
WEST VIRGINIA CODE CHAPTER 8a
ARTICLE 3

WV Legislature

§8A-3-1. Purpose and goals of a comprehensive plan.

(a) The general purpose of a comprehensive plan is to guide a governing body to accomplish a coordinated and compatible development of land and improvements within its territorial jurisdiction, in accordance with present and future needs and resources.

(b) A comprehensive plan is a process through which citizen participation and thorough analysis are used to develop a set of strategies that establish as clearly and practically as possible the best and most appropriate future development of the area under the jurisdiction of the planning commission. A comprehensive plan aids the planning commission in designing and recommending to the governing body ordinances that result in preserving and enhancing the unique quality of life and culture in that community and in adapting to future changes of use of an economic, physical or social nature. A comprehensive plan guides the planning commission in the performance of its duties to help achieve sound planning.

(c) A comprehensive plan must promote the health, safety, morals, order, convenience, prosperity and general welfare of the inhabitants, as well as efficiency and economy in the process of development.

(d) The purpose of a comprehensive plan is to:

(1) Set goals and objectives for land development, uses and suitability for a governing body, so a governing body can make an informed decision;

(2) Ensure that the elements in the comprehensive plan are consistent;

(3) Coordinate all governing bodies, units of government and other planning commissions to ensure that all comprehensive plans and future development are compatible;

(4) Create conditions favorable to health, safety, mobility, transportation, prosperity, civic activities, recreational, educational, cultural opportunities and historic resources;

(5) Reduce the wastes of physical, financial, natural or human resources which result from haphazard development, congestion or scattering of population;

(6) Reduce the destruction or demolition of historic sites and other resources by reusing land and buildings and revitalizing areas;

(7) Promote a sense of community, character and identity;

(8) Promote the efficient utilization of natural resources, rural land, agricultural land and scenic areas;

(9) Focus development in existing developed areas and fill in vacant or underused land near existing developed areas to create well designed and coordinated communities; and

(10) Promote cost-effective development of community facilities and services.

(e) A comprehensive plan may provide for innovative land use management techniques, including:

(1) Density bonuses and/or density transfer;

(2) Clustering;

(3) Design guidelines, including planned unit developments;

(4) Conservation easements;

(5) Infill development;

(6) Consolidation of services; and

(7) Any other innovative land use technique that will promote the governing body's development plans.

§8A-3-2. Study guidelines for a comprehensive plan.

(a) When preparing or amending a comprehensive plan, a planning commission shall make comprehensive surveys and studies of the existing conditions and services and probable future changes of such conditions and services within the territory under its jurisdiction.

(b) The comprehensive surveys and studies may cover such factors as population density, health, general welfare, historic sites, mobility, transportation, food supply, education, water and sanitation requirements, public services, accessibility for the disabled and future potential for residential, commercial, industrial or public use.

(c) The major objective of the planning process is providing information to and coordination among divergent elements in the municipality or county. The elements in the comprehensive plan shall be consistent and governing bodies, units of government and planning commissions must work together to ensure that comprehensive plans and future development are compatible.

§8A-3-3. Authority for planning commission.

(a) A planning commission shall prepare a comprehensive plan for the development of land within its jurisdiction. A planning commission shall then recommend the comprehensive plan to the appropriate governing body for adoption.

(b) A county, multicounty, regional or joint comprehensive plan may include the planning of towns, villages or municipalities to the extent to which, in the planning commission's judgment, they are related to the planning of the unincorporated territory of the county as a whole: Provided, That the comprehensive plan shall not be considered a comprehensive plan for any town, village or municipality without the consent of the planning commission and/or the governing body of the town, village or municipality.

(c) A comprehensive plan should be coordinated with the plans of the Department of Transportation, insofar as it relates to highways, thoroughfares, trails, and pedestrian ways under the jurisdiction of that planning commission.

(d) A county planning commission may prepare a comprehensive plan for either the entire county or a part of the county.

(e) A multicounty, regional or joint planning commission may prepare a comprehensive plan for land within its jurisdiction.

(f) Counties and municipalities may by written agreement establish a joint airport hazard comprehensive plan for the purpose of satisfying requirements of federal aviation law, protecting the public safety, and preventing hazardous conditions. The joint written agreement shall set forth the boundaries of the airport overlay district and any requirements that would apply within the district, without the need for the adoption of a full comprehensive plan within a municipality or county. The joint agreement becomes effective once each entity takes the appropriate steps, including submission to a planning commission and public hearing, for the establishment or modification of a full or comprehensive plan within its jurisdiction. Any modifications to the written agreement made by one entity must be adopted by the other entity or entities for the agreement to become valid: Provided, That where the provisions of any such agreement result in a diminution in property value to a property owner, the governing authority responsible shall provide just compensation: Provided, however, That any joint written agreement affecting a regional airport shall require the approval of the regional airport's governing body to be effective.
