**WEST VIRGINIA CODE CHAPTER 33**  
**ARTICLE 16F**

WV Legislature

**§33-16F-1. Legislative intent.**

The Legislature finds that the inability of a significant number of state residents to obtain affordable health insurance coverage adversely affects everyone in our state. Therefore, it is the intent of the Legislature to expand the availability of health care options for uninsured residents by developing affordable health care products that emphasize coverage for basic and preventive health care services, provide inpatient hospital and emergency care services and offer optional catastrophic coverage.

**§33-16F-2. Definitions.**

As used in this article:

"West Virginia affordable health care plan" means a health insurance plan approved under this article.

"West Virginia affordable health care plan entity" or "plan entity" means an entity licensed under this chapter that develops and proposes a West Virginia affordable health care plan and, if the plan is approved, is responsible for administering the plan and paying claims of plan enrollees.

"Enrollee" means an individual who has been determined to be eligible for and is receiving health insurance coverage under a West Virginia affordable health care plan.

**§33-16F-3. Plan proposals; approval of plans.**

(a) The commissioner shall announce, no later than July 1, 2009, an invitation to prospective West Virginia affordable health care plan entities to submit West Virginia affordable health care plan proposals. The invitation shall include guidelines for the review of West Virginia affordable health care plan applications, policies and associated rates.

(b) In reviewing proposals under this article, the commissioner shall consider the proposed plans' effectiveness in improving the health status of individuals, their impact on maintaining and improving health and their potential to reduce the unnecessary consumption of health care services.

**§33-16F-4. Required plan provisions; grounds for disapproval; alternative plans.**

- (a) To be approved, plan entities must assure that each proposed plan will provide cost containment through the use of plan design features such as limits on the number of services, caps on benefit payments or copayments for services.
- (b) To provide consumer choice, plan entities must develop and submit two alternative benefit option plans having different cost and benefit levels, including at least one plan that provides catastrophic coverage. Plans providing catastrophic coverage must, at a minimum, provide coverage for preventive health services and inpatient hospital stays and may also include coverage of one or more of the following: Hospital emergency care services and outpatient facility services; outpatient surgery; or outpatient diagnostic services.
- (c) All plans must offer prescription drug benefit coverage.
- (d) Plan enrollment materials must provide information in plain language on policy benefit coverage, benefit limits, cost-sharing requirements, exclusions and a clear representation of what is not covered in the plan. The enrollment materials must include a standard disclosure form developed by the commissioner that must be reviewed and executed by all consumers purchasing West Virginia affordable health care plan coverage.
- (e) The commissioner shall disapprove any plan that:
- (1) Contains any ambiguous, inconsistent or misleading provisions or any exceptions or conditions that deceptively affect or limit the benefits purported to be assumed in the general coverage provided by the plan;
  - (2) Provides benefits that are unreasonable in relation to the premium charged; or
  - (3) Contains provisions that are unfair or inequitable, contrary to the public policy of this state, encourage misrepresentation or result in unfair discrimination in sales practices.
