WEST VIRGINIA LEGISLATURE
SECOND REGULAR SESSION, 1998

ENROLLED

House Bill No. 4687
(By Delegates Facemyer, Michael, Kelley, Warner, Pettit, Seacrist and Walters)

Passed March 14, 1998

In Effect from Passage
AN ACT to amend and reenact sections six and seven, article twenty-four, chapter eleven of the code of West Virginia, one thousand nine hundred thirty-one, as amended, relating to corporation net income tax; allocation and apportionment of net income of corporate partner's distributive share; providing that the allocation and apportionment shall be made using the partnership's property, payroll and sales factors; corporation net income tax adjustments in determining West Virginia taxable income, beginning in taxable year one thousand nine hundred ninety-eight; adding increasing adjustments for foreign taxes and for net operating losses from sources outside of the United States; amending the decreasing adjustment for foreign source income; eliminating the obsolete reference to the net operating loss deduction from the allowance for certain governmental obligations and obligations secured by residential property; and specifying effective date.

Be it enacted by the Legislature of West Virginia:

That sections six and seven, article twenty-four, chapter eleven of the code of West Virginia, one thousand nine hundred thirty-one, as amended, be amended and reenacted to read as follows:

ARTICLE 24. CORPORATION NET INCOME TAX.
§11-24-6. Adjustments in determining West Virginia taxable income.

(a) General. — In determining West Virginia taxable income of a corporation, its taxable income as defined for federal income tax purposes shall be adjusted and determined before the apportionment provided by section seven of this article, by the items specified in this section.

(b) Adjustments increasing federal taxable income. — There shall be added to federal taxable income, unless already included in the computation of federal taxable income, the following items:

1. Interest or dividends on obligations or securities of any state or of a political subdivision or authority of the state;

2. Interest or dividends, less related expenses to the extent not deducted in determining federal taxable income, on obligations or securities of any authority, commission or instrumentality of the United States which the laws of the United States exempt from federal income tax but not from state income taxes;

3. Income taxes and other taxes, including franchise and excise taxes, which are based on, measured by, or computed with reference to net income, imposed by this state or any other taxing jurisdiction, to the extent deducted in determining federal taxable income;

4. The amount of unrelated business taxable income as defined by Section 512 of the Internal Revenue Code of 1986, as amended, of a corporation which by reason of its purposes is generally exempt from federal income taxes;

5. The amount of any net operating loss deduction taken for federal income tax purposes under Section 172 of the Internal Revenue Code of 1986, as amended;

6. Any amount included in federal taxable income which is a net operating loss from sources without the United States after making the decreasing adjustments provided in subdivisions (5) and (7), subsection (c) of this
section for Section 951 income and Section 78 income.
Federal taxable income from sources without the United
States shall be determined in accordance with the
provisions of Sections 861, 862, and 863 of the Internal
Revenue Code of 1986, as amended; and

(7) The amount of foreign taxes deducted in
determining federal taxable income.

(c) Adjustments decreasing federal taxable income. —
There shall be subtracted from federal taxable income to
the extent included therein:

(1) Any gain from the sale or other disposition of
property having a higher fair market value on the first day
of July, one thousand nine hundred sixty-seven, than the
adjusted basis at said date for federal income tax purposes:
Provided, That the amount of this adjustment is limited to
that portion of any gain which does not exceed the
difference between the fair market value and the adjusted
basis;

(2) The amount of any refund or credit for
overpayment of income taxes and other taxes, including
franchise and excise taxes, which are based on, measured
by, or computed with reference to net income, imposed by
this state or any other taxing jurisdiction, to the extent
properly included in gross income for federal income tax
purposes;

(3) The amount added to federal taxable income due
to the elimination of the reserve method for computation
of the bad debt deduction;

(4) The full amount of interest expense actually
disallowed in determining federal taxable income which
was incurred or continued to purchase or carry obligations
or securities of any state or of any political subdivision of
the state;

(5) The amount required to be added to federal
taxable income as a dividend received from a foreign
(non-United States) corporation under Section 78 of the
Internal Revenue Code of 1986, as amended, by a
corporation electing to take the foreign tax credit for federal income tax purposes;

(6) The amount of salary expenses disallowed as a deduction for federal income tax purposes due to claiming the federal jobs credit under Section 51 of the Internal Revenue Code of 1986, as amended;

(7) The amount included in federal adjusted gross income by the operation of Section 951 of the Internal Revenue Code of 1986, as amended;

(8) Employer contributions to medical savings accounts established pursuant to section fifteen, article sixteen, chapter thirty-three of this code to the extent included in federal adjusted gross income for federal income tax purposes less any portion of employer contributions withdrawn for purposes other than payment of medical expenses: Provided, That the amount subtracted pursuant to this subsection for any one taxable year may not exceed the maximum amount that would have been deductible from the corporation's federal adjusted gross income for federal income tax purposes if the aggregate amount of the corporation's contributions to individual medical savings accounts established under section fifteen, article sixteen, chapter thirty-three of this code had been contributed to a qualified plan as defined under the Employee Retirement Income Security Act of 1974, as amended; and

(9) Any amount included in federal taxable income which is foreign source income. Foreign source income is any amount included in federal taxable income which is taxable income from sources without the United States, less the adjustments provided in subdivisions (5) and (7) of this subsection.

In determining "foreign source income", the provisions of Sections 861, 862 and 863 of the Internal Revenue Code of 1986, as amended, shall be applied.

(d) Net operating loss deduction. — Except as otherwise provided in this subsection, there is allowed as a deduction for the taxable year an amount equal to the
aggregate of: (1) The West Virginia net operating loss carryovers to that year; plus (2) the net operating loss carrybacks to that year: Provided, That no more than three hundred thousand dollars of net operating loss from any taxable year beginning after the thirty-first day of December, one thousand nine hundred ninety-two, may be carried back to any previous taxable year. For purposes of this subsection, the term "West Virginia net operating loss deduction" means the deduction allowed by this subsection, determined in accordance with Section 172 of the Internal Revenue Code of 1986, as amended.

(1) Special rules. —

(A) When the corporation further adjusts its adjusted federal taxable income under section seven of this article, the West Virginia net operating loss deduction allowed by this subsection shall be deducted after the section seven adjustments are made;

(B) The tax commissioner shall prescribe the transition regulations as he deems necessary for fair and equitable administration of this subsection as amended by this act.

(2) Effective date. — The provisions of this subsection, as amended by chapter one hundred nineteen, acts of the Legislature, one thousand nine hundred eighty-eight, apply to all taxable years ending after the thirtieth day of June, one thousand nine hundred eighty-eight; and to all loss carryovers from taxable years ending on or before said thirtieth day of June.

(e) Special adjustments for expenditures for water and air pollution control facilities. —

(1) If the taxpayer so elects under subdivision (2) of this subsection, there shall be:

(A) Subtracted from federal taxable income the total of the amounts paid or incurred during the taxable year for the acquisition, construction or development within this state of water pollution control facilities or air pollution control facilities as defined in Section 169 of the Internal Revenue Code; and
(B) Added to federal taxable income the total of the amounts of any allowances for depreciation and amortization of the water pollution control facilities or air pollution control facilities, as so defined, to the extent deductible in determining federal taxable income.

(2) The election referred to in subdivision (1) of this subsection shall be made in the return filed within the time prescribed by law, including extensions of the time, for the taxable year in which the amounts were paid or incurred. The election shall be made in that manner, and the scope of application of that election shall be defined, as the tax commissioner may by rule prescribe, and shall be irrevocable when made as to all amounts paid or incurred for any particular water pollution control facility or air pollution control facility.

(3) Notwithstanding any other provisions of this subsection or of section seven to the contrary, if the taxpayer's federal taxable income is subject to allocation and apportionment under section seven, the adjustments prescribed in paragraphs (A) and (B), subdivision (1) of this subsection shall, instead of being made to the taxpayer's federal taxable income before allocation and apportionment thereof as provided in section seven, be made to the portion of the taxpayer's net income, computed without regard to the adjustments, allocated and apportioned to this state in accordance with section seven.

(f) Allowance for certain government obligations and obligations secured by residential property. — The West Virginia taxable income of a taxpayer subject to this article as adjusted in accordance with subsections (b), (c) and (e) of this section shall be further adjusted by multiplying the taxable income after the adjustment by said subsections by a fraction equal to one minus a fraction:

(1) The numerator of which is the sum of the average of the monthly beginning and ending account balances during the taxable year (account balances to be determined at cost in the same manner that obligations, investments and loans are reported on Schedule L of the Federal Form 1120) of the following:
(A) Obligations or securities of the United States, or of any agency, authority, commission or instrumentality of the United States and any other corporation or entity created under the authority of the United States Congress for the purpose of implementing or furthering an objective of national policy;

(B) Obligations or securities of this state and any political subdivision or authority of the state;

(C) Investments or loans primarily secured by mortgages, or deeds of trust, on residential property located in this state and occupied by nontransients; and

(D) Loans primarily secured by a lien or security agreement on residential property in the form of a mobile home, modular home or double-wide, located in this state and occupied by nontransients.

(2) The denominator of which is the average of the monthly beginning and ending account balances of the total assets of the taxpayer which are shown on Schedule L of Federal Form 1120, which are filed by the taxpayer with the Internal Revenue Service.

(g) The amendments to the provisions of this section made during the regular session of the Legislature in the year one thousand nine hundred ninety-eight, apply to all taxable years beginning on or after the thirty-first day of December, one thousand nine hundred ninety-seven.

(a) General. — Any taxpayer having income from business activity which is taxable both in this state and in another state shall allocate and apportion its net income as provided in this section. For purposes of this section, the term "net income" means the taxpayer's federal taxable income adjusted as provided in section six.

(b) "Taxable in another state" defined. — For purposes of allocation and apportionment of net income under this section, a taxpayer is taxable in another state if:

(1) In that state the taxpayer is subject to a net income tax, a franchise tax measured by net income, a franchise
(2) That state has jurisdiction to subject the taxpayer to a net income tax, regardless of whether, in fact, that state does or does not subject the taxpayer to the tax.

(c) Business activities entirely within West Virginia. — If the business activities of a taxpayer take place entirely within this state, the entire net income of the taxpayer is subject to the tax imposed by this article. The business activities of a taxpayer are considered to have taken place in their entirety within this state if the taxpayer is not "taxable in another state": Provided, That the business activities of a financial organization having its commercial domicile in this state are considered to take place entirely in this state, notwithstanding that the organization may be "taxable in another state": Provided, however, That the income from the business activities of a financial organization not having its commercial domicile in this state shall be apportioned according to the applicable provisions of this article.

(d) Business activities partially within and partially without West Virginia; allocation of nonbusiness income. — If the business activities of a taxpayer take place partially within and partially without this state and the taxpayer is also taxable in another state, rents and royalties from real or tangible personal property, capital gains, interest, dividends or patent or copyright royalties, to the extent that they constitute nonbusiness income of the taxpayer, shall be allocated as provided in subdivisions (1) through (4): Provided, That to the extent the items constitute business income of the taxpayer, they may not be so allocated but they shall be apportioned to this state according to the provisions of subsection (e) of this section and to the applicable provisions of section seven-b of this article.

(1) Net rents and royalties. —

(A) Net rents and royalties from real property located in this state are allocable to this state.
(B) Net rents and royalties from tangible personal property are allocable to this state:

(i) If and to the extent that the property is utilized in this state; or

(ii) In their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(C) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

(2) Capital gains. —

(A) Capital gains and losses from sales of real property located in this state are allocable to this state.

(B) Capital gains and losses from sales of tangible personal property are allocable to this state if:

(i) The property had a situs in this state at the time of the sale; or

(ii) The taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(C) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

(D) Gains pursuant to section 631(a) and (b) of the Internal Revenue Code of 1986, as amended, from sales of
natural resources severed in this state shall be allocated to this state if they are nonbusiness income.

(3) Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.

(4) Patent and copyright royalties. —

(A) Patent and copyright royalties are allocable to this state:

(i) If and to the extent that the patent or copyright is utilized by the payer in this state; or

(ii) If and to the extent that the patent or copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.

(B) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(C) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

(5) Corporate partner's distributive share. —

(A) Persons carrying on business as partners in a partnership, as defined in section 761 of the Internal Revenue Code of 1986, as amended, are liable for income tax only in their separate or individual capacities.

(B) A corporate partner's distributive share of income, gain, loss, deduction or credit of a partnership shall be modified as provided in section six of this article for each
11 partnership. For taxable years beginning on or after the
12 thirty-first day of December, one thousand nine hundred
13 ninety-eight, the distributive share shall then be allocated
14 and apportioned as provided in this section, using the
15 partnership's property, payroll and sales factors. The sum
16 of that portion of the distributive share allocated and
17 apportioned to this state shall then be treated as
18 distributive share allocated to this state; and that portion of
19 distributive share allocated or apportioned outside this
20 state shall be treated as distributive share allocated outside
21 this state, unless the taxpayer requests or the tax
22 commissioner, under subsection (h) of this section
23 requires that the distributive share be treated differently.
24
25 (e) Business activities partially within and partially
26 without this state; apportionment of business income. —
27 All net income, after deducting those items specifically
28 allocated under subsection (d), shall be apportioned to this
29 state by multiplying the net income by a fraction, the
30 numerator of which is the property factor plus the payroll
31 factor plus two times the sales factor, and the denominator
32 of which is four, reduced by the number of factors, if any,
33 having no denominator.
34
35 (1) Property factor. — The property factor is a
36 fraction, the numerator of which is the average value of
37 the taxpayer's real and tangible personal property owned
38 or rented and used by it in this state during the taxable
39 year and the denominator of which is the average value of
40 all the taxpayer's real and tangible personal property
41 owned or rented and used by the taxpayer during the
42 taxable year, which is reported on Schedule L Federal
43 Form 1120, plus the average value of all real and tangible
44 personal property leased and used by the taxpayer during
45 the taxable year.
46
47 (2) Value of property. — Property owned by the
48 taxpayer shall be valued at its original cost, adjusted by
49 subsequent capital additions or improvements thereto and
50 partial disposition thereof, by reason of sale, exchange,
51 abandonment, etc.: Provided, That where records of
52 original cost are unavailable or cannot be obtained without
53 unreasonable expense, property shall be valued at original
cost as determined under rules of the tax commissioner. Property rented by the taxpayer from others shall be valued at eight times the annual rental rate. The term "net annual rental rate" is the annual rental paid, directly or indirectly, by the taxpayer, or for its benefit, in money or other consideration for the use of property and includes:

(A) Any amount payable for the use of real or tangible personal property, or any part of the property, whether designated as a fixed sum of money or as a percentage of sales, profits or otherwise.

(B) Any amount payable as additional rent or in lieu of rents, such as interest, taxes, insurance, repairs or any other items which are required to be paid by the terms of the lease or other arrangement, not including amounts paid as service charges, such as utilities, janitor services, etc. If a payment includes rent and other charges unsegregated, the amount of rent shall be determined by consideration of the relative values of the rent and the other items.

(3) *Movable property.* — The value of movable tangible personal property used both within and without this state shall be included in the numerator to the extent of its utilization in this state. The extent of the utilization shall be determined by multiplying the original cost of the property by a fraction, the numerator of which is the number of days of physical location of the property in this state during the taxable period, and the denominator of which is the number of days of physical location of the property everywhere during the taxable year. The number of days of physical location of the property may be determined on a statistical basis or by other reasonable method acceptable to the tax commissioner.

(4) *Leasehold improvements.* — Leasehold improvements shall, for purposes of the property factor, be treated as property owned by the taxpayer regardless of whether the taxpayer is entitled to remove the improvements or the improvements revert to the lessor upon expiration of the lease. Leasehold improvements shall be included in the property factor at their original cost.
(5) **Average value of property.** — The average value of property shall be determined by averaging the values at the beginning and ending of the taxable year: *Provided,*

That the tax commissioner may require the averaging of monthly values during the taxable year if substantial fluctuations in the values of the property exist during the taxable year, or where property is acquired after the beginning of the taxable year, or is disposed of, or whose rental contract ceases, before the end of the taxable year.

(6) **Payroll factor.** — The payroll factor is a fraction, the numerator of which is the total compensation paid in this state during the taxable year by the taxpayer for compensation, and the denominator of which is the total compensation paid by the taxpayer during the taxable year, as shown on the taxpayer's federal income tax return as filed with the Internal Revenue Service, as reflected in the schedule of wages and salaries and that portion of cost of goods sold which reflects compensation, or as shown on a pro forma return.

(7) **Compensation.** — The term "compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services. Payments made to an independent contractor or to any other person not properly classifiable as an employee shall be excluded. Only amounts paid directly to employees are included in the payroll factor. Amounts considered as paid directly to employees include the value of board, rent, housing, lodging and other benefits or services furnished to employees by the taxpayer in return for personal services, provided the amounts constitute income to the recipient for federal income tax purposes.

(8) **Employee.** — The term "employee" means:

(A) Any officer of a corporation; or

(B) Any individual who, under the usual common-law rule applicable in determining the employer-employee relationship, has the status of an employee.

(9) **Compensation.** — Compensation is paid or accrued in this state if:
(A) The employee's service is performed entirely within this state; or

(B) The employee's service is performed both within and without this state, but the service performed without the state is incidental to the individual's service within this state. The word "incidental" means any service which is temporary or transitory in nature, or which is rendered in connection with an isolated transaction; or

(C) Some of the service is performed in this state and:

(i) The employee's base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state; or

(ii) The base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the employee's residence is in this state.

The term "base of operations" is the place of more or less permanent nature from which the employee starts his or her work and to which he or she customarily returns in order to receive instructions from the taxpayer or communications from his or her customers or other persons or to replenish stock or other materials, repair equipment, or perform any other functions necessary to the exercise of his or her trade or profession at some other point or points. The term "place from which the service is directed or controlled" refers to the place from which the power to direct or control is exercised by the taxpayer.

(10) Sales factor. — The sales factor is a fraction, the numerator of which is the gross receipts of the taxpayer derived from transactions and activity in the regular course of its trade or business in this state during the taxable year (business income), less returns and allowances. The denominator of the fraction is the total gross receipts derived by the taxpayer from transactions and activity in the regular course of its trade or business during the taxable year (business income), and reflected in its gross income reported and as appearing on the taxpayer's Federal Form 1120, and consisting of those...
certain pertinent portions of the (gross income) elements set forth: Provided. That if either the numerator or the denominator includes interest or dividends from obligations of the United States government which are exempt from taxation by this state, the amount of such interest and dividends, if any, shall be subtracted from the numerator or denominator in which it is included.

(11) Allocation of sales of tangible personal property. —

(A) Sales of tangible personal property are in this state if:

(i) The property is received in this state by the purchaser, other than the United States government, regardless of the f.o.b. point or other conditions of the sale. In the case of delivery by common carrier or other means of transportation, the place at which the property is ultimately received after all transportation has been completed is the place at which the property is received by the purchaser. Direct delivery in this state, other than for purposes of transportation, to a person or firm designated by the purchaser, is delivery to the purchaser in this state, and direct delivery outside this state to a person or firm designated by the purchaser is not delivery to the purchaser in this state, regardless of where title passes or other conditions of sale; or

(ii) The property is shipped from an office, store, warehouse, factory or other place of storage in this state and the purchaser is the United States government.

(B) All other sales of tangible personal property delivered or shipped to a purchaser within a state in which the taxpayer is not taxed, as defined in subsection (b) of this section, shall be excluded from the denominator of the sales factor.

(12) Allocation of other sales. — Sales, other than sales of tangible personal property are in this state if:

(A) The income-producing activity is performed in this state; or
(B) The income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance; or

(C) The sale constitutes business income to the taxpayer, or the taxpayer is a financial organization not having its commercial domicile in this state, and in either case the sale is a receipt described as attributable to this state in subsection (b), section seven-b of this article.

(13) Financial organizations and other taxpayers with business activities partially within and partially without this state. — Notwithstanding anything contained in this section to the contrary, in the case of financial organizations and other taxpayers, not having their commercial domicile in this state, the rules of this subsection apply to the apportionment of income from their business activities except as expressly otherwise provided in subsection (b), section seven-b of this article.

(f) Income-producing activity. — The term "income-producing activity" applies to each separate item of income and means the transactions and activity directly engaged in by the taxpayer in the regular course of its trade or business for the ultimate purpose of obtaining gain or profit. The activity does not include transactions and activities performed on behalf of the taxpayer, such as those conducted on its behalf by an independent contractor. "Income-producing activity" includes, but is not limited to, the following:

(1) The rendering of personal services by employees with utilization of tangible and intangible property by the taxpayer in performing a service;

(2) The sale, rental, leasing, licensing or other use of real property;

(3) The sale, rental, leasing, licensing or other use of tangible personal property; or

(4) The sale, licensing or other use of intangible personal property.
The mere holding of intangible personal property is not, in itself, an income-producing activity: Provided, That the conduct of the business of a financial organization is an income-producing activity.

(g) *Cost of performance.* — The term "cost of performance" means direct costs determined in a manner consistent with generally accepted accounting principles and in accordance with accepted conditions or practices in the trade or business of the taxpayer.

(h) *Other methods of allocation and apportionment.* —

(1) *General.* — If the allocation and apportionment provisions of subsections (d) and (e) of this section do not fairly represent the extent of the taxpayer's business activities in this state, the taxpayer may petition for or the tax commissioner may require, in respect to all or any part of the taxpayer's business activities, if reasonable:

(A) Separate accounting;

(B) The exclusion of one or more of the factors;

(C) The inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or

(D) The employment of any other method to effectuate an equitable allocation or apportionment of the taxpayer's income. The petition shall be filed no later than the due date of the annual return for the taxable year for which the alternative method is requested, determined without regard to any extension of time for filing the return, and the petition shall include a statement of the petitioner's objections and of the alternative method of allocation or apportionment as it believes to be proper under the circumstances with such detail and proof as the tax commissioner may require.

(2) *Alternative method for public utilities.* — If the taxpayer is a public utility and if the allocation and apportionment provisions of subsections (d) and (e) do not fairly represent the taxpayer's business activities in this
state, the taxpayer may petition for, or the tax commissioner may require, as an alternative to the other methods provided for in paragraph (1) of this subsection, the allocation and apportionment of the taxpayer's net income in accordance with any system of accounts prescribed by the public service commission of this state pursuant to the provisions of section eight, article two, chapter twenty-four of this code: Provided, That the allocation and apportionment provisions of the system of accounts fairly represent the extent of the taxpayer's business activities in this state for the purposes of the tax imposed by this article.

(3) Burden of proof. — In any proceeding before the tax commissioner or in any court in which employment of one of the methods of allocation or apportionment provided for in paragraph (1) or (2) of this subsection is sought, on the ground that the allocation and apportionment provisions of subsections (d) and (e) do not fairly represent the extent of the taxpayer's business activities in this state, the burden of proof is:

(A) If the tax commissioner seeks employment of one of the methods, on the tax commissioner; or

(B) If the taxpayer seeks employment of one of the other methods, on the taxpayer.
