shall, upon written request to any law-enforcement agency
or any state or regional correctional facility, be provided
with all records of the investigation of decedent’s death
and all records of decedent’s incarceration. Where a
decedent received therapeutic, corrective or medical
treatment prior to death, the chief medical examiner may
request in writing that any person or other entity which
rendered the treatment promptly provide all records
within its possession or control pertaining to the decedent
and the treatment rendered: Provided, That nothing
contained in this section may be construed as precluding
the chief medical examiner from directly inspecting or
obtaining investigation records, incarceration records or
medical records related to the case. Where records of a
decedent become part of the chief medical examiner’s file,
they are not subject to subpoena or a request for produc-
tion directed to the chief medical examiner.

(b) A county medical examiner, or his or her assistant,
shall make inquiries regarding the cause and manner of
death, reduce his or her findings to writing, and promptly
make a full report thereof to the chief medical examiner on

In the county, an autopsy shall be conducted by the chief medical examiner or his or her designee, by a member of his staff, or by a competent pathologist designated and employed by the chief medical examiner under the provisions of this article. For this purpose, the chief medical examiner may employ any county medical examiner who is a pathologist who holds board certification or board eligibility in forensic pathology or has completed an American Board of Pathology fellowship in forensic pathology to make the autopsies, and the fees to be paid for autopsies under this section shall be in addition to the fee provided for investigations pursuant to section eight of this article. A full record and report of the findings developed by the autopsy shall be filed with the office of the chief medical examiner by the person making the autopsy.

(d) Copies of these records or information shall be furnished, upon request, to any court of law, or to the parties therein to whom the cause of death is a material issue, except where the court determines that interests in a civil matter conflict with the interests in a criminal
proceeding, in which case the interests in the criminal proceeding shall take precedence. The office of chief medical examiner shall be reimbursed a reasonable rate by the requesting party for costs incurred in the production of records under this subsection and subsection (c) of this section.

(e) The chief medical examiner is authorized to release investigation records and autopsy reports to the multidisciplinary team authorized by section three, article five-d, chapter forty-nine of this code. At the direction of the secretary of the department of health and human resources the chief medical examiner may release records and information to other state agencies when considered to be in the public interest.

(f) Any person performing an autopsy under this section is empowered to keep and retain, for and on behalf of the chief medical examiner, any tissue from the body upon which the autopsy was performed which may be necessary for further study or consideration.

(g) In cases of the death of any infant in the state of West Virginia where sudden infant death syndrome is the suspected cause of death and the chief medical examiner or the medical examiner of the county in which the death occurred considers it advisable to perform an autopsy, it is the duty of the chief medical examiner or the medical examiner of the county in which the death occurred to notify the sudden infant death syndrome program within the division of maternal and child health and to inform the program of all information to be given to the infant's parents.

Whenever an examination of a body is ordered pursuant to section eight or ten of this article and the body of the deceased is transported to the central laboratory or other place of examination, the reasonable cost of the transportation shall be paid by the state out of funds appropriated to or for the use of the office of the chief medical examiner. Transportation at state expense shall be provided from the place where the body is being kept at the time the examination is ordered to the central laboratory or other place of examination, and, upon completion of the examination, to the place designated by the person entitled to possession of the body: Provided, That if the body is to be returned a greater distance than it was taken for the examination, the state shall only be obligated for the cost of return of the body equal to or less than that incurred to take the body for the examination. The payment shall be of a reasonable amount set by the office of the chief medical examiner, including, but not limited to, payment of any part of the total cost as the office of the chief medical examiner allows.

§61-12-11. Exhumation; when ordered.

If, in any case of sudden, violent or suspicious death, the body is buried without any investigation by the chief medical examiner, or by a county medical examiner or coroner, it is the duty of the chief medical examiner or the county medical examiner or coroner, upon being advised of this fact, to notify the prosecuting attorney of the county, who shall communicate the same to the judge of the circuit court or other court of record having jurisdiction in the county and the judge may order that the body be exhumed and an autopsy performed thereon, as provided in section ten of this article and the pertinent facts disclosed by the autopsy shall be communicated to the prosecuting attorney of the county.
