WEST VIRGINIA CODE: §49-4-408

§49-4-408. Unified child and family case plans; treatment teams; programs; agency requirements.

(a) The Department of Human Services shall develop a unified child and family case plan for every family wherein a person has been referred to the department after being allowed an improvement period or where the child is placed in foster care. The case plan must be filed within sixty days of the child coming into foster care or within thirty days of the inception of the improvement period, whichever occurs first. The department may also prepare a case plan for any person who voluntarily seeks child abuse and neglect services from the department, or who is referred to the department by another public agency or private organization. The case plan provisions shall comply with federal law and the rules of procedure for child abuse and neglect proceedings.

(b) The department shall convene a multidisciplinary treatment team, which shall develop the case plan. Parents, guardians or custodians shall participate fully in the development of the case plan, and the child shall also fully participate if sufficiently mature and the child's participation is otherwise appropriate. The case plan may be modified from time to time to allow for flexibility in goal development, and in each case the modifications shall be submitted to the court in writing. Reasonable efforts to place a child for adoption or with a legal guardian may be made at the same time as reasonable efforts are being made to prevent removal or to make it possible for a child to return safely home. The court shall examine the proposed case plan or any modification thereof, and upon a finding by the court that the plan or modified plan can be easily communicated, explained and discussed so as to make the participants accountable and able to understand the reasons for any success or failure under the plan, the court shall inform the participants of the probable action of the court if goals are met or not met.

(c) In furtherance of the provisions of this article, the department shall, within the limits of available funds, establish programs and services for the following purposes:

(1) For the development and establishment of training programs for professional and paraprofessional personnel in the fields of medicine, law, education, social work and other relevant fields who are engaged in, or intend to work in, the field of the prevention, identification and treatment of child abuse and neglect; and training programs for children, and for persons responsible for the welfare of children, in methods of protecting children from child abuse and neglect;

(2) For the establishment and maintenance of centers, serving defined geographic areas, staffed by multidisciplinary teams and community teams of personnel trained in the prevention, identification and treatment of child abuse and neglect cases, to provide a broad range of services related to child abuse and neglect, including direct support as well as providing advice and consultation to individuals, agencies and organizations which request
