citizens' participation in, such regional councils; preparation, submission and approval of the annual budget of such regional councils; effect on existing organizations and pending applications for funds or grants; and a rule of construction.

Be it enacted by the Legislature of West Virginia:

That article twenty-five, chapter eight of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 25. INTERGOVERNMENTAL RELATIONS-REGIONAL PLANNING AND DEVELOPMENT.

§8-25-1. Legislative findings and purposes.

1 The Legislature hereby finds and declares that as a result of changes in the economy, population shifts, new transportation demands and increasing demands for public services, and as a result of increasing complexity in government programs and added demands on public revenues, there is a need to plan comprehensively for the future development of West Virginia and to provide for the efficient management of limited public revenues for the purpose of promoting the orderly development of the
state's governmental, social, economic, environmental
and physical resources, while maintaining acceptable
levels of public services and facilities toward the end of
promoting the general health, safety and welfare of all
its citizens. The Legislature further finds that the
responsibility for planning and development rests with
the governor of the state, as the state's chief planning
officer. The Legislature hereby further finds and de-
clares that problems of growth and development so
transcend the boundary lines of governmental units that
no single unit can plan for the solution of these problems
without affecting other units of government; that inter-
governmental cooperation on a regional basis is an effec-
tive method to approach common planning and develop-
ment problems and to seek more efficient and economical
solutions to common problems of local government; and
that assistance of the state is needed to make the most
effective use of local, state, federal and private resources
and funding in serving the citizens of all the state and
of such regions; and the Legislature further finds that
any assistance provided by the state for the purpose of
this article is for the benefit of all its citizens and for a public purpose.

It is, therefore, the purpose of this article to delegate to the governor, the responsibility for planning and development in order to (1) achieve the objectives and policies necessary for the orderly growth and development of the state; (2) facilitate intergovernmental cooperation; and (3) designate regions and provide for the creation of regional planning and development councils; all being hereby declared to be public purposes.

1 The following terms, wherever used or referred to in this article, shall have the following meanings unless a different meaning clearly appears from the context:

(a) "Comprehensive planning" shall mean the process of (1) assessing, within a geographic area, the needs and resources of the area; (2) formulating goals, objectives, policies and standards to guide its long-range governmental, social, economic, environmental and physical development; and (3) preparing plans and pro-
grams therefor which (a) identify alternative courses of action and the spatial and functional relationships among the activities to be carried out thereunder; (b) specify the appropriate ordering in time of such activities; (c) take into account other relevant factors affecting the achievement of the desired development of the area; and (d) provide an overall framework and guide for the preparation of functional and project development plans.

(b) "Development" shall mean the process of implementing, carrying out, effectuating, administering or otherwise performing the activities, processes, steps or operations as necessary to meet the comprehensive planning goals, objectives, programs and plans formulated, accepted, adopted or approved as a result of comprehensive planning.

(c) "Region" shall mean a specific geographic area consisting of at least one county or two or more contiguous counties in which a regional council may exercise authority and powers in accordance with the provisions of this article.
(d) "Regional council" shall mean a regional planning and development council established pursuant to the provisions of this article.

§8-25-3. Powers and duties of the governor pursuant to planning and development.

1 The governor, as chief executive officer of the state, shall be responsible for planning and development of the state's governmental, social, health, economic, environmental and physical resources. In executing this responsibility, the governor shall:

(1) Prepare, revise and update state development plans which he shall, at least annually, submit to the Legislature. (2) Advise and consult with regional councils and regional and local planning agencies in developing state development plans and studies;

(3) Facilitate the coordination of planning and development activities of all state departments, agencies and institutions; local governments; regional councils; and other public and private agencies within the state;

(a) Within sixty days after the effective date of this article, the governor shall define and recommend for the purposes of this article regional boundaries em-

(4) Regional councils or commissions established
under this article and article twenty-six of this chapter
may, at the option of the county courts of the partici-

powers, duties and responsibilities provided herein for
regional councils.

(5) State regional councils or commissions and their
corresponding boundaries in existence on the effective
date of this article, which were established under the
former provisions of this article, and any nonprofit cor-
poration in existence on the effective date of this article,
which was established under chapter thirty-one of this
code and pursuant to section eighteen, article five, chap-
ter seven of this code and which has had in its employ
a full-time paid executive staff for a period of no less
than six months immediately prior to the effective date
of this article, may be designated by the governor as planning and development regions and regional councils. Such designation shall be made within sixty days after the effective date of this article. Regional councils so designated shall have a period of six months from the date of designation to comply with the membership structure required by this article. Nothing herein contained shall be construed to deprive such existing state regional councils of their legal authority prior to the expiration of the aforementioned six-month period.

§8-25-6. Regional councils; membership; organization; executive committee.

(a) All municipalities and all counties within the region shall be represented on the regional council. The county representative shall be the president of the county court or a member of the county court designated by him. The selection of such members shall also provide for reasonable representation of geographic, economic and ethnic groups without exclusion of significant minority groups. Subsequent changes in the designation of representatives shall be determined by the regional council. The number of members serving by virtue of this subsection shall not exceed forty-nine percent of the total number of members.

(c) Each regional council shall select from its membership a chairman, who shall preside at each council meeting, and an executive committee, which shall be comprised of one representative from each county court and one representative from the largest municipality

and the programs of federal departments and agencies.
