§55-12-6. Rate of commission for services of special commissioner.

For the services of commissioners or officers under any decree or order for a sale, including the collection and paying over of the proceeds, there shall not be allowed any greater commission than five percent of the amount received by them, unless the court otherwise order. And if a sale be made by one commissioner or officer and the proceeds be collected by another, the court under whose decree or order they acted shall apportion the commission between them as may be just.
