The certificate of the Auditor of the payment or nonpayment at any time of taxes on forfeited or delinquent lands, or of their not having been entered on the land books of the county or counties wherein the same were chargeable with taxes shall, in any suit in relation to such lands, be prima facie evidence of what is stated in such certificate, provided it be filed with the papers of said suit and notice thereof be given to the opposite party or his attorney at least twenty days before the first day of the term at which it is to be offered as evidence. When the certificate purports to be signed by the said Auditor, it may be admitted as evidence without proof of his signature.

§57-1-7a. Use of photographic copies in evidence; state records, papers or documents; destruction or transfer to archives of originals; destruction of canceled checks and paid and canceled bonds and coupons.

(a) Any public officer of the state may, with the approval of the state records administrator, cause any or all records, papers or documents kept by him to be reproduced, by any photographic, photostatic, microphotographic or by similar miniature photographic process or by nonerasable optical image disks (commonly referred to as compact disks) or by other records-retention technology approved by the state records administrator. These reproductions by photographic, photostatic, microphotographic or by similar miniature photographic process or by nonerasable optical image disks shall be of durable material and the device used to reproduce such records on such film shall be one which accurately reproduces the originals thereof in all details.

The reproductions by photographic, photostatic, microphotographic or by similar miniature photographic process or nonerasable optical image disks shall be deemed to be an original record for all purposes, including introduction in evidence in all courts or administrative agencies. A transcript, exemplification or certified copy thereof shall, for all purposes recited herein, be deemed to be a transcript, exemplification or certified copy of the original. Whenever reproductions by photographic, photostatic, microphotographic or by similar miniature photographic process or nonerasable optical image disks have been made and put in conveniently accessible fireproof files, and provision has been made for preserving, examining and using the same, the respective heads of the departments, divisions, institutions and agencies of the state may, with the approval of the state records administrator, cause the records and papers so reproduced by photographic, photostatic, microphotographic or by similar miniature photographic process or nonerasable optical image disks, or any part thereof, to be destroyed; but before any records, papers or documents are authorized to be destroyed, the state records administrator shall obtain the advice and counsel of the state historian and archivist, or his designated representative, as to the desirability of placing the records, papers and documents in the archives of that department. In the event the administrator is of the opinion that the record has no further administrative, legal, fiscal, research or historical value, the administrator may destroy or otherwise dispose of the record, paper or document if otherwise permitted to do so after complying with the provisions of section seventeen, article eight, chapter five-a of this code.

(b) Notwithstanding any other provisions of this code to the contrary, the State Treasurer may at his discretion destroy any canceled checks of the state after three years have elapsed since the date of the check, whether or not such checks have been reproduced by photographic, photostatic, microphotographic or by similar miniature photographic process or nonerasable optical image disks: Provided, That any canceled bonds or interest coupons of any bond issues of this state in the custody of the treasurer, or for which the treasurer acts as fiscal agent or paying agent, may at his discretion be destroyed by one of the two methods below:

Method I - The treasurer shall maintain a permanent record for the purpose of recording the

destruction of bonds and coupons, showing the following: (1) With respect to bonds, the purpose of issuance, the date of issue, denomination, maturity date and total principal amount; and (2) with respect to coupons, the purpose of issue and date of the bonds to which the coupons appertain, the maturity date of the coupons, and, as to each maturity date, the denomination, quantity and total amount of coupons.

After recording the specified information, the treasurer shall have the canceled bonds and coupons destroyed either by burning or shredding, in the presence of an employee of the treasurer and an employee of the Legislative Auditor, each of whom shall certify that he saw the canceled bonds and coupons destroyed. The certificates shall be made a part of the permanent record. Canceled bonds or coupons shall not be destroyed until after one year from the date of payment.

Method II - The treasurer may contract with any bank or trust company acting as paying agent or copaying agent for a bond issue of the state for the destruction of bonds and interest coupons which have been canceled by the paying agent. The contract shall require that the paying agent give the treasurer a certificate containing the same information required by Method I. The certificate shall be made a part of the treasurer's permanent records.

Each contract shall also require that the paying agent be responsible for proper payment and disposition of all bonds and coupons, and for any duplicate payments to unauthorized persons and nonpayment to authorized persons occurring as a result of destruction of bonds or coupons under this section. In addition, the treasurer may require the paying agent to submit an indemnity bond, in an amount to be determined by the treasurer, to assure performance of the duties specified in this section. Canceled bonds or coupons may not be destroyed until one year from the date of payment.

For purposes of this section, the term "bonds" shall include interim certificates.

§57-1-7b. Use of photographic copies in evidence -- Business and public records; destruction of originals.

If any business, institution, member of a profession or calling, or any officer of a local governmental agency, including county officers, county boards of education and municipalities, in the regular course of business or activity has kept or recorded any memorandum, writing, entry, print, representation or combination thereof, of any act, transaction, occurrence or event, and in the regular course of business has caused any or all of the same to be recorded, copied or reproduced by any photographic, photostatic, microfilm, microcard, miniature photographic, or other process which accurately reproduces or forms a durable medium for so reproducing the original, the original may be destroyed in the regular course of business unless held in a custodial or fiduciary capacity or unless its preservation is required by law: Provided, however, That destruction of records of local governmental agencies shall also be contingent upon the approval by those agencies of such disposition. Such reproduction, when satisfactorily identified, is as admissible in evidence as the original itself in any judicial or administrative proceeding whether the original is in existence or not, and an enlargement or facsimile of such reproduction is likewise admissible in evidence if the original reproduction is in existence and available for inspection under direction of court. The introduction of a reproduced record, enlargement of facsimile, does not preclude admission of the original.

§57-1-7c. Use of microfilm or microcards to reproduce and preserve records; destruction or transfer of originals to archivist.

The clerk of any court of record of the state may, with the approval of the court for which he or she is clerk, cause any or all records, papers, plats, or other documents kept by him or her to be reproduced on photographic microfilm or microcards and may, with the approval of the court for which he or she is clerk, record, keep and preserve any and all records, papers, plats, or other documents required by the laws of this state to be recorded or kept by said clerk or court exclusively upon photographic microfilm or microcards instead of in well-bound books or instead of by any other method heretofore prescribed by law.

Such photographic microfilm and microcards shall be of durable material and possess good, archival qualities. The device used to reproduce such records on such film and cards shall be one which accurately reproduces the original thereof in all details.

Such photographic microfilm and microcards shall be deemed to be an original record for all purposes, including introduction into evidence in all courts or administrative agencies. A transcript, exemplification, or photographic reproduction thereof shall, when properly authenticated by the clerk of such court, be deemed for all purposes to be a transcript, exemplification, or certified copy of the original.

Such photographic microfilm and microcards shall be put in convenient, accessible fireproof files and adequate provision shall be made for preserving, examining and using the same.

Any such records, papers, plats, or other documents not held for others by said clerk or court or required by law to be delivered to some other person, court, corporation or agency, may with the approval of the court keeping such records, papers, plats, or other documents be destroyed; but before any such records, papers, plats or other documents are authorized to be destroyed the court keeping them or the clerk thereof shall obtain the advice and counsel of the state historian or archivist, or his designated representatives, as to the desirability of placing the said records, papers, plats, or other documents in the department of archives and history. However, prior to destroying or otherwise disposing of the same, the court or clerk thereof shall give written notice of the intention to do so to the director of the section of archives and history of the Division of Culture and History. Upon the written request of the director, given to the court or clerk thereof within ten days of receipt of said notice, the court or clerk thereof shall retain the original record for a period of thirty days. In the event the director fails to retrieve the original document from the court or clerk thereof within the thirty-day period, the court or clerk thereof may destroy or otherwise dispose of the original without further notice to the director.

§57-1-7d. Records provided on computer or optical disc.

Notwithstanding any other provision of this code to the contrary, where any provision of this code requires that a copy of any record of any branch of the government of this state be provided or delivered, the custodian of said record is authorized to comply with the requirement by providing or delivering a true copy in the form of a computer or optical disc which is not subject to alteration, is formatted to write once read many, and is attested by the custodian thereof to be a true, accurate and complete copy of the record required to be provided or delivered.

§57-1-8. Copy of writing filed in one suit may be filed in another suit on same writing.

Such a copy of any writing filed in a suit may be filed in another suit on the same writing, and the defendant shall plead thereto as if the original were filed.
