
WEST VIRGINIA CODE CHAPTER 33
ARTICLE 16E

WV Legislature

§33-16E-1. Findings; short title.

- (a) This article may be referred to as the "Prescription Fairness Act of 2005."
- (b) The Legislature hereby finds and declares that:
 - (1) Contraceptives prevent unintended pregnancy;
 - (2) Planned pregnancies lead to healthier pregnancies, children and families; and
 - (3) Contraceptive coverage provides West Virginians with critical access to birth control.
- (4) Therefore, the Legislature finds that prescription contraceptives are basic health-care for West Virginia's women and families and that health insurance plans which include a prescription drug plan should be required to cover contraceptives.

(b) Health insurance plans that provide benefits for prescription drugs or prescription devices in a prescription drug plan and that provide benefits for outpatient services provided by a health care professional may not exclude or restrict outpatient contraceptive services for covered persons for prescription contraceptives or prescription devices.

§33-16E-5. Extraordinary surcharges prohibited.

A health insurance plan is prohibited from:

(b) Nothing in this article shall be construed to exclude coverage for prescription contraceptive supplies ordered by a health-care provider with prescriptive authority for reasons other than contraceptive purposes, such as decreasing the risk of ovarian cancer or eliminating symptoms of menopause, or for prescription contraception that is necessary to preserve the life or health of an enrollee.

(c) The health insurer for every religious employer that invokes the exemption provided under this section shall provide written notice to prospective enrollees prior to enrollment with the plan, listing the contraceptive health-care services the employer refuses to cover for religious reasons. The health insurer shall make available for purchase at the prevailing group rate a rider that provides prescription contraceptive drugs and devices.
