

WEST VIRGINIA CODE: §33-15-21

§33-15-21. Coverage of emergency services.

From July 1, 1998:

(a) Every insurer shall provide coverage for emergency medical services, including prehospital services, to the extent necessary to screen and to stabilize an emergency medical condition. The insurer shall not require prior authorization of the screening services if a prudent layperson acting reasonably would have believed that an emergency medical condition existed. Prior authorization of coverage shall not be required for stabilization if an emergency medical condition exists. Payment of claims for emergency services shall be based on the retrospective review of the presenting history and symptoms of the covered person.

(b) The coverage for prehospital screening and stabilization of an emergency medical condition shall include ambulance services provided under the provisions of §16-4C-1 *et seq.* of this code, excluding air ambulance services as defined in §16-4C-3(a) of this code. The insurer shall pay claims for prehospital screening and stabilization of emergency condition by ambulance service if the insured is transported to an emergency room of a facility provider or if the patient declines to be transported against medical advice. The coverage under this section is subject to deductibles or copayment requirements of the policy, contract, or plan.

(c) An insurer that has given prior authorization for emergency services shall cover the services and shall not retract the authorization after the services have been provided unless the authorization was based on a material misrepresentation about the covered person's health condition made by the referring provider, the provider of the emergency services, or the covered person.

(d) Coverage of emergency services shall be subject to coinsurance, copayments, and deductibles applicable under the health benefit plan.

(e) The emergency department and the insurer shall make a good faith effort to communicate with each other in a timely fashion to expedite post evaluation or post stabilization services in order to avoid material deterioration of the covered person's condition.

(f) As used in this section:

(1) "Emergency medical services" means those services required to screen for or treat an emergency medical condition until the condition is stabilized, including prehospital care;

(2) "Prudent layperson" means a person who is without medical training and who draws on

his or her practical experience when making a decision regarding whether an emergency medical condition exists for which emergency treatment should be sought;

(3) "Emergency medical condition for the prudent layperson" means one that manifests itself by acute symptoms of sufficient severity, including severe pain, such that the person could reasonably expect the absence of immediate medical attention to result in serious jeopardy to the individual's health, or, with respect to a pregnant woman, the health of the unborn child; serious impairment to bodily functions; or serious dysfunction of any bodily organ or part;

(4) "Stabilize" means with respect to an emergency medical condition, to provide medical treatment of the condition necessary to assure, with reasonable medical probability, that no medical deterioration of the condition is likely to result from or occur during the transfer of the individual from a facility: *Provided*, That this provision may not be construed to prohibit, limit, or otherwise delay the transportation required for a higher level of care than that possible at the treating facility;

(5) "Medical screening examination" means an appropriate examination within the capability of the hospital's emergency department, including ancillary services routinely available to the emergency department, to determine whether or not an emergency medical condition exists; and

(6) "Emergency medical condition" means a condition that manifests itself by acute symptoms of sufficient severity, including severe pain, such that the absence of immediate medical attention could reasonably be expected to result in serious jeopardy to the individual's health, or, with respect to a pregnant woman, the health of the unborn child, serious impairment to bodily functions, or serious dysfunction of any bodily part or organ.
