

WEST VIRGINIA CODE: §5b-2B-9

§5B-2B-9. Coordination between agencies providing workforce investment programs, local workforce investment boards and the Executive Director of Workforce West Virginia.

(a) To provide ongoing attention to addressing issues that will build and continually improve the overall workforce investment system, the Workforce Investment Interagency Collaborative Team is hereby created. The team shall be the single state interagency source for addressing issues or concerns related to building and maintaining the most effective and efficient implementation of WIOA and the overall workforce development system in West Virginia. The team shall focus on how best to collaborate between and among the state agencies directly involved in workforce investment activities and shall develop a strategic plan to that end. The team shall serve as a forum for the board to seek information or recommendations in furtherance of its responsibilities under this article. Workforce West Virginia is the entity which shall convene the team at least monthly and shall provide administrative and other services to the team as the team requires.

(b) The team shall consist of members from each agency subject to the reporting provisions of section five of this article. Each agency shall appoint two representatives to the team consisting of the chief official of the department or division and the official within that department or division who is directly responsible for overseeing the workforce investment program or activities at the state level. A designee may be selected to represent a member appointed to the team: Provided, That the designee has policy-making decision authority regarding workforce investment activities including program and fiscal issues. The team members have authority to make decisions on behalf of the agency at the level required for the team to address issues and advance system improvements.

(c) The team shall coordinate the development of a self-sufficiency standard study for the State of West Virginia. The self-sufficiency standard is to measure how much income is needed for a household of a given composition in a given place to adequately meet its basic needs without public or private assistance. Beginning on November 1, 2004, and every two years thereafter, this study is to be reported to the Speaker of the House of Delegates, the President of the Senate, the board and the Legislative Oversight Commission on Workforce Investment for Economic Development.

(d) Beginning January 1, 2003, in order to lawfully continue any workforce investment activities, any agency subject to the reporting provisions of section five of this article shall enter into a memorandum of understanding with the Executive Director of Workforce West Virginia and any local board representing an area of this state in which the agency is engaged in workforce investment activities. To the extent permitted by federal law, the agreements are to maximize coordination of workforce investment activities and eliminate duplication of services on both state and local levels.

(e) No memorandum of understanding may be effective for more than one year without annual reaffirmation by the parties.

(f) Any state agency entering a memorandum of understanding shall deliver a copy thereof to both the board and the Legislative Oversight Commission.
