WV Legislature

§8-16-4a. Additional special provisions as to motor vehicle parking facilities.

(a) The Legislature hereby finds that the greatly increased use by the public of motor vehicles of all kinds has caused serious traffic congestion on the streets of many municipalities in this state; that the lack of adequate planning and supervision of the location of parking facilities, the parking of motor vehicles of all kinds and the lack of adequate parking facilities for motor vehicles of all kinds substantially impede the free circulation of traffic in, through and from many municipalities in this state, impede the rapid and effective fighting of fires and disposition of police officers therein, contribute to the location and relocation of commercial and business enterprises outside of urban areas and retard the development of commerce and business within many municipalities in this state, thereby giving rise to urban blight and adversely affecting or threatening to adversely affect the tax base of such municipalities; that such parking crisis can be reduced by such municipalities providing adequate motor vehicle parking facilities strategically located there; that providing properly located terminal space for motor vehicles is a public responsibility; that fostering the development of commerce and business within municipalities, with the increased tax revenues resulting therefrom, is a public purpose; that fostering the availability of property for charitable use is a public purpose; that the closer the proximity between municipally owned motor vehicle parking facilities and commercial and business establishments the greater the development of commerce and business and the greater the level of revenue produced by such motor vehicle parking facilities; that the erection or construction of pedestrian viaducts, ramps, bridges, tunnels or other pedestrian facilities leading to and from motor vehicle parking facilities so as to facilitate the movement of pedestrians to and from such motor vehicle parking facilities fosters the development of commerce and business and increases the level of revenue produced by such motor vehicle parking facilities; that the leasing, particularly on a long-term basis, and the selling of space for commercial or business use in connection with a municipally owned motor vehicle parking facility will aid the development of commerce and business, increase the level of revenue produced by such motor vehicle parking facility and maintain and increase the tax base of such municipalities; that in many instances the authority for the leasing of space as provided for in this section would assist in financing the construction, reconstruction, establishment, acquisition, improvement, renovation, extension, enlargement, increase, equipment or repair (including replacements) of any such motor vehicle parking facility; that the enactment of this section is for the general welfare of the public and is a public necessity; and that the means and measures authorized in this section are, as a matter of public policy, for the public purposes of such municipalities. This section is enacted in view of these findings and shall be liberally construed in the light thereof.

(b) The governing body or bodies, in its or their discretion, may provide by ordinance or ordinances:

(1) For the leasing by the board as lessor of space in or on a municipal public works which is a motor vehicle parking facility for any business, commercial or charitable use to such person, for such fair and adequate consideration, for such period or periods of time and upon such other terms and conditions as such body or bodies or the board may agree to. In

connection with the leasing of any such space, the board may agree to provide in or on such motor vehicle parking facility such structures, accommodations or improvements as may be necessary for such business, commercial or charitable use or such space may be leased upon condition that the lessee shall provide the same in or on the space so leased.

(2) For the leasing by the board as lessor or the selling of air space over a municipal public works which is a motor vehicle parking facility for any business, commercial or charitable use to such person, for such fair and adequate consideration, for such period or periods of time in the case of a lease and upon such other terms and conditions as such body or bodies or the board may agree to. Any lease or deed of sale of such air space may contain provisions (i) authorizing the use of such areas of the underlying motor vehicle parking facility as are essential for ingress and egress to and from such air space, (ii) relating to the support of any building or other structure to be erected in such air space, and (iii) relating to the connection of essential public or private utilities to any building or other structure in such air space.

(3) For the erection or construction by the board of any pedestrian viaduct, ramp, bridge, tunnel or other pedestrian facility leading to and from a municipal public works which is a motor vehicle parking facility; and any such pedestrian viaduct, ramp, bridge, tunnel or other pedestrian facility shall, for all purposes of this article, be considered to be a part of a municipal public works which is a motor vehicle parking facility with like effect as if the term "municipal public works" were expressly defined in section one of this article to include pedestrian viaducts, ramps, bridges, tunnels or other pedestrian facilities: Provided, That any cost incurred by any municipality or municipalities in erecting or constructing any such pedestrian viaduct, ramp, bridge, tunnel or other pedestrian facility which connects a municipal public works which is a motor vehicle parking facility with a privately owned building or buildings or other privately owned structure or structures shall be paid for by the owner or owners of such building or buildings or such other structure or structures.

Any such lease may be privately negotiated without any public notice or advertising, and any such sale may be a public sale pursuant to the provisions of section eighteen, article twelve of this chapter or such sale may be privately negotiated, notwithstanding the provisions of said section eighteen.

(c) The proceeds received from any lease, sale or payment as provided in this section shall be deemed revenue of the works and used as provided in section seventeen of this article.

(d) Notwithstanding the fact that any motor vehicle parking facility subject to the provisions of this article is municipally owned and the fact that a lease or sale under the provisions of subdivision (1) or subdivision (2), subsection (b) of this section is for a public purpose as declared in subsection (a) of this section, any leasehold interest under said subdivision (1), and any building, structure, accommodation or improvement erected, made or operated in any air space leased or sold under said subdivision (2) shall be subject to all property taxes, which shall be assessed and imposed against the lessee or grantee, as the case may be, unless the use of such leasehold interest, building, structure, accommodation or

improvement is otherwise exempt from property taxation under the provisions of section nine, article three, chapter eleven of this code.

WV Legislature

§8-16-4b. Additional special provision as to the use of space in motor vehicle parking facilities.

For all purposes of this article, the power and authority of any municipality to lease, as lessor, space in a motor vehicle parking facility to any person for business, commercial or charitable use shall be deemed to include the power and authority to lease such space to the United States of America, the State of West Virginia, the county court of any county of the State of West Virginia, and any agency, board or commission of any thereof, and the revenues derived from such leases may be pledged as security for and expended in payment of revenue bonds of such municipality in like manner and to the same extent as other revenues from such motor vehicle parking facility.

§8-16-5. Powers of board; bidding requirements; emergency repairs.

(a) The board shall have plenary power and authority to take all steps and proceedings, and to make and enter into all contracts or agreements necessary, appropriate, useful, convenient or incidental to the performance of its duties and the execution of its powers and authority under this article: *Provided*, That any contract or agreement relating to the financing, or the construction, reconstruction, establishment, acquisition, improvement, renovation, extension, enlargement, increase, equipment, operation or maintenance of any such works, and any trust indenture with respect thereto as hereafter provided for, shall be approved by the governing body or bodies.

(b) The board may employ engineers, architects, inspectors, superintendents, managers, collectors, attorneys and such other employees as in its judgment may be necessary in the execution of its powers and duties, and may fix their compensation, all of whom shall do such work as the board may direct. All compensation and expenses incurred in carrying out the provisions of this article shall be paid solely from funds provided under the authority of this article, and the board shall not exercise or carry out any power or authority herein given it so as to bind said board or any municipality beyond the extent to which money shall have been, or may be provided under the authority of this article.

(c) No contract or agreement with any contractor or contractors for labor or materials, or both, exceeding in amount the sum of \$50,000 may be made without advertising for bids, which bids shall be publicly opened and an award made to the lowest responsible bidder, with power and authority in the board to reject any and all bids: *Provided*, That for purposes of the bid requirements imposed by this section, the term "board" includes the governing body of any municipal public utility.

(d) After the construction, reconstruction, establishment, acquisition, renovation or equipment of any such works, the board shall maintain, operate, manage and control the same, and may order and complete any improvements, extensions, enlargements, increase or repair (including replacements) of and to the works that the board may consider expedient, if funds therefor be available, or are made available, as provided in this article, and shall establish rules for the use, maintenance and operation of the works, and do all things necessary or expedient for the successful operation thereof, and for stormwater systems and associated stormwater management programs, those activities which include, but are not limited to, stormwater and surface runoff water quality improvement activities necessary to comply with all federal and state requirements. All public ways or public works damaged or destroyed by the board in carrying out its authority under this article shall be restored or repaired by the board and placed in their original condition, as nearly as practicable, if requested so to do by proper authority, out of the funds provided under the authority of this article.

(e) Emergency repairs shall be exempt from the bidding requirements of subsection (c) of this section. For the purpose of this subsection, the term emergency repairs means repairs that if not made immediately will seriously impair the use of building components, systems,

and public infrastructure or cause danger to persons using the building components, systems, and public infrastructure.

WV Legislature

When two or more municipalities take joint action under the provisions of this article, a certified copy of each such ordinance shall be filed in the office of the clerk of the county commission of the county or counties in which the municipalities are located and in the office of the State Tax Commissioner, and when any such municipality is located in more than one county, the filing for that municipality shall be in the office of the clerk of the county commission in which the major portion of the territory of such municipality is located. At such hearing all objections and suggestions shall be heard and the governing body or each such governing body shall take such action as it or they shall deem proper in the premises: Provided, That if at any such hearing written protest is filed by thirty percent or more of the freeholders of the municipality for which the hearing is held, then the governing body of said municipality shall not take further action unless four fifths of the members of said governing body assent thereto: Provided, however, That in case written protest is filed by thirty percent or more of the freeholders as herein provided, any such governing body shall have authority to appoint a committee to consist of one proponent, one opponent, and the third to

Title to property shall be taken in the name of the municipality or jointly in the names of the participating municipalities. Proceedings for such appropriation of property shall be under and pursuant to chapter fifty-four of this code: Provided, That any such municipality shall be under no obligation to accept and pay for any property condemned, and shall in no event pay for any property condemned or purchased, except from funds provided under the authority of this article; and in any proceedings to condemn, such orders may be made as may be just to any such municipality and to the owners of the property to be condemned; and an understanding or other security may be required securing such owners against any loss or damage which may be sustained by reason of the failure of any such municipality to accept and pay for the property, but such undertaking or security shall impose no liability upon any such municipality, except such as may be paid from the funds provided under the authority of this article.

In the event of acquisition by purchase, the board may obtain and exercise an option from the owners of said property for the purchase thereof, and may enter into a contract for the purchase thereof, and such purchase may be made upon such terms and conditions, and in such manner as the board may deem proper: Provided, however, That the exercise of such option, or the contract for such purchase, or such purchase shall in no event create any obligation of any such municipality, or create any debt, liability or claim, except such as may be discharged or paid from the funds provided under the authority of this article.

In the event of the acquisition of any works already constructed by purchase or condemnation, the board at or before the time of the adoption of any ordinance described in section seven hereof, shall cause to be determined what reconstruction, improvement, renovation, extension, enlargement, increase, equipment or repair (including replacements) will be necessary, in order that such works and space for business, commercial or charitable use in connection therewith, if any, may be effective for their purpose, and an estimate of the cost thereof shall be included in the estimate of the cost required by section seven hereof, and the same shall be made upon the acquisition of the works and as a part of the cost thereof: Provided further, That no municipality or municipalities shall, under the authority conferred by this article, condemn any existing privately owned works (other than motor vehicle parking facilities) in operation at the date of the condemnation.

§8-16-11. No municipality is to incur any obligation not payable from proceeds of bonds; exemption from taxation.

Nothing in this article contained shall be so construed as to authorize or permit any municipality or municipalities to make any contract or incur any obligation of any kind or nature, except such as shall be discharged or payable solely from the funds provided under the authority of this article. Funds for the payment of the entire cost of the works shall be provided by the issuance of revenue bonds of the municipality or municipalities, the principal and interest of which bonds shall be payable solely from the special fund for such payment herein provided for, and said bonds shall not in any respect be a corporate indebtedness of such municipality or municipalities. All such bonds and the interest thereon, and all properties and revenues and income derived from such municipal public works, shall be exempt from all taxation by this state, or any county, municipality, political subdivision or agency thereof. The bonds shall contain a statement on their face that the municipality or municipalities issuing the same shall not be obligated to pay the same, or the interest thereon, except from the special fund derived from the net revenue of the works, or the pro rata part thereof, as provided for in section eleven hereof. If the proceeds of the bonds, by error of calculation or otherwise, shall be less than the cost of the project, additional bonds may in like manner be issued to provide the amount of such deficit, and, unless otherwise provided in the ordinance or ordinances authorizing the issuance of the bonds first issued, or in the trust indenture hereinafter authorized, shall be deemed to be of same issue, and shall be entitled to payment without preference or priority of the bonds first issued; and if any preference or priority of the bonds first issued is provided for in the ordinance or ordinances authorizing the issuance of the bonds first issued or in said trust indenture, such preference or priority shall not extend to an amount exceeding ten percent of the original issue. Prior to the preparation of the definitive bonds, interim certificates may, under like restrictions, be issued, exchangeable for definitive bonds upon the issuance

of the latter.

The ordinance or ordinances authorizing the issuance of the revenue bonds, and fixing the details thereof, may provide that such trust indenture may contain such provisions for protecting and enforcing the rights and remedies of bondholders as may be reasonable and proper, not in violation of law, including covenants setting forth the duties of the municipality or municipalities and the board in relation to the construction, reconstruction, establishment, acquisition, improvement, renovation, extension, enlargement, increase and equipment of the project and the repair (including replacements), maintenance, operation and insurance thereof, and the custody, safeguarding and application of all moneys, and may provide that the project shall be contracted for, carried out and paid for, under the supervision and approval of the consulting engineers employed or designated by the board and satisfactory to the original bond purchasers, their successors, assignees or nominees, who may be given the right to require the security given by contractors and by any depository of the proceeds of bonds or revenues of the works or other moneys pertaining thereto be satisfactory to such purchasers, their successors, assignees or nominees. Except as in this article otherwise provided, the governing body or bodies may provide by ordinance or ordinances or in such trust indenture for the payment of the proceeds of the sale of the bonds and the revenues of the works to such officer, board or depository, as such body or bodies may determine for the custody thereof, and for the method of distribution thereof, with such safeguards and restrictions as such body or bodies may determine.

§8-16-17. Sinking fund; West Virginia Municipal Bond Commission; transfer of funds; purchase of outstanding bonds.

Before the issuance of any such bonds, the governing body or bodies shall, by ordinance or ordinances, provide for a sinking fund for the payment of the bonds and the interest thereon, and the payment of the charges of banking institutions or trust companies for making payment of such bonds and interest, out of the net revenues of said works, and shall set aside and pledge a sufficient amount of the net revenues of the works hereby defined to mean the revenues of the works remaining after the payment of the reasonable expenses of repair (including replacements), maintenance and operation, such amount to be paid by the board into the sinking fund at intervals, to be determined by ordinance or ordinances adopted prior to the issuance of the bonds, for: (a) The interest upon such bonds as such interest shall fall due; (b) the necessary fiscal agency charges for paying bonds and interest; (c) the payment of the bonds as they fall due, or if all bonds mature at one time, the proper maintenance of a sinking fund sufficient for the payment thereof at such time; and (d) a margin for safety and for the payment of premium upon bonds retired by call or purchase as herein provided, which margin, together with unused surplus of such margin carried forward from the preceding year and the amounts set aside as reserves out of the proceeds from the sale of the bonds, or from the revenues of said works, or from both, shall equal ten percent of all other amounts so required to be paid into the sinking fund. Such required payments shall constitute a first charge upon all the net revenues of the works. Prior to the issuance of the bonds, the board may, by ordinance or ordinances, be given the right to use or direct the trustee or the West Virginia Municipal Bond Commission to use such sinking fund, or any part thereof, in the purchase of any of the outstanding bonds payable therefrom, at the market prices thereof, but not exceeding the price, if any, at which the same shall in the same year be payable or redeemable, and all bonds redeemed or purchased shall forthwith be cancelled, and shall not again be issued. After the payments into the sinking fund as herein required and after reserving an amount deemed by the board sufficient for repair (including replacements), maintenance and operation for an ensuing period of not less than twelve months and for depreciation, the board may at any time in its discretion transfer all or any part of the balance of the net revenues into the sinking fund or into a fund for improvement, renovation, extension, enlargement, increase or equipment for or to the works, or the governing body or bodies may, notwithstanding the provisions of section twenty, article thirteen of this chapter, transfer all or any part of the balance of the net revenues to the general or any special fund of the municipality or municipalities and use such revenues for any purpose for which such general or special fund may be expended.

All amounts for the sinking fund and interest, as and when set apart for the payment of same, shall be remitted to the West Virginia Municipal Bond Commission at such periods as shall be designated in the ordinance or ordinances, but in any event at least thirty days previous to the time interest or principal payments become due, to be retained and paid out by said commission consistent with the provisions of this article and the ordinance or ordinances pursuant to which such bonds have been issued. The West Virginia Municipal Bond Commission is hereby authorized to act as fiscal agent for the administration of such

sinking fund under any ordinance or ordinances passed or adopted pursuant to the provisions of this article and shall invest all sinking funds as provided by general law. Notwithstanding the foregoing, payments of principal and interest on any bonds owned by the United States or any governmental agency or department thereof may be made by the governing body directly thereto.

§8-16-18. Rates, fees, or charges for services rendered by works.

The governing body shall have plenary power and authority and it shall be its duty, by ordinance, to establish and maintain just and equitable rates, fees, or charges for the use and services rendered, or the improvement or protection of property, not to include highways, road and drainage easements, and/or stormwater facilities constructed, owned and/or operated by the West Virginia Division of Highways, provided or afforded, by such works, to be paid by the person using the same, receiving the services thereof, or owning the property improved or protected thereby, and may readjust rates, fees, or charges from time to time.

When two or more municipalities take joint action under the provisions of this article, the rates, fees, or charges shall be established by each participating municipality, with the concurrence of the other participating municipality or municipalities as to the amount of the rates, fees or charges, and such rates, fees, or charges may be the same with respect to each municipality, or they may be different.

Rates, fees, or charges heretofore or hereafter established and maintained for the improvement or protection of property, not to include highways, road and drainage easements, and/or stormwater facilities constructed, owned and/or operated by the West Virginia Division of Highways, provided or afforded by a municipal flood control system or flood walls, to be paid by the person owning the property improved or protected thereby, shall be collectible and enforceable from the time provided in any such ordinance, any provision of this or any other law to the contrary notwithstanding, if, at such time, such works, though not yet fully completed, are nearing completion and the governing body is reasonably assured that the works will be completed and placed in operation without unreasonable delay.

All rates, fees, or charges shall be sufficient in each year for the payment of the proper and reasonable expenses of repair (including replacements), maintenance and operation of the works, and for the payment of the sums herein required to be paid into the sinking fund. Revenues collected pursuant to the provisions of this section are considered the revenues of the works. No such rates, fees, or charges may be established until after a public hearing at which all the users of the works and owners of the property served, or to be served thereby, and others interested, shall have an opportunity to be heard concerning the proposed rates, fees or charges.

After introduction of the proposed ordinance fixing the rates, fees, or charges and before the same is finally adopted, notice of such hearing, setting forth the proposed schedule of such rates, fees or charges, shall be given by publishing the same as a Class I legal advertisement in compliance with §59-3-1 *et seq.* of this code, and the publication area for the publication shall be such municipality or each such municipality, as the case may be. Said notice shall be published at least five days before the date fixed in such notice for the hearing, which hearing may be adjourned from time to time. No other or further notice to parties in interest is required.

After such hearing the ordinance establishing rates, fees or charges, either as originally proposed or introduced, or as modified and amended, shall be adopted and put into effect. A copy of the schedule of such rates, fees, and charges so established shall be kept on file in the office of the board having charge of such works, and also in the office of the governing body or bodies, and shall be open to inspection by all parties in interest.

The rates, fees, or charges so established for any class of users or property served shall be extended to cover any additional class of users or property thereafter served which fall within the same class, without the necessity of any hearing or notice. Any change or adjustment of rates, fees, or charges may be made in the same manner as such rates, fees, or charges were originally established as provided in this section. The aggregate of the rates, fees, or charges shall always be sufficient for the expenses of repair (including replacements), maintenance and operation, and for the sinking fund payments.

If any rate, fee or charge so established is not paid within 30 days after the same is due, the amount thereof, together with a penalty of 10 percent and reasonable attorney's fees, may be recovered by the board in a civil action in the name of the municipality or municipalities, and in the case of rates, fees, or charges due for services rendered, such rates, fees or charges, if not paid when due, may, if the governing body so provide in the ordinance provided for under §8-16-7 of this code, constitute a lien upon the premises served by such works, which lien may be foreclosed against such lot, parcel of land or building so served, in accordance with the laws relating to the foreclosure of liens on real property. Upon failure of any person receiving any such service to pay for the same when due, the board may discontinue such service without notice.

§8-16-18a. Pledge of the hotel occupancy tax; contribution of revenues to building commission.

In addition to the rates or charges authorized to be pledged and expended for the security and payment of bonds as provided in this article, the governing body issuing such bonds shall have plenary power and authority to pledge and expend for the security and payment of such bonds all, or any part, of the revenues which are derived from the hotel occupancy tax which a municipality may impose pursuant to section three, article thirteen of this chapter and which are specifically dedicated by such governing body for any purpose or purposes set forth in section three, article thirteen of this chapter. All such sums which are so pledged shall be deemed "revenues of the works" for all purposes of the provisions of this article. The governing body shall also have the power and authority to contribute all, or any part of, the revenues derived from said hotel occupancy tax to a building commission created by such governing body pursuant to article thirty-three, chapter eight of this code for such lawful purposes which such building commission shall determine and which are set forth in section three, article thirteen of this chapter, including payment of revenue bonds issued by such building commission.

(b) The municipality or municipalities and any county, state and federal government served by the services of the stormwater system shall be subject to the same rates, fees or charges established as provided in this article for stormwater services, or to rates, fees or charges established in harmony therewith, for service rendered to the governmental entity and shall pay such rates, fees or charges, when due, from corporate funds, and the same is considered to be a part of the revenues of the works as defined in this article, and may be applied as provided in this article, for the application of such revenue. However, no rates, fees or charges for stormwater services may be assessed against highways, road and drainage easements, and/or stormwater facilities constructed, owned and/or operated by the West Virginia Division of Highways without the express agreement of the commissioner of highways.

§8-16-23. Acquisition of property on which lien exists.

No property shall be acquired under the provisions of this article upon which any lien or other encumbrance exists, unless at the time such property is acquired a sufficient sum of money be deposited in trust to pay and redeem such lien or encumbrance in full.

§8-16-24. Protection and enforcement of rights of bondholders, etc.; receivership; effect of receivership on lease agreement.

Any holder of any such bonds, or any of the coupons attached thereto, and the trustee, if any, except to the extent that the rights herein given may be restricted by the ordinance authorizing the issuance of the bonds or by the trust indenture, may by civil action, mandamus or other proper proceeding enforce the statutory mortgage lien created and granted in section twenty-two of this article, protect and enforce any and all rights granted hereunder or under any such ordinance or trust indenture, and may enforce and compel performance of all duties required by the provisions of this article or by any such ordinance or trust indenture to be performed by the municipality or municipalities, or by the board or any officer, including the making and collecting of reasonable and sufficient rates or charges for services rendered by the works. If there be default in the payment of the principal or interest upon any of the bonds, or of both principal and interest, any court having jurisdiction shall appoint a receiver to administer the works on behalf of the municipality or municipalities, and the bondholders or trustee, or both, except as so restricted, with power to charge and collect rates or charges sufficient to provide for the payment of the expenses of repair (including replacements), maintenance and operation, and also to pay any bonds and interest outstanding, and to apply the income or other revenue in conformity with this article, and the said ordinance or trust indenture, or both, and the power herein provided for the appointment of a receiver and the administration by the court of the works on behalf of the municipality or municipalities, and the bondholders or trustee, or both, shall apply to cases where such works are operated by a lessee of the municipality or municipalities as well as to cases where works are operated by the municipality or municipalities.
