20 administration.

21 (5) "Practitioner" means a physician, an authorized

24 section sixteen, article three of this chapter, osteopath,  
25 dentist, veterinarian, podiatrist, optometrist or any other  
26 person duly licensed to practice and to prescribe drugs  
27 under the laws of this state.

28 (b) A pharmacist who receives a prescription for a  
29 brand name drug or drug product shall substitute a less  
30 expensive equivalent generic name drug or drug product  
31 unless in the exercise of his or her professional judgment  
32 the pharmacist believes that the less expensive drug is not  
33 suitable for the particular patient: *Provided*, That no sub-  
34 stitution may be made by the pharmacist where the pre-

37 necessary for a particular patient.

38 (c) A written prescription order shall permit the phar-  
39 macist to substitute an equivalent generic name drug or  
40 drug product except where the prescribing practitioner has

63 means to interfere with the professional judgment of the  
64 pharmacist in deciding which generic name drugs or drug  
65 products shall be stocked or substituted: *Provided*, That  
66 this section shall not be construed to permit the pharmacist  
67 to generally refuse to substitute less expensive therapeuti-  
68 cally equivalent generic drugs for brand name drugs, and  
69 that any pharmacist so refusing shall be subject to the  
70 penalties prescribed in section twenty-two, article five,

78 cost, effective brand which is in stock.

79 (g) All savings in the retail price of the prescription  
80 shall be passed on to the purchaser; these savings shall be  
81 equal to the difference between the retail price of the  
82 brand name product and the customary and usual price of  
83 the generic product substituted therefor: *Provided*, That in  
84 no event shall such savings be less than the difference in  
85 acquisition cost of the brand name product prescribed and  
86 the acquisition cost of the substituted product.

87 (h) Each pharmacy shall maintain a record of any  
88 substitution of an equivalent generic name drug product  
89 for a prescribed brand name drug product on the file

92 name of the drug product selected.

93 (i) All drugs shall be labeled in accordance with the  
94 instructions of the practitioner.

97 shall indicate the generic name using abbreviations if  
98 necessary and either the name of the manufacturer or

101 prescription retained by the pharmacist.

102 (k) A pharmacist may not dispense a product under  
103 the provisions of this section unless the manufacturer has

115 (l) The West Virginia board of pharmacy shall pro-  
116 mulgate rules in accordance with the provisions of chapter  
117 twenty-nine-a of this code which establish a formulary of  
118 generic type and brand name drug products which are  
119 determined by the board to demonstrate significant bio-  
120 logical or therapeutic inequivalence and which, if substi-  
121 tuted, would pose a threat to the health and safety of pa-  
122 tients receiving prescription medication. The formulary  
123 shall be promulgated by the board within ninety days of

124 the date of passage of this section, and may be amended in  
125 accordance with the provisions of chapter twenty-nine-a of  
126 this code.

127 (m) No pharmacist shall substitute a generic named  
128 therapeutically equivalent drug product for a prescribed  
129 brand name drug product if the brand name drug product  
130 or the generic drug type is listed on the formulary estab-  
131 lished by the West Virginia board of pharmacy pursuant  
132 to this article, or is found to be in violation of the require-  
133 ments of the United States Food and Drug Administration.

134 (n) Any pharmacist who substitutes any drug shall,  
135 either personally or through his or her agent, assistant or  
136 employee, notify the person presenting the prescription of  
137 such substitution. The person presenting the prescription  
138 shall have the right to refuse the substitution. Upon re-  
139 quest the pharmacist shall relate the retail price difference  
140 between the brand name and the drug substituted for it.

141 (o) Every pharmacy shall post in a prominent place  
142 that is in clear and unobstructed public view, at or near the  
143 place where prescriptions are dispensed, a sign which shall
