65 eligible taxpayer organization, and if all physician's services  
66 had been performed for, or under the organizational identity of,  
67 or by employees of, one eligible taxpayer organization.

69 combination with all other applicable tax credits, exemptions

152 the feasibility and desirability of a plan which would require all  
153 health care providers in the state to participate with an associ-  
154 ated cost-benefit analysis, recommendations on additional  
155 funding of other state run insurance plans with an associated  
156 cost-benefit analysis and recommendations on the desirability

157 of ceasing to offer a state plan with an associated analysis of a  
158 potential transfer to the private sector with a cost-benefit  
159 analysis, including impact on premiums;

160 (I) Establish a five-year financial plan to ensure an adequate  
161 premium base to cover the long tail nature of the claims-made  
162 coverage provided by the preferred medical liability program  
163 and the high risk medical liability program. The plan shall be  
164 designed to meet the program's estimated total financial

174 the board. The actuary shall also assist in the development of  
175 alternative financing options and perform any other services  
176 requested by the board or the executive director. All reasonable  
177 fees and expenses for actuarial services shall be paid by the  
178 board. Any financial plan or modifications to a financial plan  
179 approved or proposed by the board pursuant to this section shall

181 finally approved and submitted to the governor and to the  
182 Legislature without the actuary's written professional opinion  
183 that the plan may be reasonably expected to generate sufficient  
184 revenues to meet all estimated program and administrative  
185 costs, including incurred but not reported claims, for the fiscal  
186 year for which the plan is proposed. The actuary's opinion for  
187 any fiscal year shall include a requirement for establishment of  
188 a reserve fund;

189       (ii) Submit its final, approved five-year financial plan, after  
190 obtaining the necessary actuary's opinion, to the governor and  
191 to the Legislature no later than the first day of January preced-  
192 ing the fiscal year. The financial plan for a fiscal year becomes  
193 effective and shall be implemented by the executive director on

196 shall also simultaneously submit an audited financial statement  
197 based on generally accepted accounting practices (GAAP) and  
198 which shall include allowances for incurred but not reported

201 financial plan. The provisions of chapter twenty-nine-a of this  
202 code shall not apply to the preparation, approval and implemen-  
203 tation of the financial plans required by this section;

204       (iii) Submit to the governor and the Legislature a prospec-

215 the voluntary insurance market and have been unable to obtain  
216 the same;

217       (J) Meet on at least a quarterly basis to review implementa-  
218 tion of its current financial plan in light of the actual experience

220 of this chapter. The board shall review actual costs incurred,  
221 any revised cost estimates provided by the actuary, expendi-

222 tures and any other factors affecting the fiscal stability of the  
223 plan and may make any additional modifications to the plan  
224 necessary to ensure that the total financial requirements of these  
225 programs for the current fiscal year are met;

231 board;

232 (M) Make available to participants, optional extended  
233 reporting coverage or tail coverage: *Provided*, That, at least  
234 five working days prior to offering such coverage to a partici-  
235 pant or participants, the board shall notify the president of the  
236 Senate and the speaker of the House of Delegates in writing of  
237 its intention to do so, and such notice shall include the terms  
238 and conditions of the coverage proposed;

239 (N) Review and approve, reject or modify rules that are  
240 proposed by the executive director to implement, clarify or  
241 explain administration of the preferred medical liability  
242 program and the high risk medical liability program. Notwith-  
243 standing any provisions in this code to the contrary, rules  
244 promulgated pursuant to this paragraph are not subject to the  
245 provisions of sections nine through sixteen, article three,  
246 chapter twenty-nine-a of this code. The board shall comply  
247 with the remaining provisions of article three and shall hold  
248 hearings or receive public comments before promulgating any  
249 proposed rule filed with the secretary of state: *Provided*, That

251 gated by the board shall become effective upon approval by the  
252 board notwithstanding any provision of this code;

254 agreements whenever appropriate. The policy may not require

263 (Q) Terminate coverage for nonpayment of premiums upon  
264 written notice of the termination forwarded to the health care  
265 provider not less than thirty days prior to termination of  
266 coverage;

267 (R) Assign coverage or transfer insurance obligations  
268 and/or risks of existing or in-force contracts of insurance to a  
269 third party medical professional liability insurance carrier with  
270 the comparable coverage conditions as determined by the  
271 board. Any transfer of obligation or risk shall effect a novation  
272 of the transferred contract of insurance and if the terms of the  
273 assumption reinsurance agreement extinguish all liability of the  
274 board and the state of West Virginia such extinguishment shall  
275 be absolute as to any and all parties; and

276 (S) Meet and consult with and consider recommendations  
277 from the medical malpractice advisory panel established by the

288 ture adopts a concurrent resolution authorizing the board to  
289 reestablish medical liability insurance programs.

**ARTICLE 12B. WEST VIRGINIA HEALTH CARE PROVIDER PROFES-  
SIONAL LIABILITY INSURANCE AVAILABILITY ACT.**

**§29-12B-6. Health care provider professional liability insurance  
programs.**

1 (a) There is hereby established through the board of risk  
2 and insurance management optional insurance for health care  
3 providers consisting of a preferred professional liability  
4 insurance program and a high risk professional liability  
5 insurance program.

6 (b) Each of the programs described in subsection (a) of this  
7 section shall provide claims-made coverage for any covered act  
8 or omission resulting in injury or death arising out of medical  
9 professional liability as defined in subsection (d), section two,  
10 article seven-b, chapter fifty-five of this code.

11 (c) Each of the programs described in subsection (a) of this  
12 section shall offer optional prior acts coverage from and after  
13 a retroactive date established by the policy declarations. The  
14 premium for prior acts coverage may be based upon a five-year  
15 maturity schedule depending on the years of prior acts expo-  
16 sure, as more specifically set forth in a written rating manual  
17 approved by the board.

18 (d) Each of the programs described in subsection (a) of this  
19 section shall further provide an option to purchase an extended  
20 reporting endorsement or tail coverage.

21 (e) Each of the programs described in subsection (a) of this  
22 section shall offer limits for each health care provider in the  
23 amount of one million dollars per claim, including repeated  
24 exposure to the same event or series of events, and all deriva-  
25 tive claims, and three million dollars in the annual aggregate.  
26 Health care providers have the option to purchase higher limits  
27 of up to two million dollars per claim, including repeated  
28 exposure to the same event or series of events, and all deriva-  
29 tive claims, and up to four million dollars in the annual aggre-  
30 gate. In addition, hospitals covered by the plan shall have  
31 available limits of three million dollars per claim, including  
32 repeated exposure to the same event or series of events, and all  
33 derivative claims, and five million dollars in the annual  
34 aggregate. Installment payment plans as established in the  
35 rating manual shall be available to all participants.

36 (f) Each of the programs described in subsection (a) of this  
37 section shall cover any act or omission resulting in injury or

43 coverage.

44 (g) Each of the programs described in subsection (a) of this  
45 section shall apply to damages, except punitive damages, for  
46 medical professional liability as defined in subsection (d),  
47 section two, article seven-b, chapter fifty-five of this code.

48 (h) The board may, but is not required, to obtain excess  
49 verdict liability coverage for the programs described in subsec-  
50 tion (a) of this section.

51 (i) Each of the programs shall be liable to the extent of the  
52 limits purchased by the health care provider as set forth in

53 subsection (e) of this section. In the event that a claimant and a  
54 health care provider are willing to settle within those limits  
55 purchased by the health care provider, but the board refuses or  
56 declines to settle, and the ultimate verdict is in excess of the  
57 purchased limits, the board shall not be liable for the portion of  
58 the verdict in excess of the coverage provided in subsection (e)  
59 of this section unless the board acts in bad faith, with actual  
60 malice, in declining or refusing to settle: *Provided*, That if the  
61 board has in effect applicable excess verdict liability insurance,  
62 the health care provider shall not be required to prove that the  
63 board acted with actual malice in declining or refusing to settle  
64 in order to be indemnified for that portion of the verdict in  
65 excess of the limits of the purchased policy and within the  
66 limits of the excess liability coverage. Notwithstanding any  
67 provision of this code to the contrary, the board shall not be  
68 liable for any verdict in excess of the combined limit of the  
69 purchased policy and any applicable excess liability coverage  
70 unless the board acts in bad faith with actual malice.

71 (j) Rates for each of the programs described in subsection  
72 (a) of this section may not be excessive, inadequate or unfairly  
73 discriminatory: *Provided*, That the rates charged for the  
74 preferred professional liability insurance program shall not be  
75 less than the highest approved comparable base rate for a  
76 licensed carrier providing five percent of the malpractice  
77 insurance coverage in this state for the previous calendar year  
78 on file with the insurance commissioner: *Provided, however*,  
79 That if there is only one licensed carrier providing five percent  
80 or more of the malpractice insurance coverage in the state  
81 offering comparable coverage, the board shall have discretion  
82 to disregard the approved comparable base rate of the licensed  
83 carrier.

84 (k) The premiums for each of the programs described in  
85 subsection (a) of this section are subject to premium taxes  
86 imposed by article three, chapter thirty-three of this code.

87 (l) Nothing in this article shall be construed to preclude a  
88 health care provider from obtaining professional liability  
89 insurance coverage for claims in excess of the coverage made  
90 available by the provisions of this article.

91 (m) General liability coverage that may be required by a  
92 health care provider may be offered as determined by the board.

93 (n) The board may provide coverage for the run out of, and  
94 tail coverage for, any active policy issued pursuant to this  
95 article which is not transferred to the physician's mutual  
96 insurance company in accordance with section nine, article  
97 twenty-f, chapter thirty-three of this code. The board may  
98 permit such policy holders to finance, with interest, the tail  
99 coverage premium payments therefore, up to a maximum  
100 finance period of five years, on such terms as the board may set.

**§29-12B-14. Effective date and termination of authority.**

1 Policies written under this article may have an effective  
2 date retroactive to the effective date of this article. Except as  
3 provided in subsection (n), section six of this article, the  
4 authority of the board of risk and insurance management to  
5 issue medical liability policies under this article shall cease  
6 upon the board's transfer, in accordance with section nine,  
7 article twenty-f, chapter thirty-three of this code, of assets,  
8 obligations and liabilities to the physicians' mutual insurance  
9 company created pursuant to said article, or upon the first day  
10 of July, two-thousand four, whichever occurs first. The board  
11 shall continue to administer any existing policy of insurance  
12 which was issued pursuant to this article, but was not trans-  
13 ferred to the physician's mutual insurance company, until the  
14 policy expires. Upon the expiration of the policy, the board  
15 shall make tail coverage available at an appropriate premium  
16 rate to be determined by the board. The board shall continue to  
17 administer any tail coverage so provided. On the thirtieth day

18 of January each year, the board shall report to the legislature's  
19 joint committee on government and finance the amount of any  
20 unfunded liability associated with the run out and tail coverage  
21 provided by this section.

**§29-12C-1. Patient injury compensation plan study board created; purpose; study of creation and funding of patient injury compensation fund; developing rules and establishing program; and report to the Legislature.**

1 (a) In recognition of the statewide concern over the rising  
2 cost of medical malpractice insurance and the difficulty that  
3 health care practitioners have in locating affordable medical  
4 malpractice insurance, there is hereby created a patient injury  
5 compensation fund study board to study the feasibility of  
6 establishing a patient injury compensation fund to reimburse  
7 claimants in medical malpractice actions for any portion of  
8 economic damages awarded which are uncollectible due to  
9 statutory limitations on damage awards for trauma care and/or  
10 the elimination of joint and several liability of tortfeasor health  
11 care providers and health care facilities.

12 (b) The patient injury compensation fund study board shall  
13 consist of the director of the board of risk and insurance  
14 management, who shall serve as chairperson, the insurance  
15 commissioner and an appointee of the governor. The patient  
16 injury compensation fund study board shall utilize the resources  
17 of the board of risk and insurance management and the insur-  
18 ance commission to effectuate the study required by this article.  
19 The patient injury compensation fund study board shall meet  
20 upon the call of the chair. A simple majority of the patient  
21 injury compensation fund study board members constitutes a  
22 quorum for the transaction of business.

23 (c) The patient injury compensation fund study board is  
24 authorized to hold hearings, conduct investigations and con-  
25 sider, without limitation, all options for identifying funding  
26 methods and for the operation and administration of a patient  
27 injury compensation fund within the following guidelines:

28 (1) The board of risk and insurance management is respon-  
29 sible for implementing, administering and operating any patient  
30 injury compensation fund;

31 (2) The patient injury compensation fund must be  
32 actuarially sound and fully funded in accordance with generally  
33 accepted accounting principles;

34 (3) Eligibility for reimbursement from the patient injury  
35 compensation fund is limited to claimants who have been  
36 awarded damages in a medical malpractice action but have been  
37 certified by the board of risk and insurance management to be  
38 unable, after exhausting all reasonable means available by law  
39 of recovering the award, to collect all or part of the economic  
40 damages awarded due to the limitations on awards established  
41 in sections nine and nine-c, article seven-b chapter fifty-five of  
42 this code; and

43 (4) The board of risk and insurance management may invest  
44 the moneys in the patient injury compensation fund and use any  
45 interest or other return from investments to pay administration  
46 expenses and claims granted.

47 (d) The patient injury compensation fund study board's  
48 report and recommendations shall be completed no later than  
49 the first day of December, two thousand three, and shall be  
50 presented to the joint committee of government and finance  
51 during the legislative interim meetings to be held in December,  
52 two thousand three.

53 **29-12C-2. Legislative rules.**

54 (a) The Legislature hereby declares that an emergency  
55 exists necessitating expeditious implementation of a patient  
56 injury compensation fund, if economically feasible, and directs  
57 the patient injury compensation fund study board to propose  
58 emergency legislative rules relating to the establishment,  
59 implementation and operation of the patient injury compensa-  
60 tion fund in conjunction with its report and recommendations  
61 to the Legislature under section one of this article. The rules  
62 proposed by the patient injury compensation fund study board  
63 shall:

64 (1) Provide the funding mechanism and the methodology  
65 for processing and timely and accurately collect funds;

66 (2) Assure the actuarial soundness of the patient injury  
67 compensation fund and sufficient moneys to satisfy all foresee-  
68 able claims against the patient injury compensation fund, giving  
69 due consideration to relevant loss or claim experience or trends  
70 and normal costs of operation;

71 (3) Provide a reasonable reserve fund for unexpected  
72 contingencies, consistent with generally accepted accounting  
73 principles;

74 (4) Establish appropriate procedures for notification of  
75 payment adjustments prior to any payment periods established  
76 in which a funding adjustment will be in effect, consistent with  
77 generally accepted accounting principles;

78 (5) Establish procedures for determining eligibility for and  
79 distribution of funds to claimants seeking reimbursement;

80 (6) Establish the requirements and procedure for certifying  
81 that a claimant has been unable to collect a portion of the  
82 economic damages recovered;

83 (7) Establish the process for submitting a claim for payment  
84 from the patient injury compensation fund; and

85 (8) Establish any additional requirements and criteria  
86 consistent with and necessary to effectuate the provisions of  
87 this article.

88 (b) If the Legislature accepts, in whole or in part, the  
89 recommendations of the patient injury compensation fund study  
90 board, enacts legislation establishing a patient injury compensa-  
91 tion fund and approves rules governing the initial establish-  
92 ment, implementation and operation of the patient injury  
93 compensation fund, those rules shall be filed with the secretary  
94 of state as emergency rules.

## CHAPTER 30. PROFESSIONS AND OCCUPATIONS.

### ARTICLE 3. WEST VIRGINIA MEDICAL PRACTICE ACT.

**§30-3-14. Professional discipline of physicians and podiatrists; reporting of information to board pertaining to medical professional liability and professional incompetence required; penalties; grounds for license denial and discipline of physicians and podiatrists; investigations; physical and mental examinations; hearings; sanctions; summary sanctions; reporting by the board; reapplication; civil and criminal immunity; voluntary limitation of license; probable cause determinations.**

1 (a) The board may independently initiate disciplinary  
2 proceedings as well as initiate disciplinary proceedings based  
3 on information received from medical peer review committees,  
4 physicians, podiatrists, hospital administrators, professional  
5 societies and others.

6 The board may initiate investigations as to professional  
7 incompetence or other reasons for which a licensed physician

8 or podiatrist may be adjudged unqualified based upon criminal  
9 convictions; complaints by citizens, pharmacists, physicians,  
10 podiatrists, peer review committees, hospital administrators,  
11 professional societies or others; or unfavorable outcomes  
12 arising out of medical professional liability. The board shall  
13 initiate an investigation if it receives notice that three or more  
14 judgments, or any combination of judgments and settlements  
15 resulting in five or more unfavorable outcomes arising from  
16 medical professional liability have been rendered or made  
17 against the physician or podiatrist within a five-year period. The  
18 board may not consider any judgments or settlements as  
19 conclusive evidence of professional incompetence or conclusive  
20 lack of qualification to practice.

21 (b) Upon request of the board, any medical peer review  
22 committee in this state shall report any information that may  
23 relate to the practice or performance of any physician or  
24 podiatrist known to that medical peer review committee. Copies  
25 of the requests for information from a medical peer review  
26 committee may be provided to the subject physician or podia-  
27 trist if, in the discretion of the board, the provision of such  
28 copies will not jeopardize the board's investigation. In the event  
29 that copies are provided, the subject physician or podiatrist is  
30 allowed fifteen days to comment on the requested information  
31 and such comments must be considered by the board.

32 The chief executive officer of every hospital shall, within  
33 sixty days after the completion of the hospital's formal disci-  
34 plinary procedure and also within sixty days after the com-  
35 mencement of and again after the conclusion of any resulting  
36 legal action, report in writing to the board the name of any  
37 member of the medical staff or any other physician or podiatrist  
38 practicing in the hospital whose hospital privileges have been  
39 revoked, restricted, reduced or terminated for any cause,  
40 including resignation, together with all pertinent information  
41 relating to such action. The chief executive officer shall also

42 report any other formal disciplinary action taken against any  
43 physician or podiatrist by the hospital upon the recommenda-  
44 tion of its medical staff relating to professional ethics, medical  
45 incompetence, medical professional liability, moral turpitude or  
46 drug or alcohol abuse. Temporary suspension for failure to  
47 maintain records on a timely basis or failure to attend staff or  
48 section meetings need not be reported. Voluntary cessation of  
49 hospital privileges for reasons unrelated to professional  
50 competence or ethics need not be reported.

51 Any managed care organization operating in this state  
52 which provides a formal peer review process shall report in  
53 writing to the board, within sixty days after the completion of  
54 any formal peer review process and also within sixty days after  
55 the commencement of and again after the conclusion of any  
56 resulting legal action, the name of any physician or podiatrist  
57 whose credentialing has been revoked or not renewed by the  
58 managed care organization. The managed care organization  
59 shall also report in writing to the board any other disciplinary  
60 action taken against a physician or podiatrist relating to  
61 professional ethics, professional liability, moral turpitude or  
62 drug or alcohol abuse within sixty days after completion of a  
63 formal peer review process which results in the action taken by  
64 the managed care organization. For purposes of this subsection,  
65 “managed care organization” means a plan that establishes,  
66 operates or maintains a network of health care providers who  
67 have entered into agreements with and been credentialed by the  
68 plan to provide health care services to enrollees or insureds to  
69 whom the plan has the ultimate obligation to arrange for the  
70 provision of or payment for health care services through  
71 organizational arrangements for ongoing quality assurance,  
72 utilization review programs or dispute resolutions.

73 Any professional society in this state comprised primarily  
74 of physicians or podiatrists which takes formal disciplinary  
75 action against a member relating to professional ethics, profes-

76 sional incompetence, medical professional liability, moral  
77 turpitude or drug or alcohol abuse shall report in writing to the  
78 board within sixty days of a final decision the name of the  
79 member, together with all pertinent information relating to the  
80 action.

81 Every person, partnership, corporation, association,  
82 insurance company, professional society or other organization  
83 providing professional liability insurance to a physician or  
84 podiatrist in this state, including the state board of risk and  
85 insurance management, shall submit to the board the following  
86 information within thirty days from any judgment or settlement  
87 of a civil or medical professional liability action excepting  
88 product liability actions: The name of the insured; the date of  
89 any judgment or settlement; whether any appeal has been taken  
90 on the judgment and, if so, by which party; the amount of any  
91 settlement or judgment against the insured; and other informa-  
92 tion required by the board.

93 Within thirty days from the entry of an order by a court in  
94 a medical professional liability action or other civil action in  
95 which a physician or podiatrist licensed by the board is deter-  
96 mined to have rendered health care services below the applica-  
97 ble standard of care, the clerk of the court in which the order  
98 was entered shall forward a certified copy of the order to the  
99 board.

100 Within thirty days after a person known to be a physician  
101 or podiatrist licensed or otherwise lawfully practicing medicine  
102 and surgery or podiatry in this state or applying to be licensed  
103 is convicted of a felony under the laws of this state or of any  
104 crime under the laws of this state involving alcohol or drugs in  
105 any way, including any controlled substance under state or  
106 federal law, the clerk of the court of record in which the  
107 conviction was entered shall forward to the board a certified  
108 true and correct abstract of record of the convicting court. The

109 abstract shall include the name and address of the physician or  
110 podiatrist or applicant, the nature of the offense committed and  
111 the final judgment and sentence of the court.

112       Upon a determination of the board that there is probable  
113 cause to believe that any person, partnership, corporation,  
114 association, insurance company, professional society or other  
115 organization has failed or refused to make a report required by  
116 this subsection, the board shall provide written notice to the  
117 alleged violator stating the nature of the alleged violation and  
118 the time and place at which the alleged violator shall appear to  
119 show good cause why a civil penalty should not be imposed.  
120 The hearing shall be conducted in accordance with the provi-  
121 sions of article five, chapter twenty-nine-a of this code. After  
122 reviewing the record of the hearing, if the board determines that  
123 a violation of this subsection has occurred, the board shall  
124 assess a civil penalty of not less than one thousand dollars nor  
125 more than ten thousand dollars against the violator. The board  
126 shall notify any person so assessed of the assessment in writing  
127 and the notice shall specify the reasons for the assessment. If  
128 the violator fails to pay the amount of the assessment to the  
129 board within thirty days, the attorney general may institute a  
130 civil action in the circuit court of Kanawha County to recover  
131 the amount of the assessment. In any civil action, the court's  
132 review of the board's action shall be conducted in accordance  
133 with the provisions of section four, article five, chapter twenty-  
134 nine-a of this code. Notwithstanding any other provision of this  
135 article to the contrary, when there are conflicting views by  
136 recognized experts as to whether any alleged conduct breaches  
137 an applicable standard of care, the evidence must be clear and  
138 convincing before the board may find that the physician or  
139 podiatrist has demonstrated a lack of professional competence  
140 to practice with a reasonable degree of skill and safety for  
141 patients.

142 Any person may report to the board relevant facts about the  
143 conduct of any physician or podiatrist in this state which in the  
144 opinion of that person amounts to medical professional liability  
145 or professional incompetence.

146 The board shall provide forms for filing reports pursuant to  
147 this section. Reports submitted in other forms shall be accepted  
148 by the board.

149 The filing of a report with the board pursuant to any  
150 provision of this article, any investigation by the board or any  
151 disposition of a case by the board does not preclude any action  
152 by a hospital, other health care facility or professional society  
153 comprised primarily of physicians or podiatrists to suspend,  
154 restrict or revoke the privileges or membership of the physician  
155 or podiatrist.

156 (c) The board may deny an application for license or other  
157 authorization to practice medicine and surgery or podiatry in  
158 this state and may discipline a physician or podiatrist licensed  
159 or otherwise lawfully practicing in this state who, after a  
160 hearing, has been adjudged by the board as unqualified due to  
161 any of the following reasons:

162 (1) Attempting to obtain, obtaining, renewing or attempting  
163 to renew a license to practice medicine and surgery or podiatry  
164 by bribery, fraudulent misrepresentation or through known error  
165 of the board;

166 (2) Being found guilty of a crime in any jurisdiction, which  
167 offense is a felony, involves moral turpitude or directly relates  
168 to the practice of medicine. Any plea of nolo contendere is a  
169 conviction for the purposes of this subdivision;

170 (3) False or deceptive advertising;

171 (4) Aiding, assisting, procuring or advising any unautho-  
172 rized person to practice medicine and surgery or podiatry  
173 contrary to law;

174 (5) Making or filing a report that the person knows to be  
175 false; intentionally or negligently failing to file a report or  
176 record required by state or federal law; willfully impeding or  
177 obstructing the filing of a report or record required by state or  
178 federal law; or inducing another person to do any of the  
179 foregoing. The reports and records covered in this subdivision  
180 mean only those that are signed in the capacity as a licensed  
181 physician or podiatrist;

182 (6) Requesting, receiving or paying directly or indirectly a  
183 payment, rebate, refund, commission, credit or other form of  
184 profit or valuable consideration for the referral of patients to  
185 any person or entity in connection with providing medical or  
186 other health care services or clinical laboratory services,  
187 supplies of any kind, drugs, medication or any other medical  
188 goods, services or devices used in connection with medical or  
189 other health care services;

190 (7) Unprofessional conduct by any physician or podiatrist  
191 in referring a patient to any clinical laboratory or pharmacy in  
192 which the physician or podiatrist has a proprietary interest  
193 unless the physician or podiatrist discloses in writing such  
194 interest to the patient. The written disclosure shall indicate that  
195 the patient may choose any clinical laboratory for purposes of  
196 having any laboratory work or assignment performed or any  
197 pharmacy for purposes of purchasing any prescribed drug or  
198 any other medical goods or devices used in connection with  
199 medical or other health care services.

200 As used in this subdivision, "proprietary interest" does not  
201 include an ownership interest in a building in which space is  
202 leased to a clinical laboratory or pharmacy at the prevailing rate

203 under a lease arrangement that is not conditional upon the  
204 income or gross receipts of the clinical laboratory or pharmacy;

205 (8) Exercising influence within a patient-physician relation-  
206 ship for the purpose of engaging a patient in sexual activity;

207 (9) Making a deceptive, untrue or fraudulent representation  
208 in the practice of medicine and surgery or podiatry;

209 (10) Soliciting patients, either personally or by an agent,  
210 through the use of fraud, intimidation or undue influence;

211 (11) Failing to keep written records justifying the course of  
212 treatment of a patient, including, but not limited to, patient  
213 histories, examination and test results and treatment rendered,  
214 if any;

215 (12) Exercising influence on a patient in such a way as to  
216 exploit the patient for financial gain of the physician or  
217 podiatrist or of a third party. Any influence includes, but is not  
218 limited to, the promotion or sale of services, goods, appliances  
219 or drugs;

220 (13) Prescribing, dispensing, administering, mixing or  
221 otherwise preparing a prescription drug, including any con-  
222 trolled substance under state or federal law, other than in good  
223 faith and in a therapeutic manner in accordance with accepted  
224 medical standards and in the course of the physician's or  
225 podiatrist's professional practice: *Provided*, That a physician  
226 who discharges his or her professional obligation to relieve the  
227 pain and suffering and promote the dignity and autonomy of  
228 dying patients in his or her care and, in so doing, exceeds the  
229 average dosage of a pain relieving controlled substance, as  
230 defined in Schedules II and III of the Uniform Controlled  
231 Substance Act, does not violate this article;

232 (14) Performing any procedure or prescribing any therapy  
233 that, by the accepted standards of medical practice in the  
234 community, would constitute experimentation on human  
235 subjects without first obtaining full, informed and written  
236 consent;

237 (15) Practicing or offering to practice beyond the scope  
238 permitted by law or accepting and performing professional  
239 responsibilities that the person knows or has reason to know he  
240 or she is not competent to perform;

241 (16) Delegating professional responsibilities to a person  
242 when the physician or podiatrist delegating the responsibilities  
243 knows or has reason to know that the person is not qualified by  
244 training, experience or licensure to perform them;

245 (17) Violating any provision of this article or a rule or order  
246 of the board or failing to comply with a subpoena or subpoena  
247 duces tecum issued by the board;

248 (18) Conspiring with any other person to commit an act or  
249 committing an act that would tend to coerce, intimidate or  
250 preclude another physician or podiatrist from lawfully advertis-  
251 ing his or her services;

252 (19) Gross negligence in the use and control of prescription  
253 forms;

254 (20) Professional incompetence; or

255 (21) The inability to practice medicine and surgery or  
256 podiatry with reasonable skill and safety due to physical or  
257 mental impairment, including deterioration through the aging  
258 process, loss of motor skill or abuse of drugs or alcohol. A  
259 physician or podiatrist adversely affected under this subdivision  
260 shall be afforded an opportunity at reasonable intervals to  
261 demonstrate that he or she may resume the competent practice

262 of medicine and surgery or podiatry with reasonable skill and  
263 safety to patients. In any proceeding under this subdivision,  
264 neither the record of proceedings nor any orders entered by the  
265 board shall be used against the physician or podiatrist in any  
266 other proceeding.

267 (d) The board shall deny any application for a license or  
268 other authorization to practice medicine and surgery or podiatry  
269 in this state to any applicant who, and shall revoke the license  
270 of any physician or podiatrist licensed or otherwise lawfully  
271 practicing within this state who, is found guilty by any court of  
272 competent jurisdiction of any felony involving prescribing,  
273 selling, administering, dispensing, mixing or otherwise prepar-  
274 ing any prescription drug, including any controlled substance  
275 under state or federal law, for other than generally accepted  
276 therapeutic purposes. Presentation to the board of a certified  
277 copy of the guilty verdict or plea rendered in the court is  
278 sufficient proof thereof for the purposes of this article. A plea  
279 of nolo contendere has the same effect as a verdict or plea of  
280 guilt.

281 (e) The board may refer any cases coming to its attention to  
282 an appropriate committee of an appropriate professional  
283 organization for investigation and report. Except for complaints  
284 related to obtaining initial licensure to practice medicine and  
285 surgery or podiatry in this state by bribery or fraudulent  
286 misrepresentation, any complaint filed more than two years  
287 after the complainant knew, or in the exercise of reasonable  
288 diligence should have known, of the existence of grounds for  
289 the complaint shall be dismissed: *Provided*, That in cases of  
290 conduct alleged to be part of a pattern of similar misconduct or  
291 professional incapacity that, if continued, would pose risks of  
292 a serious or substantial nature to the physician's or podiatrist's  
293 current patients, the investigating body may conduct a limited  
294 investigation related to the physician's or podiatrist's current  
295 capacity and qualification to practice and may recommend

296 conditions, restrictions or limitations on the physician's or  
297 podiatrist's license to practice that it considers necessary for the  
298 protection of the public. Any report shall contain recommenda-  
299 tions for any necessary disciplinary measures and shall be filed  
300 with the board within ninety days of any referral. The recom-  
301 mendations shall be considered by the board and the case may  
302 be further investigated by the board. The board after full  
303 investigation shall take whatever action it considers appropri-  
304 ate, as provided in this section.

305 (f) The investigating body, as provided for in subsection (e)  
306 of this section, may request and the board under any circum-  
307 stances may require a physician or podiatrist or person applying  
308 for licensure or other authorization to practice medicine and  
309 surgery or podiatry in this state to submit to a physical or  
310 mental examination by a physician or physicians approved by  
311 the board. A physician or podiatrist submitting to an examina-  
312 tion has the right, at his or her expense, to designate another  
313 physician to be present at the examination and make an  
314 independent report to the investigating body or the board. The  
315 expense of the examination shall be paid by the board. Any  
316 individual who applies for or accepts the privilege of practicing  
317 medicine and surgery or podiatry in this state is considered to  
318 have given his or her consent to submit to all examinations  
319 when requested to do so in writing by the board and to have  
320 waived all objections to the admissibility of the testimony or  
321 examination report of any examining physician on the ground  
322 that the testimony or report is privileged communication. If a  
323 person fails or refuses to submit to an examination under  
324 circumstances which the board finds are not beyond his or her  
325 control, failure or refusal is prima facie evidence of his or her  
326 inability to practice medicine and surgery or podiatry compe-  
327 tently and in compliance with the standards of acceptable and  
328 prevailing medical practice.

329 (g) In addition to any other investigators it employs, the  
330 board may appoint one or more licensed physicians to act for it  
331 in investigating the conduct or competence of a physician.

332 (h) In every disciplinary or licensure denial action, the  
333 board shall furnish the physician or podiatrist or applicant with  
334 written notice setting out with particularity the reasons for its  
335 action. Disciplinary and licensure denial hearings shall be  
336 conducted in accordance with the provisions of article five,  
337 chapter twenty-nine-a of this code. However, hearings shall be  
338 heard upon sworn testimony and the rules of evidence for trial  
339 courts of record in this state shall apply to all hearings. A  
340 transcript of all hearings under this section shall be made, and  
341 the respondent may obtain a copy of the transcript at his or her  
342 expense. The physician or podiatrist has the right to defend  
343 against any charge by the introduction of evidence, the right to  
344 be represented by counsel, the right to present and cross-  
345 examine witnesses and the right to have subpoenas and subpoe-  
346 nas duces tecum issued on his or her behalf for the attendance  
347 of witnesses and the production of documents. The board shall  
348 make all its final actions public. The order shall contain the  
349 terms of all action taken by the board.

350 (i) In disciplinary actions in which probable cause has been  
351 found by the board, the board shall, within twenty days of the  
352 date of service of the written notice of charges or sixty days  
353 prior to the date of the scheduled hearing, whichever is sooner,  
354 provide the respondent with the complete identity, address and  
355 telephone number of any person known to the board with  
356 knowledge about the facts of any of the charges; provide a copy  
357 of any statements in the possession of or under the control of  
358 the board; provide a list of proposed witnesses with addresses  
359 and telephone numbers, with a brief summary of his or her  
360 anticipated testimony; provide disclosure of any trial expert  
361 pursuant to the requirements of rule 26(b)(4) of the West  
362 Virginia rules of civil procedure; provide inspection and

363 copying of the results of any reports of physical and mental  
364 examinations or scientific tests or experiments; and provide a  
365 list and copy of any proposed exhibit to be used at the hearing:  
366 *Provided*, That the board shall not be required to furnish or  
367 produce any materials which contain opinion work product  
368 information or would be a violation of the attorney-client  
369 privilege. Within twenty days of the date of service of the  
370 written notice of charges, the board shall disclose any exculpa-  
371 tory evidence with a continuing duty to do so throughout the  
372 disciplinary process. Within thirty days of receipt of the board's  
373 mandatory discovery, the respondent shall provide the board  
374 with the complete identity, address and telephone number of  
375 any person known to the respondent with knowledge about the  
376 facts of any of the charges; provide a list of proposed witnesses  
377 with addresses and telephone numbers, to be called at hearing,  
378 with a brief summary of his or her anticipated testimony;  
379 provide disclosure of any trial expert pursuant to the require-  
380 ments of rule 26(b)(4) of the West Virginia rules of civil  
381 procedure; provide inspection and copying of the results of any  
382 reports of physical and mental examinations or scientific tests  
383 or experiments; and provide a list and copy of any proposed  
384 exhibit to be used at the hearing.

385 (j) Whenever it finds any person unqualified because of any  
386 of the grounds set forth in subsection (c) of this section, the  
387 board may enter an order imposing one or more of the follow-  
388 ing:

389 (1) Deny his or her application for a license or other  
390 authorization to practice medicine and surgery or podiatry;

391 (2) Administer a public reprimand;

392 (3) Suspend, limit or restrict his or her license or other  
393 authorization to practice medicine and surgery or podiatry for  
394 not more than five years, including limiting the practice of that

395 person to, or by the exclusion of, one or more areas of practice,  
396 including limitations on practice privileges;

397 (4) Revoke his or her license or other authorization to  
398 practice medicine and surgery or podiatry or to prescribe or  
399 dispense controlled substances for a period not to exceed ten  
400 years;

401 (5) Require him or her to submit to care, counseling or  
402 treatment designated by the board as a condition for initial or  
403 continued licensure or renewal of licensure or other authoriza-  
404 tion to practice medicine and surgery or podiatry;

405 (6) Require him or her to participate in a program of  
406 education prescribed by the board;

407 (7) Require him or her to practice under the direction of a  
408 physician or podiatrist designated by the board for a specified  
409 period of time; and

410 (8) Assess a civil fine of not less than one thousand dollars  
411 nor more than ten thousand dollars.

412 (k) Notwithstanding the provisions of section eight, article  
413 one, chapter thirty of this code, if the board determines the  
414 evidence in its possession indicates that a physician's or  
415 podiatrist's continuation in practice or unrestricted practice  
416 constitutes an immediate danger to the public, the board may  
417 take any of the actions provided for in subsection (j) of this  
418 section on a temporary basis and without a hearing if institution  
419 of proceedings for a hearing before the board are initiated  
420 simultaneously with the temporary action and begin within  
421 fifteen days of the action. The board shall render its decision  
422 within five days of the conclusion of a hearing under this  
423 subsection.

424 (l) Any person against whom disciplinary action is taken  
425 pursuant to the provisions of this article has the right to judicial  
426 review as provided in articles five and six, chapter twenty-nine-  
427 a of this code: *Provided*, That a circuit judge may also remand  
428 the matter to the board if it appears from competent evidence  
429 presented to it in support of a motion for remand that there is  
430 newly discovered evidence of such a character as ought to  
431 produce an opposite result at a second hearing on the merits  
432 before the board and:

433 (1) The evidence appears to have been discovered since the  
434 board hearing; and

435 (2) The physician or podiatrist exercised due diligence in  
436 asserting his or her evidence and that due diligence would not  
437 have secured the newly discovered evidence prior to the appeal.

438 A person may not practice medicine and surgery or podiatry  
439 or deliver health care services in violation of any disciplinary  
440 order revoking, suspending or limiting his or her license while  
441 any appeal is pending. Within sixty days, the board shall report  
442 its final action regarding restriction, limitation, suspension or  
443 revocation of the license of a physician or podiatrist, limitation  
444 on practice privileges or other disciplinary action against any  
445 physician or podiatrist to all appropriate state agencies, appro-  
446 priate licensed health facilities and hospitals, insurance compa-  
447 nies or associations writing medical malpractice insurance in  
448 this state, the American medical association, the American  
449 podiatry association, professional societies of physicians or  
450 podiatrists in the state and any entity responsible for the fiscal  
451 administration of medicare and medicaid.

452 (m) Any person against whom disciplinary action has been  
453 taken under the provisions of this article shall, at reasonable  
454 intervals, be afforded an opportunity to demonstrate that he or  
455 she can resume the practice of medicine and surgery or podiatry

456 on a general or limited basis. At the conclusion of a suspension,  
457 limitation or restriction period the physician or podiatrist may  
458 resume practice if the board has so ordered.

459 (n) Any entity, organization or person, including the board,  
460 any member of the board, its agents or employees and any  
461 entity or organization or its members referred to in this article,  
462 any insurer, its agents or employees, a medical peer review  
463 committee and a hospital governing board, its members or any  
464 committee appointed by it acting without malice and without  
465 gross negligence in making any report or other information  
466 available to the board or a medical peer review committee  
467 pursuant to law and any person acting without malice and  
468 without gross negligence who assists in the organization,  
469 investigation or preparation of any such report or information  
470 or assists the board or a hospital governing body or any  
471 committee in carrying out any of its duties or functions pro-  
472 vided by law is immune from civil or criminal liability, except  
473 that the unlawful disclosure of confidential information  
474 possessed by the board is a misdemeanor as provided for in this  
475 article.

476 (o) A physician or podiatrist may request in writing to the  
477 board a limitation on or the surrendering of his or her license to  
478 practice medicine and surgery or podiatry or other appropriate  
479 sanction as provided in this section. The board may grant the  
480 request and, if it considers it appropriate, may waive the  
481 commencement or continuation of other proceedings under this  
482 section. A physician or podiatrist whose license is limited or  
483 surrendered or against whom other action is taken under this  
484 subsection may, at reasonable intervals, petition for removal of  
485 any restriction or limitation on or for reinstatement of his or her  
486 license to practice medicine and surgery or podiatry.

487 (p) In every case considered by the board under this article  
488 regarding discipline or licensure, whether initiated by the board

489 or upon complaint or information from any person or organiza-  
490 tion, the board shall make a preliminary determination as to  
491 whether probable cause exists to substantiate charges of  
492 disqualification due to any reason set forth in subsection (c) of  
493 this section. If probable cause is found to exist, all proceedings  
494 on the charges shall be open to the public who are entitled to all  
495 reports, records and nondeliberative materials introduced at the  
496 hearing, including the record of the final action taken: *Pro-*  
497 *vided*, That any medical records, which were introduced at the  
498 hearing and which pertain to a person who has not expressly  
499 waived his or her right to the confidentiality of the records, may  
500 not be open to the public nor is the public entitled to the  
501 records.

502 (q) If the board receives notice that a physician or podiatrist  
503 has been subjected to disciplinary action or has had his or her  
504 credentials suspended or revoked by the board, a hospital or a  
505 professional society, as defined in subsection (b) of this section,  
506 for three or more incidents during a five-year period, the board  
507 shall require the physician or podiatrist to practice under the  
508 direction of a physician or podiatrist designated by the board for  
509 a specified period of time to be established by the board.

510 (r) Notwithstanding any other provisions of this article, the  
511 board may, at any time, on its own motion, or upon motion by  
512 the complainant, or upon motion by the physician or podiatrist,  
513 or by stipulation of the parties, refer the matter to mediation.  
514 The board shall obtain a list from the West Virginia state bar's  
515 mediator referral service of certified mediators with expertise  
516 in professional disciplinary matters. The board and the physi-  
517 cian or podiatrist may choose a mediator from that list. If the  
518 board and the physician or podiatrist are unable to agree on a  
519 mediator, the board shall designate a mediator the list by neutral  
520 rotation. The mediation shall not be considered a proceeding  
521 open to the public and any reports and records introduced at the  
522 mediation shall not become part of the public record. The

523 mediator and all participants in the mediation shall maintain  
524 and preserve the confidentiality of all mediation proceedings  
525 and records. The mediator may not be subpoenaed or called to  
526 testify or otherwise be subject to process requiring disclosure of  
527 confidential information in any proceeding relating to or arising  
528 out of the disciplinary or licensure matter mediated: *Provided,*  
529 That any confidentiality agreement and any written agreement  
530 made and signed by the parties as a result of mediation may be  
531 used in any proceedings subsequently instituted to enforce the  
532 written agreement. The agreements may be used in other  
533 proceedings if the parties agree in writing.

#### ARTICLE 14. OSTEOPATHIC PHYSICIANS AND SURGEONS.

##### **§30-14-12a. Initiation of suspension or revocation proceedings allowed and required; reporting of information to board pertaining to professional malpractice and professional incompetence required; penalties; probable cause determinations.**

1 (a) The board may independently initiate suspension or  
2 revocation proceedings as well as initiate suspension or  
3 revocation proceedings based on information received from any  
4 person.

5 The board shall initiate investigations as to professional  
6 incompetence or other reasons for which a licensed osteopathic  
7 physician and surgeon may be adjudged unqualified if the board  
8 receives notice that three or more judgments or any combina-  
9 tion of judgments and settlements resulting in five or more  
10 unfavorable outcomes arising from medical professional  
11 liability have been rendered or made against such osteopathic  
12 physician within a five-year period.

13 (b) Upon request of the board, any medical peer review  
14 committee in this state shall report any information that may  
15 relate to the practice or performance of any osteopathic

16 physician known to that medical peer review committee. Copies  
17 of such requests for information from a medical peer review  
18 committee may be provided to the subject osteopathic physician  
19 if, in the discretion of the board, the provision of such copies  
20 will not jeopardize the board's investigation. In the event that  
21 copies are provided, the subject osteopathic physician has  
22 fifteen days to comment on the requested information and such  
23 comments must be considered by the board.

24 After the completion of a hospital's formal disciplinary  
25 procedure and after any resulting legal action, the chief execu-  
26 tive officer of such hospital shall report in writing to the board  
27 within sixty days the name of any member of the medical staff  
28 or any other osteopathic physician practicing in the hospital  
29 whose hospital privileges have been revoked, restricted,  
30 reduced or terminated for any cause, including resignation,  
31 together with all pertinent information relating to such action.  
32 The chief executive officer shall also report any other formal  
33 disciplinary action taken against any osteopathic physician by  
34 the hospital upon the recommendation of its medical staff  
35 relating to professional ethics, medical incompetence, medical  
36 malpractice, moral turpitude or drug or alcohol abuse. Tempo-  
37 rary suspension for failure to maintain records on a timely basis  
38 or failure to attend staff or section meetings need not be  
39 reported.

40 Any professional society in this state comprised primarily  
41 of osteopathic physicians or physicians and surgeons of other  
42 schools of medicine which takes formal disciplinary action  
43 against a member relating to professional ethics, professional  
44 incompetence, professional malpractice, moral turpitude or  
45 drug or alcohol abuse, shall report in writing to the board within  
46 sixty days of a final decision the name of such member,  
47 together with all pertinent information relating to such action.

48 Every person, partnership, corporation, association,  
49 insurance company, professional society or other organization  
50 providing professional liability insurance to an osteopathic  
51 physician in this state shall submit to the board the following  
52 information within thirty days from any judgment, dismissal or  
53 settlement of a civil action or of any claim involving the  
54 insured: The date of any judgment, dismissal or settlement;  
55 whether any appeal has been taken on the judgment, and, if so,  
56 by which party; the amount of any settlement or judgment  
57 against the insured; and such other information required by the  
58 board.

59 Within thirty days after a person known to be an osteo-  
60 pathic physician licensed or otherwise lawfully practicing  
61 medicine and surgery in this state or applying to be licensed is  
62 convicted of a felony under the laws of this state, or of any  
63 crime under the laws of this state involving alcohol or drugs in  
64 any way, including any controlled substance under state or  
65 federal law, the clerk of the court of record in which the  
66 conviction was entered shall forward to the board a certified  
67 true and correct abstract of record of the convicting court. The  
68 abstract shall include the name and address of such osteopathic  
69 physician or applicant, the nature of the offense committed and  
70 the final judgment and sentence of the court.

71 Upon a determination of the board that there is probable  
72 cause to believe that any person, partnership, corporation,  
73 association, insurance company, professional society or other  
74 organization has failed or refused to make a report required by  
75 this subsection, the board shall provide written notice to the  
76 alleged violator stating the nature of the alleged violation and  
77 the time and place at which the alleged violator shall appear to  
78 show good cause why a civil penalty should not be imposed.  
79 The hearing shall be conducted in accordance with the provi-  
80 sions of article five, chapter twenty-nine-a of this code. After  
81 reviewing the record of such hearing, if the board determines

82 that a violation of this subsection has occurred, the board shall  
83 assess a civil penalty of not less than one thousand dollars nor  
84 more than ten thousand dollars against such violator. The board  
85 shall notify anyone assessed of the assessment in writing and  
86 the notice shall specify the reasons for the assessment. If the  
87 violator fails to pay the amount of the assessment to the board  
88 within thirty days, the attorney general may institute a civil  
89 action in the circuit court of Kanawha County to recover the  
90 amount of the assessment. In any such civil action, the court's  
91 review of the board's action shall be conducted in accordance  
92 with the provisions of section four, article five, chapter twenty-  
93 nine-a of this code.

94 Any person may report to the board relevant facts about the  
95 conduct of any osteopathic physician in this state which in the  
96 opinion of such person amounts to professional malpractice or  
97 professional incompetence.

98 The board shall provide forms for filing reports pursuant to  
99 this section. Reports submitted in other forms shall be accepted  
100 by the board.

101 The filing of a report with the board pursuant to any  
102 provision of this article, any investigation by the board or any  
103 disposition of a case by the board does not preclude any action  
104 by a hospital, other health care facility or professional society  
105 comprised primarily of osteopathic physicians or physicians  
106 and surgeons of other schools of medicine to suspend, restrict  
107 or revoke the privileges or membership of such osteopathic  
108 physician.

109 (c) In every case considered by the board under this article  
110 regarding suspension, revocation or issuance of a license  
111 whether initiated by the board or upon complaint or information  
112 from any person or organization, the board shall make a  
113 preliminary determination as to whether probable cause exists

114 to substantiate charges of cause to suspend, revoke or refuse to  
115 issue a license as set forth in subsection (a), section eleven of  
116 this article. If such probable cause is found to exist, all proceed-  
117 ings on such charges shall be open to the public who are  
118 entitled to all reports, records, and nondeliberative materials  
119 introduced at such hearing, including the record of the final  
120 action taken: *Provided*, That any medical records, which were  
121 introduced at such hearing and which pertain to a person who  
122 has not expressly waived his right to the confidentiality of such  
123 records, shall not be open to the public nor is the public entitled  
124 to such records. If a finding is made that probable cause does  
125 not exist, the public has a right of access to the complaint or  
126 other document setting forth the charges, the findings of fact  
127 and conclusions supporting such finding that probable cause  
128 does not exist, if the subject osteopathic physician consents to  
129 such access.

130 (d) If the board receives notice that an osteopathic physi-  
131 cian has been subjected to disciplinary action or has had his or  
132 her credentials suspended or revoked by the board, a medical  
133 peer review committee, a hospital or professional society, as  
134 defined in subsection (b) of this section, for three or more  
135 incidents in a five-year period, the board shall require the  
136 osteopathic physician to practice under the direction of another  
137 osteopathic physician for a specified period to be established by  
138 the board.

36 taxes received from medical malpractice premiums as provided  
37 in subsection (b) of this section.

130 (1) The assuming insurer shall report annually to the  
131 commissioner information substantially the same as that  
132 required to be reported on the national association of insurance  
133 commissioners annual statement form by licensed insurers to

134 enable the commissioner to determine the sufficiency of the  
135 trust fund. In the case of a single assuming insurer, the trust

137 insurer's liabilities attributable to business written in the United  
138 States and, in addition, the assuming insurer shall maintain a  
139 trustee surplus of not less than twenty million dollars. In the

145 dollars shall be held jointly for the benefit of United States  
146 ceding insurers of any member of the group. The incorporated  
147 members of the group shall not be engaged in any business  
148 other than underwriting as a member of the group and shall be  
149 subject to the same level of solvency regulation and control by  
150 the group's domiciliary regulator as are the unincorporated  
151 members. The group shall make available to the commissioner  
152 an annual certification of the solvency of each underwriter by  
153 the group's domiciliary regulator and its independent public  
154 accountants.

155 (2) In the case of a group of incorporated insurers under  
156 common administration which complies with the filing require-  
157 ments contained in the previous paragraph; which has continu-  
158 ously transacted an insurance business outside the United States  
159 for at least three years immediately prior to making application  
160 for accreditation; which submits to this state's authority to  
161 examine its books and records and bears the expense of the  
162 examination; and which has aggregate policyholders' surplus of  
163 ten billion dollars, the trust shall be in an amount equal to the  
164 group's several liabilities attributable to business ceded by  
165 United States ceding insurers to any member of the group  
166 pursuant to reinsurance contracts issued in the name of the  
167 group. The group shall also maintain a joint trustee surplus of  
168 which one hundred million dollars shall be held jointly for the

169 benefit of United States ceding insurers of any member of the  
170 group as additional security for any such liabilities. Each  
171 member of the group shall make available to the commissioner  
172 an annual certification of the member's solvency by the  
173 member's domiciliary regulator and its independent public  
174 accountants.

175 (3) Any trust that is subject to the provisions of this section  
176 shall be established in a form approved by the commissioner.  
177 The trust instrument shall provide that contested claims shall be  
178 valid and enforceable upon the final order of any court of  
179 competent jurisdiction in the United States. The trust shall vest  
180 legal title to its assets in the trustees of the trust for its United  
181 States policyholders and ceding insurers, their assigns and  
182 successors in interest. The trust and the assuming insurer shall  
183 be subject to examination as determined by the commissioner.  
184 The trust described herein shall remain in effect for as long as  
185 the assuming insurer shall have outstanding obligations due  
186 under the reinsurance agreements subject to the trust.

187 (4) No later than the twenty-eighth day of February of each  
188 year the trustees of the trust shall report to the commissioner in  
189 writing setting forth the balance of the trust and listing the  
190 trust's investments at the preceding year's end. The trustees  
191 shall certify the date of termination of the trust, if so planned,  
192 or certify that the trust shall not expire prior to the next follow-  
193 ing December thirty-first.

194 (e) A reduction from liability for the reinsurance ceded by  
195 a ceding insurer subject to the requirements of this article to an  
196 assuming insurer not meeting the requirements of subsection (c)  
197 of this section shall be allowed in an amount not exceeding the  
198 liabilities carried by the ceding insurer. The reduction shall be  
199 in the amount of funds held by or on behalf of the ceding  
200 insurer, including funds held in trust for the ceding insurer,  
201 under a reinsurance contract with the assuming insurer as

202 security for the payment of obligations thereunder: *Provided*,  
203 That the security is held in the United States subject to with-  
204 drawal solely by, and under the exclusive control of, the ceding  
205 insurer; or, in the case of a trust, held in a qualified United  
206 States financial institution, as defined by this section. The  
207 security may be in the form of:

208 (1) Cash;

209 (2) Securities listed by the securities valuation office of the  
210 national association of insurance commissioners and qualifying  
211 as admitted assets; or

212 (3) Clean, irrevocable, unconditional letters of credit, issued  
213 or confirmed by a qualified United States financial institution,  
214 as defined by this section, no later than the thirty-first day of  
215 December of the year for which filing is being made, and in the  
216 possession of the ceding company on or before the filing date  
217 of its annual statement: *Provided*, That letters of credit meeting  
218 applicable standards of issuer acceptability as of the dates of  
219 their issuance or confirmation shall, notwithstanding the issuing  
220 or confirming institution's subsequent failure to meet applicable  
221 standards of issuer acceptability, continue to be acceptable as  
222 security until their expiration, extension, renewal, modification  
223 or amendment, whichever first occurs.

224 (f) For purposes of this section, a "qualified United States  
225 financial institution" means an institution that:

227 States or any state thereof;

235 priate to regulate the quality of financial institutions whose  
236 letters of credit will be acceptable to the commissioner.

237 (g) A “qualified United States financial institution” means,

250 ninety-three.

**ARTICLE 20B. RATES AND MALPRACTICE INSURANCE POLICIES.**

**§33-20B-2. Ratemaking.**

1 Any and all modifications of rates shall be made in accor-  
2 dance with the following provisions:

3 (a) Due consideration shall be given to the past and  
4 prospective loss experience within and outside this state.

5 (b) Due consideration shall be given to catastrophe hazards,  
6 if any, to a reasonable margin for underwriting profit and  
7 contingencies, to dividends, savings or unabsorbed premium

8 deposits allowed or returned by insurers to their policyholders,  
9 members or subscribers and actual past expenses and demon-  
10 strable prospective or projected expenses applicable to this  
11 state.

12 (c) Rates shall not be excessive, inadequate, predatory or  
13 unfairly discriminatory.

14 (d) Risks may not be grouped by territorial areas for the  
15 establishment of rates and minimum premiums.

16 (e) An insurer may use guide "A" rates and other  
17 nonapproved rates, also known as "consent to rates": *Provided*,  
18 That the insurer shall, prior to entering into an agreement with  
19 an individual provider or any health care entity, submit guide  
20 "A" rates and other nonapproved rates to the commissioner for  
21 review and approval: *Provided, however*, That the commis-  
22 sioner shall propose legislative rules for promulgation in  
23 accordance with the provisions of article three, chapter twenty-  
24 nine-a of this code, which set forth the standards and procedure  
25 for reviewing and approving guide "A" rates and other  
26 nonapproved rates. No insurer may require execution of a  
27 consent to rate endorsement for the purpose of offering to issue  
28 or issuing a contract or coverage to an insured or continuing an  
29 existing contract or coverage at a rate in excess of that provided  
30 by a filing otherwise applicable.

31 (f) Except to the extent necessary to meet the provisions of  
32 subdivision (c) of this section, uniformity among insurers, in  
33 any matters within the scope of this section, is neither required  
34 nor prohibited.

35 (g) Rates made in accordance with this section may be used  
36 subject to the provisions of this article.

### §33-20B-3. Rate filings.

1       (a) On or before the first day of July, two thousand four and  
2 on the first day of July each year thereafter, or at such other  
3 time specified by the commissioner, every insurer offering  
4 malpractice insurance in this state shall make a rate filing, in  
5 accordance with the provisions of section four, article twenty of  
6 this chapter, regardless of whether any increase or decrease is  
7 indicated, pursuant to subsection (a), section four, article twenty  
8 of this chapter. The information furnished in support of a filing  
9 shall include: (i) The experience or judgment of the insurer or  
10 rating organization making the filing; (ii) its interpretation of  
11 any statistical data the filing relies upon; (iii) the experience of  
12 other insurers or rating organizations; (iv) the character and  
13 extent of the coverage contemplated; (v) the proposed effective  
14 date of any requested change and (vi) any other relevant factors  
15 required by the commissioner. When a filing is not accompa-  
16 nied by the information required by this section upon which the  
17 insurer supports the filing, the commissioner shall require the  
18 insurer to furnish the information and, in that event, the waiting  
19 period prescribed by subsection (b) of this section shall  
20 commence as of the date the information is furnished.

21       A filing and any supporting information shall be open to  
22 public inspection as soon as the filing is received by the  
23 commissioner. Any interested party may file a brief with the  
24 commissioner supporting his or her position concerning the  
25 filing. Any person or organization may file with the commis-  
26 sioner a signed statement declaring and supporting his or her or  
27 its position concerning the filing. Upon receipt of any such  
28 statement prior to the effective date of the filing, the commis-  
29 sioner shall mail or deliver a copy of the statement to the filer,  
30 which may file a reply. This section is not applicable to any  
31 memorandum or statement of any kind by any employee of the  
32 commissioner.

33       (b) Every filing shall be on file for a waiting period of  
34 ninety days before it becomes effective. The commissioner may

35 extend the waiting period for an additional period not to exceed  
36 thirty days if he or she gives written notice within the waiting  
37 period to the insurer or rating organization which made the  
38 filing that he or she needs the additional time for the consider-  
39 ation of the filing. Upon written application by the insurer or  
40 rating organization, the commissioner may authorize a filing  
41 which he or she has reviewed to become effective before the  
42 expiration of the waiting period or any extension of the waiting  
43 period. A filing shall be deemed to meet the requirements of  
44 this article unless disapproved by the commissioner within the  
45 waiting period or any extension thereof.

46 (c) No insurer shall make or issue a contract or policy of  
47 malpractice insurance except in accordance with the filings  
48 which are in effect for the insurer as provided in this article.

**§33-20B-3a. Rate prohibitions.**

1 Reduced rates charged for certain specialties or risks found  
2 by the commissioner to be predatory, designed to gain market  
3 share or otherwise inadequate are prohibited.

**ARTICLE 20F. PHYSICIANS' MUTUAL INSURANCE COMPANY.**

**§33-20F-1a. Scope of article.**

1 This article applies only to the physicians' mutual insurance  
2 company created as a novation of the medical professional  
3 liability insurance programs created in article twelve-b, chapter  
4 twenty-nine of this code.

**§33-20F-2. Findings and purpose.**

1 (a) The Legislature finds that:

2 (1) There is a nationwide crisis in the field of medical  
3 liability insurance;

4       (2) Similar crises have occurred at least three times during  
5 the past three decades;

6       (3) Such crises are part of a naturally recurring cycle of a  
7 hard market period, when medical professional liability  
8 coverage is difficult to obtain, and a soft market period, when  
9 coverage is more readily available;

10       (4) Such crises are particularly acute in this state due to the  
11 small size of the insurance market;

12       (5) During a hard market period, insurers tend to flee this  
13 state, creating a crisis for physicians who are left without  
14 professional liability coverage;

15       (6) During the current crisis, physicians in West Virginia  
16 find it increasingly difficult, if not impossible, to obtain  
17 medical liability insurance either because coverage is unavail-  
18 able or unaffordable;

19       (7) The difficulty or impossibility of obtaining medical  
20 liability insurance may result in many qualified physicians  
21 leaving the state;

22       (8) Access to quality health care is of utmost importance to  
23 the citizens of West Virginia;

24       (9) A mechanism is needed to provide an enduring solution  
25 to this recurring medical liability crisis;

26       (10) A physicians' mutual insurance company or a similar  
27 entity has proven to be a successful mechanism in other states  
28 for helping physicians secure insurance and for stabilizing the  
29 insurance market;

30       (11) There is a substantial public interest in creating a  
31 method to provide a stable medical liability market in this state;

32 (12) The state has attempted to temporarily alleviate the  
33 current medical crisis by the creation of programs to provide  
34 medical liability coverage through the board of risk and  
35 insurance management;

36 (13) The state-run program is a substantial actual and  
37 potential liability to the state;

38 (14) There is substantial public benefit in transferring the  
39 actual and potential liability of the state to the private sector and  
40 creating a stable self-sufficient entity which will be a source of  
41 liability insurance coverage for physicians in this state;

42 (15) A stable, financially viable insurer in the private sector  
43 will provide a continuing source of insurance funds to compen-  
44 sate victims of medical malpractice; and

45 (16) Because the public will greatly benefit from the  
46 formation of a physicians' mutual insurance company, state  
47 efforts to encourage and support the formation of such an  
48 entity, including providing a low-interest loan for a portion of  
49 the entity's initial capital, is in the clear public interest.

50 (b) The purpose of this article is to create a mechanism for  
51 the formation of a physicians' mutual insurance company that  
52 will provide:

53 (1) A means for physicians to obtain medical liability  
54 insurance that is available and affordable; and

55 (2) Compensation to persons who suffer injuries as a result  
56 of medical professional liability as defined in subsection (d),  
57 section two, article seven-b, chapter fifty-five of this code.

5 Legislature in accordance with the provisions of section seven  
6 of this article. The company must remain for the duration of its  
7 existence a domestic mutual insurance company owned by its  
8 policyholders and may not be converted into a stock corpora-

16 may not be considered a department, unit, agency, or instru-

26 credit of the state.

27 (d) The company is not subject to provisions of article nine-  
28 a, chapter six of this code or the provisions of article one,

31 to the premium taxes and surcharges contained in sections  
32 fourteen and fourteen-a, article three of this chapter: *Provided*,  
33 That while the loan to the company of moneys from the West  
34 Virginia tobacco settlement medical trust fund pursuant to  
35 section nine of this article remains outstanding, the commis-  
36 sioner may waive the company's premium taxes and surcharges  
37 if payment would render the company insolvent or otherwise  
38 financially impaired.

39 (2) On and after the first day of July, two thousand and  
40 three, any premium taxes and surcharges paid by the company  
41 and by any insurer on its medical malpractice line pursuant to  
42 sections fourteen and fourteen-a, article three of this chapter,  
43 shall be temporarily applied toward replenishing the moneys  
44 appropriated from the West Virginia tobacco settlement  
45 medical trust fund pursuant to subsection (c), section two,  
46 article eleven-a, chapter four of this code pending repayment of  
47 the loan of such moneys by the company.

67 provisions of sections fourteen and fourteen-a, article three of  
68 this chapter.

14 in this state pursuant to article three or article fourteen, chapter  
15 thirty of this code and who have purchased medical profes-  
16 sional liability coverage from the board of risk and insurance  
17 management are eligible to serve as physician directors on the  
18 provisional board of directors. One of the physician directors  
19 shall be selected from a list of three physicians nominated by  
20 the West Virginia medical association. The board of risk and  
21 insurance management shall develop procedures for the  
22 nomination of the remaining physician directors and for the  
23 conduct of the election, to be held no later than the first day of  
24 June, two thousand three, of all of the physician directors,

29 company shall be governed by a board of directors consisting  
30 of eleven directors, as follows:

98 (5) A payment in compensation of loss of future earnings  
99 of the debtor or an individual of whom the debtor is or was a

102 (6) Payments made to the prepaid tuition trust fund or to the  
103 savings plan trust fund, including earnings, in accordance with  
104 article thirty, chapter eighteen of this code on behalf of any  
105 beneficiary.

## **CHAPTER 55. ACTIONS, SUITS AND ARBITRATION; JUDICIAL SALE.**

### **ARTICLE 7B. MEDICAL PROFESSIONAL LIABILITY.**

#### **§55-7B-1. Legislative findings and declaration of purpose.**

1 The Legislature hereby finds and declares that the citizens  
2 of this state are entitled to the best medical care and facilities  
3 available and that health care providers offer an essential and  
4 basic service which requires that the public policy of this state  
5 encourage and facilitate the provision of such service to our  
6 citizens;

7 That as in every human endeavor the possibility of injury  
8 or death from negligent conduct commands that protection of

9 the public served by health care providers be recognized as an  
10 important state interest;

11 That our system of litigation is an essential component of  
12 this state's interest in providing adequate and reasonable  
13 compensation to those persons who suffer from injury or death  
14 as a result of professional negligence, and any limitation placed  
15 on this system must be balanced with and considerate of the  
16 need to fairly compensate patients who have been injured as a  
17 result of negligent and incompetent acts by health care provid-  
18 ers;

19 That liability insurance is a key part of our system of  
20 litigation, affording compensation to the injured while fulfilling  
21 the need and fairness of spreading the cost of the risks of injury;

22 That a further important component of these protections is  
23 the capacity and willingness of health care providers to monitor  
24 and effectively control their professional competency, so as to  
25 protect the public and insure to the extent possible the highest  
26 quality of care;

27 That it is the duty and responsibility of the Legislature to  
28 balance the rights of our individual citizens to adequate and  
29 reasonable compensation with the broad public interest in the  
30 provision of services by qualified health care providers and  
31 health care facilities who can themselves obtain the protection  
32 of reasonably priced and extensive liability coverage;

33 That in recent years, the cost of insurance coverage has  
34 risen dramatically while the nature and extent of coverage has  
35 diminished, leaving the health care providers, the health care  
36 facilities and the injured without the full benefit of professional  
37 liability insurance coverage;

38 That many of the factors and reasons contributing to the  
39 increased cost and diminished availability of professional

40 liability insurance arise from the historic inability of this state  
41 to effectively and fairly regulate the insurance industry so as to  
42 guarantee our citizens that rates are appropriate, that purchasers  
43 of insurance coverage are not treated arbitrarily and that rates  
44 reflect the competency and experience of the insured health  
45 care providers and health care facilities;

46 That the unpredictable nature of traumatic injury health  
47 care services often result in a greater likelihood of unsatisfac-  
48 tory patient outcomes, a higher degree of patient and patient  
49 family dissatisfaction and frequent malpractice claims, creating  
50 a financial strain on the trauma care system of our state,  
51 increasing costs for all users of the trauma care system and  
52 impacting the availability of these services, requires appropriate  
53 and balanced limitations on the rights of persons asserting  
54 claims against trauma care health care providers, this balance  
55 must guarantee availability of trauma care services while  
56 mandating that these services meet all national standards of  
57 care, to assure that our health care resources are being directed  
58 towards providing the best trauma care available; and

59 That the cost of liability insurance coverage has continued  
60 to rise dramatically, resulting in the state's loss and threatened  
61 loss of physicians, which, together with other costs and taxation  
62 incurred by health care providers in this state, have created a  
63 competitive disadvantage in attracting and retaining qualified  
64 physicians and other health care providers.

65 The Legislature further finds that medical liability issues  
66 have reached critical proportions for the state's long-term  
67 health care facilities, as: (1) Medical liability insurance  
68 premiums for nursing homes in West Virginia continue to  
69 increase and the number of claims per bed has increased  
70 significantly; (2) the cost to the state medicaid program as a  
71 result of such higher premiums has grown considerably in this  
72 period; (3) current medical liability premium costs for some

73 nursing homes constitute a significant percentage of the amount  
74 of coverage; (4) these high costs are leading some facilities to  
75 consider dropping medical liability insurance coverage alto-  
76 gether; and (5) the medical liability insurance crisis for nursing  
77 homes may soon result in a reduction of the number of beds  
78 available to citizens in need of long-term care.

79 Therefore, the purpose of this article is to provide for a  
80 comprehensive resolution of the matters and factors which the  
81 Legislature finds must be addressed to accomplish the goals set  
82 forth in this section. In so doing, the Legislature has determined  
83 that reforms in the common law and statutory rights of our  
84 citizens must be enacted together as necessary and mutual  
85 ingredients of the appropriate legislative response relating to:

86 (1) Compensation for injury and death;

87 (2) The regulation of rate making and other practices by the  
88 liability insurance industry, including the formation of a  
89 physicians' mutual insurance company and establishment of a  
90 fund to assure adequate compensation to victims of malprac-  
91 tice; and

92 (3) The authority of medical licensing boards to effectively  
93 regulate and discipline the health care providers under such  
94 board.

53 physician, hospital, dentist, registered or licensed practical  
54 nurse, optometrist, podiatrist, chiropractor, physical therapist,

80 trustee, attorney or other legal agent of another.

### §55-7B-3. Elements of proof.

1 (a) The following are necessary elements of proof that an  
2 injury or death resulted from the failure of a health care  
3 provider to follow the accepted standard of care:

4 (1) The health care provider failed to exercise that degree  
5 of care, skill and learning required or expected of a reasonable,  
6 prudent health care provider in the profession or class to which  
7 the health care provider belongs acting in the same or similar  
8 circumstances; and

9 (2) Such failure was a proximate cause of the injury or  
10 death.

11 (b) If the plaintiff proceeds on the “loss of chance” theory,  
12 *i.e.*, that the health care provider’s failure to follow the accepted  
13 standard of care deprived the patient of a chance of recovery or  
14 increased the risk of harm to the patient which was a substantial

15 factor in bringing about the ultimate injury to the patient, the  
16 plaintiff must also prove, to a reasonable degree of medical  
17 probability, that following the accepted standard of care would  
18 have resulted in a greater than twenty-five percent chance that  
19 the patient would have had an improved recovery or would  
20 have survived.

**§55-7B-6. Prerequisites for filing an action against a health care provider; procedures; sanctions.**

1 (a) Notwithstanding any other provision of this code, no  
2 person may file a medical professional liability action against  
3 any health care provider without complying with the provisions  
4 of this section.

5 (b) At least thirty days prior to the filing of a medical  
6 professional liability action against a health care provider, the  
7 claimant shall serve by certified mail, return receipt requested,  
8 a notice of claim on each health care provider the claimant will  
9 join in litigation. The notice of claim shall include a statement  
10 of the theory or theories of liability upon which a cause of  
11 action may be based, and a list of all health care providers and  
12 health care facilities to whom notices of claim are being sent,  
13 together with a screening certificate of merit. The screening  
14 certificate of merit shall be executed under oath by a health care  
15 provider qualified as an expert under the West Virginia rules of  
16 evidence and shall state with particularity: (1) The expert's  
17 familiarity with the applicable standard of care in issue; (2) the  
18 expert's qualifications; (3) the expert's opinion as to how the  
19 applicable standard of care was breached; and (4) the expert's  
20 opinion as to how the breach of the applicable standard of care  
21 resulted in injury or death. A separate screening certificate of  
22 merit must be provided for each health care provider against  
23 whom a claim is asserted. The person signing the screening  
24 certificate of merit shall have no financial interest in the  
25 underlying claim, but may participate as an expert witness in

26 any judicial proceeding. Nothing in this subsection may be  
27 construed to limit the application of rule 15 of the rules of civil  
28 procedure.

29 (c) Notwithstanding any provision of this code, if a claim-  
30 ant or his or her counsel, believes that no screening certificate  
31 of merit is necessary because the cause of action is based upon  
32 a well-established legal theory of liability which does not  
33 require expert testimony supporting a breach of the applicable  
34 standard of care, the claimant or his or her counsel, shall file a  
35 statement specifically setting forth the basis of the alleged  
36 liability of the health care provider in lieu of a screening  
37 certificate of merit.

38 (d) If a claimant or his or her counsel has insufficient time  
39 to obtain a screening certificate of merit prior to the expiration  
40 of the applicable statute of limitations, the claimant shall  
41 comply with the provisions of subsection (b) of this section  
42 except that the claimant or his or her counsel shall furnish the  
43 health care provider with a statement of intent to provide a  
44 screening certificate of merit within sixty days of the date the  
45 health care provider receives the notice of claim.

46 (e) Any health care provider who receives a notice of claim  
47 pursuant to the provisions of this section may respond, in  
48 writing, to the claimant or his or her counsel within thirty days  
49 of receipt of the claim or within thirty days of receipt of the  
50 screening certificate of merit if the claimant is proceeding  
51 pursuant to the provisions of subsection (d) of this section. The  
52 response may state that the health care provider has a bona fide  
53 defense and the name of the health care provider's counsel, if  
54 any.

55 (f) Upon receipt of the notice of claim or of the screening  
56 certificate of merit, if the claimant is proceeding pursuant to the  
57 provisions of subsection (d) of this section, the health care

58 provider is entitled to pre-litigation mediation before a qualified  
59 mediator upon written demand to the claimant.

60 (g) If the health care provider demands mediation pursuant  
61 to the provisions of subsection (f) of this section, the mediation  
62 shall be concluded within forty-five days of the date of the  
63 written demand. The mediation shall otherwise be conducted  
64 pursuant to rule 25 of the trial court rules, unless portions of the  
65 rule are clearly not applicable to a mediation conducted prior to  
66 the filing of a complaint or unless the supreme court of appeals  
67 promulgates rules governing mediation prior to the filing of a  
68 complaint. If mediation is conducted, the claimant may depose  
69 the health care provider before mediation or take the testimony  
70 of the health care provider during the mediation.

71 (h) Except as otherwise provided in this subsection, any  
72 statute of limitations applicable to a cause of action against a  
73 health care provider upon whom notice was served for alleged  
74 medical professional liability shall be tolled from the date of  
75 mail of a notice of claim to thirty days following receipt of a  
76 response to the notice of claim, thirty days from the date a  
77 response to the notice of claim would be due, or thirty days  
78 from the receipt by the claimant of written notice from the  
79 mediator that the mediation has not resulted in a settlement of  
80 the alleged claim and that mediation is concluded, whichever  
81 last occurs. If a claimant has sent a notice of claim relating to  
82 any injury or death to more than one health care provider, any  
83 one of whom has demanded mediation, then the statute of  
84 limitations shall be tolled with respect to, and only with respect  
85 to, those health care providers to whom the claimant sent a  
86 notice of claim to thirty days from the receipt of the claimant of  
87 written notice from the mediator that the mediation has not  
88 resulted in a settlement of the alleged claim and that mediation  
89 is concluded.

90 (i) Notwithstanding any other provision of this code, a  
91 notice of claim, a health care provider's response to any notice  
92 claim, a screening certificate of merit and the results of any  
93 mediation conducted pursuant to the provisions of this section  
94 are confidential and are not admissible as evidence in any court  
95 proceeding unless the court, upon hearing, determines that  
96 failure to disclose the contents would cause a miscarriage of  
97 justice.

**§55-7B-7. Testimony of expert witness on standard of care.**

1 (a) The applicable standard of care and a defendant's failure  
2 to meet the standard of care, if at issue, shall be established in  
3 medical professional liability cases by the plaintiff by testimony  
4 of one or more knowledgeable, competent expert witnesses if  
5 required by the court. Expert testimony may only be admitted  
6 in evidence if the foundation therefor is first laid establishing  
7 that: (1) The opinion is actually held by the expert witness; (2)  
8 the opinion can be testified to with reasonable medical proba-  
9 bility; (3) the expert witness possesses professional knowledge  
10 and expertise coupled with knowledge of the applicable  
11 standard of care to which his or her expert opinion testimony is  
12 addressed; (4) the expert witness maintains a current license to  
13 practice medicine with the appropriate licensing authority of  
14 any state of the United States: *Provided*, That the expert  
15 witness' license has not been revoked or suspended in the past  
16 year in any state; and (5) the expert witness is engaged or  
17 qualified in a medical field in which the practitioner has  
18 experience and/or training in diagnosing or treating injuries or  
19 conditions similar to those of the patient. If the witness meets  
20 all of these qualifications and devoted, at the time of the  
21 medical injury, sixty percent of his or her professional time  
22 annually to the active clinical practice in his or her medical  
23 field or specialty, or to teaching in his or her medical field or  
24 speciality in an accredited university, there shall be a rebuttable  
25 presumption that the witness is qualified as an expert. The

26 parties shall have the opportunity to impeach any witness'  
27 qualifications as an expert. Financial records of an expert  
28 witness are not discoverable or relevant to prove the amount of  
29 time the expert witness spends in active practice or teaching in  
30 his or her medical field unless good cause can be shown to the  
31 court.

32 (b) Nothing contained in this section may be construed to  
33 limit a trial court's discretion to determine the competency or  
34 lack of competency of a witness on a ground not specifically  
35 enumerated in this section.

**§55-7B-8. Limit on liability for noneconomic loss.**

1 (a) In any professional liability action brought against a  
2 health care provider pursuant to this article, the maximum  
3 amount recoverable as compensatory damages for noneconomic  
4 loss shall not exceed two hundred fifty thousand dollars per  
5 occurrence, regardless of the number of plaintiffs or the number  
6 of defendants or, in the case of wrongful death, regardless of  
7 the number of distributees, except as provided in subsection (b)  
8 of this article.

9 (b) The plaintiff may recover compensatory damages for  
10 noneconomic loss in excess of the limitation described in  
11 subsection (a) of this section, but not in excess of five hundred  
12 thousand dollars for each occurrence, regardless of the number  
13 of plaintiffs or the number of defendants or, in the case of  
14 wrongful death, regardless of the number of distributees, where  
15 the damages for noneconomic losses suffered by the plaintiff  
16 were for: (1) Wrongful death; (2) permanent and substantial  
17 physical deformity, loss of use of a limb or loss of a bodily  
18 organ system; or (3) permanent physical or mental functional  
19 injury that permanently prevents the injured person from being  
20 able to independently care for himself or herself and perform  
21 life sustaining activities.

22 (c) On the first of January, two thousand four, and in each  
23 year thereafter, the limitation for compensatory damages  
24 contained in subsections (a) and (b) of this section shall  
25 increase to account for inflation by an amount equal to the  
26 consumer price index published by the United States depart-  
27 ment of labor, up to fifty percent of the amounts specified in  
28 subsections (b) and (c) as a limitation of compensatory  
29 noneconomic damages.

30 (d) The limitations on noneconomic damages contained in  
31 subsections (a), (b), (c) and (e) of this section are not available  
32 to any defendant in an action pursuant to this article which does  
33 not have medical professional liability insurance in the amount  
34 of at least one million dollars per occurrence covering the  
35 medical injury which is the subject of the action.

36 (e) If subsection (a) or (b) of this section, as enacted during  
37 the regular session of the Legislature, two thousand three, or the  
38 application thereof to any person or circumstance, is found by  
39 a court of law to be unconstitutional or otherwise invalid, the  
40 maximum amount recoverable as damages for noneconomic  
41 loss in a professional liability action brought against a health  
42 care provider under this article shall thereafter not exceed one  
43 million dollars.

**§55-7B-9. Several liability.**

1 (a) In the trial of a medical professional liability action  
2 under this article involving multiple defendants, the trier of fact  
3 shall report its findings on a form provided by the court which  
4 contains each of the possible verdicts as determined by the  
5 court. Unless otherwise agreed by all the parties to the action,  
6 the jury shall be instructed to answer special interrogatories, or  
7 the court, acting without a jury, shall make findings as to:

8       (1) The total amount of compensatory damages recoverable  
9     by the plaintiff;

10       (2) The portion of the damages that represents damages for  
11     noneconomic loss;

12       (3) The portion of the damages that represents damages for  
13     each category of economic loss;

14       (4) The percentage of fault, if any, attributable to each  
15     plaintiff; and

16       (5) The percentage of fault, if any, attributable to each of  
17     the defendants.

18       (b) In assessing percentages of fault, the trier of fact shall  
19     consider only the fault of the parties in the litigation at the time  
20     the verdict is rendered and shall not consider the fault of any  
21     other person who has settled a claim with the plaintiff arising  
22     out of the same medical injury. *Provided*, That, upon the  
23     creation of the patient injury compensation fund provided for in  
24     article twelve-c, chapter twenty-nine of this code, or of some  
25     other mechanism for compensating a plaintiff for any amount  
26     of economic damages awarded by the trier of fact which the  
27     plaintiff has been unable to collect, the trier of fact shall, in  
28     assessing percentages of fault, consider the fault of all alleged  
29     parties, including the fault of any person who has settled a  
30     claim with the plaintiff arising out of the same medical injury.

31       (c) If the trier of fact renders a verdict for the plaintiff, the  
32     court shall enter judgment of several, but not joint, liability  
33     against each defendant in accordance with the percentage of  
34     fault attributed to the defendant by the trier of fact.

35       (d) To determine the amount of judgment to be entered  
36     against each defendant, the court shall first, after adjusting the  
37     verdict as provided in section nine-a of this article, reduce the

38 adjusted verdict by the amount of any pre-verdict settlement  
39 arising out of the same medical injury. The court shall then,  
40 with regard to each defendant, multiply the total amount of  
41 damages remaining, with interest, by the percentage of fault  
42 attributed to each defendant by the trier of fact. The resulting  
43 amount of damages, together with any post-judgment interest  
44 accrued, shall be the maximum recoverable against the defen-  
45 dant.

46 (e) Upon the creation of the patient injury compensation  
47 fund provided for in article twelve-c, chapter twenty-nine of  
48 this code, or of some other mechanism for compensating a  
49 plaintiff for any amount of economic damages awarded by the  
50 trier of fact which the plaintiff has been unable to collect, the  
51 court shall, in determining the amount of judgment to be  
52 entered against each defendant, first multiply the total amount  
53 of damages, with interest, recoverable by the plaintiff by the  
54 percentage of each defendant's fault and that amount, together  
55 with any post-judgment interest accrued, is the maximum  
56 recoverable against said defendant. Prior to the court's entry of  
57 the final judgment order as to each defendant against whom a  
58 verdict was rendered, the court shall reduce the total jury  
59 verdict by any amounts received by a plaintiff in settlement of  
60 the action. When any defendant's percentage of the verdict  
61 exceeds the remaining amounts due plaintiff after the manda-  
62 tory reductions, each defendant shall be liable only for the  
63 defendant's pro rata share of the remainder of the verdict as  
64 calculated by the court from the remaining defendants to the  
65 action. The plaintiff's total award may never exceed the jury's  
66 verdict less any statutory or court-ordered reductions.

67 (f) Nothing in this section is meant to eliminate or diminish  
68 any defenses or immunities which exist as of the effective date  
69 of this section, except as expressly noted in this section.

70 (g) Nothing in this article is meant to preclude a health care  
71 provider from being held responsible for the portion of fault  
72 attributed by the trier of fact to any person acting as the health  
73 care provider's agent or servant or to preclude imposition of  
74 fault otherwise imputable or attributable to the health care  
75 provider under claims of vicarious liability. A health care  
76 provider may not be held vicariously liable for the acts of a  
77 nonemployee pursuant to a theory of ostensible agency unless  
78 the alleged agent does not maintain professional liability  
79 insurance covering the medical injury which is the subject of  
80 the action in the aggregate amount of at least one million  
81 dollars.

**§55-7B-9a. Reduction in compensatory damages for economic losses for payments from collateral sources the same injury.**

1 (a) In any action arising after the effective date of this  
2 section, a defendant who has been found liable to the plaintiff  
3 for damages for medical care, rehabilitation services, lost  
4 earnings or other economic losses may present to the court,  
5 after the trier of fact has rendered a verdict, but before entry of  
6 judgment, evidence of payments the plaintiff has received for  
7 the same injury from collateral sources.

8 (b) In any hearing pursuant to subsection (a) of this section,  
9 the defendant may present evidence of future payments from  
10 collateral sources if the court determines that: (1) There is a  
11 preexisting contractual or statutory obligation on the collateral  
12 source to pay the benefits; (2) the benefits, to a reasonable  
13 degree of certainty, will be paid to the plaintiff for expenses the  
14 trier of fact has determined the plaintiff will incur in the future;  
15 and (3) the amount of the future expenses is readily reducible  
16 to a sum certain.

17 (c) In the hearing pursuant to subsection (a) of this section,  
18 the plaintiff may present evidence of the value of payments or  
19 contributions he or she has made to secure the right to the  
20 benefits paid by the collateral source.

21 (d) After hearing the evidence presented by the parties, the  
22 court shall make the following findings of fact:

23 (1) The total amount of damages for economic loss found  
24 by the trier of fact;

25 (2) The total amount of damages for each category of  
26 economic loss found by the trier of fact;

27 (3) The total amount of allowable collateral source pay-  
28 ments received or to be received by the plaintiff for the medical  
29 injury which was the subject of the verdict in each category of  
30 economic loss; and

31 (4) The total amount of any premiums or contributions paid  
32 by the plaintiff in exchange for the collateral source payments  
33 in each category of economic loss found by the trier of fact.

34 (e) The court shall subtract the total premiums the plaintiff  
35 was found to have paid in each category of economic loss from  
36 the total collateral source benefits the plaintiff received with  
37 regard to that category of economic loss to arrive at the net  
38 amount of collateral source payments.

39 (f) The court shall then subtract the net amount of collateral  
40 source payments received or to be received by the plaintiff in  
41 each category of economic loss from the total amount of  
42 damages awarded the plaintiff by the trier of fact for that  
43 category of economic loss to arrive at the adjusted verdict.

44 (g) The court shall not reduce the verdict rendered by the  
45 trier of fact in any category of economic loss to reflect:

46 (1) Amounts paid to or on behalf of the plaintiff which the  
47 collateral source has a right to recover from the plaintiff  
48 through subrogation, lien or reimbursement;

49 (2) Amounts in excess of benefits actually paid or to be  
50 paid on behalf of the plaintiff by a collateral source in a  
51 category of economic loss;

52 (3) The proceeds of any individual disability or income  
53 replacement insurance paid for entirely by the plaintiff;

54 (4) The assets of the plaintiff or the members of the  
55 plaintiff's immediate family; or

56 (5) A settlement between the plaintiff and another tortfea-  
57 sor.

58 (h) After determining the amount of the adjusted verdict,  
59 the court shall enter judgment in accordance with the provisions  
60 of section nine.

**§55-7B-9b. Limitations on third-party claims.**

1 An action may not be maintained against a health care  
2 provider pursuant to this article by or on behalf of a third-party  
3 nonpatient for rendering or failing to render health care services  
4 to a patient whose subsequent act is a proximate cause of injury  
5 or death to the third party unless the health care provider  
6 rendered or failed to render health care services in willful and  
7 wanton or reckless disregard of a foreseeable risk of harm to  
8 third persons. Nothing in this section shall be construed to  
9 prevent the personal representative of a deceased patient from  
10 maintaining a wrongful death action on behalf of such patient  
11 pursuant to article seven of this chapter or to prevent a deriva-  
12 tive claim for loss of consortium arising from injury or death to  
13 the patient arising from the negligence of a health care provider  
14 within the meaning of this article.

**§55-7B-9c. Limit on liability for treatment of emergency conditions for which patient is admitted to a designated trauma center; exceptions; emergency rules.**

1 (a) In any action brought under this article for injury to or  
2 death of a patient as a result of health care services or assistance  
3 rendered in good faith and necessitated by an emergency  
4 condition for which the patient enters a health care facility  
5 designated by the office of emergency medical services as a  
6 trauma center, including health care services or assistance  
7 rendered in good faith by a licensed EMS agency or an em-  
8 ployee of an licensed EMS agency, the total amount of civil  
9 damages recoverable shall not exceed five hundred thousand  
10 dollars, exclusive of interest computed from the date of  
11 judgment.

12 (b) The limitation of liability in subsection (a) of this  
13 section also applies to any act or omission of a health care  
14 provider in rendering continued care or assistance in the event  
15 that surgery is required as a result of the emergency condition  
16 within a reasonable time after the patient's condition is stabi-  
17 lized.

18 (c) The limitation on liability provided under subsection (a)  
19 of this section does not apply to any act or omission in render-  
20 ing care or assistance which: (1) Occurs after the patient's  
21 condition is stabilized and the patient is capable of receiving  
22 medical treatment as a nonemergency patient; or (2) is unre-  
23 lated to the original emergency condition.

24 (d) In the event that: (1) A physician provides follow-up  
25 care to a patient to whom the physician rendered care or  
26 assistance pursuant to subsection (a) of this section; and (2) a  
27 medical condition arises during the course of the follow-up care  
28 that is directly related to the original emergency condition for  
29 which care or assistance was rendered pursuant to said subsec-

30 tion, there is rebuttable presumption that the medical condition  
31 was the result of the original emergency condition and that the  
32 limitation on liability provided by said subsection applies with  
33 respect to that medical condition.

34 (e) There is a rebuttable presumption that a medical  
35 condition which arises in the course of follow-up care provided  
36 by the designated trauma center health care provider who  
37 rendered good faith care or assistance for the original emer-  
38 gency condition is directly related to the original emergency  
39 condition where the follow-up care is provided within a  
40 reasonable time after the patient's admission to the designated  
41 trauma center.

42 (f) The limitation on liability provided under subsection (a)  
43 of this section does not apply where health care or assistance  
44 for the emergency condition is rendered:

45 (1) In willful and wanton or reckless disregard of a risk of  
46 harm to the patient; or

47 (2) In clear violation of established written protocols for  
48 triage and emergency health care procedures developed by the  
49 office of emergency medical services in accordance with  
50 subsection (e) of this section. In the event that the office of  
51 emergency medical services has not developed a written triage  
52 or emergency medical protocol by the effective date of this  
53 section, the limitation on liability provided under subsection (a)  
54 of this section does not apply where health care or assistance is  
55 rendered under this section in violation of nationally recognized  
56 standards national standards for triage and emergency health  
57 care procedures.

58 (g) The office of emergency medical services shall, prior to  
59 the effective date of this section, develop a written protocol  
60 specifying recognized and accepted standards for triage and

61 emergency health care procedures for treatment of emergency  
62 conditions necessitating admission of the patient to a designated  
63 trauma center.

64 (h) In its discretion, the office of emergency medical  
65 services may grant provisional trauma center status for a period  
66 of up to one year to a health care facility applying for desig-  
67 nated trauma center status. A facility given provisional trauma  
68 center status is eligible for the limitation on liability provided  
69 in subsection (a) of this section. If, at the end of the provisional  
70 period, the facility has not been approved by the office of  
71 emergency medical services as a designated trauma center, the  
72 facility will no longer be eligible for the limitation on liability  
73 provided in subsection (a) of this section.

74 (i) The commissioner of the bureau for public health may  
75 grant an applicant for designated trauma center status a one-  
76 time only extension of provisional trauma center status, upon  
77 submission by the facility of a written request for extension,  
78 accompanied by a detailed explanation and plan of action to  
79 fulfill the requirements for a designated trauma center. If, at the  
80 end of the six-month period, the facility has not been approved  
81 by the office of emergency medical services as a designated  
82 trauma center, the facility will no longer have the protection of  
83 the limitation on liability provided in subsection (a) of this  
84 section.

85 (j) If the office of emergency medical services determines  
86 that a health care facility no longer meets the requirements for  
87 a designated trauma center, it shall revoke the designation, at  
88 which time the limitation on liability established by subsection  
89 (a) of this section shall cease to apply to that health care facility  
90 for services or treatment rendered thereafter.

91 (k) The Legislature hereby finds that an emergency exists  
92 compelling promulgation of an emergency rule, consistent with

93 the provisions of this section, governing the criteria for designa-  
94 tion of a facility as a trauma center or provisional trauma center  
95 and implementation of a statewide trauma/emergency care  
96 system. The Legislature therefore directs the secretary of the  
97 department of health and human resources to file, on or before  
98 the first day of July, two thousand three, emergency rules  
99 specifying the criteria for designation of a facility as a trauma  
100 center or provisional trauma center in accordance with nation-  
101 ally accepted and recognized standards and governing the  
102 implementation of a statewide trauma/emergency care system.  
103 The rules governing the statewide trauma/emergency care  
104 system shall include, but not be limited to:

105 (1) System design, organizational structure and operation,  
106 including integration with the existing emergency medical  
107 services system;

108 (2) Regulation of facility designation, categorization and  
109 credentialing, including the establishment and collection of  
110 reasonable fees for designation; and

111 (3) System accountability, including medical review and  
112 audit to assure system quality. Any medical review committees  
113 established to assure system quality shall include all levels of  
114 care, including emergency medical service providers, and both  
115 the review committees and the providers shall qualify for all the  
116 rights and protections established in article three-c, chapter  
117 thirty of this code.

2 first extraordinary session of the Legislature, 1986, shall be  
3 effective at the same time that the provisions of Enrolled Senate

5 effective, and the provisions of said House Bill 149 shall be

6 deemed to amend the provisions of Enrolled Senate Bill 714.

8 occur before the effective date of this said Enrolled Senate Bill  
9 714.

10 The amendments to this article as provided in House Bill  
11 601, enacted during the sixth extraordinary session of the  
12 Legislature, two thousand one, apply to all causes of action  
13 alleging medical professional liability which are filed on or  
14 after the first day of March, two thousand two.

15 (b) The amendments to this article provided in Enrolled  
16 Committee Substitute for House bill No. 2122 during the

19 which are filed on or after the first day of July, two thousand  
20 three.
