§12-6-9b. **Transfers to the state after required spending reductions by spending units; required repayment of all transfers by specified date; specifying only permissible areas for all transfer and repayment activities; and full termination and expiration of all transfer authority on specified date.**

1 Whenever the governor, pursuant to the authority granted under section twenty-two, article two, chapter five-a of the code of West Virginia, one thousand nine hundred thirty-one, as amended, has instituted spending reductions by spending units of their general revenues, the total amount of moneys of such spending reduction shall constitute a limitation on the amount of any transfer authorized by this section, with no such transfer to exceed such total amount. Thereafter, if the governor shall determine that the moneys in the general revenue fund of the state, available for expenditure, are insufficient for timely payment of government services and for governmental operation, the board, upon request by the governor, shall transfer moneys from that part of the consolidated fund consisting of the special account thereof designated as the “state account” and involving only state funds, to the general revenue fund of the state, not to exceed the determined amount of spending reductions as shown by the amended expenditure schedules filed in compliance with the executive order
of the governor instituting such spending reduction.

Such transferred moneys shall be applied to the following specified areas only:

(2) Transfers in respect of appropriations of the Public Employees Insurance Board; and

(3) Transfers in respect of medicaid reimbursement payments.

Prior to the occurrence of any transfer authorized by this section, the board shall obtain from the legislative auditor, with whom copies of the amended expenditure schedules of spending units are required by law to be filed, and from the state auditor, who is required to ministerially adjust his ledgers, the total amount arising from such spending reduction.

The spending reduction instituted by the governor in respect of the expenditures of spending units during fiscal year 1987-88, shall remain in full force and effect and be an integral part of any transfer and repayment activity until full repayment has been made to the consolidated fund and the state funds portion thereof. The maximum total of such transfers shall not exceed the total of spending reductions, as determined by the board, up to the sum of fifty million dollars, with such transfers to be repaid with interest equal to the actual interest rate earned by the consolidated fund on the day of each transfer for the period of each transfer, until repayment is made. Transfer repayments, when made, shall not act to restore or increase such total maximum authority for transfers as set forth in this section nor to renew any part thereof. Full repayment of principal and interest to the consolidated fund and the state fund portion thereof shall be made no later than the thirtieth day of June, one thousand nine hundred eighty-eight, by repayment transfers from the general revenue fund.
