement and improvement funds and the regulation and disposition thereof; the crediting of the proceeds of the sale of bonds or notes to and among the funds referred to and provided for in the resolution authorizing the issuance of the bonds or notes; the use, lease, sale or other disposition of any assets of the authority; limitations on the purpose to which the proceeds of sale of bonds or notes may be applied; notes issued in anticipation of the issuance of bonds; the agreement of authority to do all things necessary for the authorization, issuance and sale of such bonds in such amounts as may be necessary for the timely retirement of such notes; limitation on the issuance of additional bonds or notes; the terms upon which additional bonds or notes may be issued and secured; the refunding of outstanding bonds or notes; the procedure, if any, by which the terms of any contract with bondholders or noteholders may be amended or abrogated; the amount of bonds or notes the holders of which must consent thereof and the manner in which such consent may be given; limitations on the amount of moneys to be expended by the authority for operating, administrative or other expenses of the authority securing any bonds or notes by a trust agreement; and any other matter, of like or different character, which in any way affect the security or protection of the bonds or notes.

In the event that the sum of all reserves pledged to the payment of such bonds or notes shall be less than the minimum reserve requirements established in any resolution or resolutions authorizing the issuance of such bonds or notes, the chairman of the authority shall certify, on or before December 1, of each year, the amount of such deficiency to the Governor of the state for inclusion, if the Governor shall so elect, of the amount of such deficiency in the budget to be submitted to the next session of the Legislature for appropriation to the authority to be pledged for payment of such bonds or notes: Provided, That the Legislature shall not be required to make any appropriations so requested, and the amount of such deficiencies shall not constitute a debt or liability of the state.

Neither the members of the authority nor any person executing the bonds or notes shall be liable personally on the bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

§31-19-8. Trustee for bondholders; contents of trust agreement.

Any community infrastructure revenue bonds or notes or community infrastructure revenue refunding bonds issued by the authority under this article may be secured by a trust agreement between the authority and a corporate trustee, which trustee may be any trust company or banking institution having the powers of a trust company within or without this state. The authority shall promulgate rules and regulations pursuant to article three, chapter twenty-nine-a of this code establishing the method of choosing any such trustee which shall be done by a public competitive bidding procedure.

The authority shall, in all instances, seek to achieve the highest possible rating for any community infrastructure revenue bonds or notes or community infrastructure revenue refunding bonds or notes.

Any such trust agreement may pledge or assign revenues of the authority to be received. Any such trust agreement or any resolution providing for the issuance of such bonds or notes may contain such provisions for protecting and enforcing the rights and remedies of the bondholders or noteholders as are reasonable and proper and not in violation of law, including the provisions contained in section seven of this article and covenants setting forth the duties of the authority in relation to provisions regarding the payment of the principal of and interest, charges and fees on loans made to, or bond purchases from, counties and municipalities from the proceeds of such bonds or notes, the custody, safeguarding and application of all moneys. Any banking institution or trust company incorporated under the laws of this state which may act as depository of the proceeds of bonds or notes or of revenues shall furnish such indemnifying bonds or pledge such securities as are required by the authority. Any such trust agreement may set forth the rights and remedies of the bondholders and noteholders and of the trustee and may restrict individual rights of action by bondholders and noteholders as customarily provided in trust agreement or trust indentures securing similar bonds. Such trust agreement may contain such other provisions as the authority deems reasonable and proper for the security of the bondholders or noteholders. All expenses incurred in carrying out the provisions of any such trust agreement may be treated as part of the cost of the construction, renovation, repair or acquisition of a community infrastructure project.

§31-19-9. Legal remedies of bondholders and trustees.

Any holder of community infrastructure revenue bonds issued pursuant to this article or any of the coupons appertaining thereto and the trustee under any trust agreement, except the extent the rights given by this article may be restricted by the applicable resolution or such trust agreement, may by civil action, mandamus or other proceedings protect and enforce any rights granted under the laws of the state or granted under this article by the trust agreement or by the resolution in the issuance of such bonds, and may enforce and compel the performance or all duties required by this article, pursuant to the trust agreement or resolution, to be performed by the authority or any officer thereof.

§31-19-10. Bonds and notes not debt of state, county, or municipality; expenses incurred pursuant to article.

Community infrastructure revenue bonds and notes and community infrastructure revenue refunding bonds issued pursuant to this article and any coupons in connection therewith shall not constitute a debt or a pledge of the faith and credit or taxing power of this state or of any county or municipality of the state and the holders or owners thereof shall have no right to have taxes levied by the Legislature or taxing authority of any county or municipality for the payment of the principal thereof or interest thereon, but such bonds and notes shall be payable solely from the revenues and funds pledged for their payment as authorized by this article unless the notes are issued in anticipation of the issuance of bonds or the bonds are refunded by refunding bonds issued pursuant to this article which bonds or refunding bonds shall be payable solely from revenues and funds pledged for their payment as authorized by this article. All such bonds and notes shall contain on the face thereof a statement to the effect that the bonds or notes, as to both principal and interest, are not debts of the state or any county or municipality thereof, but are payable solely from revenues and funds pledged for their payment.

All expenses incurred in the carrying out of the provisions of this article shall be payable solely from funds provided under the authority of this article. Such article does not authorize the authority to incur indebtedness or liability on behalf of or payable by the state or any county or municipality thereof.

§31-19-11. Use of funds by authority; restrictions thereon.

All moneys, properties and assets acquired by the authority whether as proceeds from the sale of community infrastructure revenue bonds or as revenues or otherwise, shall be held by it in trust for the purposes of carrying out its powers and duties, and shall be used and reused in accordance with the purposes and provisions of this article. Such moneys shall at no time be commingled with other public funds. Such moneys, except as otherwise provided in any resolution authorizing the issuance of community infrastructure revenue bonds or in any trust agreement securing the same, or except when invested pursuant to section twelve of this article, shall be kept in appropriate depositories and secured as provided and required by law. The resolution authorizing the issuance of such bonds of any issue or of the trust agreement securing such bonds shall provide that any officer to whom, or any banking institution or trust company to which, such moneys are paid shall act as trustee of such moneys and hold and apply them for the purposes hereof, subject to the conditions this article and such resolution or trust agreement provide.

§31-19-12. Investment of funds by authority.
