(A) The school, county school board or nonpublic school and its employees and agents are exempt from any liability, except for willful and wanton conduct, as a result of any injury arising from the self-administration of asthma medication by the student; and

(B) The parents or guardians indemnify and hold harmless the school, the county board of education or nonpublic school and its employees or guardians and agents against any claims arising out of the self-administration of the medication by the student.
