

WEST VIRGINIA CODE: §33-7-9

§33-7-9. Standard Valuation Law.

(a) This section shall be known as the standard valuation law. For the purposes of this section, the following definitions apply on or after the operative date of the valuation manual:

(1) The term "accident and health insurance" means contracts that incorporate morbidity risk and provide protection against economic loss resulting from accident, sickness, or medical conditions and as may be specified in the valuation manual.

(2) The term "appointed actuary" means a qualified actuary who is appointed in accordance with the valuation manual to prepare the actuarial opinion required in subdivision (2), subsection (c) of this section.

(3) The term "company" means an entity that has written, issued, or reinsured life insurance contracts, accident and health insurance contracts, or deposit-type contracts in this state and has at least one such policy in force or on claim, or has written, issued, or reinsured life insurance contracts, accident and health insurance contracts, or deposit-type contracts in any state and is required to hold a certificate of authority to write life insurance, accident and health insurance, or deposit-type contracts in this state.

(4) The term "deposit-type contract" means contracts that do not incorporate mortality or morbidity risks, and as may be specified in the valuation manual.

(5) The term "life insurance" means contracts that incorporate mortality risk, including annuity and pure endowment contracts, and as may be specified in the valuation manual.

(6) The term "NAIC" means the National Association of Insurance Commissioners.

(7) The term "policyholder behavior" means any action a policyholder, contract holder, or any other person with the right to elect options, such as a certificate holder, may take under a policy or contract subject to this section including, but not limited to, lapse, withdrawal, transfer, deposit, premium payment, loan, annuitization, or benefit elections prescribed by the policy or contract but excluding events of mortality or morbidity that result in benefits prescribed in their essential aspects by the terms of the policy or contract.

(8) The term "principle-based valuation" means a reserve valuation that uses one or more methods or one or more assumptions determined by the insurer and is required to comply with subsection (o) of this section as specified in the valuation manual.

(9) The term "qualified actuary" means an individual who is qualified to sign the applicable statement of actuarial opinion in accordance with the American Academy of Actuaries qualification standards for actuaries signing such statements and who meets the

requirements specified in the valuation manual.

(10) The term "tail risk" means a risk that occurs either where the frequency of low probability events is higher than expected under a normal probability distribution or where there are observed events of very significant size or magnitude.

(11) The term "valuation manual" means the manual of valuation instructions adopted by the commissioner in accordance with subsection (n) of this section.

(b) Reserve valuation. —

(1) Policies and Contracts Issued Prior to the Operative Date of the Valuation Manual. —

(A) The commissioner shall annually value, or cause to be valued, the reserve liabilities (hereinafter called reserves) for all outstanding life insurance policies and annuity and pure endowment contracts of every life insurance company doing business in this state issued on or after January 1, 1958 and prior to the operative date of the valuation manual. In calculating reserves, the commissioner may use group methods and approximate averages for fractions of a year or otherwise. In lieu of the valuation of the reserves herein required of any foreign or alien company, the commissioner may accept any valuation made, or caused to be made, by the insurance supervisory official of any state or other jurisdiction when the valuation complies with the minimum standard provided in this section.

(B) Subsections (d), (e), (f), (g), (h), (i), (j), (k), (l), and (m) of this section apply to all policies and contracts, as appropriate, subject to this section issued on or after January 1, 1958 and prior to the operative date of the valuation manual, and subsections (n) and (o) of this section do not apply to any such policies and contracts.

(C) The minimum standard for the valuation of policies and contracts issued prior to January 1, 1958 shall be that provided by the laws in effect immediately prior to that date.

(2) Policies and contracts issued on or after the operative date of the valuation manual. —

(A) The commissioner shall annually value, or cause to be valued, the reserve liabilities (hereinafter called reserves) for all outstanding life insurance contracts, annuity and pure endowment contracts, accident and health contracts, and deposit-type contracts of every company issued on or after the operative date of the valuation manual. In lieu of the valuation of the reserves required of a foreign or alien company, the commissioner may accept a valuation made, or caused to be made, by the insurance supervisory official of any state or other jurisdiction when the valuation complies with the minimum standard provided in this section.

(B) Subsection (n) and (o) of this section apply to all policies and contracts issued on or after the operative date of the valuation manual.

(c) Actuarial opinion of reserves. —

(1) Actuarial Opinion Prior to the Operative Date of the Valuation Manual. —

(A) General. — Every life insurance company doing business in this state shall annually submit the opinion of a qualified actuary as to whether the reserves and related actuarial items held in support of the policies and contracts specified by the commissioner by rule are computed appropriately, are based on assumptions which satisfy contractual provisions, are consistent with prior reported amounts and comply with applicable laws of this state. The commissioner shall define the specifics of this opinion and add any other items deemed to be necessary to its scope.

(B) Actuarial analysis of reserves and assets supporting the reserves. —

(i) Every life insurance company, except as exempted by or pursuant to rule, shall also annually include in the opinion required by paragraph (A) of this subdivision an opinion of the same qualified actuary as to whether the reserves and related actuarial items held in support of the policies and contracts specified by the commissioner by rule, when considered in light of the assets held by the company with respect to the reserves and related actuarial items, including, but not limited to, the investment earnings on the assets and the considerations anticipated to be received and retained under the policies and contracts, make adequate provision for the company's obligations under the policies and contracts, including, but not limited to, the benefits under and expenses associated with the policies and contracts.

(ii) The commissioner may provide, by rule, for a transition period for establishing any higher reserves that the qualified actuary may deem necessary in order to render the opinion required by this subdivision.

(C) Requirement for opinion under paragraph (B) of this subdivision. -- Each opinion required by paragraph (B) of this subdivision shall be governed by the following provisions:

(i) A memorandum in form and substance acceptable to the commissioner as specified by rule shall be prepared to support each actuarial opinion.

(ii) If the insurance company fails to provide a supporting memorandum at the request of the commissioner within a period specified by rule or the commissioner determines that the supporting memorandum provided by the insurance company fails to meet the standards prescribed by the rules or is otherwise unacceptable to the commissioner, the commissioner may engage a qualified actuary at the expense of the company to review the opinion and the basis for the opinion and prepare the supporting memorandum required by the commissioner.

(D) Requirement for all opinions subject to this subdivision. — Every opinion required by this subdivision is governed by the following:

(i) The opinion shall be submitted with the annual statement reflecting the valuation of such

reserve liabilities for each year ending on or after December 31, 1995.

(ii) The opinion shall apply to all business in force, including individual and group health insurance plans, in form and substance acceptable to the commissioner as specified by rule.

(iii) The opinion shall be based on standards adopted, from time to time, by the actuarial standards board and on such additional standards as the commissioner may by rule prescribe.

(iv) In the case of an opinion required to be submitted by a foreign or alien company, the commissioner may accept the opinion filed by that company with the insurance supervisory official of another state if the commissioner determines that the opinion reasonably meets the requirements applicable to a company domiciled in this state.

(v) For the purposes of this subsection, "qualified actuary" means a member in good standing of the American Academy of Actuaries who meets the requirements set forth in such regulations.

(vi) Except in cases of fraud or willful misconduct, the qualified actuary is not liable for damages to any person (other than the insurance company and the commissioner) for any act, error, omission, decision, or conduct with respect to the actuary's opinion.

(vii) Disciplinary action by the commissioner against the company or the qualified actuary shall be defined in rules by the commissioner.

(viii) Except as provided in subparagraphs (xii), (xiii), and (xiv) of this paragraph, documents, materials or other information in the possession or control of the commissioner that are a memorandum in support of the opinion and any other material provided by the company to the commissioner in connection therewith are confidential by law and privileged, exempt from disclosure under §29A-1-1 et seq. of this code and are not to be subject to subpoena and, additionally, are not subject to discovery or admissible in evidence in any private civil action. However, the commissioner is authorized to use the documents, materials, or other information in the furtherance of any regulatory or legal action brought as a part of the commissioner's official duties.

(ix) Neither the commissioner nor any person who received documents, materials, or other information while acting under the authority of the commissioner is permitted or required to testify in any private civil action concerning any confidential documents, materials, or information subject to subparagraph (viii) of this paragraph.

(x) In order to assist in the performance of the commissioner's duties, the commissioner:

(I) May share documents, materials, or other information, including the confidential and privileged documents, materials, or information subject to subparagraph (viii) of this paragraph with other state, federal, and international regulatory agencies, with the NAIC and its affiliates and subsidiaries, and with state, federal, and international law-enforcement

authorities, provided that the recipient agrees to maintain the confidentiality and privileged status of the document, material or other information;

(II) May receive documents, materials, or information, including otherwise confidential and privileged documents, materials or information, from the NAIC and its affiliates and subsidiaries, and from regulatory and law-enforcement officials of other foreign or domestic jurisdictions, and shall maintain as confidential or privileged any document, material, or information received with notice or the understanding that it is confidential or privileged under the laws of the jurisdiction that is the source of the document, material, or information; and

(III) May enter into agreements governing sharing and use of information consistent with this subparagraph and subparagraphs (viii) and (ix) of this paragraph.

(xi) No waiver of any applicable privilege or claim of confidentiality in the documents, materials, or information occurs as a result of disclosure to the commissioner under this subsection or as a result of sharing as authorized in subparagraph (x) of this paragraph.

(xii) A memorandum in support of the opinion, and any other material provided by the company to the commissioner in connection with the memorandum, may be subject to subpoena for the purpose of defending an action seeking damages from the actuary submitting the memorandum by reason of an action required by this subsection or by rules.

(xiii) The memorandum or other material may otherwise be released by the commissioner with the written consent of the company or to the American Academy of Actuaries upon request stating that the memorandum or other material is required for the purpose of professional disciplinary proceedings and setting forth procedures satisfactory to the commissioner for preserving the confidentiality of the memorandum or other material.

(xiv) Once any portion of the confidential memorandum is cited by the company in its marketing or is cited before a governmental agency other than a state insurance department or is released by the company to the news media, all portions of the confidential memorandum shall be no longer confidential.

(2) Actuarial Opinion of Reserves after the Operative Date of the Valuation Manual. —

(A) General. — Every company with outstanding life insurance contracts, accident and health insurance contracts, or deposit-type contracts in this state and subject to rule of the commissioner shall annually submit the opinion of the appointed actuary as to whether the reserves and related actuarial items held in support of the policies and contracts are computed appropriately, are based on assumptions that satisfy contractual provisions, are consistent with prior reported amounts and comply with applicable laws of this state. The valuation manual will prescribe the specifics of this opinion including any items deemed to be necessary to its scope.

(B) Actuarial Analysis of Reserves and Assets Supporting Reserves. — Every company with outstanding life insurance contracts, accident and health insurance contracts, or deposit-type contracts in this state and subject to rule of the commissioner, except as exempted in the valuation manual, shall also annually include in the opinion required by paragraph (A) of this subdivision, an opinion of the same appointed actuary as to whether the reserves and related actuarial items held in support of the policies and contracts specified in the valuation manual, when considered in light of the assets held by the company with respect to the reserves and related actuarial items, including, but not limited to, the investment earnings on the assets and the considerations anticipated to be received and retained under the policies and contracts, make adequate provision for the company's obligations under the policies and contracts, including, but not limited to, the benefits under and expenses associated with the policies and contracts.

(C) Requirement for opinion under paragraph (B) of this subdivision. — Each opinion required by paragraph (B) of this subdivision shall be governed by the following:

(i) A memorandum, in form and substance as specified in the valuation manual, and acceptable to the commissioner, shall be prepared to support each actuarial opinion.

(ii) If the insurance company fails to provide a supporting memorandum at the request of the commissioner within a period specified in the valuation manual or the commissioner determines that the supporting memorandum provided by the insurance company fails to meet the standards prescribed by the valuation manual or is otherwise unacceptable to the commissioner, the commissioner may engage a qualified actuary at the expense of the company to review the opinion and the basis for the opinion and prepare the supporting memorandum required by the commissioner.

(D) Requirement for all opinions subject to this subdivision. — Every opinion required by this subdivision is governed by the following:

(i) The opinion shall be in form and substance as specified in the valuation manual and acceptable to the commissioner.

(ii) The opinion shall be submitted with the annual statement reflecting the valuation of the reserve liabilities for each year ending on or after the operative date of the valuation manual.

(iii) The opinion shall apply to all policies and contracts subject to paragraph (B) of this subdivision, plus other actuarial liabilities as may be specified in the valuation manual.

(iv) The opinion shall be based on standards adopted from time to time by the Actuarial Standards Board or its successor, and on such additional standards as may be prescribed in the valuation manual.

(v) In the case of an opinion required to be submitted by a foreign or alien company, the

commissioner may accept the opinion filed by that company with the insurance supervisory official of another state if the commissioner determines that the opinion reasonably meets the requirements applicable to a company domiciled in this state.

(vi) Except in cases of fraud or willful misconduct, the appointed actuary is not liable for damages to any person, other than the insurance company and the commissioner, for any act, error, omission, decision, or conduct with respect to the appointed actuary's opinion.

(vii) Disciplinary action by the commissioner against the company or the appointed actuary shall be defined in rules.

(d) Computation of minimum standards. — Except as otherwise provided in subsections (e), (f), and (m) of this section, the minimum standard for the valuation of all policies and contracts issued prior to January 1, 1958 shall be that provided by the laws in effect immediately prior to that date. Except as otherwise provided in subsections (e), (f), and (m) of this section, the minimum standard for the valuation of all policies and contracts issued on or after January 1, 1958 of this section shall be the commissioner's reserve valuation methods defined in subsections (g), (h), (k), and (m) of this section, three and one-half percent interest or in the case of life insurance policies and contracts, other than annuity and pure endowment contracts, issued on or after June 1, 1974, four percent interest for policies issued prior to April 6, 1977, five and one-half percent interest for single premium life insurance policies, and four and one-half percent interest for all other policies issued on and after April 6, 1977, and the following tables:

(1) For all ordinary policies of life insurance issued on the standard basis, excluding any disability and accidental death benefits in the policies:

(A) The commissioner's 1941 standard ordinary mortality table for policies issued prior to the operative date of §33-13-30(e) of this code;

(B) The commissioner's 1958 standard ordinary mortality table for policies issued on or after the operative date of §33-13-30(e) of this code and prior to the operative date of §33-13-30(g) of this code: Provided, That for any category of policies issued on female risks, all modified net premiums and present values referred to in this section may be calculated according to an age not more than six years younger than the actual age of the insured; and

(C) For policies issued on or after the operative date of §33-13-30(g) of this code:

(i) The commissioner's 1980 standard ordinary mortality table;

(ii) At the election of the company for any one or more specified plans of life insurance, the commissioner's 1980 standard ordinary mortality table with 10 year select mortality factors; or

(iii) Any ordinary mortality table adopted after the year 1980 by the NAIC that is approved by rule promulgated by the commissioner for use in determining the minimum standard of

valuation for the policies.

(2) For all industrial life insurance policies issued on the standard basis, excluding any disability and accidental death benefits in the policies: the 1941 standard industrial mortality table for policies issued prior to the operative date of §33-13-30(f) of this code and for policies issued on or after the operative date, the commissioner's 1961 standard industrial mortality table or any industrial mortality table adopted after the year 1980 by the NAIC that is approved by rule promulgated by the commissioner for use in determining the minimum standard of valuation for the policies.

(3) For individual annuity and pure endowment contracts, excluding any disability and accidental death benefits in policies: the 1937 standard annuity mortality table or, at the option of the company, the annuity mortality table for 1949, ultimate, or any modification of either of these tables approved by the commissioner.

(4) For group annuity and pure endowment contracts, excluding any disability and accidental death benefits in the policies: The group annuity mortality table for 1951, any modification of the table approved by the commissioner or, at the option of the company, any of the tables or modifications of tables specified for individual annuity and pure endowment contracts.

(5) For total and permanent disability benefits in or supplementary to ordinary policies or contracts: for policies or contracts issued on or after January 1, 1966, the tables of period two disablement rates and the 1930 to 1950 termination rates of the 1952 disability study of the society of actuaries, with due regard to the type of benefit or any tables of disablement rates and termination rates adopted after the year 1980 by the NAIC that are approved by rule promulgated by the commissioner for use in determining the minimum standard of valuation for the policies; for policies or contracts issued on or after January 1, 1961, and prior to January 1, 1966, either those tables or, at the option of the company, the Class (3) disability table (1926); and for policies issued prior to January 1, 1961, the Class (3) disability table (1926). Any such table shall, for active lives, be combined with a mortality table permitted for calculating the reserves for life insurance policies.

(6) For accidental death benefits in or supplementary to policies issued on or after January 1, 1966, the 1959 accidental death benefits table or any accidental death benefits table adopted after the year 1980 by the NAIC that is approved by rules promulgated by the commissioner for use in determining the minimum standard of valuation for the policies, for policies issued on or after January 1, 1961, and prior to January 1, 1966, either such table or, at the option of the company, the intercompany double indemnity mortality table; and for policies issued prior to January 1, 1961, the intercompany double indemnity mortality table. Either table shall be combined with a mortality table for calculating the reserves for life insurance policies.

(7) For group life insurance, life insurance issued on the substandard basis, and other special benefits: Tables as may be approved by the commissioner.

(e) Computation of minimum standard for annuities. — Except as provided in subsection (f) of this section, the minimum standard for the valuation of all individual annuity and pure endowment contracts issued on or after the operative date of this subsection, and for all annuities and pure endowments purchased on or after the operative date under group annuity and pure endowment contracts, shall be the commissioner's reserve valuation methods defined in subsections (g) and (h) of this section and the following tables and interest rates:

(1) For individual annuity and pure endowment contracts issued prior to April 6, 1977, excluding any disability and accidental death benefits in the contracts: The 1971 individual annuity mortality table or any modification of this table approved by the commissioner and six percent interest for single premium immediate annuity contracts and four percent interest for all other individual annuity and pure endowment contracts;

(2) For individual single premium immediate annuity contracts issued on or after April 6, 1977, excluding any disability and accidental death benefits in the contracts: The 1971 individual annuity mortality table or any individual annuity mortality table adopted after the year 1980 by the NAIC that is approved by rule promulgated by the commissioner for use in determining the minimum standard of valuation for the contracts or any modification of these tables approved by the commissioner and seven and one-half percent interest;

(3) For individual annuity and pure endowment contracts issued on or after April 6, 1977, other than single premium immediate annuity contracts, excluding any disability and accidental death benefits in those contracts: The 1971 individual annuity mortality table or any individual annuity mortality table adopted after the year 1980 by the NAIC that is approved by rule promulgated by the commissioner for use in determining the minimum standard of valuation for the contracts or any modification of these tables approved by the commissioner and five and one-half percent interest for single premium deferred annuity and pure endowment contracts and four and one-half percent interest for all other individual annuity and pure endowment contracts;

(4) For all annuities and pure endowments purchased prior to April 6, 1977, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits purchased under those contracts: The 1971 group annuity mortality table or any modification of this table approved by the commissioner and six percent interest;

(5) For all annuities and pure endowments purchased on or after April 6, 1977, under group annuity and pure endowment contracts, excluding any disability and accidental death benefits purchased under the contracts: The 1971 group annuity mortality table or any group annuity mortality table adopted after the year 1980 by the NAIC that is approved by rule promulgated by the commissioner for use in determining the minimum standard of valuation for annuities and pure endowments or any modification of these tables approved by the commissioner and seven and one-half percent interest.

After June 3, 1974, any company may file with the commissioner a written notice of its

election to comply with the provisions of this subsection after a specified date before January 1, 1979, which shall be the operative date of this subsection for the company provided, if a company makes no election, the operative date of this section for the company shall be January 1, 1979.

(f) Computation of minimum standard by calendar year of issue. —

(1) The interest rates used in determining the minimum standard for the valuation of the following shall be the calendar year statutory valuation interest rates as defined in this section:

(A) All life insurance policies issued in a particular calendar year, on or after the operative date of §33-13-30(g) of this code, as amended;

(B) All individual annuity and pure endowment contracts issued in a particular calendar year on or after January 1, 1982;

(C) All annuities and pure endowments purchased in a particular calendar year on or after January 1, 1982, under group annuity and pure endowment contracts; and

(D) The net increase, if any, in a particular calendar year after January 1, 1982, in amounts held under guaranteed interest contracts.

(2) Calendar year statutory valuation interest rates. —

(A) The calendar year statutory valuation interest rates, I , shall be determined as follows and the results rounded to the nearer one quarter of one percent:

(i) For life insurance: $I = .03 + W(R1 - .03) + W/2(R2 - .09)$;

(ii) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and from guaranteed interest contracts with cash settlement options: $I = .03 + W(R - .03)$

Where $R1$ is the lesser of R and $.09$; $R2$ is the greater of R and $.09$; R is the reference interest rate defined in this subsection; and W is the weighting factor defined in this subsection;

(iii) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on an issue-year basis, except as stated in subparagraph (ii) of this paragraph, the formula for life insurance stated in subparagraph (i) of this paragraph shall apply to annuities and guaranteed interest contracts with guarantee durations in excess of ten years and the formula for single premium immediate annuities stated in subparagraph (ii) of this paragraph shall apply to annuities and guaranteed interest contracts with guarantee duration of 10 years or less;

(iv) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the formula for single premium immediate annuities stated in subparagraph (ii) of this paragraph shall apply;

(v) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, the formula for single premium immediate annuities stated in subparagraph (ii) of this paragraph shall apply.

(B) However, if the calendar year statutory valuation interest rate for any life insurance policies issued in any calendar year determined without reference to this sentence differs from the corresponding actual rate for similar policies issued in the immediately preceding calendar year by less than one half of one percent, the calendar year statutory valuation interest rate for the life insurance policies shall be equal to the corresponding actual rate for the immediately preceding calendar year. For purposes of applying the immediately preceding sentence, the calendar year statutory valuation interest rate for life insurance policies issued in a calendar year shall be determined for the year 1980 (using the reference interest rate defined for the year 1979) and shall be determined for each subsequent calendar year regardless of when §33-13-30(g) of this code, as amended, becomes operative.

(3) Weighting factors. —

(A) The weighting factors referred to in the formulas stated above are given in the following tables:

(i) Weighting factors for life insurance:

Guarantee duration of 10 years or less: .50

Guarantee duration of more than 10 years but not more than 20 years: .45

Guarantee duration of more than 20 years: .35

For life insurance, the guarantee duration is the maximum number of years the life insurance can remain in force on a basis guaranteed in the policy or under options to convert to plans of life insurance with premium rates or nonforfeiture values or both which are guaranteed in the original policy;

(ii) Weighting factor for single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options: .80;

(iii) Weighting factors for other annuities and for guaranteed interest contracts, except as stated in subparagraph (ii) of this paragraph, shall be as specified in clauses (I), (II), and (III) of this subparagraph, according to the rules and definitions in clauses (IV), (V), and (VI) of this subparagraph:

(I) For annuities and guaranteed interest contracts valued on an issue year basis, the following weighting factors shall apply:

Guarantee duration of five years or less: Plan Type A - .80; Plan Type B - .60; Plan Type C - .50

Guarantee duration of more than five years but not more than 10 years: Plan Type A - .75; Plan Type B - .60; Plan Type C - .50

Guarantee duration of more than 10 years but not more than 20 years: Plan Type A - .65; Plan Type B - .50; Plan Type C - .45

Guarantee duration of more than 20 years: Plan Type A - .45; Plan Type B - .35; Plan Type C - .35

(II) For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in clause (I) of this subparagraph increased by:

Plan Type A - .15; Plan Type B - .25; Plan Type C - .05

(III) For annuities and guaranteed interest contracts valued on an issue-year basis (other than those with no cash settlement options) which do not guarantee interest on considerations received more than one year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis which do not guarantee interest rates on considerations received more than 12 months beyond the valuation date, the factors shown in clause (I) of this subparagraph or derived in clause (II) of this subparagraph increased by:

Plan Type A - .05; Plan Type B - .05; Plan Type C - .05

(IV) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of 20 years. For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the guaranteed duration is the number of years from the date of issue or date of purchase to the date annuity benefits are scheduled to commence.

(V) Plan type as used in the above tables is defined as follows:

Plan Type A:

At any time policyholder may withdraw funds only: (1) With an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; or (2) without such adjustment but in installments over five years or more; or (3) as an immediate life annuity; or (4) no withdrawal permitted;

Plan Type B:

Before expiration of the interest rate guarantee, policyholder may withdraw funds only: (1) With an adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; or (2) without such adjustment but in installments over five years or more; or (3) no withdrawal permitted. At the end of interest rate guarantee, funds may be withdrawn without such adjustment in a single sum or installments over less than five years;

Plan Type C:

Policyholder may withdraw funds before expiration of interest rate guarantee in a single sum or installments over less than five years either: (1) Without adjustment to reflect changes in interest rates or asset values since receipt of the funds by the insurance company; or (2) subject only to a fixed surrender charge stipulated in the contract as a percentage of the fund.

(VI) A company may elect to value guaranteed interest contracts with cash settlement options and annuities with cash settlement options on either an issue-year basis or on a change in fund basis. Guaranteed interest contracts with no cash settlement options and other annuities with no cash settlement options must be valued on an issue-year basis. As used in this section, an issue-year basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard for the entire duration of the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of issue or year of purchase of the annuity or guaranteed interest contract and the change in fund basis of valuation refers to a valuation basis under which the interest rate used to determine the minimum valuation standard applicable to each change in the fund held under the annuity or guaranteed interest contract is the calendar year valuation interest rate for the year of the change in the fund.

(4) The reference interest rate. —

(A) Reference interest rate referred to in subdivision (2) of this subsection is defined as follows:

(i) For all life insurance, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30 of the calendar year next preceding the year of issue, of the monthly average of the composite yield on seasoned corporate bonds as published by Moody's Investors Service, Inc.;

(ii) For single premium immediate annuities and for annuity benefits involving life contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the average over a period of 12 months, ending on June 30 of the calendar year of issue or year of purchase, of the monthly average of the composite yield on seasoned corporate bonds as published by Moody's Investors

Service, Inc.;

(iii) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in subparagraph (ii) of this paragraph, with guarantee duration in excess of 10 years, the lesser of the average over a period of 36 months and the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds as published by Moody's Investors Service, Inc.;

(iv) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a year of issue basis, except as stated in subparagraph (ii) of this paragraph, with guarantee duration of 10 years or less, the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds as published by Moody's Investors Service, Inc.;

(v) For other annuities with no cash settlement options and for guaranteed interest contracts with no cash settlement options, the average over a period of 12 months, ending on June 30 of the calendar year of issue or purchase, of the monthly average of the composite yield on seasoned corporate bonds as published by Moody's Investors Service, Inc.; and

(vi) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, valued on a change in fund basis, except as stated in subparagraph (ii) of this paragraph, the average over a period of 12 months, ending on June 30 of the calendar year of the change in the fund, of the monthly average of the composite yield on seasoned corporate bonds as published by Moody's Investors Service, Inc.

(5) Alternative method for determining reference interest rates. —

In the event that the monthly average of the composite yield on seasoned corporate bonds is no longer published by Moody's Investors Service, Inc., or in the event that the NAIC determines that the monthly average of the composite yield on seasoned corporate bonds as published by Moody's Investors Service, Inc., is no longer appropriate for the determination of the reference interest rate, then an alternative method for determination of the reference interest rate, which is adopted by the NAIC and approved by rule promulgated by the commissioner, may be substituted.

(g) Reserve valuation method: Life insurance and endowment benefits. —

(1) Except as otherwise provided in subsections (h), (k), and (m) of this section, reserves according to the commissioner's reserve valuation method for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums shall be the excess, if any, of the present value, at the date of valuation, of the future guaranteed benefits provided by the policies, over the then present value of any future modified net premiums therefor. The modified net premiums for

any such policy shall be the uniform percentage of the respective contract premiums for the benefits that the present value, at the date of issue of the policy, of all the modified net premiums shall be equal to the sum of the then present value of the benefits provided by the policy and the excess of paragraph (A) of this subdivision over paragraph (B) of this subdivision, as follows:

(A) A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per annum payable on the first and each subsequent anniversary of such policy on which a premium falls due: Provided, That such net level annual premium shall not exceed the net level annual premium on the 19 year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of such policy.

(B) A net one-year term premium for such benefits provided for in the first policy year.

(2) For any life insurance policy issued on or after January 1, 1985, for which the contract premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for such excess and which provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than such excess premium, the reserve according to the commissioner's reserve valuation method as of any policy anniversary occurring on or before the assumed ending date defined herein as the first policy anniversary on which the sum of any endowment benefit and any cash surrender value then available is greater than such excess premium shall, except as otherwise provided in subsection (k) of this section, be the greater of the reserve as of such policy anniversary calculated as described in subdivision (1) of this subsection and the reserve as of the policy anniversary calculated as described in that subdivision, but with: (i) The value defined in subdivision (1) of this subsection being reduced by 15 percent of the amount of such excess first-year premium; (ii) all present values of benefits and premiums being determined without reference to premiums or benefits provided by the policy after the assumed ending date; (iii) the policy being assumed to mature on the date as an endowment; and (iv) the cash surrender value provided on such date being considered as an endowment benefit. In making the above comparison, the mortality and interest bases stated in subsections (d) and (f) of this section shall be used.

(3) Reserves according to the commissioner's reserve valuation method shall be calculated by a method consistent with the principles of subdivisions (1) and (2) of this subsection for:

(A) Life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums;

(B) Group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation, established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under section 408 of the Internal Revenue Code (26 U.S.C. §408) as now or hereafter amended;

(C) Disability and accidental death benefits in all policies and contracts; and

(D) All other benefits, except life insurance and endowment benefits in life insurance policies and benefits provided by all other annuity and pure endowment contracts.

(h) Reserve valuation method: Annuity and pure endowment benefits. —

(1) This subsection shall apply to all annuity and pure endowment contracts other than group annuity and pure endowment contracts purchased under a retirement plan or plan of deferred compensation established or maintained by an employer (including a partnership or sole proprietorship) or by an employee organization, or by both, other than a plan providing individual retirement accounts or individual retirement annuities under section 408 of the Internal Revenue Code (26 U.S.C. §408) as now or hereafter amended.

(2) Reserves according to the commissioner's annuity reserve method for benefits under annuity or pure endowment contracts, excluding any disability and accidental death benefits in the contracts, shall be the greatest of the respective excesses of the present values, at the date of valuation, of the future guaranteed benefits, including guaranteed nonforfeiture benefits, provided by the contracts at the end of each respective contract year over the present value, at the date of valuation, of any future valuation considerations derived from future gross considerations, required by the terms of the contract, that become payable prior to the end of the respective contract year. The future guaranteed benefits shall be determined by using the mortality table, if any, and the interest rate, or rates, specified in the contracts for determining guaranteed benefits. The valuation considerations are the portions of the respective gross considerations applied under the terms of the contracts to determine nonforfeiture values.

(i) Minimum reserves. —

(1) In no event shall a company's aggregate reserves for all life insurance policies, excluding disability and accidental death benefits, issued on or after January 1, 1958 be less than the aggregate reserves calculated in accordance with the methods set forth in subsections (g), (h), (k), and (l) of this section and the mortality table or tables and rate or rates of interest used in calculating nonforfeiture benefits for the policies.

(2) In no event shall the aggregate reserves for all policies, contracts, and benefits be less than the aggregate reserves determined by the qualified actuary to be necessary to render the opinion required by subsection (c) of this section.

(j) Optional reserve calculation. —

(1) Reserves for all policies and contracts issued prior to January 1, 1958 may be calculated, at the option of the company, according to any standards which produce greater aggregate reserves for all policies and contracts than the minimum reserves required by the laws in effect immediately prior to such date.

(2) Reserves for any category of policies, contracts or benefits as established by the commissioner issued on or after January 1, 1958 may be calculated, at the option of the company, according to any standards which produce greater aggregate reserves for such category than those calculated according to the minimum standard herein provided, but the rate or rates of interest used for policies and contracts, other than annuity and pure endowment contracts, shall not be higher than the corresponding rate or rates of interest used in calculating any nonforfeiture benefits provided therein.

(3) Any company which at any time shall have adopted any standard of valuation producing greater aggregate reserves than those calculated according to the minimum standard herein provided may, with the approval of the commissioner, adopt any lower standard of valuation, but not lower than the minimum herein provided: Provided, That for the purposes of this section, the holding of additional reserves previously determined by the appointed actuary to be necessary to render the opinion required by subsection (c) of this section shall not be considered to be the adoption of a higher standard of valuation.

(k) Reserve calculation: Valuation net premium exceeding the gross premium charged. —

(1) If in any contract year the gross premium charged by any life insurance company on any policy or contract is less than the valuation net premium for the policy or contract calculated by the method used in calculating the reserve thereon but using the minimum valuation standards of mortality and rate of interest, the minimum reserve required for the policy or contract shall be the greater of either the reserve calculated according to the mortality table, rate of interest, and method actually used for the policy or contract or the reserve calculated by the method actually used for the policy or contract but using the minimum valuation standards of mortality and rate of interest and replacing the valuation net premium by the actual gross premium in each contract year for which the valuation net premium exceeds the actual gross premium. The minimum valuation standards of mortality and rate of interest referred to in this section are those standards stated in subsections (d) and (f) of this section: Provided, That for any life insurance policy issued on or after January 1, 1985, for which the gross premium in the first policy year exceeds that of the second year and for which no comparable additional benefit is provided in the first year for such excess and which provides an endowment benefit or a cash surrender value or a combination thereof in an amount greater than the excess premium, the foregoing provisions of this subsection shall be applied as if the method actually used in calculating the reserve for the policy were the method described in subsection (g) of this section, ignoring subdivision (2) of said subsection.

(2) The minimum reserve at each policy anniversary of such a policy shall be the greater of the minimum reserve calculated in accordance with subsection (g) of this section, including subdivision (2) of said subsection, and the minimum reserve calculated in accordance with this subsection.

(l) Reserve calculation: Indeterminate premium plans. —

In the case of any plan of life insurance which provides for future premium determination, the amounts of which are to be determined by the insurance company based on then estimates of future experience, or in the case of any plan of life insurance or annuity which is of such a nature that the minimum reserves cannot be determined by the methods described in subsections (g), (h), and (k) of this section, the reserves which are held under any such plan must:

- (1) Be appropriate in relation to the benefits and the pattern of premiums for that plan; and
- (2) Be computed by a method which is consistent with the principles of this standard valuation law as determined by rules promulgated by the commissioner.
- (m) Minimum standard for accident and health insurance contracts. —

For accident and health insurance contracts issued on or after the operative date of the valuation manual, the standard prescribed in the valuation manual is the minimum standard of valuation required under subdivision (2), subsection (b) of this section. For accident and sickness insurance contracts issued on or after January 1, 1958 and prior to the operative date of the valuation manual, the minimum standard of valuation is the standard adopted by the commissioner by rule.

(n) Valuation manual for policies issued on or after the operative date of the valuation manual. —

(1) The commissioner shall promulgate emergency rules adopting a valuation manual that is substantially similar to the valuation manual approved by the NAIC and any amendments to the manual as may be subsequently approved by the NAIC, and the rules shall be effective in accordance with subdivisions (2) and (3) of this subsection.

(2) The operative date of the valuation manual is January 1 of the first calendar year following the first July 1 as of which all of the following have occurred:

(A) The valuation manual has been adopted by the NAIC by an affirmative vote of at least 42 members, or three-fourths of the members voting, whichever is greater;

(B) The Standard Valuation Law, as amended by the NAIC in 2009, or legislation including substantially similar terms and provisions, has been enacted by states representing greater than 75 percent of the direct premiums written as reported in the following annual statements submitted for 2008: Life, accident, and health annual statements; health annual statements; and fraternal annual statements; and

(C) The Standard Valuation Law, as amended by the NAIC in 2009, or legislation including substantially similar terms and provisions, has been enacted by at least 42 of the following 55 jurisdictions: The 50 states of the United States, American Samoa, the American Virgin Islands, the District of Columbia, Guam, and Puerto Rico.

(3) Unless a change in the valuation manual specifies a later effective date, changes to the valuation manual shall be effective on January 1 following the date when the changes have been adopted by the NAIC by an affirmative vote representing:

(A) At least three-fourths of the members of the NAIC voting, but not less than a majority of the total membership; and

(B) Members of the NAIC representing jurisdictions totaling greater than 75 percent of the direct premiums written, as reported in the following annual statements most recently available prior to the vote in paragraph (A) of this subdivision: Life, accident, and health annual statements, health annual statements, or fraternal annual statements.

(4) The valuation manual must specify all of the following:

(A) Minimum valuation standards for and definitions of the policies or contracts subject to subdivision (2), subsection (b) of this section. The minimum valuation standards shall be:

(i) The commissioner's reserve valuation method for life insurance contracts, other than annuity contracts, subject to subdivision (2), subsection (b) of this section;

(ii) The commissioner's annuity reserve valuation method for annuity contracts subject to subdivision (2), subsection (b) of this section; and

(iii) Minimum reserves for all other policies or contracts subject to subdivision (2), subsection (b) of this section.

(B) Which policies or contracts or types of policies or contracts that are subject to the requirements of a principle-based valuation in subdivision (1), subsection (o) of this section and the minimum valuation standards consistent with those requirements.

(C) For policies and contracts subject to a principle-based valuation under subsection (o) of this section:

(i) Requirements for the format of reports to the commissioner under paragraph (C), subdivision (2), subsection (o) of this section and which shall include information necessary to determine if the valuation is appropriate and in compliance with this section;

(ii) Assumptions shall be prescribed for risks over which the company does not have significant control or influence; and

(iii) Procedures for corporate governance and oversight of the actuarial function and a process for appropriate waiver or modification of the procedures.

(D) For policies not subject to a principle-based valuation under subsection (o), the minimum valuation standard shall either:

(i) Be consistent with the minimum standard of valuation prior to the operative date of the valuation manual; or

(ii) Develop reserves that quantify the benefits and guarantees, and the funding, associated with the contracts and their risks at a level of conservatism that reflects conditions that include unfavorable events that have a reasonable probability of occurring.

(E) Other requirements, including, but not limited to, those relating to reserve methods, models for measuring risk, generation of economic scenarios, assumptions, margins, use of company experience, risk measurement, disclosure, certifications, reports, actuarial opinions and memoranda, transition rules and internal controls; and

(F) The data and form of the data required under subsection (p) of this section, with whom the data must be submitted, and may specify other requirements including data analyses and reporting of analyses.

(5) For policies issued on or after the operative date of the valuation manual, the standard prescribed in the valuation manual is the minimum standard of valuation required under subdivision (2), subsection (b) of this section, except as provided under subdivision (6) or (8) of this subsection.

(6) In the absence of a specific valuation requirement or if a specific valuation requirement in the valuation manual is not, in the opinion of the commissioner, in compliance with this section, then the company shall, with respect to the requirements, comply with minimum valuation standards prescribed by rule.

(7) The commissioner may engage a qualified actuary, at the expense of the company, to perform an actuarial examination of the company and opine on the appropriateness of any reserve assumption or method used by the company, or to review and opine on a company's compliance with any requirement set forth in this section. The commissioner may rely upon the opinion, regarding provisions contained within this section, of a qualified actuary engaged by the commissioner of another state, district, or territory of the United States. As used in this subdivision, term "engage" includes employment and contracting.

(8) The commissioner may require a company to change any assumption or method that in the opinion of the commissioner is necessary in order to comply with the requirements of the valuation manual or this section, and the company shall adjust the reserves as required by the commissioner.

(o) Requirements of a Principle-Based Valuation. —

(1) A company must establish reserves using a principle-based valuation that meets the following conditions for policies or contracts as specified in the valuation manual:

(A) Quantify the benefits and guarantees, and the funding, associated with the contracts and their risks at a level of conservatism that reflects conditions that include unfavorable events

that have a reasonable probability of occurring during the lifetime of the contracts. For policies or contracts with significant tail risk, reflects conditions appropriately adverse to quantify the tail risk.

(B) Incorporate assumptions, risk analysis methods and financial models, and management techniques that are consistent with, but not necessarily identical to, those utilized within the company's overall risk assessment process, while recognizing potential differences in financial reporting structures and any prescribed assumptions or methods.

(C) Incorporate assumptions that are derived in one of the following manners:

(i) The assumption is prescribed in the valuation manual; or

(ii) For assumptions that are not prescribed, the assumptions shall either:

(I) Be established utilizing the company's available experience, to the extent it is relevant and statistically credible; or

(II) To the extent that company data is not available, relevant or statistically credible, be established utilizing other relevant, statistically credible experience.

(D) Provide margins for uncertainty including adverse deviation and estimation error, such that the greater the uncertainty, the larger the margin and resulting reserve.

(2) A company using a principle-based valuation for one or more policies or contracts subject to this section as specified in the valuation manual shall:

(A) Establish procedures for corporate governance and oversight of the actuarial valuation function consistent with those described in the valuation manual.

(B) Provide to the commissioner and the board of directors an annual certification of the effectiveness of the internal controls with respect to the principle-based valuation. The controls shall be designed to assure that all material risks inherent in the liabilities and associated assets subject to the valuation are included in the valuation, and that valuations are made in accordance with the valuation manual. The certification shall be based on the controls in place as of the end of the preceding calendar year.

(C) Develop, and file with the commissioner upon request, a principle-based valuation report that complies with standards prescribed in the valuation manual.

(3) A principle-based valuation may include a prescribed formulaic reserve component.

(p) Experience reporting for policies in force on or after the operative date of the valuation manual. — A company shall submit mortality, morbidity, policyholder behavior, or expense experience and other data as prescribed in the valuation manual.

(q) Confidentiality. —

(1) For purposes of this subsection, "confidential information" means:

(A) A memorandum in support of an opinion submitted under subsection (c) of this section and any other documents, materials, and other information, including, but not limited to, all working papers, and copies thereof, created, produced or obtained by, or disclosed to the commissioner or any other person in connection with the memorandum;

(B) All documents, materials, and other information, including, but not limited to, all working papers, and copies thereof, created, produced or obtained by, or disclosed to the commissioner or any other person in the course of an examination made under subdivision (7), subsection (n) of this section, but only to the same extent as the documents, materials, and other information would be held confidential were they created, produced or obtained in connection with an examination made under the general examination law set forth in §33-2-9 of this code;

(C) Any reports, documents, materials, and other information developed by a company in support of, or in connection with, an annual certification by the company under paragraph (B), subdivision (2), subsection (o) of this section evaluating the effectiveness of the company's internal controls with respect to a principle-based valuation and any other documents, materials, and other information, including, but not limited to, all working papers, and copies thereof, created, produced or obtained by, or disclosed to the commissioner or any other person in connection with the reports, documents, materials, and other information;

(D) Any principle-based valuation report developed under paragraph (C), subdivision (2), subsection (o) of this section and any other documents, materials, and other information, including, but not limited to, all working papers, and copies thereof, created, produced or obtained by, or disclosed to the commissioner or any other person in connection with the report; and

(E) Any documents, materials, data, and other information submitted by a company under subsection (p) of this section (collectively, "experience data") and any other documents, materials, data, and other information, including, but not limited to, all working papers, and copies thereof, created or produced in connection with the experience data, in each case that include any potentially company-identifying or personally identifiable information, that is provided to or obtained by the commissioner (together with any "experience data", the "experience materials") and any other documents, materials, data, and other information, including, but not limited to, all working papers, and copies thereof, created, produced or obtained by, or disclosed to the commissioner or any other person in connection with the experience materials.

(2) Privilege for, and Confidentiality of, Confidential Information. —

(A) Except as otherwise provided in this subsection, a company's confidential information is confidential by law and privileged, is exempt from disclosure under §29A-1-1 et seq. of this code, is not subject to subpoena, and is not subject to discovery or admissible in evidence in any private civil action: Provided, That the commissioner is authorized to use the confidential information in the furtherance of any regulatory or legal action brought against the company as a part of the commissioner's official duties.

(B) Neither the commissioner nor any person who received confidential information while acting under the authority of the commissioner is permitted or required to testify in any private civil action concerning any confidential information.

(C) In order to assist in the performance of the commissioner's duties, the commissioner may share confidential information:

(i) With other state, federal, and international regulatory agencies and with the NAIC and its affiliates and subsidiaries;

(ii) In the case of confidential information specified in paragraphs (A) and (D), subdivision (1) of this subsection only, with the Actuarial Board for Counseling and Discipline or its successor upon request stating that the confidential information is required for the purpose of professional disciplinary proceedings and with state, federal, and international law-enforcement officials; and

(iii) In the case of subparagraphs (i) and (ii) of this paragraph, provided that the recipient agrees and has the legal authority to agree, to maintain the confidentiality and privileged status of the documents, materials, data, and other information in the same manner and to the same extent as required for the commissioner.

(D) The commissioner may receive documents, materials, data, and other information, including otherwise confidential and privileged documents, materials, data, or information, from the NAIC and its affiliates and subsidiaries, from regulatory or law-enforcement officials of other foreign or domestic jurisdictions, and from the Actuarial Board for Counseling and Discipline or its successor, and he or she shall maintain as confidential or privileged any document, material, data, or other information received with notice or the understanding that it is confidential or privileged under the laws of the jurisdiction that is the source of the document, material or other information.

(E) The commissioner may enter into agreements governing sharing and use of information consistent with this subdivision.

(F) No waiver of any applicable privilege or claim of confidentiality in the confidential information occurs as a result of disclosure to the commissioner under this section or as a result of sharing as authorized in paragraph (C) of this subdivision.

(G) A privilege established under the law of any state or jurisdiction that is substantially

similar to the privilege established under this subdivision is available and may be enforced in any proceeding in, and in any court of, this state.

(H) In this subsection "regulatory agency", "law-enforcement agency", and the "NAIC" include, but are not limited to, their employees, agents, consultants, and contractors.

(3) Notwithstanding subdivision (2) of this subsection, any confidential information specified in paragraphs (A) and (D), subdivision (1) of this subsection:

(A) May be subject to subpoena for the purpose of defending an action seeking damages from the appointed actuary submitting the related memorandum in support of an opinion submitted under subsection (c) of this section or principle-based valuation report developed under paragraph (C), subdivision (2), subsection (o) of this section by reason of an action required by this section or by rules promulgated hereunder;

(B) May otherwise be released by the commissioner with the written consent of the company; and

(C) Once any portion of a memorandum in support of an opinion submitted under subsection (c) of this section or a principle-based valuation report developed under paragraph (C), subdivision (2), subsection (o) of this section is cited by the company in its marketing or is publicly volunteered to or before a governmental agency other than a state insurance department or is released by the company to the news media, all portions of the memorandum or report are no longer confidential.
