

HB 2476

RECEIVED

1995 APR -5 PM 4:30

OFFICE OF THE CLERK
SENATE OF WEST VIRGINIA

WEST VIRGINIA LEGISLATURE

REGULAR SESSION, 1995

— ● —

ENROLLED

Com. Sub. for

HOUSE BILL No. 2476

(By Delegates Kiss and Petersen)

— ● —

Passed March 10, 1995

In Effect from Passage

ENROLLED
COMMITTEE SUBSTITUTE
FOR

H. B. 2476

(BY DELEGATES KISS AND PETERSEN)

[Passed March 10, 1995; in effect from passage.]

AN ACT to amend and reenact sections two, three, five and six, article two-d, chapter sixteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating generally to certificate of need procedures; providing the definition of terms; requiring certificate of need for new providers of personal care services; setting forth minimum review criteria for certificate of need; authorizing the health care cost review authority to amend or modify certificate of need standards; setting forth the requirements for amending the standards; and authorizing the health care cost review authority to declare a limited moratorium for purposes of amending obsolete or nonexistent standards.

Be it enacted by the Legislature of West Virginia:

That sections two, three, five and six, article two-d, chapter sixteen of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted, all to read as follows:

ARTICLE 2D. CERTIFICATE OF NEED.

§16-2D-2. Definitions.

1 As used in this article, unless otherwise indicated by
2 the context:

3 (a) "Affected person" means:

4 (1) The applicant;

5 (2) An agency or organization representing consum-
6 ers;

7 (3) Any individual residing within the geographic area
8 served or to be served by the applicant;

9 (4) Any individual who regularly uses the health care
10 facilities within that geographic area;

11 (5) The health care facilities which provide services
12 similar to the services of the facility under review and
13 which will be significantly affected by the proposed pro-
14 ject;

15 (6) The health care facilities which, prior to receipt by
16 the state agency of the proposal being reviewed, have
17 formally indicated an intention to provide similar services
18 in the future;

19 (7) Third-party payors who reimburse health care
20 facilities similar to those proposed for services;

21 (8) Any agency which establishes rates for health care
22 facilities similar to those proposed; or

23 (9) Organizations representing health care providers.

24 (b) "Ambulatory health care facility" means a facility
25 which is free-standing and not physically attached to a
26 health care facility and which provides health care to
27 noninstitutionalized and nonhomebound persons on an
28 outpatient basis. This definition does not include the
29 private office practice of any one or more health profes-
30 sionals licensed to practice in this state pursuant to the
31 provisions of chapter thirty of this code: *Provided, That*

32 such exemption from review of private office practice
33 shall not be construed to include such practices where
34 major medical equipment otherwise subject to review un-
35 der the provisions of this article is acquired, offered or
36 developed: *Provided, however,* That such exemption
37 from review of private office practice shall not be con-
38 strued to include certain health services otherwise subject
39 to review under the provisions of subdivision (1), subsec-
40 tion (a), section four of this article.

41 (c) "Ambulatory surgical facility" means a facility
42 which is free-standing and not physically attached to a
43 health care facility and which provides surgical treatment
44 to patients not requiring hospitalization. This definition
45 does not include the private office practice of any one or
46 more health professionals licensed to practice surgery in
47 this state pursuant to the provisions of chapter thirty of
48 this code: *Provided,* That such exemption from review of
49 private office practice shall not be construed to include
50 such practices where major medical equipment otherwise
51 subject to review under the provisions of this article is
52 acquired, offered or developed: *Provided, however,* That
53 such exemption from review of private office practice
54 shall not be construed to include certain health services
55 otherwise subject to review under the provisions of subdivi-
56 sion (1), subsection (a), section four of this article.

57 (d) "Applicant" means: (1) The governing body or
58 the person proposing a new institutional health service
59 who is, or will be, the health care facility licensee wherein
60 the new institutional health service is proposed to be locat-
61 ed, and (2) in the case of a proposed new institutional
62 health service not to be located in a licensed health care
63 facility, the governing body or the person proposing to
64 provide such new institutional health service. Incorpora-
65 tors or promoters who will not constitute the governing
66 body or persons responsible for the new institutional
67 health service may not be an applicant.

68 (e) "Bed capacity" means the number of beds for

69 which a license is issued to a health care facility, or, if a
70 facility is unlicensed, the number of adult and pediatric
71 beds permanently staffed and maintained for immediate
72 use by inpatients in patient rooms or wards.

73 (f) "Capital expenditure" means an expenditure:

74 (1) Made by or on behalf of a health care facility; and

75 (2) (A) Which (i) under generally accepted accounting
76 principles is not properly chargeable as an expense of
77 operation and maintenance, or (ii) is made to obtain either
78 by lease or comparable arrangement any facility or part
79 thereof or any equipment for a facility or part; and (B)
80 which (i) exceeds the expenditure minimum, or (ii) is a
81 substantial change to the bed capacity of the facility with
82 respect to which the expenditure is made, or (iii) is a sub-
83 stantial change to the services of such facility. For pur-
84 poses of subparagraph (i), paragraph (B), subdivision (2)
85 of this definition, the cost of any studies, surveys, designs,
86 plans, working drawings, specifications, and other activi-
87 ties, including staff effort and consulting and other servic-
88 es, essential to the acquisition, improvement, expansion, or
89 replacement of any plant or equipment with respect to
90 which an expenditure described in paragraph (B), subdivi-
91 sion (2) of this definition is made shall be included in
92 determining if such expenditure exceeds the expenditure
93 minimum. Donations of equipment or facilities to a
94 health care facility which if acquired directly by such
95 facility would be subject to review shall be considered
96 capital expenditures, and a transfer of equipment or facili-
97 ties for less than fair market value shall be considered a
98 capital expenditure for purposes of such subdivisions if a
99 transfer of the equipment or facilities at fair market value
100 would be subject to review. A series of expenditures, each
101 less than the expenditure minimum, which when taken
102 together are in excess of the expenditure minimum, may
103 be determined by the state agency to be a single capital
104 expenditure subject to review. In making its determina-
105 tion, the state agency shall consider: Whether the expendi-

106 tures are for components of a system which is required to
107 accomplish a single purpose; whether the expenditures are
108 to be made over a two-year period and are directed to-
109 wards the accomplishment of a single goal within the
110 health care facility's long-range plan; or whether the ex-
111 penditures are to be made within a two-year period within
112 a single department such that they will constitute a signifi-
113 cant modernization of the department.

114 (g) "Expenditure minimum" means seven hundred
115 fifty thousand dollars per fiscal year.

116 (h) "Health," used as a term, includes physical and
117 mental health.

118 (i) "Health care facility" is defined as including hospi-
119 tals, skilled nursing facilities, kidney disease treatment
120 centers, including free-standing hemodialysis units, inter-
121 mediate care facilities, ambulatory health care facilities,
122 ambulatory surgical facilities, home health agencies, reha-
123 bilitation facilities and health maintenance organizations;
124 community mental health and mental retardation facilities,
125 whether under public or private ownership, or as a profit
126 or nonprofit organization and whether or not licensed or
127 required to be licensed in whole or in part by the state.
128 For purposes of this definition, "community mental health
129 and mental retardation facility" means a private facility
130 which provides such comprehensive services and continu-
131 ity of care as emergency, outpatient, partial hospitalization,
132 inpatient and consultation and education for individuals
133 with mental illness, mental retardation or drug or alcohol
134 addiction.

135 (j) "Health care provider" means a person, partnership,
136 corporation, facility or institution licensed or certified or
137 authorized by law to provide professional health care
138 service in this state to an individual during that individual's
139 medical care, treatment or confinement.

140 (k) "Health maintenance organization" means a public
141 or private organization, organized under the laws of this

142 state, which:

143 (1) Is a qualified health maintenance organization
144 under Section 1310(d) of the Public Health Service Act, as
145 amended, Title 42 United States Code Section 300e-9(d);
146 or

147 (2) (A) Provides or otherwise makes available to en-
148 rolled participants health care services, including substan-
149 tially the following basic health care services: Usual phy-
150 sician services, hospitalization, laboratory, X ray, emergen-
151 cy and preventive services and out-of-area coverage; and

152 (B) Is compensated except for copayments for the
153 provision of the basic health care services listed in para-
154 graph (A), subdivision (2), subsection (k) of this definition
155 to enrolled participants on a predetermined periodic rate
156 basis without regard to the date the health care services are
157 provided and which is fixed without regard to the frequen-
158 cy, extent or kind of health service actually provided; and

159 (C) Provides physicians' services primarily (i) directly
160 through physicians who are either employees or partners
161 of such organization, or (ii) through arrangements with
162 individual physicians or one or more groups of physicians
163 organized on a group practice or individual practice basis.

164 (l) "Health services" means clinically related preven-
165 tive, diagnostic, treatment or rehabilitative services, includ-
166 ing alcohol, drug abuse and mental health services.

167 (m) "Home health agency" is an organization primari-
168 ly engaged in providing directly or through contract ar-
169 rangements, professional nursing services, home health
170 aide services, and other therapeutic and related services,
171 including, but not limited to, physical, speech and occupa-
172 tional therapy and nutritional and medical social services
173 to persons in their place of residence on a part-time or
174 intermittent basis.

175 (n) "Hospital" means an institution which is primarily
176 engaged in providing to inpatients, by or under the super-

177 vision of physicians, diagnostic and therapeutic services
178 for medical diagnosis, treatment, and care of injured, dis-
179 abled or sick persons, or rehabilitation services for the
180 rehabilitation of injured, disabled or sick persons. This
181 term also includes psychiatric and tuberculosis hospitals.

182 (o) "Intermediate care facility" means an institution
183 which provides, on a regular basis, health-related care and
184 services to individuals who do not require the degree of
185 care and treatment which a hospital or skilled nursing
186 facility is designed to provide, but who, because of their
187 mental or physical condition, require health-related care
188 and services above the level of room and board.

189 (p) "Long-range plan" means a document formally
190 adopted by the legally constituted governing body of an
191 existing health care facility or by a person proposing a
192 new institutional health service. Each long-range plan
193 shall consist of the information required by the state agen-
194 cy in regulations adopted pursuant to section eight of this
195 article.

196 (q) "Major medical equipment" means a single unit of
197 medical equipment or a single system of components with
198 related functions which is used for the provision of medi-
199 cal and other health services and which costs in excess of
200 three hundred thousand dollars, except that such term
201 does not include medical equipment acquired by or on
202 behalf of a clinical laboratory to provide clinical laborato-
203 ry services if the clinical laboratory is independent of a
204 physician's office and a hospital and it has been deter-
205 mined under Title XVIII of the Social Security Act to
206 meet the requirements of paragraphs ten and eleven of
207 Section 1861(s) of such act, Title 42 United States Code
208 Sections 1395x (10) and (11). In determining whether
209 medical equipment costs more than three hundred thou-
210 sand dollars, the cost of studies, surveys, designs, plans,
211 working drawings, specifications, and other activities es-
212 sential to the acquisition of such equipment shall be in-
213 cluded. If the equipment is acquired for less than fair

214 market value, the term "cost" includes the fair market val-
215 ue.

216 (r) "Medically underserved population" means the
217 population of an urban or rural area designated by the
218 state agency as an area with a shortage of personal health
219 services or a population having a shortage of such services,
220 after taking into account unusual local conditions which
221 are a barrier to accessibility or availability of such services.
222 Such designation shall be in regulations adopted by the
223 state agency pursuant to section eight of this article, and
224 the population so designated may include the state's medi-
225 cally underserved population designated by the Federal
226 Secretary of Health and Human Services under Section
227 330(b)(3) of the Public Health Service Act, as amended,
228 Title 42 United States Code Section 254(b)(3).

229 (s) "New institutional health service" means such ser-
230 vice as described in section three of this article.

231 (t) "Offer", when used in connection with health servic-
232 es, means that the health care facility or health mainte-
233 nance organization holds itself out as capable of provid-
234 ing, or as having the means for the provision of, specified
235 health services.

236 (u) "Person" means an individual, trust, estate, partner-
237 ship, committee, corporation, association and other organi-
238 zations such as joint-stock companies and insurance com-
239 panies, a state or a political subdivision or instrumentality
240 thereof or any legal entity recognized by the state.

241 (v) "Personal care services" means medically oriented
242 activities or tasks ordered by a physician and which is
243 implemented according to a nursing plan of care which
244 has been completed by, and which is supervised by, a
245 registered nurse and billed to the state. These services
246 include those activities which are intended to enable per-
247 sons to meet their physical needs and to be treated by a
248 physician in their place of residence. The term shall in-
249 clude, but not be limited to, services related to personal

250 hygiene, dressing, feeding, nutrition, environmental sup-
251 port functions and health related tasks.

252 (w) "Physician" means a doctor of medicine or osteop-
253 athy legally authorized to practice by the state.

254 (x) "Proposed new institutional health service" means
255 such service as described in section three of this article.

256 (y) "Psychiatric hospital" means an institution which
257 primarily provides to inpatients, by or under the supervi-
258 sion of a physician, specialized services for the diagnosis,
259 treatment and rehabilitation of mentally ill and emotional-
260 ly disturbed persons.

261 (z) "Rehabilitation facility" means an inpatient facility
262 which is operated for the primary purpose of assisting in
263 the rehabilitation of disabled persons through an integrat-
264 ed program of medical and other services which are pro-
265 vided under competent professional supervision.

266 (aa) "Review agency" means an agency of the state,
267 designated by the governor as the agency for the review of
268 state agency decisions.

269 (bb) "Skilled nursing facility" means an institution or a
270 distinct part of an institution which is primarily engaged in
271 providing to inpatients skilled nursing care and related
272 services for patients who require medical or nursing care,
273 or rehabilitation services for the rehabilitation of injured,
274 disabled or sick persons.

275 (cc) "State agency" means the health care cost review
276 authority created, established, and continued pursuant to
277 article twenty-nine-b of this chapter.

278 (dd) "State health plan" means the document approved
279 by the governor after preparation by the former health
280 care planning commission, or that document as approved
281 by the governor after amendment by the health care plan-
282 ning council or its successor agency.

283 (ee) "Substantial change to the bed capacity" of a
284 health care facility means any change, with which a capital
285 expenditure is associated, that increases or decreases the
286 bed capacity, or relocates beds from one physical facility
287 or site to another, but does not include a change by which
288 a health care facility reassigns existing beds as swing beds
289 between acute care and long-term care categories: *Provid-*
290 *ed*, That a decrease in bed capacity in response to federal
291 rural health initiatives shall be excluded from this defini-
292 tion.

293 (ff) "Substantial change to the health services" of a
294 health care facility means the addition of a health service
295 which is offered by or on behalf of the health care facility
296 and which was not offered by or on behalf of the facility
297 within the twelve-month period before the month in which
298 the service is first offered, or the termination of a health
299 service which was offered by or on behalf of the facility,
300 but does not include the providing of hospice care, ambu-
301 lance service, wellness centers or programs, adult day care,
302 or respite care by acute care facilities.

303 (gg) "To develop", when used in connection with
304 health services, means to undertake those activities which
305 upon their completion will result in the offer of a new
306 institutional health service or the incurring of a financial
307 obligation, in relation to the offering of such a service.

§16-2D-3. Certificate of need.

1 Except as provided in section four of this article, any
2 new institutional health service may not be acquired, of-
3 fered or developed within this state except upon applica-
4 tion for and receipt of a certificate of need as provided by
5 this article. Any new provider of personal care service
6 offered by any person, facility, corporation or entity, other
7 than an agency of the state, may not be offered or devel-
8 oped in this state, if the service is to be funded in whole, or
9 in part, by state or federal medicaid funds, except upon
10 application for and receipt of a certificate of need as pro-

11 vided in section six of this article: *Provided*, That a certifi-
12 cate of need shall not be required for a person providing
13 specialized foster care personal care services to one indi-
14 vidual and those services are delivered in the provider's
15 home. Whenever a new institutional health service for
16 which a certificate of need is required by this article is
17 proposed for a health care facility for which, pursuant to
18 section four of this article, no certificate of need is or was
19 required, a certificate of need shall be issued before the
20 new institutional health service is offered or developed.
21 No person may knowingly charge or bill for any health
22 services associated with any new institutional health service
23 that is knowingly acquired, offered or developed in viola-
24 tion of this article, and any bill made in violation of this
25 section is legally unenforceable. For purposes of this
26 article, a proposed "new institutional health service" in-
27 cludes:

28 (a) The construction, development, acquisition or
29 other establishment of a new health care facility or health
30 maintenance organization;

31 (b) The partial or total closure of a health care facility
32 or health maintenance organization with which a capital
33 expenditure is associated;

34 (c) Any obligation for a capital expenditure incurred
35 by or on behalf of a health care facility, except as exempt-
36 ed in section four of this article, or health maintenance
37 organization in excess of the expenditure minimum or
38 any obligation for a capital expenditure incurred by any
39 person to acquire a health care facility. An obligation for
40 a capital expenditure is considered to be incurred by or on
41 behalf of a health care facility:

42 (1) When a contract, enforceable under state law, is
43 entered into by or on behalf of the health care facility for
44 the construction, acquisition, lease or financing of a capital
45 asset;

46 (2) When the governing board of the health care facil-

47 ity takes formal action to commit its own funds for a con-
48 struction project undertaken by the health care facility as
49 its own contractor; or

50 (3) In the case of donated property, on the date on
51 which the gift is completed under state law;

52 (d) A substantial change to the bed capacity of a
53 health care facility with which a capital expenditure is
54 associated;

55 (e) (1) The addition of health services which are of-
56 fered by or on behalf of a health care facility or health
57 maintenance organization and which were not offered on
58 a regular basis by or on behalf of the health care facility
59 or health maintenance organization within the
60 twelve-month period prior to the time the services would
61 be offered; and

62 (2) The addition of ventilator services for any nursing
63 facility bed by any health care facility or health mainte-
64 nance organization;

65 (f) The deletion of one or more health services, previ-
66 ously offered on a regular basis by or on behalf of a
67 health care facility or health maintenance organization
68 which is associated with a capital expenditure;

69 (g) A substantial change to the bed capacity or health
70 services offered by or on behalf of a health care facility,
71 whether or not the change is associated with a proposed
72 capital expenditure, if the change is associated with a pre-
73 vious capital expenditure for which a certificate of need
74 was issued and if the change will occur within two years
75 after the date the activity which was associated with the
76 previously approved capital expenditure was undertaken;

77 (h) The acquisition of major medical equipment;

78 (i) A substantial change in an approved new institu-
79 tional health service for which a certificate of need is in
80 effect. For purposes of this subsection, "substantial

81 change" shall be defined by the state agency in regulations
82 adopted pursuant to section eight of this article.

§16-2D-5. Powers and duties of state agency.

1 (a) The state agency is hereby empowered to adminis-
2 ter the certificate of need program as provided by this
3 article.

4 (b) The state agency shall be responsible for coordi-
5 nating and developing the health planning research efforts
6 of the state and for amending and modifying the state
7 health plan which includes the certificate of need stan-
8 dards.

9 (c) The state agency may seek advice and assistance of
10 other persons, organizations and other state agencies in the
11 performance of the state agency's responsibilities under
12 this article.

13 (d) For health services for which competition appro-
14 priately allocates supply consistent with the state health
15 plan, the state agency shall, in the performance of its func-
16 tions under this article, give priority, where appropriate to
17 advance the purposes of quality assurance, cost effective-
18 ness and access, to actions which would strengthen the
19 effect of competition on the supply of such services.

20 (e) For health services for which competition does not
21 or will not appropriately allocate supply consistent with
22 the state health plan, the state agency shall, in the exercise
23 of its functions under this article, take actions, where ap-
24 propriate to advance the purposes of quality assurance,
25 cost effectiveness and access and the other purposes of this
26 article, to allocate the supply of such services.

27 (f) Notwithstanding the provisions of section seven of
28 this article, the state agency may charge a fee for the filing
29 of any application, the filing of any notice in lieu of an
30 application, the filing of any exemption determination
31 request or the filing of any request for a declaratory rul-
32 ing. The fees charged may vary according to the type of

33 matter involved, the type of health service or facility in-
34 volved or the amount of capital expenditure involved.
35 The state agency shall implement this subsection by filing
36 procedural rules pursuant to chapter twenty-nine-a of this
37 code. The fees charged shall be deposited into a special
38 fund known as the certificate of need program fund to be
39 expended for the purposes of this article.

40 (g) No hospital, nursing home or other health care
41 facility shall add any intermediate care or skilled nursing
42 beds to its current licensed bed complement. This prohi-
43 bition also applies to the conversion of acute care or other
44 types of beds to intermediate care or skilled nursing beds:
45 *Provided*, That hospitals eligible under the provisions of
46 section four-a and subsection (i), section five of this article
47 may convert acute care beds to skilled nursing beds in
48 accordance with the provisions of these sections, upon
49 approval by the state agency. Furthermore, no certificate
50 of need shall be granted for the construction or addition
51 of any intermediate care or skilled nursing beds except in
52 the case of facilities designed to replace existing beds in
53 unsafe existing facilities. A health care facility in receipt
54 of a certificate of need for the construction or addition of
55 intermediate care or skilled nursing beds which was ap-
56 proved prior to the effective date of this section must incur
57 an obligation for a capital expenditure within twelve
58 months of the date of issuance of the certificate of need.
59 No extensions shall be granted beyond the twelve-month
60 period: *Provided, however*, That a maximum of sixty
61 beds may be approved, as a demonstration project, by the
62 state agency for a unit to provide nursing services to pa-
63 tients with alzheimer's disease if: (1) The unit is located in
64 an existing facility which was formerly owned and operat-
65 ed by the state of West Virginia and is presently owned by
66 a county of the state of West Virginia; (2) the facility has
67 provided health care services, including personal care
68 services, within one year prior to the effective date of this
69 section; (3) the facility demonstrates that awarding the
70 certificate of need and operating the facility will be cost

71 effective for the state; and (4) that any applicable lease,
72 lease-purchase or contract for operating the facility was
73 awarded through a process of competitive bidding consis-
74 tent with state purchasing practices and procedures: *Pro-*
75 *vided further*, That an application for said demonstration
76 project shall be filed with the state agency on or before the
77 twenty-first day of October, one thousand nine hundred
78 ninety-three.

79 (h) No additional intermediate care facility for the
80 mentally retarded (ICF/MR) beds shall be granted a certifi-
81 cate of need, except that prohibition does not apply to
82 ICF/MR beds approved under the Kanawha County circuit
83 court order of the third day of August, one thousand nine
84 hundred eighty-nine, civil action number MISC-81-585
85 issued in the case of *E. H. v. Matin*, 168 W.V. 248, 284
86 S.E.2d 232 (1981).

87 (i) Notwithstanding the provisions of subsection (g),
88 section five of this article and, further notwithstanding the
89 provisions of subsection (d), section three of this article, an
90 existing acute care hospital may apply to the health care
91 cost review authority for a certificate of need to convert
92 acute care beds to skilled nursing beds: *Provided*, That
93 the proposed skilled nursing beds are medicare certified
94 only: *Provided, however*, That any hospital which con-
95 verts acute care beds to medicare certified only skilled
96 nursing beds is prohibited from billing for any medicaid
97 reimbursement for any beds so converted. In converting
98 beds, the hospital must convert a minimum of one acute
99 care bed into one medicare certified only skilled nursing
100 bed. The health care cost review authority may require a
101 hospital to convert up to and including three acute care
102 beds for each medicare certified only skilled nursing bed.
103 The health care cost review authority shall adopt rules to
104 implement this subsection which require that:

105 (1) All acute care beds converted shall be permanently
106 deleted from the hospital's acute care bed complement and
107 the hospital may not thereafter add, by conversion or

108 otherwise, acute care beds to its bed complement without
109 satisfying the requirements of subsection (d), section three
110 of this article for which purposes such an addition, wheth-
111 er by conversion or otherwise, shall be considered a sub-
112 stantial change to the bed capacity of the hospital notwith-
113 standing the definition of that term found in subsection
114 (ee), section two of this article.

115 (2) The hospital shall meet all federal and state licens-
116 ing certification and operational requirements applicable
117 to nursing homes including a requirement that all skilled
118 care beds created under this subsection shall be located in
119 distinct-part, long-term care units.

120 (3) The hospital must demonstrate a need for the pro-
121 ject.

122 (4) The hospital must use existing space for the medi-
123 care certified only skilled nursing beds. Under no cir-
124 cumstances shall the hospital construct, lease or acquire
125 additional space for purposes of this section.

126 (5) The hospital must notify the acute care patient,
127 prior to discharge, of facilities with skilled nursing beds
128 which are located in or near the patient's county of resi-
129 dence.

130 Nothing in this subsection shall negatively affect the
131 rights of inspection and certification which are otherwise
132 required by federal law or regulations or by this code of
133 duly adopted regulations of an authorized state entity.

134 (j) Notwithstanding the provisions of subsection (g) of
135 this section, a retirement life care center with no skilled
136 nursing beds may apply to the health care cost review
137 authority for a certificate of need for up to sixty skilled
138 nursing beds provided the proposed skilled beds are medi-
139 care certified only. On a statewide basis, a maximum of
140 one hundred eighty skilled beds which are medicare certi-
141 fied only may be developed pursuant to this subsection.
142 The state health plan shall not be applicable to projects

143 submitted under this subsection. The health care cost
144 review authority shall adopt rules to implement this sub-
145 section which shall include:

146 (1) A requirement that the one hundred eighty beds
147 are to be distributed on a statewide basis;

148 (2) There shall be a minimum of twenty beds and a
149 maximum of sixty beds in each approved unit;

150 (3) The unit developed by the retirement life care
151 center shall meet all federal and state licensing certifica-
152 tion and operational requirements applicable to nursing
153 homes;

154 (4) The retirement center must demonstrate a need for
155 the project;

156 (5) The retirement center must offer personal care,
157 home health services and other lower levels of care to its
158 residents; and

159 (6) The retirement center must demonstrate both short
160 and long-term financial feasibility.

161 Nothing in this subsection shall negatively affect the
162 rights of inspection and certification which are otherwise
163 required by federal law or regulations or by this code of
164 duly adopted regulations of an authorized state entity.

165 (k) The provisions of this article are severable and if
166 any provision, section or part thereby shall be held invalid,
167 unconstitutional or inapplicable to any person or circum-
168 stance, such invalidity, unconstitutionality or inapplicabili-
169 ty shall not affect or impair any other remaining provi-
170 sions contained herein.

171 (l) The state agency is hereby empowered to order a
172 moratorium upon the processing of an application or
173 applications for the development of a new institutional
174 health service filed pursuant to section three of this article,
175 when criteria and guidelines for evaluating the need for

176 such new institutional health service have not yet been
177 adopted or are obsolete. Such moratorium shall be de-
178 clared by a written order which shall detail the circum-
179 stances requiring the moratorium. Upon the adoption of
180 criteria for evaluating the need for the new institutional
181 health service affected by the moratorium, or one hundred
182 eighty days from the declaration of a moratorium, which-
183 ever is less, the moratorium shall be declared to be over
184 and affected applications shall be processed pursuant to
185 section six of this article.

186 (m) The state agency shall coordinate the collection of
187 information needed to allow the state agency to develop
188 recommended modifications to certificate of need stan-
189 dards as required in this article. When the state agency
190 proposes amendments or modifications to the certificate
191 of need standards, they shall file with the secretary of state,
192 for publication in the state register, a notice of proposed
193 action, including the text of all proposed amendments and
194 modifications, and a date, time and place for receipt of
195 general public comment. To comply with the public com-
196 ment requirement of this section, the state agency may
197 hold a public hearing or schedule a public comment peri-
198 od for the receipt of written statements or documents.

199 All proposed amendments and modifications to the
200 certificate of need standards, with a record of the public
201 hearing or written statements and documents received
202 pursuant to a public comment period, shall be presented to
203 the governor. Within thirty days of receiving said pro-
204 posed amendments or modifications, the governor shall
205 either approve or disapprove all or part of said amend-
206 ments and modifications, and, for any portion of amend-
207 ments or modifications not approved, shall specify the
208 reason or reasons for nonapproval. Any portions of the
209 amendments or modifications not approved by the gover-
210 nor may be revised and resubmitted.

§16-2D-6. Minimum criteria for certificate of need reviews.

1 (a) Except as provided in subsections (f) and (g), sec-
2 tion nine of this article, in making its determination as to
3 whether a certificate of need shall be issued, the state agen-
4 cy shall, at a minimum, consider all of the following crite-
5 ria that are applicable: *Provided*, That in the case of a
6 health maintenance organization or an ambulatory care
7 facility or health care facility controlled, directly or indi-
8 rectly, by a health maintenance organization or combina-
9 tion of health maintenance organizations, the criteria con-
10 sidered shall be only those set forth in subdivision (12) of
11 this subsection: *Provided, however*, That the criteria set
12 forth in subsection (f) of this section applies to all hospi-
13 tals, nursing homes and health care facilities when ventila-
14 tor services are to be provided for any nursing facility
15 bed:

16 (1) The recommendation of the designated health
17 systems agency for the health service area in which the
18 proposed new institutional health service is to be located;

19 (2) The relationship of the health services being re-
20 viewed to the state health plan and to the applicable health
21 systems plan and annual implementation plan adopted by
22 the designated health systems agency for the health service
23 area in which the proposed new institutional health service
24 is to be located;

25 (3) The relationship of services reviewed to the
26 long-range development plan of the person providing or
27 proposing the services;

28 (4) The need that the population served or to be
29 served by the services has for the services proposed to be
30 offered or expanded, and the extent to which all residents
31 of the area, and in particular low income persons, racial
32 and ethnic minorities, women, handicapped persons, other
33 medically underserved population, and the elderly, are
34 likely to have access to those services;

35 (5) The availability of less costly or more effective
36 alternative methods of providing the services to be offered,

37 expanded, reduced, relocated or eliminated;

38 (6) The immediate and long-term financial feasibility
39 of the proposal as well as the probable impact of the pro-
40 posal on the costs of and charges for providing health
41 services by the person proposing the new institutional
42 health service;

43 (7) The relationship of the services proposed to the
44 existing health care system of the area in which the servic-
45 es are proposed to be provided;

46 (8) In the case of health services proposed to be pro-
47 vided, the availability of resources, including health care
48 providers, management personnel, and funds for capital
49 and operating needs, for the provision of the services pro-
50 posed to be provided and the need for alternative uses of
51 these resources as identified by the state health plan, appli-
52 cable health systems plan and annual implementation
53 plan;

54 (9) The appropriate and nondiscriminatory utilization
55 of existing and available health care providers;

56 (10) The relationship, including the organizational
57 relationship, of the health services proposed to be provid-
58 ed to ancillary or support services;

59 (11) Special needs and circumstances of those entities
60 which provide a substantial portion of their services or
61 resources, or both, to individuals not residing in the health
62 service areas in which the entities are located or in adjacent
63 health service areas. The entities may include medical and
64 other health professional schools, multidisciplinary clinics
65 and specialty centers;

66 (12) To the extent not precluded by subdivision (1),
67 subsection (f), section nine of this article, the special needs
68 and circumstances of health maintenance organizations.
69 These needs and circumstances are limited to:

70 (A) The needs of enrolled members and reasonably

71 anticipated new members of the health maintenance orga-
72 nization for the health services proposed to be provided
73 by the organization; and

74 (B) The availability of the new health services from
75 nonhealth maintenance organization providers or other
76 health maintenance organizations in a reasonable and
77 cost-effective manner which is consistent with the basic
78 method of operation of the health maintenance organiza-
79 tion. In assessing the availability of these health services
80 from these providers, the agency shall consider only
81 whether the services from these providers:

82 (i) Would be available under a contract of at least five
83 years' duration;

84 (ii) Would be available and conveniently accessible
85 through physicians and other health professionals associ-
86 ated with the health maintenance organization;

87 (iii) Would cost no more than if the services were pro-
88 vided by the health maintenance organization; and

89 (iv) Would be available in a manner which is adminis-
90 tratively feasible to the health maintenance organization;

91 (13) The special needs and circumstances of biomed-
92 ical and behavioral research projects which are designed to
93 meet a national need and for which local conditions offer
94 special advantages;

95 (14) In the case of a reduction or elimination of a
96 service, including the relocation of a facility or a service,
97 the need that the population presently served has for the
98 service, the extent to which that need will be met adequate-
99 ly by the proposed relocation or by alternative arrange-
100 ments, and the effect of the reduction, elimination or relo-
101 cation of the service on the ability of low income persons,
102 racial and ethnic minorities, women, handicapped persons,
103 other medically underserved population, and the elderly,
104 to obtain needed health care;

105 (15) In the case of a construction project: (A) The
106 cost and methods of the proposed construction, including
107 the costs and methods of energy provision and (B) the
108 probable impact of the construction project reviewed on
109 the costs of providing health services by the person pro-
110 posing the construction project and on the costs and
111 charges to the public of providing health services by other
112 persons;

113 (16) In the case of health services proposed to be
114 provided, the effect of the means proposed for the deliv-
115 ery of proposed health services on the clinical needs of
116 health professional training programs in the area in which
117 the services are to be provided;

118 (17) In the case of health services proposed to be
119 provided, if the services are to be available in a limited
120 number of facilities, the extent to which the schools in the
121 area for health professions will have access to the services
122 for training purposes;

123 (18) In the case of health services proposed to be
124 provided, the extent to which the proposed services will be
125 accessible to all the residents of the area to be served by
126 the services;

127 (19) In accordance with section five of this article, the
128 factors influencing the effect of competition on the supply
129 of the health services being reviewed;

130 (20) Improvements or innovations in the financing
131 and delivery of health services which foster competition, in
132 accordance with section five of this article, and serve to
133 promote quality assurance and cost effectiveness;

134 (21) In the case of health services or facilities pro-
135 posed to be provided, the efficiency and appropriateness
136 of the use of existing services and facilities similar to those
137 proposed;

138 (22) In the case of existing services or facilities, the
139 quality of care provided by the services or facilities in the

140 past;

141 (23) In the case where an application is made by an
142 osteopathic or allopathic facility for a certificate of need
143 to construct, expand, or modernize a health care facility,
144 acquire major medical equipment, or add services, the
145 need for that construction, expansion, modernization,
146 acquisition of equipment, or addition of services shall be
147 considered on the basis of the need for and the availability
148 in the community of services and facilities for osteopathic
149 and allopathic physicians and their patients. The state
150 agency shall consider the application in terms of its impact
151 on existing and proposed institutional training programs
152 for doctors of osteopathy and medicine at the student,
153 internship, and residency training levels;

154 (24) The special circumstances of health care facilities
155 with respect to the need for conserving energy;

156 (25) The contribution of the proposed service in meet-
157 ing the health related needs of members of medically
158 underserved populations which have traditionally experi-
159 enced difficulties in obtaining equal access to health ser-
160 vices, particularly those needs identified in the state health
161 plan, applicable health systems plan and annual imple-
162 mentation plan, as deserving of priority. For the purpose
163 of determining the extent to which the proposed service
164 will be accessible, the state agency shall consider:

165 (A) The extent to which medically underserved popu-
166 lations currently use the applicant's services in comparison
167 to the percentage of the population in the applicant's ser-
168 vice area which is medically underserved, and the extent to
169 which medically underserved populations are expected to
170 use the proposed services if approved;

171 (B) The performance of the applicant in meeting its
172 obligation, if any, under any applicable federal regulations
173 requiring provision of uncompensated care, community
174 service, or access by minorities and handicapped persons
175 to programs receiving federal financial assistance, includ-

176 ing the existence of any civil rights access complaints
177 against the applicant;

178 (C) The extent to which medicare, medicaid and medi-
179 cally indigent patients are served by the applicant; and

180 (D) The extent to which the applicant offers a range of
181 means by which a person will have access to its services,
182 including, but not limited to, outpatient services, admission
183 by a house staff and admission by personal physician;

184 (26) The existence of a mechanism for soliciting con-
185 sumer input into the health care facility's decision making
186 process.

187 (b) The state agency may include additional criteria
188 which it prescribes by regulations adopted pursuant to
189 section eight of this article.

190 (c) Criteria for reviews may vary according to the
191 purpose for which a particular review is being conducted
192 or the types of health services being reviewed.

193 (d) An application for a certificate of need may not be
194 made subject to any criterion not contained in this article
195 or not contained in regulations adopted pursuant to sec-
196 tion eight of this article.

197 (e) In the case of any proposed new institutional
198 health service, the state agency may not grant a certificate
199 of need under its certificate of need program unless, after
200 consideration of the appropriateness of the use of existing
201 facilities providing services similar to those being pro-
202 posed, the state agency makes, in addition to findings
203 required in section nine of this article, each of the follow-
204 ing findings in writing: (1) That superior alternatives to
205 the services in terms of cost, efficiency and appropriate-
206 ness do not exist and the development of alternatives is not
207 practicable; (2) that existing facilities providing services
208 similar to those proposed are being used in an appropriate
209 and efficient manner; (3) that in the case of new construc-
210 tion, alternatives to new construction, such as moderniza-

211 tion or sharing arrangements, have been considered and
212 have been implemented to the maximum extent practica-
213 ble; (4) that patients will experience serious problems in
214 obtaining care of the type proposed in the absence of the
215 proposed new service; and (5) that in the case of a propos-
216 al for the addition of beds for the provision of skilled
217 nursing or intermediate care services, the addition will be
218 consistent with the plans of other agencies of the state
219 responsible for the provision and financing of long-term
220 care facilities or services including home health services.

221 (f) In the case where an application is made by a hos-
222 pital, nursing home or other health care facility to provide
223 ventilator services which have not previously been provid-
224 ed for a nursing facility bed, the state agency shall consid-
225 er the application in terms of the need for the service and
226 whether the cost exceeds the level of current medicaid
227 services. No facility may, by providing ventilator services,
228 provide a higher level of service for a nursing facility bed
229 without demonstrating that the change in level of service
230 by provision of the additional ventilator services will result
231 in no additional fiscal burden to the state.

232 (g) In the case where application is made by any
233 person or entity to provide personal care services which
234 are to be billed for medicaid reimbursement, the state
235 agency shall consider the application in terms of the need
236 for the service and whether the cost exceeds the level of
237 the cost of current medicaid services. No person or entity
238 may provide personal care services to be billed for medic-
239 aid reimbursement without demonstrating that the provi-
240 sion of the personal care service will result in no additional
241 fiscal burden to the state: *Provided*, That a certificate of
242 need shall not be required for a person providing special-
243 ized foster care personal care services to one individual
244 and those services are delivered in the provider's home.
245 The state agency will also consider the total fiscal liability
246 to the state for all applications which have been submitted.

Enr. Com. Sub. for H. B. 2476] 26

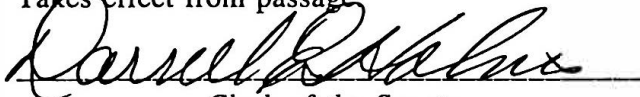

The Joint Committee on Enrolled Bills hereby certifies that the foregoing bill is correctly enrolled.
