(b) A preservation duplicate made by a photographic, photostatic, microfilm, microcard, miniature photographic, electronic file, digital image, or other process which accurately reproduces or forms a durable and unalterable medium for so reproducing the original, shall have the same force and effect for all purposes as the original record whether the original record is in existence or not. (3) The agency may store such state record at a location other than its legally designated or customary location, without providing for a preservation duplicate, upon a determination that it is impracticable to provide for a preservation duplicate and that the state record is not frequently used. Such determination shall be made by the administrator and the regularly designated custodian of such state record, but if they disagree the determination shall be made by the administrator.

(c) The requirements of subsection (b) of this section shall not prohibit the administrator from removing an essential state record or preservation duplicate from the legally designated or customary location of the state record if a disaster has occurred or is imminent.

§5A-8-15. Records management and preservation of county records; alternate storage of county records; Records Management and Preservation Board; qualifications and appointment of members; reimbursement of expenses; staffing; rule-making authority; study of records management needs of state agencies; grants to counties.

The Legislature finds that the use of electronic technology and other procedures to manage and preserve public records by counties should be uniform throughout the state where possible.

(a) The governing body and the chief elected official of a county, hereinafter referred to as a county government entity, whether organized and existing under a charter or under general law, shall promote the principles of efficient records management and preservation of local records. A county governing entity may, as far as practical, follow the program established for the uniform management and preservation of county records as set out in rules proposed for legislative approval in accordance with the provisions of §29A-3-1 *et seq.* of this code as proposed by the Records Management and Preservation Board.

(b) In the event a county government entity decides to destroy or otherwise dispose of a county record, the county government entity may, prior to destruction or disposal thereof, offer the record to the director of Archives and History within the Department of Arts, Culture, and History for preservation of the record as a document of historical value. Unless authorized by the Supreme Court of Appeals, the records of courts of record and magistrate courts are not affected by the provisions of this section.

(c)(1) A preservation duplicate of a county government entity record may be stored in any format approved by the board in which the image of the original record is preserved in a form, including electronic file, in which the image is incapable of erasure or alteration and from which a reproduction of the stored record may be retrieved that truly and accurately depicts the image of the original county government record.

(2) Except for those formats, processes, and systems used for the storage of records on the effective date of this section, no alternate format for the storage of county government entity records described in this section is authorized for the storage of county government entity records unless the particular format has been approved pursuant to a legislative rule promulgated by the board in accordance with the provisions of Chapter 29A of this code. The board may prohibit the use of any format, process, or system used for the storage of records upon its determination that the same is not reasonably adequate to preserve the records from destruction, alteration, or decay.

(3) Upon creation of a preservation duplicate that stores an original county government entity record in an approved format that is incapable of erasure or alteration and that may be retrieved in a format that truly and accurately depicts the image of the original record, the county government entity may destroy or otherwise dispose of the original in accordance with the provisions of §57-1-7c of this code.

(d) A Records Management and Preservation Board for county government entities is continued, to be composed of 11 members.

(1) Three members shall serve ex officio. One member shall be the curator of the Department of Arts, Culture, and History or designee who shall be the chair of the board. One member shall be the Administrator of the Supreme Court of Appeals or designee. One member shall be the Chief Technology Officer or designee.

The names of three clerks of county commissions and three circuit court clerks shall be submitted to the Governor by the West Virginia Association of Counties. The names of three county commissioners shall be submitted to the Governor jointly by the West Virginia Association of Counties and the West Virginia County Commissioners Association. (e) The members of the board shall serve without compensation but shall be reimbursed for all reasonable and necessary expenses actually incurred in the performance of their duties as members of the board in a manner consistent with the guidelines of the Travel Management Office of the Department of Administration. In the event the expenses are paid, or are to be paid, by a third party, the member shall not be reimbursed by the state.

(f) The staff of the board shall consist of the Director of Archives and History within the Department of Arts, Culture, and History and any additional staff as needed.

(g) The board shall propose rules for legislative approval in accordance with the provisions of §29A-3-1 *et seq.* of this code to establish a system of records management and

preservation for county governments: *Provided*, That, for the retention and disposition of records of courts of record and magistrate courts, the implementation of the rule is subject to action by the Supreme Court of Appeals of West Virginia. The proposed rules shall include provisions for establishing a program of grants to county governments for making records management and preservation uniform throughout the state.

(h) In addition to the fees charged by the clerk of the county commission under the provisions of §59-1-10 of this code, the clerk shall charge and collect an additional \$2 fee for every document containing less than 20 pages filed for recording and an additional \$1 fee for each additional 10 pages of document filed for recording. At the end of each month, the clerk of the county commission shall deposit into the Public Records and Preservation Revenue Account as established in the State Treasury all fees collected: *Provided*, That the clerk may retain not more than 10 percent of the fees for costs associated with the collection of the fees. Clerks shall be responsible for accounting for the collection and deposit in the State Treasury of all fees collected by the clerk under the provisions of this section.

(i) There is hereby created in the State Treasury a special account entitled the Public Records and Preservation Revenue Account. The account shall consist of all fees collected under the provisions of this section, legislative appropriations, interest earned from fees, investments, gifts, grants, or contributions received by the board. Expenditures from the account shall be for the purposes set forth in this article and are not authorized from collections but are to be made only in accordance with appropriation by the Legislature and in accordance with the provisions of §12-3-1 *et seq.* of this code and upon the fulfillment of the provisions set forth in §11B-2-1 *et seq.* of this code.

(j) Subject to the above provision, the board may expend the funds in the account to implement the provisions of this article. In expending funds from the account, the board shall allocate not more than 50 percent of the funds for grants to counties for records management, access, and preservation purposes. WV Legislature

§5A-8-17. Disposal of records.

(a) Except as provided in §57-1-7a of this code, no record shall be destroyed or otherwise disposed of by any agency of the state, unless it is determined by the administrator and the Director of Archives and History within the Department of Arts, Culture, and History that the record has no further administrative, legal, fiscal, research, or historical value. In the event the administrator is of the opinion that the record has no further administrative, legal, fiscal, research, or historical value, the administrator shall approve, if appropriate, a request for disposal of the records and notify both the Director of Archives and History and the agency that is the custodian of the records that they may be destroyed.

(b) The provisions of this section are not applicable to the judicial branch, the West Virginia House of Delegates, the West Virginia Senate, or the Joint Committee on Government and Finance.

§5A-8-18. Destruction of nonrecord materials.

Nonrecord materials or materials not included within the definition of records as contained in this article may, if not otherwise prohibited by law, be destroyed at any time by the agency in possession of such materials without the prior approval of the administrator. The administrator may formulate procedures and interpretations to guide in the disposal of nonrecord materials.

WV Legislature

§5A-8-19. Annual report.

The administrator shall make an annual written report to the Governor for transmission to the Legislature. The report shall describe the status and progress of programs established pursuant to this article and shall include the recommendations of the administrator for improvements in the management and preservation of records in state government.

WV Legislature

§5A-8-20. Alternate storage of state records.

(a) Findings and purpose. -- The Legislature finds that continuous advances in technology have resulted and will continue to result in the development of alternate formats for the nonerasable storage of state records, and that the use of such alternative storage formats, where deemed advisable, promote the efficient and economical administration of government and provide a means for the preservation of valuable records that are subject to decay or destruction. It is the purpose of the Legislature to authorize the storage of state records in those alternate formats, as may be determined by the various branches of the government of this state, that will reasonably ensure that the originals of those records are copied into alternative formats in a manner in which the image of the original records is not erased or altered, and from which true and accurate reproductions of the original state records may be retrieved.

(b) Approved format. -- (1) In addition to those formats, processes and systems described in section ten of this article, sections seven-a and seven-c, article one, chapter fifty-seven of this code, and section twelve, article five of that chapter which are otherwise authorized for the reproduction of state records, a preservation duplicate of a state record may be stored in any approved format where the image of the original state record is preserved in a form in which the image thereof is incapable of erasure or alteration, and from which a reproduction of the stored state record may be retrieved which truly and accurately depicts the image of the original state record.

(2) As a substitute for using medium that is incapable of erasure or alteration, a preservation duplicate of a state record may be stored on other electronic storage medium or other medium capable of storing digitized documents if:

(A) The medium is stored to maximize its life by minimizing exposure to environmental contaminants;

(B) At least two copies of the preservation duplicate are made and one copy is stored in an off-site location; and

(C) A procedure is established and followed which ensures that:

(i) Modifications in the archiving process are made as technology changes so that the preservation duplicates are readily accessible, which may include migrating the preservation duplicates to different medium or different file formats; and

(ii) The medium is periodically examined to determine if the preservation duplicates remain readable and intact.

(c) Executive agency records. -- (1) The alternate formats for the storage of state records described in this section are authorized for the storage of the state records of any agency of this state. The state records administrator shall establish a procedure for executive agencies

to follow implementing the provisions of subsection (b) of this section by July 1, 2013. The procedure shall include, at a minimum, the identification of examples of medium and accompanying procedures to be followed for executive agencies when making preservation duplicates of state records on medium readily available, other than microfilm or microfiche.

(2) Upon creation of a preservation duplicate from which a reproduction of the stored state record may be retrieved which truly and accurately depicts the image of the original state record, the state records administrator may destroy or otherwise dispose of the original in accordance with the provisions of section seventeen of this article for the destruction of records.

(d) Judicial records. -- (1) Except for those formats, processes and systems used for the storage of state records on the effective date of this section, no alternate format for the storage of state records described in this section is authorized for the storage of the state records of any court of this state unless the particular format has been approved by the Supreme Court of Appeals by rule. This section does not prohibit the Supreme Court of Appeals from prohibiting the use of any format, process or system used for the storage of judicial state records upon its determination that the same is not reasonably adequate to preserve the state records from destruction, alteration or decay.

(2) Upon creation of a preservation duplicate which stores an original judicial state record in an approved format from which a reproduction of the stored state record may be retrieved which truly and accurately depicts the image of the original state record, the court or the clerk thereof creating the same may, consistent with rules of the Supreme Court of Appeals, destroy or otherwise dispose of the original in accordance with the provisions of section seven, article one, chapter fifty-seven of this code for the destruction of records.

(e) Legislative records. -- In accordance with all applicable provisions of the West Virginia Constitution, the procedures for the storage and destruction of legislative records shall be determined by each house, or by a joint rule.

(f) Upon request and payment of a reasonable cost, one copy of any state record archived or preserved pursuant to the provisions of this article shall be provided to any person or entity: Provided, That the person or entity that has produced the state record may receive one copy without charge. For the purpose of this subsection "state record" means electronic record created and maintained by state agencies.

§5A-8-21. Limitation on release of certain personal information maintained by state agencies and entities regarding state employees.

(a) The following personal information maintained by executive, legislative, or judicial branch agencies of the State of West Virginia regarding persons in their capacity as state officers, employees, retirees, or the legal dependents thereof is hereby deemed to be confidential and exempt from disclosure, as an unreasonable invasion of privacy, to non-governmental entities in documents otherwise subject to disclosure under the provisions of §29B-1-1 *et seq.* of this code:

- (1) An individual's Social Security number; or
- (2) An individual's credit or debit card number.

(b) Notwithstanding the provisions of subsection (a) of this section, the information enumerated in said subsection may be released for such purposes as are authorized by federal law or regulation, a provision of this code, or a legislative rule promulgated pursuant to the provisions of §29A-1-1 *et seq.*

§5A-8-23. Limitation of liability.

This article creates no liability upon any person acting in his or her capacity as a state officer, employee, or retiree or former employee of the State of West Virginia; or upon the legal dependents, heirs and assignees of any such person; nor, upon any agency of the executive, legislative, or judicial branch of government of the State of West Virginia, for any transaction which is compromised by any third party's illegal act or inappropriate use associated with information regulated by this article.
