

WEST VIRGINIA CODE: §46-4A-201

Part II. Issue And Acceptance Of Payment Order.

§46-4A-201. Security procedure.

"Security procedure" means a procedure established by agreement of a customer and a receiving bank for the purpose of (1) verifying that a payment order or communication amending or canceling a payment order is that of the customer or (2) detecting error in the transmission or the content of the payment order or communication. A security procedure may require the use of algorithms or other codes, identifying words or numbers, encryption, callback procedures or similar security devices. Comparison of a signature on a payment order or communication with an authorized specimen signature of the customer is not by itself a security procedure.
