

WEST VIRGINIA CODE: §5-22B-3

§5-22B-3. Authorization of construction management at-risk contracts for public construction projects.

(a) Notwithstanding any other provision of this code to the contrary, the state and/or its subdivisions who comply with the provisions of this article may solicit and execute a construction management at-risk contract.

(b) The execution of a construction management at-risk contract between the state and/or its subdivisions and a construction manager is optional. The use of a construction management at-risk contract is at the discretion of the state and/or its subdivisions. If the state and/or its subdivisions opt not to execute a construction management at-risk contract the provisions of §5-22-1 *et seq.* of this code shall apply to the selection and management of the bidding process of the project.

(c) Prior to entering into a construction management at-risk contract, the state and/or its subdivisions shall adopt policies for utilization of a construction management at-risk contract. The policies shall require that such contracts include, at a minimum, the following:

- (1) Procedures for the preparation and content of requests for qualifications and requests for proposals;
- (2) Procedures for preparing and submitting proposals;
- (3) Procedures for evaluating proposals in accordance with §5-22B-12 of this code;
- (4) Procedures for negotiations between the state and/or its subdivisions and the construction managers submitting proposals prior to the acceptance of a proposal if any such negotiations are contemplated; and
- (5) Procedures for filing and acting on formal protests relating to the solicitation or execution of construction management at-risk contracts.

(d) The state and/or its subdivisions may require supplemental conditions to a construction management at-risk agreement and any modifications to the agreement will be communicated to all parties prior to the execution of the contract.
